What scarce and isn't it Yeah sister got some business Was this was this how one of my favorite songs Welcome Welcome to Good Day Live Today is May 2nd 2023 We're so happy here in the studio with me and the cow True Blood I'm Michelle Mira If we're meeting for the very first time Welcome Welcome to our show We're streaming live from Los Angeles California here at studio place and we want to connect with you and see how your Tuesday is going So we got the chat let know where you're tuning in from and uh we wanna connect with you It feels like eternal winter here doesn't it The massive speeds It's the second on a Tuesday It's two on a Tuesday It's a two on a Tuesday 52 Tuesday 23 Yeah Yeah Yeah Yeah I like it I like it a lot Although we did come to the realization that it on the last day of this year will be 123123 Kermit told us that he did Yes Kermit told us a lot of stuff He told us a lot of stuff we want know what you're doing for your Tuesday and how you doing How you doing My friends I'm doing I'm doing well Yeah You know just well you know in California you can't just say well because like then they'll be like what's wrong that California had to drink organic No I'm all right You know Yeah there are stresses I just found out yesterday that this is one of the most expensive cities in the world and I knew it was an expensive city I didn't know it was one of the most expensive in the world And I thought there was like I thought London Paris Dubai at least those three past Los Angeles But we're like right in the running with those That's insane It makes you feel a lot better about things like that It makes you feel a lot better about things You look at your bank account and you're like where did all the money go We got a I feel like I'm like oh we're a live show So you suggesting production we're adjusting for you It's because we don't listen to our producer to stop talking about production and we're live What was I saying It's the most expensive city in the world Yeah And you wonder it's always like I expect my my account is always about 100 to 200 less than what I thought it was really because everything's a little bit more expensive than I thought it was That that adds up That adds up Does it it does it does you know money is my friends I love money I love giving money I love receiving money and I love sharing money I have uh it's interesting because like you know last year was the 1st 1st claimed as a complete on camera personality Thanks to you So was mine Oh hi Um and and thanks to studio place Um but yeah no I all last year was 100% doing doing this and between this and fashion go and uh listen Uh yes it's true It's you know just barely I

was just barely getting by but it's incredible because it's like I made like if I look at my trajectory I'm going in the right direction It's the first year that like I could claim that this was what I do and what I wanna do and continue to do and it's in the entertainment business Yes it is Exactly what I came out to Los Angeles for but even better So I'm excited Um can we get into the like the weather in L A real quick Go ahead if you don't It's like I feel like I'm wearing clothes from the winter I'm upset what's going on I moved here specifically for the sun the sun and I haven't seen it since December This is every day what's going on I mean last week was gorgeous Like June gloom for the year Yeah Yeah No no I don't want to proclaim that but I'm hoping that like you know it the sun is coming out now now the interactive chat how you feel about L A this year you know I know inflation is skyrocketing Clouds are not moving So we're nothing but good news today You know inflation is you know what I love is that like we didn't ever sweep things under the rug we identified them and then figured out how to how to have a good day Anyway that's the only way that you can have a successful relationship Kai to go to move through the negative stuff to address it until I get through And then if it doesn't work then I don't know I came from we have the same upbringing Your dad's a lawyer my dad's a lawyer My mom is a psychologist Your mom is a psychologist question Who do you argue more like or I shouldn't say argue Who do you discuss and debate more like your mother or your father My mother OK I debate more like my father Oh interesting Yeah Like I'm more like a lawyer than a psychologist when it comes to I'm more like a psychologist than it comes to an attorney You know you the client said such and such and that contradicts fully what they're saying now Yeah I'll just tear it apart II I look at tear arguments apart You love you love to look at the facts and then argue those you love it You love it so much Boom boom boom boom boom That's how you I should have been a lawyer I might still go You should no you should be you should be a life coach You should be a life coach because yesterday I wasn't feeling very well and I was just like I was having a moment and I called you and I was all like like oh like snotty Yeah And you were very good at like bringing me back up So I appreciate you You're the first person that's told me I should be a life coach He was offered \$1000 once you were after I gave her advice Did you take it It was one of my friends friends She was going through like a no she was going through like a uh some some relationship thing and she was with a guy for like five years She wanted to know what was going on as negative as I as I sound I'm not a negative person when it comes to other

people I I think it's incumbent I thought you were a negative person I think you go hard on the show You can be you can be you're soft inside It's like a uh like a I was gonna say you were like a what's the egg What's the egg that they give at Easter Easter egg With the chocolate um oh my gosh A Cadbury ek A Cadbury egg Cadbury egg with a cake We digress we got a lot of entertainment news we want to get into with you guys Uh how's your day going If it's going good Let us know if it's not going good Let us help you Yeah Yeah Yeah Let us help you That used to be my tagline Yes If you're not having a good day I hope we can help you out Yes Um Well let's let's get into it Last night Last night was the Mets go Yes Yes No I heard actually Pete did He had the best uh male Yeah And I saw it It was incredible He did the whole like cape slash gown thing here Uh He did very well He did If you google it it should it should I pull him up Let's get into some looks Shall we get into some of the looks This is this is um this is um uh my I wanna say my friend this is Nicole um Peltz Beckham and um Brooklyn Beckham She looks so much like uh she looks so much like her her mother in law here don't you think this is Yes Her mother in law is Victoria Beckham Doesn't she look like Victoria Beckham She look just like Victoria Beckham Isn't that crazy They say that you they say that you that's David's kid before he met Victoria No that's 100% their Children David and Victoria Beckham's kid Oh but you said her stepmother her mother in law she looks like her mother in law I'm so confused Ok this is this is David Beckham and Victoria Beckham's son Brooklyn Beck Brooklyn Beckham got married to this beautiful girl She looks just like her mother in law right They say that you attract people that are like your your parents This look they look just like they look like a clone of He looks just like his dad doesn't He He does have a little he does actually an even split between posh and David Yeah they look great I love this dress So what do they do Um she's an actress and he I believe is a musician also a chef and also their kid Awesome Yeah Yeah Yeah I love this dress so much What do we think Kai what do we think about this look I love the dress I love them I'm not a big fan of necklaces but I do like his necklaces Oh yeah his necklaces look sick I am a fan of those Yeah that looks great You know Um last night was um you know was was a big one everyone did really really great Uh so Carl Lagerfield was the um was the genre um other in the past are ridiculous and people had to Google them but I got behind this one What what does that mean Karl Lagerfeld What does that Mean what do you mean Carl Lagerfield Who is that You don't know who that is Do I know who anybody is Ok And I feel like I need to do like a

