might not be a she and she's a they it might be a day I'm trying to find it This is I genuinely trying to understand where uh people are coming from when they get upset about the pronouns being used because I'm trying to be completely empathetic and get the right pronouns correct But if I make a mistake I just hope that it's not taken as like um a like slight right Like it's but there is there's a woman that um man there's a at a coffee shop and I'm pretty sure they are a woman but they have a beard Now there's a full beard on this person and I'm I'm not sure what they want to be called I think just like whatever their name is say like oh can you ask him or her for the total I think it's a I don't know I think I'm not sure that I think people are now wearing badges or like not just bad Yeah Yeah or like a pin Um Yeah there are pins where it says like I refer to he she uh uh he was a he no I refer to she her hers I don't know what the pronouns are We need to go back to grade school so we need to but there's so many pronouns you could choose whatever you like Should we get into this uh topic Let's let's get into this Um withdrew their Emmy nod submission because there's no space for them in the gendered categories So I'm assuming she wants a new category for yeah her non binary gender pull their name out of the consideration for this year's primetime Emmy awards due to the lack of inclusivity in the categories OK In a recent variety interview the Yellow Jacket Star announced that they were withdrawing their name from the running for outstanding supporting actress in a drama series I don't think she wants to be called an actress I think she wants to be called an actor Although I think she's playing a woman in the show That's not a place for me in the acting categories live told variety It would be inaccurate for me to submit myself as an actress Uh It neither makes sense for me to be lumped in with the boys So is she uh but this is this raises I sent this to Good Day Live because it raises a very interesting question Now uh this is not a conversation about what someone is entitled to be called She can she's entitled to be called whatever she pleases That's why we live in this country of course But my question is like now do we create a third category Because that is kind of that's gonna that's tough Well I love love tough questions Where do we go from here Because if you don't want to be a man or a woman you want to be not bo binary that means we have to have another category binary category But then that means how many competitors are in the non binary category Is that of the same caliber I guess I mean if we have non binary best uh act acting see non binary best acting it wouldn't be actor or actress but like how many competitors would there be like four Well I mean I I don't know probably more you know actually I like

where you're going with this The Emmys could uh could grow with the rest of the world and acknowledge non-binary people But my point is that statistically it wouldn't it wouldn't make sense because there's not as many people applying to the non binary category as there are men and women Which would mean that like so like the men the sporting man wins sporting woman wins and the non binary character will that win will be against less competitors ideally making it not as high of a caliber of a win Yeah Yeah Yeah I think because there's less competitors Well listen then that person has a better chance Is that what we're doing I mean I don't know Let's let's see Like I think that I think that brings up a great great topic and they the Emmys should take note Thanks to Kyle True Blood Not thanks to me Thanks to miss the woman in the act the act the person that's acting in yellow jackets I don't think she wants to be an actor or an actress Liv Houston Where do we go from there She doesn't act she's acting you know I don't know I I pull up Liv Houston I don't know So it liv was once a woman Oh no a man I don't know We don't know I don't know This is the topic that I don't know enough information about to comment on other than everyone should be treated with respect dignity and because you are part of the human Again that's not the conversation is that goes without saying everyone gets respect right 100% 100 of the time But how do we take that personal respect and bring it into business I'm not saying we shouldn't I'm saying how do we do that You know uh because she's she's essentially requesting a third category for her Um I don't know statistically I don't know if that's feasible Well I think um I think she brings up like a a solid um thing where you you know maybe this is this is where we should be going We should open we should open up open up the discussion for having a another category for uh non binary people Yeah I think that would be really epic of the Emmys to do that because a lot of people like a lot of Gen Z people are like are the Oscars and the Academy Awards the same thing They don't even care they don't even care Like like we were at Craig's the other night and this girl was like the running joke is like have you been photographed yet And I haven't been photographed yet But this girl that was walking up she he was like oh you're a tiktok star So it's like a whole another world of uh um recognition Like I feel like that I never knew I would be that guy but I feel like that guy that's like what happened to the world What happened Because I'm like it's not about the sexual Uh it's not about like who wants to be what But I'm I'm curious I'm like if we don't care about the Oscars anymore To me what that sounds like to me is we're not uh keeping ourselves to a high standard of art

