

GDL May 4, 2023

You know a check Good morning I love what Scare Yeah I like Um Yeah welcome Welcome to Good Day Live It is eternal January apparently in Los Angeles California Um Today is May the 4th 2023 We're so happy here in the studio with me Andy Kyle True Blood I'm Michelle Mire and we're just meeting for the very first time Welcome Welcome to our show We are the Feel good show here on Amazon We are the only talk show on Amazon and we're just growing at massive speeds No actually that does hold truth now Massive massive speeds Yes If you were looking for us and we weren't on live you can go to Big Bear Channel on Roku and find us any hour of the day all day all day all day all day I love that waiting here we go hooked up the Wizard of Oz just popped on This is what you're looking at on Big Bear TV You go down the headlines You'll find Good Day Live at all hours of the day 24 7 Enjoy random random episodes I like that I feel like we're like Boy Meets World Now you know how Boys World used to all day but it would be like random episodes Yeah it's fine when you look so fun Um I guess I guess uh you know Mercury isn't Gatorade as my best friend says Um I thought it was gonna take a movie to get on television No Well you know do you uh apparently it was a talk show for you and then the talk show can turn into a movie Um Maybe there's just difficulties with the app today Um But you know so that's what you do You guys get the point How did you know did you know Andy could do this did you have a conversation in my mind You know that he could do this and do it at the same time This is amazing This is so cool You can do all things through Christ who strengthens him He's Jewish You're so funny I laugh what is it You're I'm not even religious I just always found that very interesting I always found that such an interesting statement I'm doing things in Christ I you know I'm uh I definitely tap into the spirituality when like when things are going well spirituality or I think I mean I believe I'm a believer as they say like because like I'm like if you know maybe he did maybe like like it doesn't hurt like I give it a try Like yeah hey hey hey no Yeah Like I give it a try Sometimes I'm like uh I like uh but yeah but like sometimes like when I am feeling or like overwhelmed I'll just give it a try and see if it works Why not What's there to lose intrinsic value in the story itself And I'm like OK so what are we saying here You know what are we saying What we're saying here is that a man could be a man could be a God is essentially what Jesus Clios is teaching us Yes but I think I think yes a man is is God a man can be God No not can be God We

are God OK OK Sure Pretty pompous If you ask me it's kind of like a little bit of a Galileo Galilee in kind of the mindset like we're the center of the universe kind of the thing We are part of the universe of the we're actually not even the center of the galaxy much less the like hanging on by a thread at the edge of the hang on by a thread You're hilarious I'm gonna message our buddy and we're gonna find out a lot of cool space backs today on Kyle's corner I got a lot of cool space backs Stay tuned I know you're waiting for it I'm at I'm messaging my buddy I know both of you are waiting for it That's great We're we're texting on the show Is this another prank Are we pranking me again Can we get a replay on the prank There's not a moment there's not a moment of uh how should I say relaxation on the show It's we're always going we're always going screaming at me or somebody screaming at you Scream I'm never screaming at you I know I'm never screaming at you screaming with me screaming with you Um how is your Thursday going May the fourth be with all of you Hey may the fourth be with all of you Happy Star Wars Day to all of you who love Star Wars I absolutely love Star Wars Yeah Love Star Wars Yeah Yeah Yeah What is it about Did you know that the first movie of Star Wars was like a hodgepodge put together he didn't have enough money to like make So what was it He went into some storage facility and got like all these old alien costumes and just just that I didn't know that and shout out to George Lucas Um Kyle's corner is this part of Kyle's corner This is just normal I'm in LA I know a little bit about film kind of this corner But yeah shout out to George Lucas He's the epitome of like he was getting nos and got his own Yes because he made it he made his Yes correct Like most filmmakers are like well I didn't get the I don't have the mostly all filmmakers like I don't have the funding I can't finish the movie He was like I'll just figure it out and that's how and I'm a big believer of that You know that I've already done it myself If you don't have the funding you can figure it out You can figure it out I think it's important to create your own Um create your own Yes What were we just talking about yesterday That was on Star Wars Um I don't know Uh we were just talking about someone's career not surviving Star Wars I don't know And I was like oh that was the only one to survive The guy went to China and they loved him or something Yes The guy who played the guy on the show we were talking about no it was after the show we were talking about the guy who played Anakin which was I think the hardest out of all the trilogies Yeah Yeah Yeah In Star Wars I think five trilogies like well it doesn't matter The point is is that I think he had the hardest job of all the characters in all of Star Wars and he got bashed

really bad by Americans Uh But he went to China and there's a video of him like accepting that getting all his applause lifesavers going all over the place He just starts crying on stage and he's like you guys are making me emotional and as an actor it was just really heartfelt to see like um there's just the adulation that you're going for let it go because like that it's just so when it comes you're exhausted You know what I mean You gotta love the process you're really gonna go for the adulation And he was a prime example of that Like he had gone 12 years he had gone to countless rejections and got the part then filmed it for a year and a half then gets ousted basically by the filming community for a decade and a half goes to China on a random whim And for one night gets all the adulation He ever asked if you would ask him in the beginning if he was going for the adulation I'm sure he would have been like no it's not worth it I love stories like that But yeah that's I was really happy for him Hayden Christiansen that's his name Oh ha they do but not for not for Darth Vader Have you ever seen The Glass House He's in a few Like he was a good he was a good like rom com love interest guy wasn't necessarily like a ROM com It was a bit of more of a drama about a family after something tragic happens and it's just a story about a family for a few months really good movie and he was in it and he was like uh I think it was like his like breakout role and everyone knows him from that I love I love stories like that I don't think that was a digression No it's all good The Star Wars Day May the fourth be with you Uh Yeah Um yeah Shout out to Hayden Christensen Um oh I didn't get a set of links that you were going to send me regarding your TV show Oh I'm at the store I checked it online and it suggests programming will continue on May 4th I'll be home in an hour and check what's up Yeah he is a no what's going on He's not home Ok Uh nonetheless if you're in Big Bear if you're not in Big Bear watch Big Bear TV we're on it all day at the headlines channel 24 7 Good day live See you there Now that being said shout out to Ted also Yeah thanks Ted We appreciate you Shout out to Ted for sure He he found us He saw us on uh on on a channel and just put us on his on his channel It was on his on his network and we love that We love Ted Um thank you Ted over at big beer Um Vander Pom Restaurant is closing in West Hollywood pumps Vander pumps closing closing Uh I don't know Let's see here I'll uh shout out to man some good times over there Really awesome venue sir You're funny here I'm gonna pull it up shake your groove thing Um shake a groove there I thought it was so funny that you knew all about this But um here we go Uh uh Lisa Vander Pm's restaurant closing its doors She says blame our landlord

