crawling underneath the table and I felt like crawling crawling under the
table No I didn't because I wanna look crazy But that's the problem with
today's world right We can't act like Children Of course we can can we

no no we're not allowed to divulge any information It was where she was

going There's only four of us Kyle Um Andy can you show me the monitor so we can see what we're about to pull up Um We got so much to talk about right there Can do that at a restaurant Can I get that Uh Can I can I get that Um uh Listen I went to Italy once Um Let's take a look at what I did what I did uh over here Um This was over the weekend Let's take a look shall we Uh this is without sound Um So this was this past weekend which was epic Um Listen if whether you believe in Jesus Christos or not this is epic You can see art and people become one with the art that's me um behind the scenes Um being Emily in Paris um looking at the art which is so incredible because people have been working on this for almost 30 something years right 37 years they've been working on this thing Um And then these are actual uh uh replications of the artwork So the artists the models merge into the art like live faces Oh Watch Just so this is at the Redondo Performing Arts uh Center Um Look at this It was packed that's our new friend um Despina and her her buddy Um Is it is it not Chris It's Demitri Um Thanks Um And this is cool So this is where everyone goes Um Everyone Kyle brace for this Everyone is a volunteer Nobody is getting paid Can we get Kyle's face in there Everyone is a volunteer guy So look at this This is what this is this is the last this is the last uh image which is very epic Uh That is my buddy Uh Is it brat No and that's David Um And then um and then there's David again He's the one who created this It is actually the most beautiful thing to see Um But like you have to be patient because there is no movement That is the only moment you get Um But I think Andy was just like is we that can't be real I was like yes if there's Jesus also known as Matt watch Matt close his eyes if we can get him I don't think he's closing his eyes Oh because he's got the actual Jesus eyes the eyes Uh That's David telling me how it all happens Um Shall we take a listen to what he has to say Let's take a look No OK I'm the music director You're the music director the real director He this was his idea 37 years ago It was his brainchild My baby This is your baby Wow And how did this come to you Well it's kind of a long story but Laguna Beach Pageant of the Masters which I was a big fan of I thought if we could do something like that with a Christian message that'd be really fantastic That started 35 years ago Well I'm standing here with Brad Brad What's your last name Brad Hicks the art director of living art experience right How did you get affiliated with this How did this all happen for you Oh I have been going to Rolling Hills Been a church all my life since I was a kid and we were very theatrical church and this was something that was going on when I was a kid 36 years ago or 37 years ago minus COVID

whatever And uh and I'm just born as an artist part and and not too many other skills but I I learned to talk better now But anyway so so God is just going to church and blessing the stories and then putting the stories into famous works of art And then and then being able to share this with as many people to just really be moved We met you guys the other day on our show Good day live in the studio Yeah Thank you for coming Um This is just so epic I have to ask you said you've been part of this since you were seven I've been I've been a part of the whole group That's a pioneer They've known me since I was seven But also I've participated as an actor I've participated as a model and I've been able to be behind the scenes and see everything from backstage and then eventually move where I'm able to connect people and bring people you know behind the scenes and come and now promote the event And so um when I was an actor it was so moving to see the people how they respond to you and and then behind the scenes how it's completely crazy and then you and then you come in front and then it's just a different energy and then being a part of being a model for me Something so spiritual Tell me how you got involved with this production I I mean it's pretty epic Everyone is Kyle has a theory but we won't share we cannot share his theory show Jesus Chris theory Um But this is interesting because basically uh everyone has been part of this since they were like 12 7 right Seven And whether you're married to the person or not married to the person But II I said this like when you are going in for a job interview you always want to know how long the last person was there for these people have been there for like 30 Yeah So it means that it's a good working environment tight knit group tight knit group Yes The tight knit group Yes you can dig it Um and you too can check it out next year Um I believe it's around the same time Um And it is all stories about Jesus Christos also known as Jesus Christ over 30 years How do they keep everyone around Like you can't even keep a crew Have you seen anyone from the Charlotte Chronicles between besides Oh you have you seen Tammy I see everyone from Charlotte Chronicles My I wanna be I'm like I'm like Adam Sandler where when it comes to like I wanna work with people Am AM Studios Um My big thing is is that you wanna work with people that you work well with like and and your friends become your family and um and and love just doing what we do Uh Here at M AM Studios where um I and I posted something over the weekend I just wanted to show like the magic of what it's like to sit across from somebody that inspires me Um And I showed what it was like to sit across from and like how he inspired me and then I clipped together what happened just