fashion one on one with you Let's do it Ok So this is so he passed recently and he was a mega designer and launched the houses of many fashion houses I believe the last one that he did was Fendi but he wore a lot of black and white Ok Um And so she just chose not to wear black and white You know I don't know I listen I I think she's a very beautiful girl Um I nineties for me Well so like I think they were also hitting the points of like when he was like big right So um so this is this is uh you know Kylie Jenner looking absolutely gorgeous Um I don't I can't get behind this look only because I just it doesn't do anything for me I like the robe I don't like the dress Yeah the robe is interesting Interesting I think she should have less dress more robe Does that make sense Less dress more robe Yes a little bit more revealing It looks like windows you know presentation Speaking of revealing look at Kim Kardashian's look last night So so this so she looked absolutely gorgeous So there was a lot of a lot of don't there Real pearls That's cool She looks great Her daughter apparently was basically helping pick up the pearls as they were falling off they were falling off Yeah they were falling off She looks great Can you look great You did a good job I you know I just always wanted a smile on the red carpet I don't smile either So I I I'm fine with this No smiles on the red carpet Kyle is cool with that Um let's get into some more Look Shall we look at GG Hadid Thank you She's the only one that was wearing gloves last night I was like Carl Lagerfield was like known for wearing gloves Look at these the white hair guy Yes I know who that is Yeah he passed I'll show you I'll show you Yeah Yeah Yeah Yeah Yeah Um I look I love this look I think she looks great Um I mean she looks phenomenal and there we go a little bit of a smile Now I know we're talking about Yeah good Um so uh I like the see through I like the over the shoulder look I think that I I love I love all of this pearls He was a big he was big into pearls and lace You know what I like about this dress is that it's like it's it's kind of risque but still very chic It kind of it's like new age but original Yeah Yeah Yeah I think that it says something it does and that's what the Mangala is all about is like saying something like people are this says something and then we can talk about what it says Most people are just saying the word something Well this is something this isn't something I love that I love that you're getting into the conversation of fashion with me Um and then this is her her really good friend um Kendall Jenner Um like I was a personal shopper so I'm going to get really into this at some point You get into Kendall's look Well I was a personal shopper for nor for about 67 months Yeah What what do you want to get into Just I I love looking at these dresses I can actually like uh people

will be like no that guy likes football but that's not true I like fashion I am all about hold on Let's get into it I I'm all about people taking a chance and a risk with fashion I had my friend call me the other day and being like what were you wearing the other day And I she was just like you have all these different like all these different looks and I was like you know what I love you so much but thank you But no thank you Thanks Thanks You know what it is Some people with fashion like to conform to what they've seen Other people push it further than what they've never seen before And I appreciate and applaud those people Thank you I appreciate and applaud This is what I this is what Met Gala is all about To me This is not just a typical red carpet In fact the carpet was white but this is the I mean look at this Look at this head dress She looks absolutely gorgeous This is Florence Pugh Listen if you can shave your head and still look gorgeous God be with you I mean this is incredible She looks absolutely gorgeous Look at this Look at the feathers Look at how much I mean the head pieces Look at this Uh it is she can't even get the whole thing in the picture and the frame the head Yeah I love this so much I love this dress so much I would wear this dress um to an event It's being I have a question but I met like you have to be like part of Vogue's list because Anna when tour puts it on um didn't you see you didn't see Oceans Eight You have to watch Oceans Eight If you haven't seen Oceans Eight make sure you watch it You can learn more about the Met Gala in the making The Met Gala does So basically you have to dress fashionable all year has a notice for and then you get invited to the Met Usually there's only about 100 people that are invited or a couple 100 people that are invited and they're all on Anna went to list and there are people that are like making a difference or like they're like being recognized in the media and they're pretty up they're pretty a list people So this is really cool So p looks I mean look at her Congratulations Florence I think you you've got my favorite favorite look of the night Um there are more looks let's get into more looks you know who else looks great Anne Hathaway looked absolutely gorgeous I love this look so much This is this is Carl Locker Field to me Um look at look at look at all that the safety pins Very nineties She looks like a nineties supermodel here She looks absolutely gorgeous I love the look I I love the um I love the white tweed I love the pearls I love everything about this What do we think Kai what do we think Yeah Love it Love it Yeah you got the safety pins Very nineties Very nineties Yes I like it If it if it's supposed to be nineties like you know what I mean Like she clearly is going for that look and it works Yes I think it looks great I think she did a great job Some other