Actually I don't know if she actually said that But um that's Lisa Van Pal sir That's Pump Yeah Have you been to Pump That's the only one I've actually been to I actually I have been to Pump I didn't stay long Um It's with heavy hearts that we announced that the lease at Pump restaurant is expiring and it'll be closing its doors I get I'm getting like sad just even saying this out This is the I think a lot of people a few years ago saw this kind of uh crux happening like the States asked him for a lot of money income wise rent wise property value wise It's just skyrocketing on top of the inflation on top of the fact that we just went through a pandemic it's just not ideal I don't know who they think has the money I think people do People do Well they don't want to Yeah so this is this is I mean she has a ton of money like let's be real Yeah but I mean if the margins aren't right I'm sure she'll pull out money somewhere else Um So yeah um so it says that uh so while the flagship location at the corner of Santa Monica Robertson in the heart of is closing We're told Lisa is opening up two more restaurants in at Caesars in Vegas So I shouldn't get too sad income tax in Nevada So that's the thing Maybe we are moving There's a lot of things that are going to move to Vegas if if a keeps it up like it is I'm telling you Vegas may be the new Entertainment Mecca within a decade if L A doesn't get it stuff together and I'll call that right now Ok cool Um It appears a dramatic increase in rent is to blame The Pump family tells us while we have loved our time operating Pump to take another 10 year lease 10 year lease That's it Am I calling everything Am I calling everything you are You are Guru Kyle Shout out to mel for the college donations and the college tuition Yeah I mean well we have loved it I mean 10 another 10 year lease with a huge increase in rent by the landlords is not something we are ready to commit to 10 years is a very long time Let's be real They successfully running 37 plus establishments for many years This type of rent is untenable Um sources close to the family tell TMZ Lisa and her husband Ken Todd refused to commit to paying nearly 1 million in yearly rent while with the couple considering the figure to be ridiculous I I agree Um Our sources say high rent is also to blame for Lisa and Ken's former Beverly Hills restaurant uh Villa Blanca closing and remaining empty three years after the couple closed the restaurant because of rent increase in 2020 So a lot like a lot of places are just shutting shutting its doors and just just you know not even having a brick and mortar place which is really really sad A lot of corporations push it until they can't and they want to see where that line is which is what it seems like to me Like why would you we were just up at uh what was it The Beverly Glenn the other day we're

talking about like all these empty Yeah Yeah Yeah All these commercial locations Yeah Yeah Yeah because everyone's just they're not even negotiating they're acting like there is someone out there that's going to pick up these spots and there's not these places are going to stay vacant for years and this town will become desolate if they don't get their stuff together That's can we change the topic I don't want to get bipartisan Yeah Oh but you know I'm gonna go with this Here we go You know where I'm gonna go with this This is not this is not ok I'm gonna pull I'm gonna pull like a like a this is not ok Ok I'm like biting my tongue I don't think I can anymore The fundamentals are not there if if we're constantly building economies on victimization and who deserves what Because they didn't get this and that that's not a feasible and functional way to run an economy That being said the fact that we keep going now I'm not Republican I'm not democratic I comment on both but the fact that we both do but the fact that we keep voting democratic and it's a shoo in in this state Mind you California is the fifth largest economy in the world The state of California is the fifth largest economy in the world So you can make a ton of mistakes and no one can notice except for the people You know what I mean The fact that we keep voting democratic and they're misusing the money Some I think we're going to have to step in the other side get a little race going here because with competition comes regulation Are you running for office any time soon I'm wearing blue So I don't think it's right You know I may be uh oh look at me I'm red You're blue I think it's vice versa That might be a might be might be I'm not Republican but I will call out anyone who's making a Republican or Democrat You're making mistakes I'm going to call it out And I think that's the biggest issue That's what you said to me a couple of years ago when we went to the nice guy you said people think Kyle said I pull people out at least once a week at least once a day I believe in these values So I'm going to be this part of the Democratic or Republican Party And then once that party does something wrong you don't even acknowledge it You're like no no no no no I'm part of this party We do nothing wrong I'm part of this party We do nothing wrong I want to pull up the party that we went to like last night we have Do we have it Um Gemma Um I might have to run to the bathroom after like showing this again because let me tell you I oh it is so good So how did you meet this guy Um funny story Oddly enough um I have been I have been like you know I stay late Um who was that I missed it Oh yeah Yeah I'll show you Um uh so uh before we get into it Oh I guess we're going right into it Ok This is Gemma a new Italian restaurant here in uh Brentwood

California Um run by the Awesome Jackson Cob Um he was on I believe it was not top chef Um uh oh yeah The is it Moet or Moet Um I I never know um because I don't really drink and Andy can test to that last night Um but so this is great Um Epic Epic Epic first the first time Ok Um Epic restaurant Again this is in Brentwood California Gemma Demare um brand new Um that is a sea it's like a salt foam on top of drink Look at night I had that too I had that was not me That was Andy Andy had the past with the meatballs Oh that was the 36 hour Uh I am I am there I am brought to me Oh my God Um sweet meatball Look at the whipped cream Look at the whole like presentation Let me let me tell you something All you out there right now Let me tell you something that man that man is saving lives Ok What I love what I love about Jackson is not only that he's an awesome dude Um and him and his wife are expecting a baby in August I couldn't even taste for two years I know Well he couldn't look at my taste I ate a brownie Yeah you you don't do that I don't ever do that I don't ever do that Look at my face Look at my that looks incredible It it is incredible That's our new friend Jalyn Um and uh she is super cool and um that's Gemma again Um Andy and I went to go check it out because you know uh you never know where the show is moving to and you might as well meet some new friends along the way Uh But it was really cool because so we went and we met with um Jackson at um Jane in uh good But the how this story happened So this is where the magic comes up with the studio right This studio to me has always been a Manifestation station So I'm staying staying late as I usually do And Andy's like gotta go like kind of thing And I'm like no I don't want to leave and I'm on the computer and Andy has L A unscripted on the background and he said you know on Monday um because we're going to spectrum we should find a place to like broadcast from Um So you know because we'll be right there And he said in so as he's saying that up pops Jackson Cob from El I did not know it was Elsa Gun and he's doing like a whole slick segment with IED and I messaged um Jane and I said hey I'm Michelle Mira the producer and host of Good Day Live We'd love to broadcast from your restaurant And um yeah let me send your stuff over to Jackson Jackson got back to me immediately Super sweet dude And then we went to go and then I had no idea they were in and they were literally like three minutes away or seven minutes away from spectrum I benefited greatly off this entire interaction You mean me We're just kidding No I I don't know if you benefit as much as I did I thoroughly first of all I finished my drink that they made me Second of all I had like four different dig you They if we can get to the footage of