through him working with studio place and 200 hours I'm inspired by you every day Just just reaching for compliments you know I am And I've I've there how many movie ideas and show ideas have I thrown your way to like be part of uh soulmates That's one I've I've talked about bromate which I thought roommate soulmates Bromate with you and and Nick Nas That would be an unscripted reality show that we would film in your house which you wouldn't do Um Nope So don't tell me I'm not inspired by you real unscripted reality Well unscripted basically means that there is a trajectory for how the story will go Um it's just unscripted You just have an outline so you just have to hit certain beats I'm just not you know No I don't know if I would be the guy for that Why not Because like when people say reality show I'm like do you really want the real person or do you want like a like a version Well I think everyone puts on a heightened version of themselves when they're in front of the camera and they're aware of it You know what I mean Like I think when you do it so long you're just like oh this is just me and I'm being myself in front of the camera and it always been that way er on barstool sports I can I can talk if you got to keep it PG I can't do reality Well I don't think it would be PG I think what it would be I mean I'm not trying to make it like super rated R but yeah like you and Nick Yeah super rated R but back to that's really interesting stuff What was your favorite uh favorite piece The last one was my favorite when they I sent it to you Of course they did Oh I got something completely different That was where Jesus was like hanging up Have I ever have I ever shown you what crickets sound like when they slow down Uh no What do they sound like when they slow down when they're slowed down It sounds like a choir and that's what that's what I heard That's cool That's super cool That's super cool Should we get into some entertainment news See what's going on I think I sent some stuff over But you did Should we get into yourself first You wanna you wanna do Kyle's corner first Yeah this is just embarrassing Ok All right What do we got here America We got to step our game up They compared American school lunches to all the other country's school lunches and it is just look at this Oh God he says it looks ok to him you got processed meat peas in the United States is no no no no I'm not OK with no one can eat peas by themselves Come on your culture This is ok for a child This is not ok Would you give this food if it was Oh yeah Go ahead Answer that No that's a no no Would you give him this or that I would give him that That's it's it's school lunch This is South Korea's school lunch that you would give them everything But the American lunch watches I mean this is Italy food fresh red grapes Pesto

on the side with salmon huh You you got the bro What was that I'm getting hungry Yeah That can't be lunch That's like brunch Kyle You don't eat ever What do you Ok Ok This is not this is not enough That's a snack It has to be the skinniest people in the world What what is this These are all the lunches No no no Look at the cheese That's a snack as well Did you see that piece of meat on the red side That is not what's wrong with that meat It's it's ok These are private schools The rap dates probably Oh no that's not date No those are that's not dates Oh no no no no no It's grape leaves They're so they're also called they're also called um um and Arab in the Arabic culture which my grandmother would make for me all the time as a little girl And I would sit in her kitchen and we'd take the grape leaves out This is where I got my gossiping from I would sit with my grandmother and my aunt my great aunts and they would speak in Arabic and they would like be like have the grape leaves out then they get the oil like olive oil Huh That's Arabic Yeah They wouldn't speak to me in Arabic because they wanted to talk sh I speak about other people and I'd always be like that must be that must be a Middle Eastern thing to talk about other people that speak Arabic and like they'll just start talking in Arabic And I'm like so you don't know what they're talking about Yeah Yeah Yeah So I ask my grandma I'd be like uh sit though can I please sit though as you know Arabic for grandma I said can you tell me what you're talking about I want to learn Arabic No you can't You're American I said but you're American She goes yeah But no she's American She was she was God Rest her soul She was American She actually uh got me this necklace when I was 16 Yeah And it's uh yeah it's very special to me Um yeah but I learned my storytelling skills from her So like everyone would be sitting around the kitchen rolling grape leaves and like in my summers in Utica New York or if you're watching um we would be like making these grape leaves and they're delicious stuffed with rice and love And sometimes they put in which is meat I'm not a big meat eater Um only here and there will I have the steak Uh but yeah it was good times That's cool Yeah Yeah Yeah Ukraine's lunch I don't know about this I don't know about that What is that I don't know but that looks like it should be terrible war time which is probably too soon of a joke That is not funny They're in more time and I thought it was too it school lunches from around the world with ac these are for kids and then Spain Uh I think my favorite is Italy Listen I'll tell you something right now I went to Italy I almost didn't come back I tried the spaghetti at the airport to see if it was better than America's food and it was still it was still better than America's food because I had everything I had I I