wanted to share with you I thought you would get a kick out of this true blood They say 40 is the new 30 50 is the new 40 All I know is the older I get the more nine pm is the new midnight Hilarious Yes I think also I was trying to tell someone that um I don't think that we're actually getting it like 30 40 You don't really age like like we put on but we take on so much more than our twenties in our teens Like we I think thirties is when you really have that work that real real workload And so you know in your thirties Yeah I thought about it I was like I would pass out at 7 p.m. if I tried this at 18 years old Yeah I always like going to be early I hate it II I never I don't like going to bed early but I but I think that going to be I was when I was you know going to sleep at three pm 3 a.m. Great I definitely have more bills now than I did when I was like you know I had a dream that my mom came to me and she's like how's how's school going I was like mom I'm not in school and she goes are you And then she disappeared Michelle loves her cryptic dreams They cryptic dreams They're so cryptic They're super cryptic Let's get into Kyle's corner shall we Kyle's corner Kyle's corner You should have like a musical segment for your corner Kyle's corner Yeah Kyle Corner what's going on here buddy Ok So this is for physics Um do with it What you will it might be a fact that might not They're claiming scientists are claiming that we've actually created because we we actually do have a protective bubble around the earth that protects us from solar flares that comes from the magnetism on the poles What we have north and the south Ok Just making sure question I thought you were going to say that there were new poles I don't know the earth can shift and that will change the weather Go ahead Right But they're in the same place that they've always been and they're shooting out some kind of magnetism from both ends and that creates this kind of a force field from the solar flares in space Ok So apparently they're saying that all the satellites that we have Yes have actually created another another layer really from all of our low frequency connection What does that mean Protecting us from solar flares as well So we're in better shape than we were before is what you're saying in certain respects I think that certain people are saying we don't I don't know if this one's true Sounds too good to be true Yeah So did you do a further deep dive I didn't do a further deep dive I usually do Yeah Yeah it's OK Moving right along to more Kyle's corner before I get our special guest up here What is going on Get I can get into it Tell me about it Is it gonna make him look bad What is it gonna make him look bad Who cares not check it out Baley was uh a video and he's scarily good at it Let's hear it So you've got your wish Get ready Hello You uh the

manga section OK You have my attention beast stars No not you You prefer to get your black and gray morality elsewhere You search volume by volume carefully You're particular I can see that because I'm like 3 ft away from you What fantasy are you envisioning in your head right now What manga is drawing your perfect life I have have to know Akira a classic OK Are you sitting on the edge of pretentiousness You want to be seen reading it Don't you seen by me Don't don't turn around don't turn around Seen by me I just need to know who you really are What we have right now is just a little spark and I realize I can't force it The timing the spark So you tell me if you're too distracted you decide Casey you asked us to narrate your video So you've got your wish Get ready Hello You uh the manga section OK You have my attention beast stars No not you You prefer to get your black and gray That was interesting So he does the youth thing He's doing the youth thing like oh you're searching for volume by volume I can see that because I'm like 3 ft away from you Like he's doing the youth thing when he stalks girls He does it to this video pretty good at it Pretty good at it Yeah Yeah Yeah Shout out the pen badly Uh If you haven't seen you check it out If you don't get too scared Actually it's it's I feel like you is kind of made for people who get easily scared It's watchable It's still watch it is it is still watchable Um What is this guy What is this what's going on here Uh This is just some terrifying uh some terrifying OK It was it's it's showing us how big a crater has to be in order to just exterminate life on earth Oh they're not seeing it for some reason really All it takes is a six mile uh 0.6 mile Comet Oh did they not see any of them at stuff Oh are you kidding Oh you're missing We missed all They didn't get to see any of the things we talked about for 43 minutes Well shout out to you There was 949 49 949 Um we have a very special guest coming on in a minute Don't go anywhere We'll be right back after this Hopefully you'll see her as much as we see We'll be right back after this Oh I don't see any We talked about the Met for Why can't they see me this I don't know So here is our Jari Unbox It you wanna get it charged up you use this fantastic charger over here This is the output over there and it has an extra cable like this with the ability to charge it in your car So that is really cool So we have it all charged up It has here you can press on the display You can see now that it is not drawing any power it is not bringing in any power and it is 99% charged which is cool So as you want to use all your separate things you can turn on the little lights and it will show you as you can see there that now you can draw power out of them or you can turn them off just like you would at home if you do if you wanna leave something plugged in

but not having a draw power there you can turn it off So let's have some fun and see what our Jay can fire up So in the past we have used the Jari to light up our lives with go We have charged our cell phones and we have done a few other things But oh we've even lit up the Arrow Garden How amazing is that that we were able to light up the Arrow Garden But today we're gonna push the query to the limit and uh we are gonna take a look at the this works What's this This works vaca vacuum Awesome Very cool And we could even take a look at Tabi used it and uh how amazing is this Oh my goodness You can just keep on going and going and going You can get into every little look and cranny in your car with all of this How awesome So this is what we're gonna do We're gonna stick it into our Jari Let's do it this way So you guys can see what I'm doing Turn it on It's a little light and the display have gone on because we are about to fire this up Thank you Mr Jackie There we go That is cool So let's see what else we can fire up today I mean that you can I mean that is just so cool You see powerful vacuum Jay fired it up Let's have a look at some of the other things that we can um fire up today Let's see Here we go So let's try the LaVoy Air purifier I mean this is a high power drawing eye item I think I would imagine So it's not something that you would generally plug into this little power port here Amazing if this works you know how incredible this must be So not only is the Jari used when you are camping or exploring the world in your RV or your car The Jakey can also be your backup power source for a disaster Um You know disaster preparedness The Jay is definitely something that you'd want to have in your home and like God forbid there is something and the air is not pure and now you're stuck in your home you've got no power You can't put your air purifiers on If there's a huge amount of dust in the air or if there's a big um you know like we are in California there could be a huge earthquake will bring up a lot of dust but you obviously want to still keep your lungs protected Let's see if the Jari not only will give us power but will also save lives So plug it in over here we'll turn it on and you can see let's actually put this up a little bit because you'll be able to see the lights So let's put that try and see if you can see that there this all in the name of Ok there we go So the little light is on and we have the uh did you see that Ok Turn it on let's turn on the light so you guys can see There we go That is it So we have our voit that is powered up You can see the lights are on over there and this is thanks to our query How incredibly powerful is this tiny little tiny little ba like tiny little box That is amazing So these are the cool things that we can do Thanks to our Jackie Oh my goodness Look at that This powerful little thing can do all of