anymore If we care about more about tiktok and Vine videos than we do about like an hour and a half piece of hate to break it to you Vine is over It's been dead Well the Vine stars transitioned into tiktok is what I'm saying Yeah Yeah Yeah So I know that but the point is is that if we're more concerned about these guys than we are about like an hour and a half of art that someone put like 20 million to \$100 million into I think we're just not keeping ourselves to a high standard of art I'm with you on that But I think that's also like the how media and and things grow and change Like I mean look at like people who were listening listening to TV shows that weren't V shows on the radio and then then the TV happens you know what I mean And then the then from TV like there were a couple of channels and then there became like 200 channels And now we have so many ways of watching media especially this show that like I am so grateful that you can find us on so many different platforms I'm gonna just throw this again of how you can follow us You can follow us at Good underscore Day Live or on tiktok or on Instagram or on youtube or on Facebook But what's great about social media is getting one Now we're also on Roku on the Big Bear channel on TV If you want to watch us all the time then make sure you download that app on Roku and you can watch us all day Yeah let's get back to the fun facts Um But um I'm with you about like what measures like good entertainment I think because we're in such a space of uh the wild west when it comes to entertainment now Um It's what brings you joy and a lot of people just like to watch silly videos That's why America's home video did so well for so long Um So that's why tiktok is probably like so big and I thought tiktok was being shut down Well they they the U SI think the Senate was trying to ban it only because it gives China like a direct vein into our youth because they are the ones that control tiktok It's a Chinese made app And uh what I found really interesting about tiktok was is that like when you're in your search bar in America it shows you a lot of hyper sexualized videos a lot like 90% is hyper sexualized But but in Asia when you look at tiktok it's all about um uh uh people people graduating people getting better jobs what the GDP is people are earning more money It's really boosting the economy and the mindset of the youth up in a in a much more uh foundational way and then here it's you know obviously not Ok So uh you know I am not that old guy that's not concerned with today's youth I'm concerned with today's youth I mean listen they're 16 years younger than me and I can I can see a clear difference in what it used to be to now And I don't I don't say that they're wrong I don't say that the youth is wrong They are pioneers We're going in a

direction I don't know about I just hope that it it continues uh to keep us safe and healthy Yeah Well speaking of youth you know I'm all about the youth youth I'm all about them at all about them all about them Um and so much so that I have uh started a what what would you say It's a workshop It's good stuff It's a it's a really good uh it's a it's a a healthy program not just let let's say the kid doesn't want to do a talk show but it's still very healthy to just get them out get them in a structure where they can uh app themselves in a more communicative way not just like sit down with a pencil and a paper and write something down Like let's let's get interactive Let's let's do something during the summer Not just read a summer reading book and chalk it up to that Yeah What wrong with that I was thinking like I most most six year olds have ipads on I think they don't take a test on an ID I think some do Actually it it depends on what school they go to I I still doubt it like a scantron Remember the scantron Is that where you did the pencil thing Yeah you have to fill it It's a multiple choice There's no way they're taking ipads because these kids know how to hack hack ipads Open up the wireless and get all the answers from T GP There's no way you are you know what you are you are the walking chat G BT Tell me what's going on here guy Uh OK So this is cool Uh marshmallows exist because of sore throats in the 18 hundreds Yeah So the marshmallow plant I didn't even know marshmallows came from plants I thought this was like if you were to say what's the most processed food marshmallow would be like top five for me I had no idea It came from a plant right Didn't you I thought it was like there's a plant that we get marshmallows from what What Ok Now the marshmallow plant had been used for pain relief in the 18 hundreds it was mixed with egg whites and sugar for Children with sore throats The recipe was so tasty that the people made it into a treat called the marshmallow Well they called the marshmallow in the 18 hundreds Well no I think the marshmallow is its own name I think the flowers call something completely different But they were using this plant that we get marshmallow extract from and this is from this is why I think plants are so incredible plants heal Um And uh when you know my mom was sick I tried to like get her green smoothies every day and she was like it's green I was like yes And she goes can you make it pink So I throw strawberries and she still wouldn't drink it And I was like Jeanie I'm trying It's ok Yeah Yeah she did What uh what do we have next Um Corner Ok Yeah I'm I'm with you Uh corner corner you wanna bring this up Uh You know me you know all too well what's going on here Kyle Well we got the Barbie cast and Greta Gerwig took the stage at Cinemacon uh to reveal even