went to two that's it There's only three in the world It has the best chefs in Italy Uh work It looks like Giacomo but it's pronounced in it One is next to the door one is like the it's the same What did what did you just say Well in Italy it's the duel in Spain It's the I don't know about the difference there but I know all I heard was ok And the first Versace and the first Louis Vuitton are right outside the D yeah Where where the the David is is there in Italy Yes That's actually there's a I don't remember David over there It's the only thing that's in the Duomo is the David And it's a painting So I didn't go in the door You didn't go I went to and to the Versace I went I went past the I never went into the door You go go there was a statue of David And when I went I was a nanny and um and the family that I went with uh they brought their phones You're not supposed to bring your phones in and they were taking pictures and the little guy's dad was like taking pictures and the mom was like you can't do that He's like what are they gonna do Arrest me She's like exactly They're gonna arrest you in a foreign country You cannot do that A foreign country bro It's all funny games This is not America where you can say that kind of thing Yeah Yeah Yeah Yeah What are they gonna do Uh yeah 100% luckily they didn't catch him but you know don't don't do it I went to a temple a middle Eastern temple and they're like no uh it's actually like 45 minutes outside of L A So um and and and they they were like take your shoes off and no phones and I was like what are they gonna do But then I was like you know what let me not test them You don't just took everything off abided by the rules Went forward even in America You just gotta you you gotta uh live according to other people's rules sometimes Now what we have Are you showing people this Oh this is yeah this is the um David in the Duomo in Italy Um uh also known as Florence Um I was I had the privilege to go there for two weeks in Yeah I went to I went to the in Oh yeah there's probably different things in each Um but this is the uh for I stayed at it was an epic experience I stayed in the four seasons in Florence And every night a little Italian man would come in with a little tray and I would get like the uh with the melon every night and then I would Skype with my mom and my boyfriend at the time and they were like you are literally living the life and I was like I am from like 8 p.m. on I said but from like 7 a.m. to eight and I'm like on like watching somebody else's child which wasn't bad But like every time I would go travel the city and it was just me and a baby like on the cobblestone like like roads just like checking out the sites and I looking back on it I don't think I would ever really do that Somebody else's kid in a foreign country scarred by it No no no no no no I'm not scarred by I'm not

scarred by that Well that that that's not because of them That's because of other reasons Well I mean yeah it's not because of them I just know that like you there's no you don't have an on and off clock like you don't can't just be like see no that's what the babysitter's for You're gonna get a babysitter when you love your kid you're not gonna want an off clock That's not true That is not true That is not true I'm sure there are many times when there are moms that want an off clock I think I have a best friend from Germany Not a parent anymore Everyone's a parent Oh no Diego Diego doesn't have any kids but like to not want to have like time to yourself is not realistic to themselves I always think that way about a dog I did My Children are so different Kind of there's differences obviously but I don't think they're that different Like it's still something you have to take care of It's still a dependent in in a certain way So when I had the dog I was like I don't have any time for this but you you have time for yourself You still get time for yourself It doesn't even speak English You can still communicate with it I have just more hope for humans because they're gonna be able to communicate with you at some point You know what I mean Like so is hurting She's limping I have no idea what's going on She's got to go to the vet right now No But if she was oh well listen compared to a kid it's like tell me what's going on You hungry What do you want this Great Let's do it Listen I think if like I I think like there's like you know carrying the child and doing all the things Like I feel like it all and all it does lean all along the mama carrying the child You don't have to hold a baby for nine months Ok After the child is born obviously then you have to deal with like potential Like you know what like post post traumatic stress like postpartum Like there's a lot that goes into it I think it's a beautiful thing I don't know if I'm I don't know if I'm cut out for it Not everyone is I I mean like I think I'm really good with kids I just don't know if I could actually like actually physically carry one I don't know if that's something I could do Ok I mean no one's putting a gun to your head No no nobody is I just think it's like it's just something that like I you know acknowledge within myself that it's like something that I feel like I wanna have that experience but like that scares me Yeah I mean Maria Manos is having a baby and and uh they have a surrogate which is really cool I think that's awesome Like I think you know not everyone um is meant to like carry a baby whether you have your baby through adoption or uh surrogacy like or not not everyone's supposed to have Children but my favorite people are adopted You know what That's about My favorite people are adopted every single one of them I do think if I were to go back like if I do think if I made

