With great scarce and in the what happened Yes Wow This doing all just say who does what this study professor that give me a dance move Is that the Pony What what are you doing That's the welcome welcome Welcome to Good Day Live Today is Tuesday April 11th 2023 We're so happy here in the studio with me Andy Natasha Marissa Gold is jumping up and down because something's coming in the studio and I don't know what it is Um And a lovely Kyle True How are we doing I'm Michelle M if we're just tuning in for the very first time welcome to our show We are the feel good show here on Amazon Live We're also on youtube Instagram Twitch You name it We're everything everywhere all at once That joke can continue to go actually Yeah For how long At least another month For at least another month Yeah Yeah Yeah I want to know what's in the box that came in from up Si really want to know Can we know we know so much excitement so much excitement I've never seen anyone so excited and if you're not getting any of those inside jokes Make sure you follow us at go underscore Day Live on Instagram go to underscore Day Live on tiktok Um and and all that good stuff Ok so now all the games have been taken away from me Oh no Yeah I have no cards I have No you have I was thinking we could pull a card We haven't pulled the card in the I'm talking about the original cards Yeah The one that I got from Josh If you bring those cards over I'm gonna cry because you're not gonna be here anymore The red ones she's in she's out She comes she goes No I really don't know Thank you Natasha Those are not the ones but that's ok We'll make it work They're mindful messages just as just as good as I don't know Where the where did you see They're mindful messages What do we need to know Uh So today I have to go to uh traffic court Why would you bring that up before the cards What I do I want to know that my mind message is for traffic court Yes Inspiration board That this is these aren't the right card card inspiration board If I'm feeling down I spent time creating a vision board to place in my home I fill it with quotes pictures and desires Who wrote this Not we appreciate your mindful messages What you like you like Uh affirmations and vision board Affirmation Did you have a vision board I did But then I heard that you're not you you put what you want on the vision board and you just take it away because your vision actually might be way bigger than actually my vision is way bigger Look at this M AM studios in full effect the home of AM AM studios Thanks to studio place This is where uh we will reside and gather from I'm pretty excited residing gather I'm super

super excited I got some messages on the way in recording it I'm really excited What is in store for M AM studios Thank you so much Kyle True Blood for asking Um It is the place where you too can have a talk show Um I literally sit I posted this on my Instagram when I sit across from someone I'm inspired by them I can see the title of their show what their show should like consist of and the rest of the show M AM Studios is basically offering people to have the chance to create their own real as a host to also produce their own to also produce their own movies and to also experience and produce their own talk shows This is a content creation This is a studio These are these are the beginning of M and M studios where we will tell movies and TV shows And um as as you know how studios go we aren't necessarily distribution but working on that too in the moment Uh distribution I find comes when the project's good Yeah I mean the projects are really good They're here to distribute the good projects not the bad ones So they'll find you Yes They uh as they say if you build it they it will come you should build it Right Yeah when you build it they will come you came into my life when I built the Charlotte Chronicles that you were even supposed to be No you weren't even twice I didn't even know that you were an option Well the first time you didn't know it was an option Then when I was an option I still almost didn't make it I mean you didn't audition you didn't send an audition for the 1st 1st go round the first line of like auditions I didn't see come in right But then the second line I had the second time you did have an a I thought you were too sweet because you carried your dog and you gave her a kiss and I was like who is this guy It's so interesting It it's such a uh like a testament to the hardships for actors Like you could be right for the role and then you do something in your audition and the person's like oh no I don't know I don't know about that one and it's like that was the right person I've been a casting director before And it's heart wrenching when you like when you see the right person but then like the rest of your group on somebody else and you're like no no no It's just like you know I know I know It's it's not it's not it is it is heartbreaking Um I thought it was really cool Um I was a casting director on a show uh with Selena Ring Um uh and I had all my list of choices and they picked every single one for the roles and that also I do have a good eye for talents um which I which I'm excited about um and excited for for the future of M AM Studios and all the fun things that are gonna come along with it Yeah Um How are you Speaking of Mmm Studios I'm at home making a movie right now Yeah What movie are you making You wanna look at me How's it on revamping retooling Well I don't know if