our first visit to Jackson's first restaurant there you had the most amazing drink made for you Yeah But the way he made it it was so martini with the with the cotton ball and you and I can't you know it took the guy longer to make it and it did the drink Listen and I appreciate you and Andy so much because I can't really drink I can't even I can't even handle alcohol I may have taken a couple of the alcohol the alcohol of the drink and I and I was like I don't think I should drive home He's like fine but technically once or twice maybe like where I actually got a little like yeah Yeah Yeah Yeah It it it so on on like I love you I love everyone I love you I do like I had one drink I think it was it was at Craig's and that's when I told you and Andy how much I loved you guys Did you drive me home that night I think you did You were such a good friend I think because I don't think I would actually like that Um What am I right along So so uh yeah it's pretty wild Um we saw Jackson last night Um it has been sold out like I mean but really how can you imagine I mean to me it just blows my mind that so many people come out like listen Jackson's awesome and his food is awesome But like it it's just it's exciting to see Oh I think and he has I am totally wearing I'm totally I'm totally wearing that dress Oh Oops Oh there we go I'm wearing the same dress No I just I just remember when I look at it look how cute Oh look at me and Kai honeymoon phase There's Jackson Um Jack what I love about Jackson is that like he always talks about like being like a fat he was like a fat kid but he's not fat at all now And like it's so funny because I was never a fat kid either But like there were there were moments where I would go up to Utica New York to visit my family and I would come home significantly chunkier and my mom would ask what what did you eat And I was like uh I guess the real question is what didn't I eat But my aunt would then send because like I was never good Like my mom oh look at her so cute My mom would just like always be she's like you um or she was like you she oh asking lots and lots and lots of questions and then making me feel guilty for no reason She'd be like you took the cookie didn't you And I was like no I just like look she's like looks me in there and she's like look me in the eye took the cookie and I was like all day I took it even when I did it just so she would leave me alone Um but yeah I would come back uh a little chunkier I would I know my brother would Uh so there's Jane um the John Thomas Bar and he's opening up another place in Hollywood Kai Really Yeah he's got I mean what and what I love back to uh Gemma de which is really really cool is that he was the head chef over there and he made the these epic brownie right Brownies Andy these like epic brownies like epic desserts And um and Andy

was recounting like how because it was called was it called Bottle Fish The place was called bottle Fish Where uh but now you know it's uh Gemma deer and he goes oh I was I created that brownie concoction that you were like so love Oh this is me Go in for the drink I love I I love how full circle this is me with Kai about to try look at my face try a drink Um And I'm just like I don't know if this is a good idea My dude with the glasses was like oh what a sweet dude Oh look at the the shoes Look those are look how fresh they are Oh Look how fresh those shoes are Time for a new pair I can't wait to buy my own I'm excited Um The book look look look look brand 00 I'm gonna cry We've had so many amazing memories in this studio and uh on this show no we are still here but you know like we are moving studios and um it's just been epic What I can't say that Ok I can't say that I thought oh I wasn't allowed to say that Never mind I'm not allowed to say anything Apparently don't tell me anything if you don't want it to be said because I will say it This is me and Kai and that's the reason why you haven't heard about my dating life in about four months because she can't keep it's not even that's fair I'm with you I think that's fair You could like you could say that Michelle Michelle doesn't this is a secret Don't tell anyone Yeah And not only will she tell everyone she'll tell everyone on television multiple times Yeah we're so cute I love that You think that's endearing I think you and I are like Burt and Erie I didn't want I don't remember their dynamic that much Does anyone honestly remember Burton Ernie's dynamic They are best friends Apparently they were lovers They secretly lovers Burton Ernie apparently were are like apparently they're lovers Yeah But like it came out 30 years later No I think that's just where we at right now People are just having a lot of fun with the uh fluidity of sexuality Listen I don't you know I'm behind that I'm gonna tell you why Um Because I think like people I'm not but that's not me I don't like I have I have a very specific type and it's a dude but I will say I can see how people can fall in love with like anyone because love is love at the end of the day And I think that's why so many people in the LGBT community fight for it is that like it's not about the exterior It is to a point like it's all about what's on the inside And like you know if you were to transition to like a unicorn I'd still love you It's interesting that you say that because I I'm not saying you're wrong I'm not saying they're doing anything wrong I'm just saying what it sounds like is that they're very fixated on the outside the inside Like you're making a lot of changes to the but like OK sure we wouldn't really have to No but I but we are we are very visual people right Who are very visual people and if people want to be you know male or female they have that they