it to like a certain point in my life and I'm like 130 I have no family I think it will make me sad So wait let me make this straight You think you're going to live to 130 now I don't know But we keep talking about 100 and 30 like and if I were to live definitely too late by then 1 100% I'll still be rocking the tube dresses You make a decision at 75 That's what it sounds like I don't know Hilarious Kyle Let's get to something a little more light This is Kyle's corner right now Uh So what we're looking at there's gonna be an abundance of flowers in California this year because we had such a wet winter Uh and we're already starting to see it Uh and they're just saying hey go up there check it out It's gonna be uh a very rare Yeah it's gonna be a very rare Yeah it's gonna be a very rare sea year And um they advise you not to walk on in the field because it because it tarnishes the color you'll step on the flowers And most people like to like you know they think they're the only ones out there and they're like babe get a video of me and they just run through the field like Dorothy They're cute There's now a permanent trail going through this beautiful field Get a video of me Yeah so they're they're advising just to stay on the trail because most people sprint through the flowers and so beautiful Um You know actually it's so funny that you said that because I was going through my um my snaps from the other day and there's me uh with the poppies I'm gonna download this real quick Um Export Wait no story Oh wait and I'm not trying to send the story I wanna what are you What are you doing I'm looking for my next article It's uh 20 things that Americans do that are annoying to Europeans Maybe this right now What is this What do you got I just I just said it's 20 things that Americans do that that are annoying to your Yeah I know I mean please explain what are they Buzzfeed is gonna explain it to us Let's see here Can you guys see this here Good They act so amazed by things that are more than 200 years old presumably because they don't have many things that old in the USA Why is that annoying That's just a fact Yes Our country is very young You're jelly peanut butter and jealous about it because we still have our youth and we get excited about all old traditional things What's your problem First of all I should have seen this coming You're just complaining to complain and like I gotta say that's a trait coming from some other continents Americans don't complain that much Really What do we complain about We don't complain that much What do we complain about I know you said the other day we complain just to complain Who you said that to me I like I think I I didn't say that about me I American Right Ok Overall come the nominator I don't think Americans complain I think we're wowed more than we complain And when

you go places are you like oh my God what is this What is that No you're like you're like wow that had to pause for a second Well that's that's interesting I mean and he's not complaining nobody's complaining right But when Europeans come here what do they do immediately Oh stupid American Where's this Where's the that what is this What is that You know what No I'm with you though I can hear them in museums when everyone else is is so true This is so true Are loud and oh my God Yes of course We're loud We're like we're like the people in the um in the movie theater like oh my gosh you're throwing popcorn Really Yeah You never seen that Americans I was just at the getty it was silent in there Ok So I don't whatever they're talking about If you go to like Kentucky's you know National Treasure Museum I'm sure there's some loud people in there Kentucky's National Treasure whatever But I'm saying like the main museums like Lacma moma no one's talking in there The Museum of Modern Art I know I know what it is What what the way you said it you said the moma it's called the I know I say it again Why can't I pull this up What's so funny about the moma the way you're saying they're constantly wearing their college t-shirts sweaters or caps again They hate us because they ain't us Americans will try to tip everyone even in countries where tipping isn't a thing and can be considered insulting Really Tell us it's insulting for us Like I'm sorry we gave you money Jeez Do you see what I'm talking about here Complaining about everything they gave us too much money What what's next We're breathing like I don't understand I will say And Emily in Paris they do make fun of Americans a lot The first season of really bad One of them the tall guy with the with the silver hair I love the guy because she was like she was like oh we we we lost power we lost our ipad Oh man Um he was making fun of Emily because uh she was like oh can we turn on the AC And he was like oh Americans you like ac just dealing with the heat It's natural I'm like bro sweat coming from my blazer and through my blazer is not natural We we've gotten technology this far Let's use it Yeah Yeah Yeah Yeah So I don't know To each to each to each his own his rights to each his own is right I have 2% on my on my phone So we'll see if we can we can pull up our our hot topics We were right in the middle of something good too What were we right in the middle of your stuff Yeah Yeah What did you were you listening I was complaining Yeah Yeah Ok Can we all the stuff that Europeans say Americans do that are annoying I'm pretty interested in that Yeah me too We gonna click into some Kardashian stuff We are we are gonna but it's not just Kardashian Um so much Um this is not new in entertainment news American

horror story Kim Kardashian and Emma Roberts set for season 12 Now Emma has been in American Horror Story for a lot Um have you seen American Horror Story Do you like this show Yeah Are you complaining What do you mean I don't know That's all you got it Ok Ok That's all we got Did you want me to say Yeah you brought it up Why don't you talk about it Well I think it's interesting because one I like I don't think Kim Kardashian is is like that great of a actress She's been in a couple of things Um oh gosh Uh she's been in some music videos She's been but she I guess she does play a heightened version of herself on the reality show I don't know like I I don't know how I feel about it Listen I like Kim I like Kim a lot as an entrepreneur and she's you know she obviously knows what she's doing Um but I'm a huge fan of Emma Roberts which is um which I'm really excited about I don't know what you're not into it OK Moving right along Like Kim's background matches my shirt Oh wait wait you gotta pull this right back up But it is doing what now is going on here My great mind think alike That's great That's great That's all I have to say about that I go back to like the talking about Americans I wanna go back and do a whole segment On that But no no let's move on No no no we can go back I just got I just got power We'll go back we'll go back we'll go back for you Yeah Um So non Americans are revealing the ways they can spot an American tourist from a mic mile away and I'm both laughing and crying Should we pull this one up That's oh that is the one Ok Um What is this I immediately know when you're American when you ordered this What's this I've never ordered that in my life So what is that more Europeans I wanted to see what the Europeans were saying If they actually had any clout or any like real substantial evidence that we are doing things absurdly wrong I don't think we are I think they've seen like one American do one thing and now they just apply it to all of us which I got to say it is pretty weird It is pretty weird What about this What's this But they think we all like cheeseburgers and they think we all like cowboy hats It's it's very weird Look at what what what's happening here I do two socks They don't sell two socks anywhere else So fashionable person is gonna wear So actually no I take that back That actually was a trend during the fall to wear like over uh over the ankle socks with your shoes but not not today while while across the country you don't live in I don't think they're trying to be fashionable I think most people in other countries just are fashionable No I'm saying if you're traveling I don't I think it's a little harder to be fashionable when you're traveling For sure Talk to my best friend We and her family they literally are the epitome of fashion trendy