more details about the movie Here's what they said Let's get into it What did they say What did they say Open up the what did they say What did you check it out Let's check it out Let's check it out Are you gonna go see Barbie with me You know what It's funny because there's a lot of memes going around like like a group of tough guys on their way to go see Barbie with their friends because everyone is significant others everyone's gonna go see this movie What do we got All right Ok But now you're probably aware that Bar is one of the most anticipated movies Uh 2023 They're even talking like Oscar uh talk for for this uh g masterpiece I'm so excited OK She lives in Barbie take a trip to reveal Uh Let's see here OK We we really didn't know the synopsis I didn't know the synopsis OK To live in Barbie land is to be perfect is to be a perfect being in a perfect place unless you have a full on existential crisis or you're a Ken which is interesting because didn't Ken always have like existential existential crises I didn't know that Ken had anything I thought Ken just like like stop motion like dolls and stuff I I remember like Ken like freaking out sometimes Ken K would have these like existential crises I didn't know that Yeah OK Um Alongside Margo Margo and Ryan the cast is stacked Let's see You know Ryan was getting some flak from the younger women They were saying he's too old to play this role What he's like 45 Wait Ryan's 45 Ryan think about it 20 years ago Wow I didn't know Ryan was 45 years old I can we Google how old Ryan Gosling is Ryan looks like he's like much younger than that To me that man looks younger than 45 Yeah Ok Do you think he looks older than 45 I think he looks 45 40 45 I think he looks like in his late thirties to be honest Yeah Well let's Google it Let's see How does it matter but ok ok you want to read the rest of this and then I'll Google Ok let's go back and forth Uh No check your phone I'll do this I'll do this bad boy right now All right I'll look up to see how old he is See this is what's interesting and this is why I brought up the article because very little is known about this movie and there's so much buzz about it I'm trying to figure out if everyone's just going off of these five second clips or if someone knows something So while very little is known about the movie as press for begins to wrap up heading into the summer we're starting to learn more and more about the plot and the characters and what the filming is like Ok so it's 42 42 There you go Yeah Yeah Yeah This is what Margot Robbie wore to the Barber premier So cute I can get behind it I don't I can get behind it What It's a pretty good outfit I didn't know you were asking for your opinion of her elephant But ok I don't want anyone ask for my opinion for me to give it I'll give you a Margot Robbie fan Yeah Yeah

Oh I mean how could you not be She's gorgeous She's gorgeous and super talented Oh I think like she's like attractive She's pretty attractive I wouldn't say like that's my go to So if you were in a relationship if you were in a relationship and she was like you know how like people get passes Would she be your past She's not one of my past Who would be your past Oh yeah you're in love with Natalie Portman She's like your your girl for life Yeah she's a go to she's a go to but Margot Robbie looking Absolutely You know where it comes from You know where the Natalie Portman thing comes from Uh Queen Amala from Star Wars when I was like 11 She was like 12 and she was Queen Amada I'm like who is that You're like that's gonna be my wife That's so cool That's so cool It's interesting because he looks younger here Yeah he he looks like a young dude He looks like a young dude here I think the bleach like super bleach hair and you know that was the lighting maybe maybe the lighting maybe the lighting Uh they're about to tell us what they teased about the filming process To discuss what it was like writing the film alongside our partner I didn't know if she wrote it with her partner Yeah Yeah Yeah They work together and then directing according to variety saying we were making each other laugh and then we got to the end and we started to make each other cry good and maybe you wanted to direct it Wow Wow Ok And I said step aside Greta there was a point I was so in love with it that I couldn't imagine anyone else doing it Wow I'm getting chills America added that she was oh America That's cool She was a big Barbie girl growing up She wasn't Wow But after reading Greta and Noah Skirt made her want to sign up for the project She said there were moments when I didn't know whether I was laughing or crying by the time it ended I was a Barbie girl which is a testament to Miss Gerwig who should be paid all the money for that That is awesome That's awesome Meanwhile Ryan revealed to the cinema con crowd that it was like becoming Ken saying up until this point I only knew Ken from afar I didn't know Ken from within I don't know how anyone knows Ken from within But I love I love the look that they gave her Uh I'm assuming her stylist gave her this look I'm saying it's a good look It's adorable look She looks great I love the hot pink I'm all about pink and and bright colors and and yeah she looks great She looks really really great Um this is hilarious Let me look at him He continued adorably giving a shout out to Greta and Margo saying I doubted my Kenner I didn't see it but Margo and Greta conjured this out of me I mean it looks pretty ridiculous Pretty awesome at the same time You Ken to me Yeah Brian also teas that Ken has no sense of humor per variety adding he's utterly deadly serious I'm