have that they have that absolute right And that choice that's not what I'm debating I they're probably I know exterior and interior Right But I think they want the interior and exterior to match I think that it's important I think what you're saying it's important to remember that they do really really really care about the interior 100% 100% even though they are focus on the exterior as well Um shall we get into Kyle's corner and then I'll get into my stuff please Let's do it this conversation No I think what we touched based on what we touched on is is important Ok Um Millionaire mentor Uh what's going on with this guy Jamie Jamie Simonov was rejected in Shark Tank then built a \$1 billion company and returns back as a shark Oh really That's cool That's super cool And now he's as uh like a guest shark That's awesome Why did you pull this up What was inspiring about this one And this one Actually he was on Shark Tank No one took his offers He comes back as a shark He made a billion dollar company after after a shark tank Let let him go made a billion dollar company Came back as a shark a shark That is that is that those are the Cinderella stories that I love so much And again I got to get back to my my uh you know my dreamers like look at that like most people think like you go you go into the Shark tank and the dream is to be bought out by one of the sharks No it's to make your own company Like success is just such a like a nuance like a not a nuance but a very anecdotal scenario You know like you don't know what success is until it hits you You don't get to determine what your success is Yes And I think success is also we've talked about this multiple times Success is an inside job and you determine what that success is I'm having an epitome right now What do you mean that you can't determine your success What you have to do is fully what you do and what you love to do and then success will come to you and you can look you can look at certain things in your life as successful but you didn't necessarily like the show Yes and yes I didn't aim to be a host No I don't think that ever was you know but I will say that you DM me and I'm gonna put that out into the Ether Kyle DM me a couple of times like we had met for the Charlotte Chronicles Um And then we like hung out once Um And then you saw all my posts because I was doing a lot of hosting and you messaged me on DM and you were like what are you doing these days And I was like I'm doing a lot of hosting and you're like entertainment up I could totally see you doing that and you didn't really know me that well Like you just kind of knew me and then um and then you're like it looks cool like congrats And I was like thanks It's been an epic ride Yeah Yeah Yeah I I think I since deleted all those messages but um because I usually just delete

messages I must have seen something you were hosting or something I think you saw you saw the first show that I did with that guy who made a comment about the tall guy the guy that likes necks he dresses like the rock from 99 That guy Yeah Yeah I know Yeah Um and I remember like uh you being interested and then I said actually I created a show called Dream I would love to have you on and then um and then you sat here and um and then uh the rest is history but I'm a big believer in you just uh you can have a vision of what you want for yourself But like if you allow space you can have like backing up even more Oh ok Forget the vision Oh yeah Oh here we go Coming back Speaking of the vision this is Kyle Trueblood May I may I just say look at me this red beret is gonna be like my thing apparently Um uh and thank you Thank you Uh thank you So much for this red break because uh yeah it's come in handy Uh So what's cool about this Is that like a month ago This is so cool Like and I have to share this Kyle this is the first year that you uh you have been on TV every single day since June And that is no small undertaking And now you're on a streaming platform not only on Amazon you youtube you're on Instagram you're everywhere You're also now on Big Bear TV 24 hours a day So you never know who's going to see that And that's why I'm such a big believer in like you do the best at what you do the best that you can wherever you are whatever you're doing because you just never know why you are there because I do think what is meant for you And this is the spiritual part of me What is meant for you will always come find you You will never it will never ever pass you by I still remember uh you messaging me and you were like hey do you wanna come in for an interview And I was like oh absolutely I'm coming in for an I'm doing an interview up because I had just been let go by my agency uh for theatrical They were like we wanna just keep you commercial for now We're not hitting the theatrics Um Good luck And I felt really down because my whole thing is movies I love movies Three days later you texted me and we like you wanna do an interview and I was like yeah absolutely because everyone needs to know how hard I work and how amazing everything is gonna be Uh and how and how you know that's the beginning and this is the actual uh is is that the No no no that has Good Day live behind it That was the beginning of look look this is on Big Bear TV Right now One of my first episodes and that's me Uh and you uh in the orange chair chair what are you what are you listening to Can we see what he's listening to You mean You mean you had headphones in your ears Did you see that Oh I think it might have been the um oh yeah Yeah I am What are we doing I don't know what we're doing but I will know

is that I've had fun every single day even when like I've been sick or like I've had family stuff or uh first time you know other stuff happening like this has always brought me so much joy and I know everyone Oh listen you guys you're gonna love it You're gonna be obsessed with this app It's it's uh you would be addicted for quite some time and then you'll then it'll kind of balance out a little bit already That voice And she was telling us about Clubhouse because we were trying to get um people to notice us in all on all different platforms Um but that that and Drewry Moore has the same exact table Um So that was cool Did you know that when you got that Oh that's ok I really got to reiterate again because that's the topic of conversation right now Like you gotta just do what you love but do it fully and then success finds you Yeah Yeah I mean again we're going back to we're looking at the past episodes We were trying Clubhouse we were trying this we were trying that we didn't know big big bigger TV was gonna pick us up six months later But yeah here we are Oh look at us That's so exciting to me Uh we look so tan I think it was just the lighting but like no there was no clouds I mean L A just want to Yeah I I'm all for it Like my skin perfect right now Thank you VIP Um Yes Well I'm gonna be in the sun shortly but uh not like actually to be like in the sun sun I'll have like a Yeah Yeah Yeah I'm excited to see my dad You why you coming with me I'm confused That would be cool though I was like a on the plane to go to Florida Florida Wasn't that nice to me Oh ok Maybe not Florida Um but look at the beginning of red flags That's the beginning of red flags You love that chair But now you say you love this chair I love that You are so adaptable Look at look at look how cute we are Can you get some volume on this problems Oh ok You have volume and if you're watching it you all right Sally get get your red flag emoji out because I feel like that's how it works right on Clubhouse No I'm not sure All right There's a heart heart or the exclamation point Ok Ok Ok Their morning breath smells like I like the sound Went out on their morning breath smells like look how cute Oh just just get so much look out looking so blissful like like like so much joy so much joy Oh Gotta have a team I wish we had a card It's over there Everything's over there over there Come back to corner this guy Can we get the sound on this or no Um Yeah and you're right So apparently this is a graph of all the light in the universe not the galaxy the universe What do you mean map the gamma ray bursts What's a gamma ray burst That's a gamma ray burst Ok And what does that do Is it science class Like I thought it was over the corner is always kind of science you know I thought we got into that I know So what's interesting is that a gamma ray