travelers They're beautiful Like they look like they're part of like the exhibits They're so beautiful I'm sure they look even more trendy when they're home though No Well I think because of the shoes but other than that they look great but they don't wear like whatever about wedding But my point is we what can we stay on topic So the topic is is that those people wearing those shoes are traveling you can't you can't hate on them They they're traveling Ok Travel ensemble And then there's a you know asking for the bathroom in a restaurant or a public place Do you need to take a shower No What are you really looking for Is the toilet What So asking for the bathroom in a restaurant or public place Do you need to take a shower No What are you really looking for Is the toilet So I guess asking for the bathroom means like taking a shower Oh so like when you're in a foreign country you should ask where the toilet is not where the bathroom is there There is the bathroom but the bath Yeah there's no shower Um there are they are the first to take their shoes off at airport security when there is a sign blatantly saying not to remove your shoes I've seen this before In Florida you don't have to remove your shoes at the airport And so many people remove their shoes and I'm just like did they not see the sign I think it's just because many airports do make us remove our shoes So we're just like we're just going in the motions here We're trying to be compliant just going with the motions going with the flow No complain about whatever you can at this point you know ok moving moving right along still I haven't heard anything that I'm like you know what Americans do do that Still not hear it When Americans introduce themselves they never say they're from the US They always start with the state or city where they are from You don't know her from the U si think you know we're from the U SI Mean clearly if you're wearing the socks you're from the US Put it this way If we say a state you know that's in the US How about that Like again another complaint that doesn't make any sense They said their state not their country But if I said the state you know it's from you know what country it's from What are you doing Oh I thought I saw you I don't know what they're doing I mean Yeah No No And you don't know complainers go on go on moving right along We can move on something else These aren't good complaints They say hi How are you And make conversation with the barista restaurant servers retail workers et cetera My country doesn't quite have that friendly culture That's hilarious That must have been like a like a Russian or something That's me That's me I'm you even ask me you like asking for it when I like say hi to people sometimes No no no no no We're not talking about baristas or cashiers There will be a

homeless man will be like hi And you're like Michelle do you have a sword on you I don't understand Are you ready Are you ready for battle Just like when somebody so close it's awkward to be to not address them and say hi I always say hi Listen you gotta live your life like you want to live it I will thank you so much Um They're absolutely fearless when it comes to asking any random person on the street about anything I've watched Americans approach people in my home country and abroad start starting conversations with strangers that I wouldn't dream of Well that's better for us We talk to more people We're more friendly I mean this sounds like a I'm trying to guess the country that actually said something like this I said the same I thought the same thing Yeah Yeah Um and you know why not Uh they're always looking they always look cheerful and constantly smiling and seeming happy Tourists from other places look more neutral or even unhappy fit right in I mean we we're on vacation We're supposed to look happy Yeah Right Like we're happy You're us nowhere to go here Look look how they are using Giselle from Enchanted I used to oh my God The Eiffel Tower Whoop You do Yes Whoopie do It's it's an amazing structure You should be proud of it Exactly That's like the people from the grove They are like oh my God this is so beautiful And we're like I know I did it too when I first got it That's what made me move here I was like wow an outdoor mall Me too Yeah because no one else makes outdoor malls And now they're like no I'm like used to them now I almost expect an outdoor mall If there isn't an outdoor mall I don't go too much anxiety too much anxiety for me Um What should we do more of this more Um There's all this they ask for extra ice I asked for extra ice Do you like I always ask for extra ice Uh I always do this I always always always do this Any coffee drink I get there has to be extra ice Like this one has extra ice again What is so difficult about just getting some more ice for us Thank you Think about it Think about it in like in or not England like France or Italy They're not known for like their uh refrigerators and their uh their they're not really 2023 but they're not really known for their freezers They don't really they're not big freezers They're very everything's fresh some frigidaire some LG a high quality fridge Everything's very fresh and frozen That's why their food is better also Yes because nothing Oh my God their tomatoes like I never had a tomato until I went to Milan It was insane Yeah Food is so bland compared to like the rest of the world I just let you guys know Yeah Yeah for sure Uh They ask for to go coffee cups Everyone else in Europe sits and drinks What Kai I happen to go Funny story OK What do you got I'm in Milan first night in Milan I