coming with you Uh did you bring your roller blades I literally go nowhere without them Which is hilarious because if you had a Barbie and if you had Ken he always had roller blades So this is the first time Barbie's been on the big screen Uh the the uh yeah the movie theater like they she's bitch Barbie has her all these movies like they were all on VHS and then like DVD and then you know um Barbie you can see Barbie I think she has her own show right now Like with the actual like um like like like like like like you do have a friend named Barbie Wow Really Bar Bar Bar How she just had a kid She's my age Like I feel like Barbie is such like a is such an older woman's name She's such a she's such a Barbie too is super uh super blonde like like those like husky blue eyes She was cool Did you have a thing for Barbie Um alongside David Barbie's friend You did Skipper from my high school Brian's comments playing Ken Margo said everyone knows Barbie and she's never been on the big screen before It was an enormously exciting opportunity I can see like look she's perfect for this Um I think so many what I love about this is I is exactly what I thought the movie was gonna be it was gonna be about them going to the quote unquote Real World and I can't wait to see what that looks like um from our perspective Um And I'm so excited I'm gonna have a Barbie themed birthday party You know what Shout out to the production team I think Greta was also shouting out the production team What the what Look at this Yeah that's Lego Land meets Meets Wizard of Oz meets like a girl's favorite dream Yeah Yeah Yeah Yeah that's awesome Um Yeah it's pretty cool In fact the Barbie set was so amazing Margot said other cast and crew shooting on nearby sound stages like an upcoming Fast and Furious movie would swing by just to see what it all looked like That is so cool It's cool that when like so many other uh actors want to see what what's going on and you can it I do believe like really cool things have vibrational like have a vibration to them And this is this is definitely one of them Basically every single thing this casting crew says about Barbie gets me more hype for its release I can't wait to see what else is revealed in the coming months And also I can't wait to be totally blown away when I see it for the first time I love that Isa Ray is in it Yes I do too I mean and I have to say appropriate so appropriate And I have to say like this is big for me because as a little girl I would play with my Barbies and I would host a TV show in my basement and then I would play with my Barbies because that was those were my characters those were my actors and I would tell stories So it's gonna be fun to see it as an adult even though I don't think I'm totally question what's your question So the gender switching and swapping and

what what do you mean Not conforming gender identities OK I noticed that all the female barbies are actual females like not actual females but like they're women that were born women that are still you know what I mean Yeah I mean we don't know that though Like we don't know that I don't know if it's crazy that I have to be careful with that statement You scientific sentence I didn't say you don't It's amazing in this world I could offense That's probably offensive to someone and I'm just stating what scientifically never mind Yeah You just you just have to you know just we we're in a very curious about them I'm curious about them Like how do they feel that like these are none of them have transitioned I would have thought maybe some have maybe they're maybe they're gonna make a maybe they're gonna make a k transition to a Barbie You never know We don't we don't know we don't know we don't know we don't know Um I know that there was a Barbie that came out the other day Um And I'm gonna try to pull it up uh if I can find it here Um But they had a Barbie that was released and I believe she was um a Down Syndrome Barbie up Barbie is pulling up Um So Barbie's kind of got a lot of uh you know it's funny that we've been talking about Barbie Barbie for at least the last 10 minutes Incredible how she has been in the news and the media for a very very long time Actually there's an epic documentary on Hulu that you should check out um about Barbie Uh But this is Barbie's First Down Syndrome doll Um And and they really are making a really strong impact to try to represent all people Um So I don't know if you saw the real Barbie dolls that were released about a couple of years ago Um and then they had real Kens There's like a a bun Ken Oh yeah Yeah Yeah They had a man bun can made a pineapple shirt or can they had like a bunch of the year I moved to L A It was as if like you couldn't even live here without a bun I didn't know what was going on You had to have a ab and a plaid shirt I can't get a bun like a bun into my fro just like a bald throw in the back would be my man bun Yeah Yeah Um So that was that's like them That's a look That is for sure A look Um So much to talk about Um Let me pull it up let me pull it up Yeah You only sent two things once again only two things You only sent two things Here we go Um There we go Uh Cute or terrifying flounder's very realistic appearance in the Little Mermaid divides the internet What do we think These are this So um for those that don't know a little mermaid is also coming out Um So it is a uh girl's dream right now Millennial Summer It's obvious at this point any Disney movie that goes interracial gets absolutely scrutinized like unreasonably What who It's a flounder It looks like a fish What is the issue we're not drama on anymore We got CG I that's a