it was ever retooling It's like as like a film creator I'm sure you know this like you you can create something give it to a test screen audience which is what they're for and you get your feedback and you're like oh I gotta make some changes Yeah Huh You were my feedback to one person You said plenty The sound is horrible I said that I did the sound was I didn't think the sound was that horrible Um We we we uh listen I thought it was great I I stopped it Hilarious II I think we just this is what I told Andy the other day is um after I wrote Jewish by association and I placed and I got all these agent meetings Jewish by association it was all about why not Jewish by association Like so when I was working as a when I was working as a bar mitzvah dancer all these kids would be like what what was your Bat Mitzvah Like and I was like I'm Catholic but like I started to go with it I was like well my bat Mitzvah was insane And this is also when I was like it's a Mitzvah or Bar Mitzvah I thought so you just said what I said Mitzvah Oh I thought you said I was like was that like a special thing It was like it was very epic So I remember so like my hair is naturally dark and wavy Yeah Yeah So like I feel kind of fit in the mold of like what I should look like like a like a dark hair dark curly hair goes for acidic Yeah I don't know OK Sure Yeah And so um and so like I played that up and when I especially when I was 19 and um I said my bat Mitzvah was amazing and I just like went with it and then the more the more I probably did 5000 parties And I would start saying I then then I would start saying like I mean you know what I'm not Jewish I'm actually Jewish by association People loved it so much And so then it kind of stuck And then when I wrote my very first uh TV Show Jewish by association um I got like invited into all these rooms invited to all these agents And then um one of the agents said uh my best piece of advice for you is to not get hung up on this and to keep creating And so I did and um and then I wrote a movie called uh IRL which is funny because that's part of uh dating IRL Um but that's about a 30 year old influencer mega influencer who crashes her car into a wall and she wakes up thinking that it's 15 years prior So she thinks she's 15 years old Um kind of like Freaky Friday Um It's like it's like uh 13 going on 30 but in reverse Oh look at me No that's not the curly hair That's the dark hair darker hair Um but you should see the picture of me with the curly hair Kyle loves the curly hair You're like you're like really into it I have the Italian bug So like yeah that's an Italian girl you know like in your stable what you see the most you just end up being attracted to You're attracted to that What did that Well that wasn't curly black that wasn't black curly that was dark Like if you go on surfers all day you're gonna end

up being attracted to surfers So you're attracted to women that have my aesthetics is what you're saying I got you on the spot Clearly you're not in a relationship because you can say that otherwise it would be a danger zone I'm sure be OK No you it's part of the job You're gonna you're gonna have to compliment your coworker every now and then No you're not gonna have to compliment me like that Are you talking what are you talking about If I were your girlfriend I'd be so annoyed like I'd be like who is this Who is this Who is this Who is this I mean you kind of pulled the compliment out of me I had to say I did I did pull the compliment out of me and later on when you have the conversation with your significant other like why would you compliment her It's like what could I say Yeah What could you say How is it between a rock and a hard place You know where I live Um So this is uh this is our good buddy Jennifer Gardner Um she was recently on the Today Show and said that her kids aren't on social media and she says that her oldest is grateful Ok Um So this is this is her What's that With this information you know I don't know And then we'll have the conversation go find evidence that matches what I have that says that it's not good for teenagers then we'll chat and how do they feel at this point Um my eldest is grateful Wow See you in the long haul Basically What she's saying if you couldn't hear it is that she was saying that uh she um told her kids that if they can find any scientific evidence or any um any articles about social media and that it's good for a teenager She would let them have it Ok And then I like that I like that a lot That's I like that Parenting That's good parenting No you disagree Uh listen I don't disagree because every parent uh is case by case basis based on the child that they have to parent So like you see some parents like going nuts with their kid but it's like you don't know what that kid is Like 24 hours a day Like they may be 10 times more of the energy needed for you than your kid Who knows anyway who knows Um this Yeah this is um we move too fast we're moving too fast Yeah the conversation the conversation topics We don't even talk about them We just we just we we slow it down This is Bobby Brown Um you know her from um uh what's the what's the show that you like stranger things She is engaged Um she uh is 19 years old What do we think about this Well do I have time to talk about it or we're gonna move on We have um I can't believe she's 19 She looks so she's 30 there Ok Anyway continue I don't know I don't know That's not I don't I don't think it's gonna last I don't think it's gonna last and I'm not saying that I have no idea who they are I have no idea how their love works Uh I don't even know where that guy came from I just watch stranger things All I'm saying is that