that So here is our Jari Un box that you wanna get it charged up You use this fantastic charger over here This is the output over there and it has an extra cable like this with the ability to charge it in your car So that is really cool So we have it all charged up it has here you can on the display You can see Imagine my family is May the 2nd 2023 right Yeah so happy to be here Happy to have you What we love about this place is that you never know who's gonna walk through those doors Um So you and you've known Andy for a minute Um what brings you in today Um You know I went to this new place on Sunset called Hudson House for dinner with my friend And right as I sat down I saw Andy from across the room and I didn't even sit and I got up and said hi and he told me about this place and I had to come visit I love that so much And and you're an entrepreneur I've been an entrepreneur since I was 22 I hate I hated my first corporate job And then you know left started a company you know got really big I met Andy somewhere in the mix And then from there I've just been in that you know in kind of like the tax space and entrepreneurial like an entrepreneurial person I love that What makes someone an entrepreneurial person Like if somebody's watching this and is like I relate to her What what can you say Like what are the what of somebody I think it's a dreamer doer So something that you know you dream up and then you you you know make come to life and you figure it out on your own I think um I think a lot of people dream and a lot of people talk but not a lot of people do And um I do those all that because I can't help myself Do you do you have like a necessity And then you dream for something that yeah usually usually what was the first one Um Handstand Um it was a company that was similar to like Uber for personal trainers but you could um book on demand or schedule in advance and then it got really big It was funded by uh Reeboks Um we partnered with the w hotel chain Yeah I grew and I was um no the exit wasn't um how I'd hoped but then I did start another company and that exited The second one exited I think we have uh yeah keep doing it I think we have a little bit uh like a clip Let's take a look Oh my God That's crazy Yeah we come up with clips really faster Scroll through Yeah that was so fast Oh you look so cute I was such a baby Look at that And whose house is that Andy Andy We have we have we have yet to go to Andy's house Look at that I have Oh Oh my God That's great Was it more woman focused No this was just um no it wasn't Actually um a lot of our clients were a lot of our customers were uh it was just busy people at home that wanted the work out to come to them You know they wanted a trainer No I did this for like three years myself but I just did it myself I didn't hire

anyone else to do it I would just go to their houses and oh yeah So how it started was I went to um the gym and I wanted to hire a trainer I found out how much it was but more so I found out the cut that the trainer made was I mean like \$20 of the \$150 an hour And I was like that's not fair No sure You're an entrepreneur man too So I was like let me gather all the best trainers you know put them on the app and then people could just order in demand and they can fill in the gaps in their schedule or make it their full time thing which many did and we grew it across the US It was my first I think um you know to entrepreneurs and it was it was crazy Um Yeah now I mean obviously then you you know learn from your first start up and your second one is better and you know so on and so forth Um And so yeah it's uh three years and help that whole process and procedure helped a lot actually because I was at home and I was just building oh I figured that the trainers going to people's places wasn't a thing Oh that right Oh yeah Yeah it ended before the pandemic This is you this is you and your app It was like 20 0 my God Yeah it's a great idea Great idea You didn't have a the exit that you wanted to What was the second company Um I think I was a little young and maybe I just you know trial and error So we'll see how it goes Yeah the second company was a clothing company and that and that's it Exit built it during the pandemic and then um sold it and I really learned about e-commerce that way because this is more like a marketplace Um it was a women's fashion similar to like this Um so yes I did not know that women shop the way that they do online But how did they shop excessively It Great I don't even think of it Like so do I we all do I don't even have an Amazon account Wow Yeah And the truth has come out I know I've asked Kyle a couple times I was like are you ordering Amazon You're like I have an account but I've like never shopped for clothes on it or uh actually I got I got I never never closed Men have different shopping habits I think than women Yeah Yeah And also it's like a generation thing right No men would come in ask me about clothes I'd say go home ask your wife come back when you bring your wife because women the women hold the power and especially in the fashion industry it's like you're gonna you're gonna put that on Remember we had we had another guest there Something wrong with my shoes I think both of you guys are dressed I was gonna be on the show I probably wouldn't have worn this just like a normal day like that I want to talk to you about Met Gala looks You got to love Matt Gas We were talking about gas for 43 minutes and uh none of it was shown to our viewers that were watching which I feel horrible about because you weren't able to see