talking fish What's the issue What's the issue I mean But what like what's wrong I don't understand Like what do you mean Everyone's upset about how flounder looks I'm like that's what a flounder looks like I know But is but is the actor that plays flounder Uh not white I'm confused No they're just they're upset because the flounder looks too realistic Oh I was so confused Everyone wants a photorealistic live action Little Mermaid until it comes time to recognize that what a true flounder looks like Oh God that's what a flounder looks like Flounders have eyes on one side of its head because they rest on the ocean floor They did their best to at least make him look symmetrical I mean I think he looks fine fine It's going to be fine I'm just saying like if you look statistically if you look out of every Disney movie that goes interracial like they just they just tear tear it apart Really Oh my God I had no idea Um Yeah this is like a big prince and the frog is still suffering princess and the frog is still suffering back to Barbie real quick Um So this is what Ryan said real quick He said one day I was bleaching my hair and shaving my legs and wearing bespoke neon outfits and roller blading down Venice Beach It came on like a fever like a scarlet talking about his role as Ken That is so funny Yeah That's so funny because you know as an actor like you really go into it you kind of have to like sign off on just like OK I'm gonna allow my subconscious to just like wait in this water for a little bit Not pull out too fast Yeah see what happens Um And then this is for you Kyle Dodgeball sequel officially in development with Vince Bond expected to return 20 years later What's going on Ok Are you excited What is going Nobody makes me bleed my own blood What I'm gonna cry Are you excited They're making a second Dodgeball Yeah 20 years later Let me tell you something right now This movie was so good No one even dared to ask him to make a second one They're like don't even don't even just well I'll just watch the first one again Don't even try Did you ever play Dodgeball as a kid I don't ever play Dodgeball I'm sure there's about 30 people with harsh hard core core memories from me just sidearm across the gym What did you should have been on my team What do you want to do Yeah I do the thing where like I chuck a ball they go to grab it and whip the second one at them Get the head shot head shot head shot No we were told that in grade school you can't hit you can't hit above the the neck and but like in between like you have to be you guys develop his Children No we develop that not to learn If I got hit in the face I went to private school You went to private school I know I was saying I was saying it out a lot I'm like what You went to private school I got bullied at I still got the scar from but from head up is off limits

the heads All I'm going for it doesn't even count unless it's an ear shot Wow Yeah I think it was like everything was safe Remember those Red Bulls that made it the it was like so excited about Dodge Ball excited about Dodgeball Wow Andy knows who rip torn is You gotta be you gotta be at least in your forties to know Ok so here we go Uh This is exciting Um This so Melissa mccarthy was asked about her role as uh Ursula and as she was talking about her role as Ursula she was asked if she would ever do a um what is it Bridesmaids Union And she said 100% And she said the scene that everyone was afraid to do was this scene right here where the women go in to try on the dress and uh and everyone starts you know having experiences with the food They all have like food poisoning She said they were so afraid to film this um because it was controversial but also hysterical Apparently I'm I'm looking at it Apparently they couldn't actually ventilate this room So people actually did start to look sick and it's happened to me I actually did get sick Uh a movie I shot in 2016 we were shooting in a hotel room and like when we would shoot it was just the director and the cinematographer and like maybe the ad and the sound guy But when they call cut 20 people would rush into the room and like touch us up and and fix the room and then rush back out So it was like all the air would just like evacuate as soon as they call cut And I remember at one point I was like I'm dizzy and it was yeah Yeah Yeah So kudos to these guys because if you don't have ventilation I'm sure they had 10 times as many people coming in that room too And she was nominated you know for an Academy Award Melissa mccarthy for best supporting actress which I thought was hilarious She was I don't know what she was saying Something really good She was talking about a take that they had with the almonds Oh God yes She said that Kristen wiig at one point had 40 almonds in her mouth Yeah that's pretty awesome Oh whatever it takes to get that Oh so nasty It's so nasty Um We talked about this but not on the show I don't think we did This is Crazy Um Red Table Talk has been um like Facebook originals is no ma it was an entanglement I you know I don't know I don't understand this Facebook has all the money in the world Why why not have this show continue Was it a good show I mean there are moments that I really enjoyed moments I mean I didn't watch every episode when you're breaking up with them No I mean I really liked I there was one show that I like remember like we couldn't wait to watch that one where she told Will on the Red Table that she was cheating on him No no no no no That wasn't the one you watch Red Table Talk I watched that episode That was it I don't even to this day I couldn't tell you how to get back to the to the site But

I when I heard I was I found it in like 10 seconds watched the whole thing As soon as she said entanglement I saw it the day she cheated on him She well ok they have open an open relationship but then she like made it a point to be like no no no I'm with this guy more than you right now And uh it was I think it was August I believe Can you imagine if your girlfriend said that to you I just leave you stuck around Well they had an open relationship but if she makes that decision and tells me about it then we're done It wasn't it wasn't it doesn't sound like she wanted to be with him just him So he goes So he's like well technically at this point you're like cheating on me because if in a relationship if either one is like I don't want to do this anymore if you're in a relationship then the other person should stop But she didn't stop And he was like well what happened And she's like I got into an entanglement and I shot up out of my seat when she said the word entanglement I was like I've never heard of such a perfect word for kind of shoving the accountability off yourself You know what I mean Entanglement and then will goes entanglement and I lost it because I felt like will felt I was like you're really gonna use that clever word right now So clever you know you know just just shoving the accountability right off yourself Entanglement But but what is this What it be Spiders You know what I mean Own up to your own up to your stuff We were spiders Entanglement Entanglement Uh This is in the news too The popular diabetes drug Monro could be I don't think I'm saying that right Monjo could be FDA approved for weight loss this year Here's what you need to know Don't do it don't do it What are we doing Did we not learn anything from People were walking around with like a lollipop head They're trying to make you lazy You don't think for a million years your ancestors are figuring out ways to be healthy without Mojo I don't know if Mujo wants to sponsor us Listen you need to take Mojo but personally I don't think this doesn't seem we wouldn't be saying you need to take it We would say like do you feel like depends on the check maybe capitalistic country That's what this is what I just did just now is what you're really dealing with in the Yeah Yeah Yeah Speaking of checks Um this is pretty epic This is Mr uh Mr Powerball winner 2 billion in the bank This is all smiles I mean would you not be all smiles I'll tell you what if I had 2 billion in the bank you wouldn't have my picture out there I'd buy Instagram get my picture off Nobody's gonna know what I'll never forget this I was at a convenience store in Sherman Oaks right off Dicken Street Uh near Blue Dog He's doing something and thank you and the guy he he can we're not talking at 1.5 speed so he's got to fulfill But the guy in front of me at the