burst within like 10 seconds gives out more energy than the sun will in like 3 billion years Isn't that insane So insane No I guess when you show me these things you must be thinking about like when I tell you about entertainment news I could care less Is this like Sandoval Is am I talking Sandoval mess to you right now It's like it's like stuff I should know that I don't really I like the guy No no no I haven't talked about anyone as much as I talked about Tom Sandoval I don't talk about my mother as much as we talk about Tom Sandoval I love your mom She's great Melanie Hi Mommy Melanie Callender I'm coming for you Just kidding That sounds really creepy You know who is coming for your mom Joe Joe and Joe loves Kyle's mom Do you know this He's obsessed with her every time every time every time I'm on the phone with her I was with Kyle like in your car the other day when we went to Wells Fargo and and Joe goes uh where's your mom How's your mom doing I was like uh uh this is uncomfortable like Joe I think that we're together He's like you guys dating I'm like no maybe you should get Joe the paddle He's like oh I saw a hug I was like I hug everyone Joe You're gonna think you're gonna think I'm dating after you put your arm out Oh No no no I'll friend a couple of people I'll friend from um oh this is cool Can I share this guy Did we go through all this What is this What is this dude So like anyone who's into James Cameron knows that he made The Terminators also like how do you go from Titanic Titanic to Terminator That being said when they were filming T two Judgment Day everyone knows about the cop right The the cop that was the the silver guy and this is like his only role ever Um So this guy prepared for this role so well that he trained his breathing so that he would see see how his mouth is closed and his face is nice and still And it made it so creepy when he would chase people but that's real He's not he's not on like a treadmill he's actually running with his mouth closed like he trained OK But like get this right So he trained himself so well that he was so fast that they had to keep cutting He was so affected that he had to reshoot this scene multiple times because he kept catching up with the motorcycle What For the final cut He had to purposefully run slower Why does he run like that He's an actual terminator That's terrifying That's one of Kyle's fun facts right there One of Kyle's fun facts at Kyle's corner What else have we got this is a giant squid We always we always hear about we we always hear about giant squid No one's ever seen a giant squid in real life This is this is a video of a real giant squid This is this is what was his name What was his name Uh it is like Moby Dick stuff It's like Moby Dick stuff Yeah it's pretty cool Huh Rare footage of a giant Squid I love it I love it You love it You love

it You love it Ok This one I think might be my favorite It's telling you in the blink of an eye What's happened in the universe Wow Creation In one blink of an eye across the universe 15,000 stars will be born in the blink of an eye This is not 100 stars will explode 15 million planets will form in the blink of an eye Probably not something Somebody who deals with anxiety should be looking at the sun burns 175 million tons of hydrogen in the blink of an eye Wow Isn't that insane That is 30 black holes are born I'm sorry I wasn't done the whole thing again No no We left off the universe expands by half a million kilometers in a in a blink of an eye Yeah Our galaxy will travel 250 kilometers and grow by 100 and 25 m in the blink of an eye Pretty That's pretty awesome You're pretty awesome And did you ever hear about this You know about the next galaxy that's closest to us Did you know our galaxy is going to collide with another galaxy in 3 billion years Ok good I have time The Andromeda galaxy and the milky way galaxy will actually do like a dance and like intertwine but that's going to throw the that's going to throw our solar system off Like everything's gonna like get jumbled kind of that If we launch into space at a trajectory of our sun the planet will freeze and everything on it will die We won't be here years Billion we won't be here I think a million we won't be here Who knows You think we're going to be here in 3 billion years So I've been watching something else If we want to get into science real quick there's a there's a theory that very shortly humans will learn how to download the brains into computers and then that's it You're forever alive But the question was is that you or is that a copy of you Like we can copy your brain into a computer Actually to tell you that's you that's you for everyone else I gotta tell you I had this dream your soul doesn't go into that computer I had a dream last night the Lord Jesus made it so great So I dream last night that it was God I had a dream last night that I was Indian I was Indian whatever I was Indian And you were a white man that's wild And I was like you know it was like a or something I that's what made Jackson White No it was you know I was like yes And I was like Kyle I'm Indian and I was like so excited because I had like this like I had like the head dress and like clothes and like there was a Punjabi Like what what would that look like If I was anyone I feel like you are like no no Ross is not no no not at all You want to be Ross Ross is not What is expecting to get a oh this is actually a doctor Um This is this is this is doctor OK So she got poison OK This is for all my people who love the tan out there OK It is not a good thing for your skin It is damage from UV Radiation signals pigment melanocytes create more melanin So when you harm your skin the tan is a response to the skin's

damage at a cellular level A UV dose of high is high enough to it already  
Yeah Yeah OK OK He's talking really fast vitamin D synthesis If you're still  
obsessed with happening with skin it's a simple way to indulge your gran  
only 10 that comes out of the OK With the active ingredient Uh sounds scary  
But it's a colorless sugar molecule that turns brown when it reacts with the  
amino acids on your skin it's safe to use because it doesn't penetrate Oh wow  
Oh wow He has a whole other way of getting tanned rather than going out in  
the sun It's like taking some pill alters your skin Pig actually Do you know I  
don't know if you saw this Excuse me on Oprah Like somebody that was my  
neighbor I'm Marilyn What Let me pull it up You happen to be neighbors  
with that person That was so Yeah Yeah Yeah Yeah Yeah I'm gonna I'm  
gonna pull it up Um He is he really took won't you be my neighbor to the  
next level Solomon took won't you be my neighbor to be black Um So uh I  
grew up like this is kind of like you know so I grew up on uh in Silver Spring  
Maryland and this was my neighbor Um And he has gone on to create uh TV  
shows Uh This is Rob Solomon Um Yeah this is Rob Solomon Um I'm  
gonna come up in a second to share share with you Um What No but he did a  
whole did you see this thing Um So there's a book about like about I don't  
know what it was but he he did this he took the pill to to be black and this is  
and this is him 10 months ago You would not have recognized this young  
college student because 10 months ago Josh Solomon was black What he did  
was really remarkable Josh took some potentially life threatening pills to  
change his skin color from white to black And what he experienced as a  
black man was chilling So chilling In fact that after just one week of being  
black he abruptly called off the experiment and went home to let the  
medicine wear off And we asked him to retrace his steps to take a look for us  
for all intents and purposes I think I looked like the typical black teenager  
with reddish brown skin and a bald head in Gainesville I got a hotel room  
and started to explore the city often when I ran into people on the street they  
reacted to me as if they were scared or suspicious I went in this pool hall to  
get a drink They followed me around like I was a thief One afternoon I was  
walking back to my hotel down this road A police officer pulled me over at  
that intersection started to hassle me about who I was and why I was there  
Things like this never happened to me when I was white One time I went  
into a fancy restaurant to eat And although I saw several vacant tables the  
major dede told me that there was nothing available And in the short time I  
spent as a black I can only conclude that perhaps we haven't come as far as  
we thought So how did that make you feel Because I think that is the one