any of it I want green something We would have been crushing this right Like mines And then there's me and there's you get to the Met Gala who are some of your favorite looks Rita Rita or Ok let me see if I can pull up Rita or um I think she was one of the show You see Diddy Is it No I'm sorry That's definitely not Diddy That Ok this is Diddy Um so they can so our viewers right now are seeing um Diddy Diddy looks epic Uh that's you know what I can see you wearing this I can see Is that an overcoat I like that I like that It's a little much but it's very art Bring it into art and fashion Yeah Normal fashion Yeah that's like you would go I mean you wear something like that and maybe New York in L A that's not that's the floral effect off but just the chic overcoat over the I like it I like I would I would love for you to actually you know this is where I I've been talking a lot about recently with fashion Like people have been like oh you wear bras or you were doing this and you do that I'm like I'm trying to like not trying I'm just being me and having fun with it if that's you do it do it And I I love people that are like stepping into their full authenticity in 2023 because that's what it's all about 2020 was just like getting by 2021 It's like uh and 2022 is OK And in 2023 where would you wear that to like a party And then you would have take it I'm thinking like you know as I as I age I think that the uh the caliber of uh venue I'm going to is also increasing So I feel like like like I I support friends that like book signings or like book openings or like company something like that Like something actually supporting someone someone else I would wear this and be like this is a special event for you maybe evening book signing 1000% This doesn't come out let's get back into it There's some other looks Um you want to see Rita or 00 my God where is she I think she was one of the first people that came in I I'm scrolling down Um it's it's it's down there in the meantime we can go we can go we wanna go to like look by look Um so uh this is she's on SNL She looks so cute She's hilarious She's really funny But I didn't know about like the like was it too heavy for her I was confused by this A lot of people were in this like pink and black mesh kind of like goth vibe I don't know why it was it was it was kind of goth I don't know if he was goth but maybe because they were like remembering him That's why um and here she is here she is again here's Chloe Depp's daughter She's on SNL but she looks like Johnny Depp She's funny She looks like what's her name I really love the color of that Let's pull in that I think you're right though about the funeral thing Maybe I think so Ok 00 Rita or is pretty pretty Do you What do we think about the woman of the hour She looks great Less is more sometimes Ok Very simple and clean And I love it I love

it Ok Ok And then and then I actually thought this was Beyonce Hot for a hot second There's a better there's a better oh my God I love this dress Do you It's perfect It's what makes it perfect It's incredible I think it's covered in all the right places it's exposed It was her hair I this is my favorite It's in it's perfect It's simple enough She didn't overload it with like jewels and it's you know it's just enough And then also I mean Anne halfway looks great too but this is my number one Let's pull up you know she blew it out of the water especially coming back to the funeral Look Right Yeah Yeah I think I heard black white and pink They were just in remembrance of Carl Lagerfeld That's what it was Um There you go There's a girl Anne Haley looks like a 90 supermodel She's beautiful She's actually like coming more into her own Now I feel like every year Anne Hathaway just gets better and better You know people I think used to hate her for a long time and then something happened I think maybe she got you know that divorce and then she remarried and then she broke her Perfect and then yeah I think that's what happened and people love her I love her I always I've always loved her Yeah she's great And she was talking about on the talk show inadvertently that people didn't like her She was like I was at a party I told you about the cupcake thing Didn't I send that video to you She's like how I eat a cupcake I don't get a light First of all it was it that she plays a troubled teen It's her first movie She's incredible in it There was so much talk about Kim I have not seen that but maybe I'll add that to my list But Kim Kardashian there was a lot of talk about this It was really not functional outside of when she took the photos like in her own like space And there was a lot from the side that you can see and it was just kind of messy and then the jewels and then the necklace like there was this is what I'm talking about Rita or didn't do this It was clean it was simple it was fresh and nice This is like there's so much going on like you don't know where to look even though I think she looks stunning about functionality like you It was it was it was not spent all night picking up She did say that her daughter was picking up pearls and putting it in her bag This is this is one of my favorite people Uh Lily Collins Um you know I'm a big fan We're big fans of Emily in Paris Kyle is a big fan of Emily and Paris that show of the like Love to hate love to hate So I told Kyle to watch this show and um yeah and II I love it I don't I don't love her dress I think it's oh I like it I like the curl on the back Like she's the only one that had Carl on her back Oh that's nice That's nice Carl But oh I thought she was the only 10 interesting Ok Um I love this look I love the um or lack thereof I kind of like the whole it looks like she's wearing like a tuxedo thing Ok I like

the corset I don't like the sleeves and I don't like the skirt I just like I just like the corset I feel like if she wore that with like a pair of pants it would be nice And I do like the carl and ball That's nice All together Not a fan not my favorite dress but it's for change holding change You're so funny Uh What about this Look what do you think about this for me too for you It's not it's it's not the worst But do you see this whole like mesh be like this It's just a lot of pearls You can't sit down No How do you eat I hope you can take that off I hope you can take that part off Right Who am I looking at that brand Uh No that's uh I don't even know who this is Car She has one post and 6.5 million followers I don't know her but she looks great Look look at this Wow that's epic photo shoot every day is different than you know but look at that smile Look at that smile like she is loving her look I don't hate it She loves it That's for me Every reminds me of that woman who sat at the Oscars where no one could see behind Oh that's funny Yeah With the white cloud That's um good question Who is this Oh I did look at her dress earlier and I do I'm a I'm a fan of this This is cool Yeah it's a little mermaid vibe I'm getting mermaid vibes I really like that Roman Emperor vibes Yeah I like that I like that So what I like about that is that Ashley Graham looks great But again this pink and black which is it's so crazy because I don't like pink and black together Usually I have like a thing about black thing the other day and your friend was like I don't like it I like it like dress with like black I I think with black and like color like black white beige other neutrals but like pink and black is just not with a dark with another dark color I have an issue like a flat with a dark blue or a dark purple So what are you doing What are you trying to not be seeing but black with a with a popping color Like a two tone like black black and yellow black and pink black and white Love it No II I talk about our our bad girl Did you hear on fire right now But she she as a rocky right They look and I love how can you not She looks absolutely I mean eyelashes on her sunglasses I love her and she always she always dresses Did you see how you go from like the audience's entrance Like go over the gate and like literally uses some woman's face as a ladder to get over the gate There's a oh God I'm good My man is your man is under fire Yeah Yeah I mean I thought all the looks are really fun I love the Met me or if we want to be fancy it's is it I don't know we don't know what it is other than the fact that we were not invited this year hopefully next year That will be a thing I would like to be invited I do you look great I would like to be invited please You need me there Actually you don't We love to play games here at uh Good Day live Would you like to play a game with us I would love to play a