convenience store in the line wins \$100,000 in the lottery He like he he he scratches scratches scratches wins \$100,000 right there starts screaming Wait What does 100,000 screaming No before that scratch scratch scratch What does he do Do the whole thing I remember I did convenience store front I got a convenience store off Dickens He's in front of me orders the ticket scratch scratch scratch and then he's got \$100,000 because that's what I thought You know most people have to do like 2.5 years of work to get \$100,000 This man because the average income is \$30,000 This man does scratch scratch scratch right there But then he starts screaming it He's like I want \$100,000 I'm like bro be quiet like this is a this is L A like someone hears that outside All they need is the piece of paper in your hand All they need is to get that piece of paper out of your hand You gotta be quiet and I told them I was with my friend Chris Chris was like be quiet Quiet down One of these homeless people out here is gonna come sprinting at you and get that piece of paper That's all they need It's not like you know if someone steals your credit card you can just call the bank from a from like your own phone and show your car off If they get that piece of paper you've lost \$70,000 Quiet Yeah Yeah for sure I mean listen this goes back to us when we got like the lottery ticket and I thought I won the power ball and then I was like wait Andy do we win \$2 billion Billion dollars And then I went through all the emotions because that Andy was like you're gonna have to hire someone you have to hire like for mental health you're gonna have to hire security And I started getting so overwhelmed Truly I was like because it's really cool to like have that much money But what's not cool is like people that wanna come get it That's just the way the world works baby And I'll tell you what I'll put up with that any day a couple of \$100 million any day you could be looking for me for a couple of 100 M You could be a nice man Antarctica by myself I could not I don't think I could do that but you know what I'll buy like some robot friends talk to them You know what I can do this coming Monday Um Our friends Jackson Cal has a new restaurant opening here in Brentwood California We're super super excited It's literally Kyle Kyle It's where my Pilates class is right below it Yes we're so excited Gemma Am I saying it Right No he was he was in the back I said don't bother don't bother him because I because I was just like walking in just to get more information I'm gonna message them and we're going to potentially film there on Monday morning to start the festivities there We've never been there We were at his other but this is different We were at we had four different types of pasta was my favorite The we had the and then we and one was like marinated for like 24 hours

was just a natural tomato sauce He what was it The 36 hour process of making a tomato a strict tomato sauce Go check out the restaurant It's like in a it's like tucked back in this corner and but it's it's beautiful And then and then um that we we had that drink we had my man uh make us why why do we do that with black people Why does my man always come out my man my God why do we do that They're calling your name here Is that it's Marie But yes is that what happens in Jersey You feel like you become Italian You don't have any choice If I say mozzarella in Jersey City I might not even get it They might not even give it to me like what you want What you heard How I say it I said what do you what do you say Baba what did he say He said mozzarella You know what mozzarella is No I don't know what mozzarella is next I feel like I remember my mom being like I want you to meet a nice Italian boy that's an oxymoron but a lot of my best friends are Italian wouldn't call them nice Um I I was going from L A for like four months I moved to L A in 2013 I I come back for uh because me and me and the guys used to do these like uh like insane like like hotel parties in ac like at least like once a month And so they were doing one and I was like I'm flying back for this when I have to So we end up back at um what was it Harris I believe we were at the Harris pool party but it was like day time And I remember all my guys from Jersey are in the one group right in front of me and just talking back and forth and I'm listening to them and I'm like did we always talk like this I was like your 100% You sound we sound insane I was only gone for four months and I can already hear the difference but you say you can still hear my Jersey accent 100% Wow it comes in But no I feel like you put it on I can put it on when I not anymore You're like oh the old Yeah like what like you you're not I'm Jersey That's Jersey That's not a time This is what the running joke is What I said when Bruce Cardin was here I was like you all are so proud of being from Jersey Yet you all leave like the space That's a basic See we expect that from other states Oh my state is the best Look at my mountains Look at my lake How about your people How do you like your people Aren't there more like mafia people And and and we love them too They don't love us Hilarious Um back to a little mermaid real quick Um This is this is what Ariel looks like Yeah it's a black woman This is what looks like Incredible This is what I thought that was I thought first Cage Javier I didn't know this Great He's gonna get some power Eric Yeah Yeah Very cute Uh Jonah Howard King He looks exactly like the cartoon like the car You know what Sebastian Shout out Shout out to that guy Scuttle might be his first That might be his first big role It is I think it is um get ready to be