night in Yeah I'm holding the plate Like I like they thought I was delivering it to somebody else and like everyone's looking at me like you they're like but like half of the people were like oh tourists and other half were like like what is he doing Like no one you know everyone knew I was weird No one knew what I was doing Uh and I went to the club and they were like the people I'm with are like are you really gonna bring that plate into the club Like what do you want me to do in two hours Do you want me to order more food Because I everything's closing They were like all right Well where do you wanna I hit it I hit the ball Where did you hide it I I felt some corner I just like put it in some corner and I hit it there and then went and partied and then forgot about it Left the whole bowl in the in the club That's a great story It is Right It is a really good story Uh should we do more more They're good I thought they were juicy Yeah Ok Here here we go Uh they ask things like what is that in degrees Fahrenheit How many miles And is that £2 Yeah For me like when I was in Italy I kept looking at like the weather and I was just like why is like well I lost it Um Like our pretentious ability is vanishing literally as we speak the dollar uh is has been how should I say ostracized from a lot of big countries China India and Russia are now doing all their deals in the yuan and the where in the it's a currency Oh OK Uh What what else I think Ghana Yeah Ghana is getting rid of the dollar Yeah that's India Ghana Russia China Uh a few other big countries are just like not using the dollar anymore And so and to be I'm not gonna go into it anymore but like listen we're gonna lose a lot of that pretentious ability pretty soon So we better soak it up now We better soak it up now we leave we leave the OK What have we got We're moving into a little more entertainment news if that's OK with you Um I don't know I don't know how I feel about this Uh The Dalai Lama apologizes for asking boy to stick his tongue in his mouth He asked the boy to suck on his tongue Yeah I mean come on he regrets the incident This is no I don't want to see the photo I think it I'm sure it will very much disturb me Is it bad It's not good It's the it's the one right here This is it No no I can't No no no we're not we're not playing that We're not doing that here You brought up No I brought up the topic We're not playing the whole time Um you know what how I feel about how you want to watch that This is how I feel right now Like no no no no There's no way No way This is not like just like the Dalai Lama and the little boy in the tongue This is how I feel Nope nope nope nope no no no no no no way in he double hockey sticks Will that ever happen I don't know The only way I'm getting on that is if I bet someone the puke before I do so All right So if the Dalai Lama is getting hit

The indictment says she was not caught once but three times on camera trying to twice three times She was caught three times on camera three times Would you kill the ants That's not disputed She absolutely poured the drain on the gut She absolutely poured the train on the cup from putting dream into somebody else's dream Last April Chin says he began noticing a strange taste to the tea Set up a hidden camera Authorities say these images captured you pouring this substance into the tea on July 11th July 18th and July 25th The doctor saying in divorce filings he was diagnosed with two stomach Oh no esophagitis My personal theory is I don't think she wanted to kill him I think she wanted him to stop her That's what she did was diabolical She inserted herself into his morning routine so smoothly We don't know how long it took him to realize he was being poisoned I mean anyway so that's what I really just wanted to show you what she looked like in her mug shot because it's the best looking mug shot I've ever seen Moving on from the skin This woman is a psychopath Yes of course But like you know I just had to acknowledge the fact that she's a good American psycho He had perfect skin also his skin no alcohol in the skin So I think that's the thing Now I'm gonna start looking for perfect skin and then I'm gonna vet you It's not perfect I want to know more Um This is so cute Look This is so cute Look at this dog I fell in love with this dog This is a dog standing on all of its Hi look its hind legs Look at you can also check it out in the manner in front of us So you don't have to turn your neck Look how cute No you're not into it I would be into this Oh I watched this video Another video came up with a dog It's like a miniature version of the C Oh yes yes we have that up next Where is it I saved that one too I saved that one too or I for sure sent it to Kyle because I was like Kyle Look at this This is so cute Um Oh this is it This is what I found Look Oh look at this little guy Look look look look Oh it's so cute It's tough being little Sometimes we gotta come up with another uh name for the speech Look at this little guy Look look look look that is a that that Charlotte was that size when she was baby food Well yeah that's why you keep the dog inside Look Look look oh it's like a chicken nugget It looks like a chicken nugget I've got I've gotten chicken tenders uh chicken bigger than that So um this is an interesting story which is sad but sweet Now um this mom used to hide her her conjoint and now she shares the joy with the world You know it just makes me sad that like you would want to hide your twins the conjoint I know But like why would you I mean I wouldn't hide my Children You would hide your Children How do you know what you would do I I said I haven't decided Ok that's a tough decision I