statistically you get married young you divorce That's it I mean this is a very high percentage you're gonna divorce especially in the entertainment industry I don't know what they're thinking about You just date like you don't need to get engaged at 19 Give it some time Give yourself some time give it some time Give it so much time that this is what the internet is saying Sis aren't you 11 But for real like you just you just left high school Why do you think engagement is the right But you know to each of us you know you know who knows I could be eating my words in 10 years They're still together Who knows Listen they might be still together in 10 years I think like you know but only to an extent like I think like she's 19 I know but she doesn't even know how tall she's gonna be for the rest of her life I think I think at 19 you stop No you don't you don't you keep growing my feet stay the same I my height stayed the same My weight definitely changed Everyone's different Some people grow until 30 Some people stop at 18 Some people stop at 15 Who knows Who knows Yeah So anyway so this is uh this is um from brought to us by page six and it's like sis aren't you 11 Way too way too young way too young I don't know I mean listen I like you know what are you gonna do What if your daughter was 19 Would you allow her to get engaged Would you allow her to No of course not Right Why why Because it's just not my thing Explain for the audience what you like if I'm waiting to like I'm later in life I don't think she should but I think like you know what I would I would have I would have her sit down What's the youngest You would allow your daughter to get engaged I guess 18 19 So you wouldn't stop her I mean no because she's 18 years old She has if she's out of if she's out of my house and paying for things she has the privilege to do that right now You're my daughter I'm calling the shots and you're 25 That is that is not a thing What 25 You you better be joking because that's no you're 18 years old and you're out of the house If she already got she's gonna have a divorce on her record We don't know that We don't know that But listen she is she gonna cancel any of her dates for singing She she's not a singer She's an actress 00 we haven't got to that yet We haven't gotten into that yet I think it listen if she's out of the house she has a full time job She's paying for things and she seems like and she's in a stable state of mind Go for it It's her choice Her state of mind is what I need to see and she has a full time job She doesn't come to you for anything I need to check him out What's he like How old is he Probably around the same He's 19 years old He looks a little older But who knows I don't trust I don't trust guys Yeah I know because you are a guy That's not why No because you know how most guys

are Exactly You are a guy I don't know how most guys are because I'm not a guy I know how most women are because I am a woman The man don't even think you're getting married to a man that's younger than 24 OK I would say that man has no I that's not even a man a man still a still a boy Uh You know who is a man who said it was interested Jennifer Lopez said that men are technically aren't even useful until like 43 Jennifer Lopez She's been married like seven times Um Speaking about men being useful Uh We've got Nick Cannon He said I think uh she would relate to I mean very well based off of like yo you've dated a lot of people in the public eye So have I we probably really understand each other What do I think Swift and Nick Cannon What do we think about this She just got out of a relationship of six years I don't think they're gonna date but I think that I think he's right They they probably do have a lot in common I mean they both date in the public eye It's she has 12 Children She has zero but they both date in the in the public eye So you think that this is a good relationship to like give it a chance to give it a chance Like what She's gonna get pregnant in seven minutes If she dates she she doesn't need to date them They can be friends No Listen I I listen I I mean he just came out and said this I think he's just saying this just to say this Um I think he's saying that they could be friends like they they have a there's a relationship he wants to date the woman Not What what about when did he say she would they would date He's just wants to meet and shooting a shot for baby number 13 which just so happens to be Taylor's Lucky number He joked in new podcast interview that he would absolutely love to have a baby with the newly single Taylor as he thinks they would bond over the shared experience of dating as a celebrity What part of that conversation is friends Nick Cut it out cut it out cut it out Number first of all baby number 13 see somebody go You have to take the 1st 12 All right before we move on to 13 How old are these kids You know they gotta be at least 12 years old That's true That's true I actually not like how many does he impregnate at once I don't know He's he has multiple lots Lots Right All right We'll let it go Should we get into this next topic Oh Cardi B came after the Dalai Lama Listen I love you know this this topic is like next level I I saw the picture last night after he said look at the picture and I almost it's it's so rough Uh Cardi B came out Um She had some not so nice words to say about this What's this What's with what the Dalai Lama And then uh the the the pre thing what what are we doing here You know I everywhere Yeah They act like there's no women anywhere everywhere Yeah Everywhere Kiss a kid That's horrific Remember what what did she say Let's get to it I don't think there was like