thing that over the years So you know it's interesting Um I remember being very very little and hearing about this and um and so uh my mom told me that um the Solomons from uh the Hillendale Pool uh there is a bunch of Solomons Um Anyway Rob uh went on to come out to L A He is now a mega screenwriter He's friends with a lot like uh I guess she reach out to him It's been a minute out I gotta reach out to Rob We'll get Rob on the show and like take him back down memory lane was black How many people can say that Yes Um And the reason why he did this is because uh because of assignment in school and like how like a lot and this is this is true for me too and I don't know if it's like our neighborhood but like um you know it's a very it was a very privileged group of kids Um But it was very diverse So like um so one of my best friends was Asian like the nineties right When we were the kids had this like sense of the UN thing going on but it was new It wasn't like anyone before kids in the nineties had that like kids in the eighties didn't weren't that diverse I well I don't know All I know is that like my friends like that I like I consciously aware of were all of different races Like uh my best friend was Asian My my mom's best friend her best friend was black and she married a white man and they have you know mixed babies like and I remember having a a doll like it was my birthday in black white but that's how that's how it should be and that's how it should be anyway I think it's really cool that like um that he um how did we even get on the topic of this Why why are we here of the UV And you could take pills There we go Thank you Thank you for bringing me back All right Kyle's gonna get into some real big juice Kyle Jamila Jamal went in She was like she always goes in anybody forget who this man was and she just went in I ok let's let's get into it Kay Well let's get to let's get to the article Uh last night we we relinquished our right to be taken all seriously about anything important more at the link at bio Um so she I don't know if you know Kai she's notoriously known for calling people out In fact she'd be great to date the two the two of you would make a a couple for the century Um here we go Uh Jamil it was it No no no no that was it No you gotta go through the actual link Oh I thought that was oh sorry sorry sorry sorry sorry you're right You're right Right Sorry Um I got it um pulling it up right now Um Kyle why did that speak to you Tell me what's going on here Um well I I found it interesting II I like when people stir the pot you know get get the sediment from the bottom stir it up get the um And there's you know in today's world I don't think anything goes unnoticed Someone was going to call this man out I found it really interesting that in today's world the fashion industry the

fashion industry seems to be removed from the rest of the world's like moralistic criteria Yeah Yeah Yeah You know like with the everyone just forgot about the Balenciaga thing four months ago They didn't forget it I think it just was like swept right under that rug as a world nation we swept the Balenciaga thing right under that rug I don't even know who Balenciaga who now coming back to this Uh I was cool I remember Carl and like him being at the fashion events and it was kind of like he was kind of like one of the icons that had to be there Cool Great awesome I I don't recall anything I never recall anything um happening negatively with him involved ever but she came out and was just like he's misogynistic he's racist But then again I was like yeah but he was born in like the forties That doesn't mean that does not give an excuse It doesn't we No Um What is that What is that He was born 20 years before the civil rights movement You got to give people a break No no I'm not saying it's right But I'm saying it's like intrinsically not a surprise No I'm sorry intrinsically like we know on a deep core level that everyone is created equal and I don't care that's just fun But this man this was done with his pubescent ears before black people had clean water Like you have to understand this man grew up in a different time period but that doesn't give or access to talk like that Not anymore No ever I think he said again It's it's really interesting because like even now even today in 30 years we're going to find things we were saying today are not OK I disagree with what I was saying What I say I'm very conscious about what I say as I oh I can't be seeing us like on the side corner of like us I'm like how do I get my hair to look like that again Um No uh what I don't understand is is that like you have to take into account other people's feelings What I'm going to say is that going to affect that person Um And you know I'm not perfect in any way shape or form But because because I am highly aware and maybe it's a little different with you because we've known each other for so long and we become like really super super close friends Sometimes I can come off like a little you know brash and sometimes you can too like but we there's a love and appreciation there But I think on on a whole what I say to other people 30 years from now I'll be proud of what I've said and what I've done because I do because ultimately I lead from love like everything I do is I don't really want to You said I 30 times it's not necessarily about you I like the whole 30 years from now We'll find out things that we were saying as a culture won't be correct I think I think it is just how human nature I think Middle America Yes I think I like things like that I think No I think Middle America has different views I think most of middle America sees things differently I can

go to the next town over and find a different view than me right now Yes So of course but that's what makes us special and unique and that's also what gives us freedom of speech which I am behind So let's get back into our in his mind Wasn't trying to hurt anyone I don't think I mean yes he was actually ii I read some of the things he was like he told one woman she was just not pretty enough to be on the carpet He was like yeah she looks great in the back He said another woman too heavy Call someone yellow face Let's get into it Uh Yeah the creative director of labels like Chanel and Fendi has been the subject of criticism throughout his career including use of anti fat language His defense of colleagues who were accused of sexual assault and putting a model in both black face and yellow face Following the announcement of the Gala Jamila called out Carl's past reminding fans that he used his platform in such a distinctly hateful way mostly towards women so repeatedly and up until the last years of his life showing no remorse not go with that Although many people were in a agreement with jail Jamila sentiments no changes made And the Gallup continued with the schedule team this past Monday I wonder when she came out with this This is interesting And shortly after hundreds of celebrity walked the red or walked the carpet keeps wanting to say red It was not red it was white at the event Jamila spoke out once again noting the hypocritical thank you hypocritical nature of many of the attention I do that sometimes in photography sometimes you say photography that's cute Um Somebody in our chat said they should give you a kiss on the cheek That's really sweet I'll give you a kiss on the cheek later Uh last night Hollywood and fashion said the quiet part out loud when a lot of famous feminists chose to celebrate at the highest level a man who was so publicly cruel to women to fat people to immigrants and to sexual assault survivors She wrote and all the women's publications and Spectators online chose to gleefully ignore it She continued suddenly her appetite to find someone's tweets from when they were 12 has gone Nobody has perfect morals This is true Least of all me but Jesus Christ we had a year of course correct here and not award the highest honor possible to a known bigot These are this is big Jamila also came out against the Kardashians when like to call them card Jenners when they were like before they started their own label labels and brands would go to them to like sell their products And one of the biggest ones was tummy tea and it literally gave women like intense diarrhea but it was to lose weight but it became it was actually very very unsafe So she came out and like called the car Jenners out and like she's like she's known to call people out They didn't do anything they're not artists