that he's getting a lot a lot of uh attention for his nearly perfect Spanish about the new movie Air Um And listen I Spanish now you know who is can we rewind What you didn't know When did I know this I remember you were like wait Ben Affleck is married to Jennifer Lopez We saw them on the video at the ground We have footage of you saying they're married I didn't think they were married Right Because they've been married before Yes Yes I didn't know they got remarried again No they were never married before They were engaged before They never got married before No they never got married before because Ben was found at a a strip club before the uh marriage with that new information Now I can go to sleep tonight now You can go to sleep tonight Ok Good I'm glad that you can go to sleep tonight That's amazing That is amazing And then this is crazy Uh let me pull this up Can we pull this up Are we doing it behind us or like on what am I looking at What are we playing Are we doing this No Oh just kidding All right What's happening The skyline of L A Oh yeah this is the beginning of the Charlotte Chronicles conversation Um what you guys are missing out on Uh this is weird Jonbenet Ramsey Ramsey's murder house is listed listed for sale for \$7 million Why would you wanna live there Really Oh Joan Benet John John Benet Yeah Joan No not Joan John John Yeah Sorry It's before your time I guess Yes way before my time Not really If I know then you should know Ok Well that's fine Um anyway uh oh then this is interesting I wanted to pull this up This is Scarlett Johansson saying that why she calls motherhood an emotionally abusive relationship It's true Like your moments where like you feel like listen I've never been a mom before but I've had so much experience of being a guardian that like moments are like you just feel like you're being taken taken advantage of and neglected and you're like how much more do I have to do And then when the little person gives you a hug and tells you they love you you feel like everything's ok in the world So there's a lot there's a lot like I'm not against motherhood I'm just saying it's just a lot you know this is not your conversation that you want to get into that I mean I know there's there's plenty of you know there's mothers all over the world love that love being a mother It's like the fad right now is to talk about why they don't want Children to be so proud of like not wanting Children and not liking Children It's like ok girl I think that's I don't think that's a fact I don't think that's a fad I think it's just being like it's ok to either have them or not have them And I think that's a real narrative that women should and and uh society should really like encourage it's OK Either way Um We fought for this is what we fought for and then I can't show this I want to

show this but it's the most unsuccessful lockdown of all time It's the it's the photo of Jesus It's the photo of like Jesus's Cave like funny Right No no no no good Um Anyway oh and then this I got idiot You gotta like I got to show these images They're very funny So I just airplay connects Apple TV OK Yeah I think the behind us is confusing for right now but we'll get there Um It is a Monday Oh there we go This is funny This is from Bravo TV Scenes from a Bravo Easter Look at that Easter basket What about it It is funny Jack dude with an Easter bunny I know he just looks silly No it's pretty funny What's going on with this bunny No no no good tough crowd today It's a Monday It's OK All right Um This is this is cute and sweet It it's cute and sad at the same time Um They met while hiking and fell in love two months later she was diagnosed with cancer I thought we were doing the happy It is happy but then she survived But look at like you just never know like you just never know like why certain people come into your life Um They met while hiking and he was there for her and they got married and um all is well yeah that is happy I didn't think that was sad I mean yes skin cancer is terrible Nobody should go through go through that Um Now what else what else you wanna see that He's interesting What about this one I know this woman I follow you Follow her sipping A she's a DJ I thought the glass of wine that I got for Selena and Charlotte Chronicles was big but this is Giant How do you even drink out of this thing Oh my God We look at the look at the guy in the back Wait did you see the guy in the back He's probably like American American Oh my God It's too funny I gotta give it to the Americans though We know we look stupid and we still do it It's amazing Uh Yeah No no Well I do Um you know what's sad Is that uh Ted LA I think is ending Wait is that Yeah I think that's ending Yeah I wasn't really into it Um Never have I ever more on Ted Lasso I just heard about the backstory of Olivia Olivia Wilde is her name And so uh ex that's rough What are you talking about here I think it should be an actual crime to hurt Jason Sus The man did nothing to anyone We don't know We don't the most friendliest person in the world Yes but we don't know what really goes on behind closed doors That's the like that that is the end All be all statement I know she was a problem How do you know she was a problem Look like a problem See Nice nice What you told me I'm gonna pay for that I'm gonna pay for that later I'm gonna you're gonna pay for that Like I'm gonna like run into her or something and she's like I saw your show that why you say that was the problem if you do see her and she says she saw our show invite her in She's a very talented director Um Book Smart was incredible really great uh great