kissing You said he asked the child to suck on his tongue I'm sorry I know It's disgusting It's super super disgusting Ok This is what she said Um So she's asking parents to be careful when it comes to protecting their kids Um because this is next level obviously this is next level Um But yeah well I mean I'm trying to get to it So but I don't want we're gonna go what are we doing It doesn't quote her Well I have I have to bring up the Lincoln Bio of exactly what she said Follow us on a journey We're going on news I mean we're all curious to see what Cardi B said about the Dalai Lama right Well we'll see we're loading Um This is what Cardi B so Cardi B is a mom I believe of two very little Children Um She said said uh constantly talk with your kids about boundaries less than a day after the Dalai Lama apologized for asking a young boy to uh Cardi B is asking parents to be careful when it comes to protecting their kids The rapper took to Twitter to urge people to teach their kids to be aware of predators A message that came less than a day after uh Dalai Lama came out Um This world is full of predators Cardi B tweeted on April 10th without mentoring the spiritual leader They prey on the innocent ones The ones that are most unknowing Our Children Predators could be our neighbors our school teachers even people wit wit money not with wit money power And our church is constantly talking with your kids about boundaries and what they shouldn't allow people to do to them Um No sleepovers Nothing Yeah And so she has a child that's four and um 19 months Yeah She also explained how she thinks the conversation with kids should go tweeting Uh from the time you start potty training your kids you should tell them Don't let nobody touch your anything Enter the bathroom with you and don't keep no secrets away from mommy Uh Yeah I mean that's yeah teach our kid proper grammar also while we're at it But anyway I think it's she's a rapper even more Need to never mind Anyway the point is is that yes Uh I guess in today's age it's not too young to start the conversation like we have to talk about molestation before we even talk about birds and the bees Nowadays we got to get this under control So it see my brother and sister in law they have four Children four under the age of five And um my great uncle came to visit our family and he asked to get a hug from Isabel who's five And um and Isabelle because Isabel doesn't know him She said she didn't want to give him a hug And so my uncle was offended that he didn't like she doesn't know you do you want her to go hugging random men Random men No don't take it personal right So so so my brother tried to explain to my great uncle who's like 90 something you know that like it has nothing to do with you We just taught our daughter that like if she feels

uncomfortable not to Yeah exactly Not to give anyone like a hug or a kiss
And I gotta be honest uncle as an uncle you're falling into that category I
know Well you know he's a listen the man is a very very very very well
respected and loved But anyway anyway yes I'm with I'm with them Like if
the if she doesn't wanna give give him a hug she shouldn't give him You
should not say give your uncle a hug If you know like go ahead give your
uncle a hug It's like no no no If she feels uncomfortable because Children are
very suss to energy and if they they can like tell right away like like they
don't want to sit on Santa's lap don't make them sit on Santa's lap then maybe
Santa's a little uh you know honestly go out takes that as a job I don't want
all these kids to come sit on my lap I'm on to you Santa I'm on to you 100%
You're gonna be such a good dad one day Be a very overbearing dad I'm I'm
gonna be a helicopter parent I know God God I I uh no not yet Uh we'll get