they are master marketers they're master marketers Um Yeah Uh Jamille went on to just call out everyone who decided all of a sudden we can separate the art from the artist when convenient for them So now I have a I have a hard time with this and I'll tell you why Um It's tough because we are in a hyper hyper sensitive era Like I still listen to Michael Jackson music but like that she's saying we're separating the man from the art and I do believe there has to come a point in time where you do have to do that because no one's perfect It depends on what you're doing it for right What you're doing it for I'm not honoring Michael Jackson But if I want to hear they want to be starting something I'm going to do I want to be starting But so so I don't believe that Carl Lagerfeld was being honored He was being recognized for his work I don't think I don't know Michael Jackson ever did any of that stuff We don't know we don't know This was a this was red handed This is different I mean I mean the way she's writing this it sounds like we were like they were honoring a Nazi Like at the can't even say that I mean it sounds like he kind of was like an outspoken hateful person Yeah it's one rule for us and another rule for everybody else Last night we relinquished our right to be taken it all seriously about anything important she concluded Did she even go I wonder if she went in the caption Jamila added that her post wasn't about Cancel Culture or Carl It was about the Selective of Cancel Culture She's calling hypocrisy out of Cancel Culture I I'm with you on this because like I don't I like I hate cancel culture Cancel culture I think it's very dangerous It's like anything else It was like it was like the Scarlet Can right It arose from necessity of like a moral compass for our social you know climate But then it got commercialized and when it gets when things get commercialized they they start like picking out cherry picking you know what I mean What's best Yeah Yeah Yeah And that's not Ok No that's not Ok So that is from Kyle's corner and we got a couple more things and then we move into it What's going with the gas gas stoves are banned Wait what Those are banned in New York You know we're moving forward we're moving forward as a country I love a gas stove Oh what what how do you cook What do you mean You you know you got to turn the vent on when you when you turn the gas on that's why the vent is there but it's a flame You mean you want to use gas You use you wanna let me get this just just think about this Let's say you got a piece of fish you want to eat you throw it in the oven that fish is gonna be surrounded by propane gas What about what about when you go to you go when you go to a restaurant throw it on the throw it on the skillet huh Maybe a maybe maybe an oven a wood fire oven Like

those pizzeria places that throw the in there just to put the pizza next to next to the fire I love those places So you know what's so funny is when I moved from my last place I was like I want a gas stove I want a gas I want I wanted a no I wanted a um industrial looking kitchen I want the electric stove Ok You know we had an electric stove in in K on Klock where my neighbor lived um who was on Oprah which is actually if you really think about it maybe one day I'll be like Oprah and then it'll be so so full circle Or we'll be like Oprah and you'll be selling your gas stoves on on the show on BC or shop Sundays Yeah So uh Jerry News says New York just became the first US state to and gas stoves and furnaces and most recent most new buildings By 2026 26 all new buildings shorter than seven stories must use all electric appliances in the country Why is this And then by 2029 all the buildings have to have electric appliance appliances because it's not healthy It's gonna be like in 10 to 15 years we're gonna we're gonna look back on this era like you guys are cooking with gas That's insane That's kind of insane when you think about it It's like it's put it this way to put it in perspective Gas is like this generation's lead cup Ok Like we used it it was is better than Gas Dove No they're both They're not No I'm just I'm just trying to wrap my head around because and I and I'll tell you the gas stove is not good because it's using gas You're breathing in the gas and it's not healthy to ingest I don't know if you're breathing you're breathing in the propane Ok That's what it takes to make the flame That's why don't you put in the oven that's gonna use gas as well by gas That's why I haven't been I haven't been I don't remember the last time I had somebody at my house and like I guarantee by like 2050 they're gonna be like wow you were born when they were still using gas to cook It's gonna be like that when they were still using gas to cook You know crazy to say to say to some people like in a couple of decades like yeah I was born in the 19 hundreds I think he was like the 19 I was playing basketball once I was playing basketball I was like 25 Mind you I was this is 11 years ago and I'm I'm playing basketball and the kid's on there and he's wearing a t-shirt from my high school I'm like oh you want the JP He's like yeah he's like you want the JP I was like yeah I want the JP He was like oh my gosh What year I was like 04 And he looks at me he goes 04 Like the year was like didn't even exist like it was like 70 years ago or something Mind you it was like 2009 or 10 or something 04 You know I love you Are we done with we're done with Kyle's Corner Um Yeah I think you're just tired of it This is for you What do we got next time My kid complains that the wifi is glitchy I'm gonna show them my life in the 19 nineties 19 hundreds As you were

just saying that that one was totally for you Forget about if your friend friends whatever didn't answer the one phone that was connected to the house by physic a physical wire If they didn't answer that phone you were done you get to watch you get to watch the 15 channels on television or stare at the wall that's before direct TV We just got to click over like when I was 10 there wasn't like oh wait maybe there was I think we did have direct TV By then Look at this guy moving right along hiding for my kids because it just felt like I needed one minute Is that epic How does she do this Look Look that can't be real Something that looks like it Yeah How did she do that She was up there for a minute and look at this It's just a good shot hiding for my kids because I just felt no Really You think she really did that I don't think she does that in real life but I see it moving You see it moving Oh she's strong That's pretty funny I thought that was great Oh she's got a Sally Cologne plant look and she's got a plant that's a plant Ok Um yeah Uh ok This is one of my favorite looks I just wanted to pull this back up She looks absolutely gorgeous Um I'm a big fan Listen I'm not a fan of what Carl said or quote unquote did but when it came to fashion I I'm a big fan and I'm a big fan of Lily Collins and she's doing it Absolutely right Look at look at look look look she's just gorgeous I I'm a big fan Uh big big big big big fan Um another outfit that we didn't cover the other day was uh Miss Paris Hilton um who just had a baby um looking gorgeous as always Um she is another Barbie in my opinion Um And uh we talked about that the other day This is just like what is going on Jared Leto You're a weird dude man like he dressed as a cat Uh Lizzo is like who is this Look at look at look look I'm sorry The only people that can get away with wearing makeup are like highly attractive people You could get away with it I like I just like dudes wearing makeup is not a thing for me Look at that makeup No one loves Jared Leto like Jared Let more than Jared loves him Ja ja ja ja Yeah You know what He's aging very well He's a vegan and I'm sure he Yeah Yeah I'm sure he like takes care of all of us I'm not into the veganism I just can't do it You know who's not a vegan this woman Um This would be me if I were to actually carry a baby Um Could you after a pregnancy Yes If you are pregnant you are told that you can't have sushi Kyle I love sushi That is my favorite thing in the world is sushi and that's one of the things I didn't think I didn't think something was visually gonna make me This looks delicious and doesn't this look So she's holding a newborn The baby looks just like the uncooked meat No doesn't No it doesn't I honestly can we get sushi epic Like you feel like sushi Let's get sushi I want sushi I have to go get my hair done But like I love sushi This