film Um I didn't see don't worry darling Um But a lot of controversy around a lot of controversy around this um That's where she met Harry Styles Did you see the uh Harry Styles spit on Chris Pine thing at the pre you see if you can Google it we can we can bring it up It's still we're still trying to figure out everyone is still trying to figure out whether he actually did spit on him or not I don't think so Pretty interesting It's it's probably spit Chris Pine Really No that's so sad There's a video of it There it is Third one down right here Are we sure about this Well we're trying to figure out if it actually happened I don't think it did I don't think it did let let's let's pull it up All right All right So this is uh Entertainment Tonight Let's pull it up Let's see Let's get let's get past let's get past these hosts that are not as good as us Get past us Fast forward Option is the thing Kyle I think they're about to get into it Oh look at the it's behind them Oh look see that it's behind them as they're talking just like we're trying right now Why is the screen so small Uh I I don't know This is there we go Go Ok So when he comes to sit right there you see Chris kind of flinch and look down and you see you see like actual like uh you see something come out of his face look you see him spit and Chris looks down like what I don't think he did watch watch watch you see it you see the spit come out of his mouth and everyone denies it but it's like we saw you sure have a sub chain ma so do you think he actually did spit Because Harry Styles is everyone's favorite lovable boy I don't think everyone's favorite lovable boy I think that the action is just like like it doesn't fit his I don't think it fits his like his what he's known for what people think he's known for Yeah I just think it's tacky Tacky I think it's disgusting Yeah Tacky and disgusting Anyone who spits on anyone Did I tell you the story about how I got punched in the face of a G Jackson concert We're just it's a Monday We're gonna go on to like the weird stuff today You got punched at a I was babysitting Um my friend's little sister That's why you hate baby Ok No I don't hate babysitting I just I passed it I although I did go to Manhattan Beach this past weekend because the play was in Ron Beach and I was having PTSD like no other Well it's only because like I was telling Andy it reminded me of like my boyfriend who broke up with me and then got engaged the next day and then I found out my mom had stage four in that same day Um found out the same day Yeah it was really rough and then seven years of like back and forth back and forth back and forth between Florida Maryland And it was literally a triangle Manhattan Beach Florida Maryland Back to Manhattan Beach It was just like I had no existence outside of it And like I felt like totally drained even though I was very

grateful for the experience I didn't realize how traumatic it actually was Yeah that can be because I haven't been back to Manhattan Beach Like to go to the any of the Manhattan Beach area for anything other than like Lisette But Lisette is like down the street and she has a building that I had never been in before Like it wasn't like I was going to dinner where like we stopped at a place where I got lunch once as a nanny And I remember the last time I was in there I was running after three Children We've digressed How did you get punched Oh yeah How did I get punched Saturday I get punched Ok So I went to a Jen Jackson concert and uh I think it was like little I was pretty little and um no it was like 2001 So it was like pretty young and like I went with uh my friend uh younger sister because we got tickets to go We were in the fourth row on the side not in the front on the side So there were like risers and there was a woman standing behind me and she was like please sit down and I was like I'm gonna sit down at a concert I want to sit down at a concert The next thing you know she throws coke on my back no way And I turned around and I said excuse me why did you do that This is I I'm drenched now She was just like I didn't do anything and she said talk to the hand she could put your hand in front of my face like like I wanna say w so bad like she's just like so next level and then um and then so my friend stood up for you No my my friend's little sister like she was like five Like I just had to be the big one the adult as a teenage like you know adult teenager And then um and so like I was standing there and then all of a sudden she's like what are you gonna do about it And I had a camera and I turned around and took a picture and as I was taking a picture she punched me in the face and I got knocked out and then I missed the rest of the concert No And then my dad asked if I wanted to press charges because I was in um I guess they have jail or like police jail or jail for like people in concerts they arrested her and they asked if I wanted to press charges And I said dad I don't even what do I do And he was just like drop it just drop it because do you want to go to court for this And I said no he's like do you think you need to go to the emergency room And I said I don't think so Um but you know what I you know what I had you know what I have you know what I had a picture of the woman with her fist When I got the pictures it was a picture of her fist coming through and it was one of my first projects at uh University of Maryland where I said I got punched in the face at a concert That's why that somebody punched me I mean that was insane I I shouldn't have I shouldn't have turned around and took a picture of this woman That is scary That's scary because you never know You don't take pictures of criminals You must