part of their world The character posters for the upcoming live action Little Mermaid are here and they're already making waves Swipe up to go under the sea Actually I think it's in 2024 It's not now it's one more year 2023 has some big movies coming out though We have June 2 coming out we have Willy Wonka coming out is did you know this That's crazy That's pretty cool That's really cool Exciting stuff I'm really excited I'm um it it's definitely in the little Mermaid Are they gonna touch on uh that plastic ocean that we have Are they gonna touch on any of the marine wild So they should um speaking of some uh wildlife uh this is uh you know a little bit of uh entertainment news Uh uh I almost called it Megyn Kelly Um which is funny because Megyn Kelly is a correspondent Um but this is Machine Gun Kelly and Megan Fox But if you think about it together they're Megyn Kelly Um they're taking things day by day but they feel like they are ultimately meant to be together and they are working towards that goal Um Listen I told you this the other day I was like listen I think we're totally meant to be together career wise and like have like a show forever Yeah But if you want to go experience like other like acting acting programs here and there go for it But I believe that we make a great team Yeah we do We make a great show We couldn't be any farther of an example from these two No we are so far First of all because we're not dating and second of all because we don't drink each other's blood That third of all neither of us has ever put a spike on any part of our Actually that's not true I was in um uh Kesha's music video We are who we are And I had a bracelet and had spikes on it I was they were like they were like it's a punk rock roll They were like we don't get punk rock from you And I said watch me and then I like I like I took my curly hair and like made it really big and I like braided it all on one side and made it poofy on one and like tons of makeup and then glitter and he's smiling at me like that before you want to see it so bad I'll I'll show you a photo Yeah It's really funny I can only show you the I can only show you the video I don't have a photo of it actually do on Facebook Yeah Yeah actually Yeah Um So keep talking about these guys please No go for it What do you have to say I'll bring up the photo Can we move on from these two Can we move on I don't like personally Cool Great Awesome I I get interested in like uh no this is gonna sound wrong What are you gonna say I can't follow couples that I'm not artistically interested in What couples are you interested in Gun Kelly's music because he came at Eminem and that you just don't do Wait why did he come in And he thought that was gonna help his career sir Eminem has beat out a lot of black people in rap What made you think you were ever

gonna touch that This man is one of the greatest rappers of all time He was started by Doctor Dre I don't even know who your manager is Wait are you supposed to know the manager's name It doesn't matter Machine Gun Kelly you don't belong That's like someone that's like the next that's like some random guy on the street and be like you know what I'm gonna fight Mike Tyson next It's like you're not in the same class You're not in the not in the same world Don't dare say that again You hush your blast in his mouth you hush your blast in his mouth Um This is OK So this is uh this is me that's me I told him I could be punk rock Look at my bracelet See look at my bracelet on the on the left hand side Those are spikes that look at the glitter Look at the curls I can What do we think about this What do we think about this should come in looking like that one day No I'm like really in I'm really dancing I like that's a hardcore dance Yeah You love it Love it I love it I love it I love it I love it Uh You know the gumption you for it Yeah I mean I told them I could be punk rock I love that That's a cool look It's a great shot too I mean it's a still shot But I swear the roles when when casting directors in this town are like oh that's not for you or you can't play that I swear 99 times out of 100 it's the perfect role for that person You know what I mean Because usually people are really good at playing the opposite of themselves Uh I really don't come across like someone that would be a cop I can play a cop so well my acting coach literally did not give me any uh um cop roles And I asked him one day I saw this cop role being played I was like can I play that He's like no he's like that won't He's like you're not gonna have fun with that I was like why are you You would be so great as a cop when I look at you I see cop I see FBI agent I see love interest I see I see like dad all my aspiring actors out there does not make them right Why do you have that human condition when someone tells you no or rejects you you automatically think they know what they're talking about What is that Do you think You do You think they know what they like No you cannot do this They're like oh no what did I do wrong It's like maybe they're wrong Well I think our brain It like I think our brain is trained to learn how to uh it's something about like it's it's almost like it goes back to prehistoric times So we have to think like when somebody says no we have to then like either accept it or no we I forget there's a thing about I know it's a it's Friday and I'm stumbling over my words um survival brain survival brain That there's something about that when somebody says no you're like all right and then you like go another way because you just like yeah you just like keep moving but you go a different direction But like why do we even believe this