game We pull an oracle card before we get the game started getting there Are you guys gonna read for me He might I don't know this is new What do you got All right I'm excited Let's see Let's see I wanna get you a good good spread going on here Oh yeah I'll give you the red flags Over here Ok We do you know how they say red flags Oh I know all about red flags Ok So this is the best spread I could do I'm not a poker player I'm just a regular person How many do I choose one Oh wow Alrighty That's do I give it to you Yeah transmute Interesting number who's drawn a card number 44 Funny She's like transmute Ok Ok Ok To transmute is to convert one energy into another The snake is a powerful symbol of transmutation You're being invited to accept its gift of shedding to help you process something important Use its ability to make magic by transmuting its energy into something new and beneficial for your growth meditate on the symbol when you need some assistance in changing the energy in your life Interesting That's great Are you shifting Companies aren't getting I'm always moving and shifting but I do feel very connected to that because I do transmute Um like let's say bad emotions or sad emotions into some Interesting How do I do that Um I don't like to stay down you know what I mean I don't like to stay down here because II I find this in some people I'm gonna get a little deep with you for a second If I may if I certain people external when you look at them from your perspective they're like yeah you're upset in their head They're up here They don't feel down even though they look down So how do you really admit to yourself You're down because you're upset and identify those feelings as truly negative I don't think I think being down and being upset like angry are the same There's a lot of different ways that I get over those emotions Like if I'm sad I just need to be lifted up I listen to music go to the gym I'm over it Moving on and then if I'm angry they say angry is a mask is sad Just be like a mass emotion That's what they do say Um But I mean I try to look inside at the source of like why I'm angry and then I try to fix it I try to like solve the problem I like to Yeah Yeah I think you got to talk about it and and I feel like just like really like being in motion and trying new things with what works and throwing away what doesn't you know I can dig it too Can I can I pull a card You gotta put me back in Yeah Yeah Yeah Like I didn't know you like kept cards out come with directions I think it does actually Or just being the typical man and not reading the direction That's not that's not true what the typical man does What I didn't know typical men did that We don't read directions we don't even ask for directions I don't read directions sometimes most of the time Was it like a nineties thing Your dad

gets lost He doesn't ask for directions You just stay lost kind of a thing Ok

mean Now what does that mean You're in the car And they're like they're
mansplaining You're driving he's in the passenger seat He's like oh when the
when the arrow goes green you can make that left Oh did you see that car on
your left side Just watch it over there You're like ok I understand what you're
saying Me too Me too I need direction sometimes because like sometimes
like you I'm cool with that That's like I like for me it's like you know when
the person you're driving and the person who does the one of these and it
makes you like that's why sometimes because I've been in an accident so
sometimes maybe it's like a control thing But I try not to because my sister
hates when I do that Right I'm just like do you want to just drive Just drive
I'll just sit in the passenger seat 100% 100% I'd rather the person drive than
tell me how to drive You You don't like direction Like somebody tell you
what I know I have a version to It's ok I get it you know I've only pee a lot of
things grind my gears So I've learned to just like a allow it to happen breathe
and and admit to myself it's my problem Not theirs I have the pet peeve You

issue with this stuff Don't get offended It's just who I am every time someone

think a friendship or two over some spelling mistakes Really Yeah people are you know can't handle I think criticism maybe But I was just trying to help someone and I was like hey you have a spelling mistake on your website that I would want I would want to know I would want to know I want to know I want the text between the two of you Exactly Exactly And I yeah I just through text sometimes I'll let it go It's fine But in my head I'll always be like you're you're missing 60% of your clients because this woman can't spell Oh my God Let's double check my website before we have That was a major red flag Oh here we go Is the exact opposite of you politically Oh I'm not that of a I don't know how they verbalize it Right They're always like talking about it or just leave it alone That's correct Ok You know I saw something amazing I was watching um oh my gosh I think I told you to watch this Seth Meyers He's funny In his stand up he talks about politics He's like yeah you guys can skip this allows you to skip on it Yeah Yeah I should watch that Really funny I love stand up Yeah me too Uh What else That doesn't make any sense You want to read this to the North Pole every time they say the word love that means they get cold when you mention love Oh that's all right No no no no What santa that means No it definitely means that they all of a sudden get cold like you mentioned I think that's the interpretation Thank God We have a brain OK Uh Wait wait wait wait wait refuse to wash hands Refuses I don't think there is such a person like oh my God No I can't wash my hand I sure I likeliness hygiene I think 2020 taught us hygiene that when you see commercials where they were like this is how you wash your hands I was like does nobody know how to wash their pants Are we going around the world They say that people don't wash their hands for long enough So like but while you're washing your hands that's a thing I don't know if I abide by it You guys have done this but I've been in a body It's you I don't wanna miss the toilet and then walk out That's disgusting right next to each other Why are they looking at you They wash their hands That would be a very you know different scenario Sorry people come out of the men's bathroom in a public restroom and they don't wash their hands 1 billion% Wow I see It happens I'd say it happened more than not when you're in the men's bathroom Yeah that's crazy Have you been in a woman's bathroom before I'm the guy kicking the sink with my hand Yeah Yeah Like try to get the door knob with my foot I'll be in there for 10 minutes to get the door knob with my 100% flag And for those of you who touch a toilet with your hand Oh gross Oh yeah Oh yeah That's oh hilarious Now I get why you don't like watch your mouth Oh God No You know that game watch your mouth You

