With the great of scarcity is in the want to be You got a no about that now So are catching up that I don't know what was happening there But I got a call from my ancestors from like seven generations ago I don't know what what that was Welcome to Good Day Love Today is Wednesday March What is it 29th 2023 We're so happy You're in the studio with me Andy We got Natasha in the building and the lovely Kyle Trip How we how we how we doing I feel like we need like applause just for your name alone No it's nice You have a epic name Some days I got forgotten Listen you have an epic name that apparently you want to change for a period of time which drove me insane because true blood is such an incredible name Like people just like just want names that like leave an impression I told you I got the whole story about how I got this name wrong You got your name wrong I was talking to my father two weeks ago I found out that I have the whole story about true blood wrong Well you have the the uh the story about true blood wrong but you have the name Right Correct OK Thank you for clarifying Yeah Yeah Should we tell the audience uh what's going on with the true blood Well you know you always assume that you know misogyny being a misogynistic you assume that you got your last name from the male But my dad are you misogynistic Well I thought it was a very patriarchal thing to just assume that it came from my father's father's side All right Ok But my dad actually kept his mother's last name because his father you know wasn't around What was this Because you know he was a gangster He was a gangster And the reason I found this out is because I went to go drop off your backpack at your place No we are not dating You wanna grab that paddle Um But we we might as well just get married at this point just to skip a bunch of steps because I feel like I already know you forever Um Those rings that came in the other day they were like \$9200 You have hope for your future spouse Those rings look amazing and they were I thought that ring was way more expensive than what it was There's a lot of hope for me out there There is a lot of hope for you out there I hate to break it to you Those are lab created diamonds Ok They're not diamonds like I thought I thought I had it all wrong A natural diamond would cost that would be that would be like \$40,000 Yeah Yeah Ok that makes sense for a 20 K Ok that's what I thought I was gonna have to do I'll take listen I would I very much would like a beautiful ring I heard you're supposed to spend about like you know 30% of your income So you want to propose here on this spot on Good day

life I think if I get on one knee I'll be out of focus But um you know one day we got the product Can you imagine that would be such a cute story Honestly if that really were to happen if you were to fall in love and get married I think that would be like put studio place on the map for the home of romantic comedies Hilarious and talk shows I think everyone have a popcorn Like when are they gonna are they gonna get divorced Yeah Yeah Yeah Andy will send a piece of paper saying um on this day you too shall have a party not wed And um just in case you do here is a divorced attorney's uh contact Here's a pre 0 100% What That's 100% something I'm gonna be doing Yeah I've been asked before Wait wait you got engaged No I was supposed to be You were so Christina and her father the wealthy the wealthy family and then her father took me on this walk and he was like so pern agreement I was like no no no I assumed that was gonna happen This woman is more money than God How do I not know who Christina is I remember there was a woman that had money But yeah that was the 1 2015 their family owned owned uh cell phone Towers Kyle in 2015 I didn't even know that was a thing Wait Kyle in 2015 was ready to get married No she was Yeah I'm glad that you didn't do that I was only like 28 years old Yeah No no no no no no you can't you can't be getting married at 28 38 I had my first lead yet Yeah Yeah Yeah that's too much Too much Too much too much It's too much So how's your day going Other than uh you were apparently supposed to sign a pre and be engaged to someone The day is good you know Got my got my family history Correct Yes Um yeah what else What else What else What else It's just a solid morning regular morning How you doing I'm good Yeah I mean you said you didn't sleep last night I sleep last night because Charlotte's driving me insane She needs a dog sitter or a new dog mom I can't it's a lot sometimes it's a lot I didn't say I didn't say mom I mean I can that I they said a new dog mom I'm spending too much time with you Kyle What's this You're a mom This is my whole point I knew you had the love in you I knew of course I love her but I did not give birth a new dog mom I'm spending too much time with you That implies that you are the old dog mom Take that out of my vocabulary please sir Just uh take that out and let's stop stigmatizing Let's stop stigmatizing Age No age is not a bad thing and age is not a bad thing But I think like when you say old young new better I wasn't using it in that sense and you still felt a negative connotation to it No I that's the thing I shouldn't do that Now coming back to the original conversation Yes you're actually thinking about giving up your dog No All right No no I would never I would never in a million years Although this morning actually