person like they wrong every time a casting director doesn't give you a role I'm like so you're not gonna do your job right No I don't think that listen I'm a big believer in thinking if the role is for you it's already yours Like you don't have to work hard to get it Like you you have to work hard by meaning like you do the work before and then you show up I'll give you an example Lifetime There's certain things that I wasn't casting where certain people were like that had seen me do roles like that or like how did you not get that part I was like I don't know they didn't give it to me I don't think it's I don't believe that it was ever yours to be But then you're putting all the power in the casting director's hand saying it was it was never meant for me just because the casting director didn't give it to me There is a there's a fallacy there because just because I didn't get it doesn't mean it was never mine Kyle Can I tell you something Yeah I don't believe it was like this is where it comes into spirituality for me I don't think you listening I was listening to you It wasn't the casting Like so the casting director gave it to somebody else So I'm not saying the casting director has all the power I'm saying ultimately a bigger force is at play Like if it was yours it would be yours So my big belief is that like if you didn't get it there was a reason why you didn't get that job It's because it was allowing space for something bigger and greater So no mistakes no mistakes There are no mistakes because everything that has let me I mean yes there are mistakes that we make what we learn that are personal to us but we always end up to where we're going and where we need to go I do believe this 100% because in my in my beliefs total belief like like what that guy said with break A No is a new option Um And I do think rejection is your protection and I do think like if it was your role it would be yours And that was um something that it's a little too basic I mean I think there's there's there's certain actors out there that would I think agree with me where it's like no there are rules out there that I didn't get that I fully believe were mine and it's not up to someone else to determine that No But I do think there's a greater force at play Like if that role like there I heard you I get it but just agree to disagree on this one because I definitely think there's roles out there that some people are meant to play It just never got it For instance Django was not Jamie Fox's role Django was Don Cheadle's role He was Don Cheadle was meant to play that role He just never did Why why didn't he play that role if it was Jamie Ok why did they go to Jamie I don't know it was it was his role to have It works out that way I do believe that And I look we can we can agree to disagree but I do think like it saves a lot of heartbreak and a lot of like pain and internal suffering because if you

look at the world like that was mine and you lost it then you're going to be hanging on the fact that that was mine and I lost it No you can let it go and still believe it was yours and that someone made a mistake and then have your heart shaped by it to then be more to more to other inconvenient circumstances I'll agree to disagree with you on this one because I do I really there's something about like having the experiences that I've had up until this point that make me believe that like if it was mine it would be mine I get you Yeah I know Well let me I'm gonna say it like a bazillion times Like I I know you don't wanna hear it but I'm gonna say it I get it talk show I'm talking I get it on the show You got it Um You know what's interesting though Uh I thought this was strange and I'm gonna pull this up real quick Uh This is weird We're seguing seguing in a different direction But this is bizarre Disney sues Florida Governor Ron desantis and officials over targeted campaign of government retaliation Breaking Disney filed a lawsuit in the US district court against Florida Governor Ron desantis and various Florida officials over a campaign The company alleges was patently retaliatory patently anti business and patently unconstitutional Disney is coming after someone I think it has something to do with Disneyland and what he allowed them to do with Got it got it got it got it got it You know if Disney is coming after you is over is it I don't know That's a governor easy at Disney I know Disney Huge Disney owns everything in the entertainment sector Ok We'll see We'll see Stay tuned for that one You wanna you wanna try the governor that that went against the entire country for two years during 24,021 That man's not gonna budge Well let's see Let's see Stay tuned I'm excited to see what happens with Robinson and I had the same tailor from Jersey Wait what Really Um Sky Robinson reveals he had an affair with Diana Ross She's such a beautiful lady I guess everything comes out at a certain age right Yes Yes Yes What did confirm this I mean what's there to I feel like I feel like that's a given I feel like yeah I think that I think that happens Sky Robinson They look like brother and sister Do they I don't know I zoomed in He's got such beautiful eyes this guy Yeah they look very similar Do they Maybe they are They have like the same kind of like smile Maybe that happens after too much uh too much entertainment in your life Oh yeah Yeah Doctor uh Yeah Doctor Foul Although I've only seen his Botox work so I can't comment on other work I'm sure he's very talented but Smokey and Diana both look great That being said Yeah Yeah Yeah but I'm sure Doctor Foul is great and if you want to uh check out a plastic surgeon you can check out doctor foul on Instagram and he's in Beverly Hills Um Yeah he's coming back on our show