put it in your mouth and you just have to talk and it's like oh it's one of the games Kyle hates it I'll show it to you after the show Here's an interesting one thinks they're smarter than you smarter than me Ah love it Like said I'm smarter than you smarter They have great statements Both great statements No ego it's an ego They just literally act smart smart I'll tell you this I think people who are actually smarter don't act right because people who think they're smarter than you It might be my second favorite thing behind chocolate chip cookies to prove people that think they're smart wrong You just love calling people out I do What is that It's like you know that's not correct And then I guess it is like you should have been an attorney trying to work with their own egos you know especially people who aren't like there's no toughness there's no there's no brash physical you know whatever It's just all in their head They just think they're better and you're like that's not correct and you can still be better than me but you're not right at this and they just can't handle it It's very fun for me to watch better than a sit Ok So I will date that person right I'm gonna get a bunch of emails that has 19 kids and counting what can recite all the lines from Titanic in their sleep again Not worth our time Ok I watch all the time still really into my space What does that mean Like what you mean to Myspace It still exists right I didn't know it exists anymore It it still cool So here's the thing Myspace out of all the social media we've ever had is the only one that didn't sell to data Networks like sell your data because it wasn't big Instagram That was too new Me No no no He said no I will not sell the data which is why it's not big Go to sitting in the home with his 45 mil showing I think what it was He made 45 million from that I think so Yeah Really great And he didn't sell anyone's personal information It was like a moral thing that I love that How do you make 45 million from it Then I forget the person you hated the most in high school and literally hasn't changed what I hated the most Why did I hate you Why would I I didn't hate and love is like is synonymous Why would I ever talk to this person How could you even get me to the place of hate And then you haven't changed Why wouldn't you be anything but a red flag I'd say I I think everyone changes I hope from high school you did it change from high school Red flag Red bull change and grow I love that They're obvious I believe I believe 40 years older than they were in the profile picture Oh my gosh You got me there Oh my God Dating Do kids from a dozen partners Hm Ok Here's a good one Literally only talks about themselves Red flag all the time I'm like I've dated in this town for 10 years That's all there is that's not true No there's people that are interested in ideas

and things like that and that's the type of person I feel like I'm a fan of but there are people that I guess love being with people that talk about themselves I don't know Not for me I like to talk about ideas and things the future possibilities So although you know someone who loves themselves kind of attractive I don't know why but after a while it does get it does get annoying The flag Look at this look at this I wouldn't even say this to someone really stupid It's just two words That's terrible Someone who's really stupid Green flag like what are we doing Lives off the grid also Red flags Crayons Yeah See for you guys That's cool That's like a lumberjack or something You guys already have it in your head I can see it Beard plaid shirt Am I right or wrong No Someone who doesn't care about social media off the grid I'm thinking like in the living off of solar energy No no But there are a lot of Lumberjacks like lumberjack chic on Tik Tok is a big big niche Really hot guys Lumberjack like cutting wood Yeah Yeah I'm I mean I'm for that but that's not what I consider off the grid That's just a lot off the is traveling around the world you don't really care about you know having a home base Maybe because she's red flag red flag green flag for Emily in Paris Ok Ok Yes Ok Um not Gabriel Who's the other one What's his name Alfie Ok How you like a is that a hot take Yeah Why don't you like I love Alfie I love Alfie Gabriel I'm just like I'm kind of the same you know I the same with you on that I said uh I for me I I like Alfie I go with Alfie I go with Alfie more but but he doesn't like he he thinks he thinks that Emily is toxic for girls who are watching I love watching because it's fun to watch This one is the most there is a thread on Twitter at the topic about Emily in Paris and how people love to hate the show Can't this And it's just fun to just poke fun of all throughout So I understand that she is she has some red flag tendencies but I think she means well I don't think she's maybe just not self aware Does she mean Well for besides herself is she she is a selfish woman Thank you Thank you This is not unhealthy She puts herself first and I want you to say yes yes she does But she also looks out for she tries to bring Alfie in on the business to a is Emily in love with Gabrielle She's she she has she has she has she has love for him doesn't mean that she was trying to get back with him She didn't stop out there when he left She didn't stop him when he said he did but she did stand on stage and sing for him to come back And that was a very very however Gabriel was at that time Gabriel was not he was with his is gonna be another they were both competing for like they were both her and Gabrielle had a sick love affair where they were like seeing who could get someone else attracted to them Yeah they had a lot of

passion But like Alfie is a just I feel like maybe the right the right He could have just been a little bit stronger and broken up with her and went to Emily Why are you playing games Every meal she eats is in Gabrielle's place I don't think every single meal with friends No no Who's the who's the girlfriend what's her name Uh can come back the most She's a little lost Yeah So this is my baby And if a guy has a girlfriend leave him alone leave them alone Right And when Gabriel is done with his relationship then he'll come to you You don't need to be a you know I personally yeah But I mean it's for the show it's a show It in real life too though It does happen in real life It does happen in real life is all I'm saying I don't want to get into that However though I think Emily in Paris gets into that whole like dotting chase after you I want you to be mine kind of a world It's like sure she wants to see how much these guys chase her and it's just a race to see who wants her more I don't think she is She really good at her work on it I think she is She spent the whole third season looking for it What are you talking about She was she was like fired She was hired she betray this job to do that job She left both at one time It was like she didn't know what she wanted So she was I kind of agree a little bit all over the place all over the place She still figures what scared me about Paris was it looked so real like that's it felt like that's what women feel like to men on the outside But now that I'm seeing from her perspective I'm like this is so messed up She's got she's she seems innocent to her She's telling herself she's innocent but to me she looks guilty you know he's a villain in someone else's story and it just it just depends what perspective I'm sure people think I yeah I don't know if I'm a villain in anyone's story but probably I don't know I don't know what people are thinking Let's let's rewind for a second Emily got with Gabriel at the end of season one because she believed that he was single and she was single at the time Do you not remember that Did you not watch season one So you can't really comment on it I was like I didn't you miss the most important thing because so Emily had a boyfriend in the beginning of yeah And he and he broke up with her No no he was like he's like I can't do this and she was just like it's the greatest city in the world It's Paris and he goes I just can't how are we gonna do this And so they break up and she's like you know she's chasing her dream let her go Ok So they break up and then meanwhile she gets to know Gabrielle you know Gabrielle a promise to her newly found Wait hold on Wait we're not in season two yet We we listen there's a there's a there's a back toxicity That's just what it is People a little bit It's not the cleanest I mean but but you can't you can't escape that in real life I think that's just it's a