my show What is Gold Belly I think they're gonna find out It looks very good Is it food or is it like a it looks like it looks like a sandwich What did you like to know I don't know I don't that's why you guys stick around and ho let's clean up Same same same same but different Wouldn't you like to do here So here is our Jackie and box it You wanna get it charged up You use this fantastic charger over here This is the output over there and it has an extra cable like this with the ability to charge it in your car So that is really cool So we have it all charged up It has here you can press on the display You can see now that it is not drawing any power It is not bringing in any power and it is 99% charged which is cool So as you want to use all your separate things you can turn on the little lights and it will show you as you can see there that now you can draw power out of them or you can turn them off just like you would at home if you do if you wanna leave something plugged in but not having a draw power there you can turn it off So let's have some fun and see what our Jay can fire up So in the past we have used the Jay to light up our lives with go we have charged our cell phones and we have done a few other things But oh we've even lit up the Arrow Garden How amazing is that that we were able to light up the Arrow Garden But today we're gonna push the Jari to the limit and uh we are gonna take a look at the this works What's this This works That car vacuum Awesome Very cool And we could even take a look at it Tabi used it and uh how amazing is this Oh my goodness You can just keep on going and going and going You can get into every little look and cranny in your car with all of this How awesome So this is what we're gonna do We're gonna stick it into our query Let's do it this way So you guys can see what I'm doing Turn it on with a little light and the display have gone on because we are about to fire this up Thank you Mr Jackie There we go That is cool So let's see what else we can fire up today I mean that you can I mean that is just so cool You see powerful vacuum Jackie fired it up Let's have a look at some of the other things that we can um fire up today Let's see Here we go So let's try the LaVoy Air purifier I mean this is a high power drawing eye item I think I would imagine So it's not something that you would generally plug into this little power port here Amazing if this works you know how incredible this must be So not only is the Jari used when you are camping or exploring the world in your RV or your car the Jakey can also be your backup power source for a disaster Um You know disaster preparedness The Jay is definitely something that you'd want to have in your home And like God forbid there is something and the air is not pure and now you're stuck in your home You've got no power

You can't put your air purifiers on If there's a huge amount of dust in the air or if there's a big um you know like we are in California there could be a huge earthquake will bring up a lot of dust but you obviously want to still keep your lungs protected Let's see if the Jari not only will give us power but will also save lives So plug it in over here we'll turn it on and you can see let's actually put this up a little bit because you'll be able to see the lights So let's put that try and see if you can see that there this all in the name of Ok there we go So the little light is on We have the uh did you see that Ok Turn it on let's turn on the light so you guys can see There we go That is it So we have our voit that is powered up You can see the light on over there and this is thanks to our welcome back We are doing a special segment on Good Day Live I am Marissa from like 2.0 here with Natasha we are very excited so excited Look what we've got in the house people Gold belly So ok so here's the thing about Gold belly When a gold belly box shows up it means there is something good inside because they are bringing foodie food to you from around the country Are they international Do we know if they're international I don't think they're international So food from around the country Ok So here's here's what happened right Ok No we have to go back to the very very beginning to the very end You showed me the sandwich No I was gonna go even further back I go even further back So there's a long long standing long running joke between Andy and myself that um my favorite sandwich in all of the L A area and honestly probably everywhere cold deli style sandwich is from the large not wine and cheese store in Hancock Park It is so delicious It it's this like little wine and cheese store and only people that know it's like a hidden secret There's a deli counter in the back of the store and they only make like I think they make like eight different sandwiches They're artisanal they're delicious The quality is excellent and I love it And a few days ago Andy and I were talking about it and Andy said what do you think about sloppy joe sandwiches And I said well I actually love them but they're totally different than my Larchmont sandwiches First of all they're hot and they're usually ground beef And he was like no that's not what we're talking about And then Andy sent me a clip from what he grew up with which is from the town hall Deli in South Orange New Jersey It is their version of a sloppy joe sandwich And I saw he said this to me and I it was like 10 o'clock No it wasn't It was like in the afternoon I was like Andy I'm starving Now what have you done to me Ok Was there other stuff Well Andy studio place yes Was going to be a studio place Cafe right at one point and at one point it was gonna be like coffees or this or and there was a