looks I mean hello Hello Hello Is that you don't like sushi Like that's not with a woman in the oh I guess I could see how that would be really gross But like she just gave birth I don't think she's thinking of like the logistics was that it's not terrible but it is in a hospital and you know things But I think that's cute Look at her go for it go for it Baby out sushi in good for her She she was not supposed to have sushi after after this right No you 100% You cannot have sushi when you're pregnant That to me would be the longest she had the baby She was giving me my look sea weeks out That would be the longest nine months of my life I will have to tell you like 100% surrogate all the way Look at this I mean like oh God poor women go through so much It's not fair Speaking of what women go through Priyanka chopra came out recently saying that she had a nose job and she was in deep depression after botched nose surgery she went through a dark phase Listen I didn't even know she had a nose job Um She's a gorgeous girl Um and she just she's opening up about like her struggles with body image and um I I'm gonna find the photo of her before with the with the real nose Um as my mom would say a real the real one But you know you gotta be careful out there You have a kid with some of these women and the baby comes out looking completely differently than your wife Well I mean babies will genetics Um I'm I'm just gonna move right along because you were so ridiculous Um Let's get to our friend Maria man Uh She thought that she had the moment where she thought she was a goner but I'm ok because I caught this early enough Um She looks always gorgeous to me I hope uh you know she stays healthy and I'm sure she will because she's got the heal Um and and she has all these amazing people on talking about healing and health and wellness So we uh we support you Maria and your um and your journey Um I mean she had a really bad she thought she had uh she she had a brain tumor and pancreatic cancer It's that's a lot Um And I know she lost her mom um fairly recently So I'm sending sending lots of love her way especially as a baby is about to be born over there Um And I'm happy for that happy for some other things Um If you want to go back in time Nelly and are back together you didn't know they were ever together but they're very happy that gave you they were together I'll tell you what Nelly was having relations with everybody's baby mama I know that for a very long time Very long time I think it was uh Floyd Mayweather and 50 Cent were beefing once Floyd calls 50 out 50 wakes up and he goes on the computer and he's just like I woke up and saw the computer and Floyd's cursing me out and then he he literally on camera and he goes you need to be cursing out Nelly He took your first movie mama

Then he went and took your second girlfriend as well I was like OK so that's how I know Nelly's been really been letting dudes with no women really be letting dudes with beards like this break your heart I've seen it I've seen it too It's like what But you know what I've always been this kind of guy and I really I really no kidding I was with my I was with my friend Um and we he he talk he took me to his friend's house So we were friends in a friend's house and it was me and like six dudes and ironically all five dudes or six dudes uh were going through some kind of a breakup and I was the only guy like not going through it at the moment and I was just like it was just a bunch of sad dudes And I was like I personally I feel like you all are going through this because you all hang out together like you all have the same problem and perpetuate it Um But I was also like listen why do people assume when you get rejected that it's no that the person is making the right decision Well girls used to go for guys with this kind of a beard reject me and go for a guy with that kind of a beard And I'd be like listen you you're unattractive to me Your taste is unattractive Your look is attractive Your taste is unattractive I can't get behind I remember I was dating um as a couple of boyfriends ago and he was attracted to some girl and I was like it's hard to look at him the same movie star and I was like it's hard to look at him the same And I was like really And then I started like you know doing a lot of self deprecation stuff but like because like I felt like I wasn't don't ever compare I mean he was making comments about like some of the most gorgeous women in Hollywood and he was like she's not attractive I'm like I'm sorry what Like that's very good Then he was a weird dude Let's just put it that way Um You know who wasn't a weird dude watch this This is epic A man sees baby boy and stroller rolling towards the highway Look at this Look at this Look at this Oh my God Oh my God Oh my God Oh my God I can't First of all first of all what first of all what happened here Look what happened here She just fell She must have hurt herself really bad Yeah What she loses First of all she loses the car then she tries to chase it and oh my gosh look at that God She would never babysit again She you think this is a babysitter That baby would have died Oh my God Because she can't Oh my God Move forward Oh my God Oh my God Oh my God Oh my God Where is the like emergency brake on these things that I have so much to say I mean we only have a couple more minutes left of the show But like what do you have to say That's not ok You shouldn't be looking at the child if that's your ability Uh if the wind can take your baby from you No let's go back Let's go back and replay the tape Ok First of all the baby unattended 6 ft from a highway Listen people are are

are not computers and stuff happens Does it make it make it Ok First of all this let's go back to the beginning Let's pause it right here Why was the baby by itself Yeah that's a good question Why Oh because she made a mistake She made a mistake Everyone makes mistakes and and think about the driver think about the driver that has to go through a life of pain because he hit a stroller because this woman can't move faster than that Well please get me off that subject That all is Well I know you're gonna be a daddy and a good one too Um and this is how we're gonna end this show because I feel like this is perfect for you Macaroni mystery Hundreds of pounds residents of New Jersey Town were left confused last week after hundreds of pounds of cooked pasta noodles uh mysteriously appeared along the creek bed in a wooden area Get all the details Link in our bio Yes Look at this If you are hungry uh we a spot for you in the New Jersey Woods beat you in the state championship Get your fork get your spoon get your pasta sauce a little bit of Parmesan cheese Oh John it's been a minute Well it was nice where you been It's been a minute John We love you Um make sure you good to see you doing well Um listen we're not here tomorrow but I hope you have a great weekend We'll see you on Monday later Guys Have a good weekend That's that's great I wouldn't think I wonder why this happened I don't send a deal Uh-huh That's so on point that it's in Jersey Right Hi Vis I'm gonna miss you Yeah Yeah Have fun in Florida Be safe Having fun in Florida That doesn't really ring a chance and what scarce and want to be