it's it's realistic That's what happened Life happened every time And this is this is this is what drove me nuts Emily walks in ok Alby is nowhere to be She wa around right Emily walks in and then Gabriel's like hey Emily and she's like oh Gabrielle Hi And it's like where in my head I'm like where's Alfie Because you want to be twirling your hair and looking deep in Gabriel's eyes and as soon as a shows up she's like oh oops oops And Gabriel and then Gabriel gets the side I was like oh I wish she was mine And we do that 72 times a season I think I think it's a good lesson to learn of when it's in front of you and you love it That's when you you know you just you jump you cut it off you you know you do what you need to do but he's stuck with This is also another thing he was with What's the girl's name again Gabrielle coming coming coming up They weren't in love Maybe maybe that's what it was There were problems in the relationship but they stuck it through Why isn't she a lesbian Now Was like testing the waters I think she I don't know if she's a lesbian but I think she's like testing the everyone's like I think I think everyone is testing the waters in their own world and their own Stay strong stay strong Don't get emotional and then he leaves I don't like that at all Me too I like people who face their It's fine to leave but you don't have a conversation He doesn't talk he doesn't ask any questions He just goes Oh that's what it is And leaves like no questions That's hard Yeah But like when you are so like heated and you ask a question I don't think you're actually like hearing it I don't think so I think so I mean I don't think so He needs some time to cool down and then respond He never he never like cools down and comes back and he's like so let's talk about it He's just like yeah like you need there needs to be some communication here Yeah Yeah Yeah I also think like the way everyone met each other was like not probably the best circumstance like the Gabrielle thing Like what about what about the other friend that is a princess in the Asian one Yes What's her name Why am I forgetting She's fantastic So do you want to speak about the fashion on the show I love it She cannot afford anything But we figured that she was just gifted all those things going with because she's in you know marketing and they want to like give her stuff I'm surprised they have It's it's Mindy She must never use Mindy Mindy fled her parents and is a singer on the street and then apparently Right Yeah Yeah Yeah Yeah Yeah Yeah Yeah I mean she she is super great She has a movie coming out that looks awesome with what they gave her I think she did as an actress She did very well I like I like her I think I think they have a really good friendship I I mean like I don't the fashion is what makes it for me because it's Darren Starr and Darren Star

made sex in the city and I love sex in the city and it's just like it's just honestly it's fantasy It's like and you can't have total honesty in like these relationships because it's a drama It's like a comedy it's a comedy scene I would try more I know you're a big fan of Lily Collins And I like her also but I feel like she's a little bit young for the show I want to see a little bit older I feel like a little bit She doesn't feel like a woman to me I want to like you know not as old as Sarah Jessica Parker Not that she's old but Robbie Yeah How old is Lily Collins It doesn't matter She's a little bit older It would be nice Otherwise the show is you know a fun watch watch She is a little young and Lily Collins is 34 years old Her father for the show This is so well her father I mean Phil Collins is the the clothes from the show come from Darren Star Probably how she is you know she's a you know right now it's like a really hot topic Neo Babies in Hollywood What's wrong with being a Nele as long as she's working you know like she's just like sitting is it taking away spots from people who are not neo babies is taking the spot away from you I have I'm not gonna make any statements not very far from a ne baby Um the questions I have is don't do we think that they got there regardless of the talent being a baby and and in that regard don't we think that if you were to pile everyone that tried out for that role without taking the nepotism out of it there's probably someone else that's better No but maybe you know it could run in the jeans like Julia Roberts is um what's her name Yeah Emma I love her She's she's great She also created one of my favorite shows on Hulu Tell me lies I saw the cast a couple weeks ago Um just on Abbot Kinney and there could be someone better than Emma Roberts I'm sure there is But on the other side of the coin ne Baby only means your first project because you will you will get favor just like a Nele baby after your first project Oh that's the person that was in this Let's get him in that and it works just like nepotism So it really does Like the nele baby thing is just to break through If you keep your job and you get to another project I think you prove there's also people who are not interested For example um Ireland Baldwin Baldwin you know I mean uh she didn't like acting or modeling and now she's a screenwriter and and it's I mean good for her So babies some of those babies Ja Curtis is a Nebo baby Did you know that Wow I didn't know that she's a baby 60 years So you know it's not their fault No My point is that babies are not good My point is is that there's someone that was better than them for that role I know I'm a big believer If I'm a big believer if the role is yours then it's already yours Is that like and that goes back to you and when I interviewed you sometimes things happen out of the ordinary you have to

just you have to believe in those things That's what happens in a negative favor of yours You have to believe it happened because something else better is coming Yes I love that you came into this whole show this whole show happened because like you came into an interview for something else and how many episodes later See this was good It's good See you later and people love it and people enjoy coming on not gonna throw you on the spot How can people connect with you That's your camera over there Camera number three let people know how can people find me They want to connect with you and find you with Emily in Paris Um I have a very long Instagram handle but it is Tiffany Oh Hakim pour and um I'll be back So you'll see me You can catch me on this Listen wherever you are I hope you have a good rest of your day We'll see you tomorrow Tomorrow is Wednesday That's fine That was good So you guys always have like a topic We always every day like we'll we'll like a chance Good morning and die What scarce And