lot of um iterations of it until we you know we settled with just studio place
Yeah but we were going to do the sandwich It was gonna be the only thing
we sold in the studio place cafe this sandwich this sandwich So we are
checking out So we we got the gold belly to deliver us a town hall deli
sloppy Joe sandwich And I'm very excited I'm super excited Ok so um we're
gonna unbox it here live and so this is what happens when you get a gold
belly box Ok you get the food is coming out but you get something here that
says exactly how to dress on that Hm It does have the address does it No it
doesn't No there's no real personal information on here So it's ok Anyways
there's a QR code because everything is gone QR codes these days So it's
really awesome So if you are if you're getting something from Gold Belly
that comes deconstruction constructed then it will come with instructions for
how to reconstruct it So here we go Ok So it's 00 look at this Ok Now we're
gonna get rid of the oh my God There's so much good food in here I cannot
wait I'm so excited ice pack ice pack These Nordic packs are by the way are
like the best way to send food and keep it cold Look at it has these like crazy
Wait Andy they're fully constructed They didn't send them deconstructed
That's crazy I am actually shocked because I watched a video on how to
what Ok so to put it back in the bag Oh OK So Gold Belly has sent us two of
the famous Laffy Joe sandwiches from the Town Hall Deli in South Orange
New Jersey This is the turkey and roast beef which is their original the
original one that they are famous for And then this one we got with turkey
and corn beef And it also has it has um Swiss cheese on it It's on rye bread It
comes with their very own coleslaw that they brine for three days It's a dry
coleslaw no mayo in it And then there's a very special dressing A Russian
dressing that is a proprietary blend They do not share the recipe with anyone
And then this is the secret I even I told this to an and he didn't even know
they do a very thin layer of butter on the top layer of bread to adhere the
bread to the rest of the sandwich So that when you cut it it doesn't cut I mean
it doesn't it doesn't slip around The reason for that We're gonna open up the
roast beef One first the reason for this is because these sandwiches the bread
that it's on is on a quarter inch thick sliced bread So it's actually very thin
and it's the size of these You can see like they cut the bread this long way So
the length below So it's kind of almost like a sub I'm so interested now that
we don't have to construct it Look at this Oh my God Look at that Oh my
goodness You see that So it's cut into it's amazing This is cut already into
eight perfect squares So what so this was like probably made yesterday and
then they stuck it in a box and they sent it out which I'm not really like uh

you know leftover food but there are certain foods you can do that with They are but this is obviously they've master the art of getting the sandwich across the country totally So well let's see if the bread is soggy So look at here eight I know I know So look at how OK so this is first of all I just want to say the bread is not soggy which is a feat in and of itself OK So you can see there's a layer of So now I'm so curious because I I saw them make the sandwich Oh yeah I see the little butter layer OK So turkey Coleslaw Russian dressing Swiss cheese rye bread made with real caraway seeds roast beef Um Coleslaw Russian dressing Swiss cheese teeny tiny layer of butter Should I take a bite Should I do it Are we doing it OK I'm so excited by the way Also I'm breaking passover early for the sandwich I shouldn't have said that but let's go into your right because then it right Ok This is looks so good Oh my God That is so good That's so good Kinda ridiculous Andy You know you want some and he does know you know he definitely wants some Oh my God that's so good Ok That looks so good It really does I have to say as far as jolly sandwiches go Here's the other thing I love about this This is I like this is gonna sound so weird I can fit my whole mouth around the sandwich deli sandwiches Sometimes there's like so much meat like the meat to bread ratio is not appropriate and I'm always taking stuff off I love that this that they do such a good job of getting like the right proportions the right bread to meat to cheese ratio It's so good It's so perfect and there's a crunchy factor from the coleslaw and it's not over liquidy because there's no mayo in the coleslaw There's a little bit You get the um you got the juice factor or like from the Russian dressing but it's like the perfect amount You do not taste any butter it tastes no butter Um which is what they said They said that it's purely just like it's like helps the sandwich What they said is it creates a barrier between the bread and the sandwich that the bread does not get soggy and it works Ok So that is awesome So should we open up the next one and taste Oh ok So Gold Belly Thank you for delivering What is now my favorite deli sandwich from the town hall deli in South Orange New Jersey They're sloppy Joe Go get it and if you can't go there now deliver it from Gold Belly Now you don't have to drive across town to get the sandwich Gold belly Deliver it so good Thank you Gold Belly and no wrong I wish you had no interest I know No interest Yeah it is delicious Ma so good It looks delicious It looks amazing Oh oh a chance and yeah with greater scarce and