Kyle sent me this really funny meme where it was like I followed my dog out to the bathroom and therefore they follow me into mine and they must be getting it wrong You sent me a meme about following dogs and dogs outside when they go to the bathroom and that's why they follow you into yours Yes you did I'll pull it up I know you did I don't know I I don't have you confused with anyone else What's ok Well let's get into entertainment news Today is all the topics and we're gonna play games Um it was a rainy day I have to get to it I have to search but I have to look Do you want me to search Ok I think they wanna see what you're talking about Oh about the dog thing Ok Kyle sent me this thing I don't know when you sent it but you sent it When did you send it Keep talking I'll look um we're gonna find out very shortly yet again You did send it to me or maybe I maybe I thought you did I thought for sure you sent it to me I know you did know such thing Maybe Sally Colo sent it to me could have sent it Um Is it not you Oh what what Although that was a good the one I sent you right there was it was pretty good Um like uh oh I know I saw it and I got a powering female uh speech there Who was that Who was that No the woman in the video I sent you Um I think it looked like Rihanna to me was it was definitely not Um but I am trying to pull up our hot topics for the day What's the hot topic for the day Because yesterday we could not get off that hot topic I mean that was the hot topic of the country is definitely a big thing right now as well as it should be as well It should be Um what's today's topic Um I I'm gonna get into it This is interesting Um Kelly Ripa apparently did not have a dressing room in the beginning They gave her the janitor's closet which I'm sure looked like a dressing room Uh I hate to break it to you We do not have dressing rooms yet I don't know about that What do you mean You don't know about this Page six confirms um that executives managed her to a janitor's closet instead of giving her an office during her early years on the morning show So ok maybe not a dressing room But uh yeah what do we what do we think about this This is like the beginning and listen Uh that's not ok I have a really hard time believing that a national television show I think it was like a remodeled janitor's closet into a dressing room Yes but not like she's not like getting dressed next to the mops and buckets Like no of course not And I do believe listen have you read her book Have you read her book You haven't I have not read her book that a lot there's a lot that went into it You know because she was just an actress not just but an actress coming off the set of um all my Children I believe any respect on the name initially put respect on her name because she you know had been acting on um soaps but like you know she was great

doing what she was doing But like they had no idea they had no they had no idea but Kelly knew um and now everybody wants to be Kelly Ripa I always hear like I wanna be I wanna be Kelly Ripa Do you wanna be I wanna be I wanna be Michelle Murad which I am Um And I I want to I I am I am emulating it in a sense I have my own morning talk show with you Um but uh yeah I like that She has her own production company and um she has uh a husband Um It seems like it's been going pretty well for a while Um uh Yeah you know it's it's interesting because when I look at her life I'd like to emulate it to a certain extent her career her life uh her career Thank you for clarifying her career Um So she's like I've always wanted to be a Crest white strip girl I'm like I wanna I wanna work with Crest so bad I wanna work with Chris So you got some white I do have some pearly whites and I have a great teeth Thanks To my mom and dad and um the doctors that helps me what are we trying to get here I'm trying to uh ok I wanna pull this up I thought this is interesting Um so you know a Adam I was a Sandler and Chris Rock are really big buddies Um and Chris Rock came out saying that um the Oscars you know they're bleeping a bleeping holes and if they don't want to get my man his props he will tonight Uh we will I'm sorry we will tonight So this is all about um he Adam Sandler uh was awarded this year's Mark Twain Prize Award for American Humor Um And listen I didn't see Uncut Gems but you said Uncut Gems was great It is incredible Adam Sandler is at a new level of artistry at the moment between Uncut Gems and Hustler Uh He's he really is making just absolute original and brilliant cinema really Yeah And he and he's still continuing his comedic you know portion of his portfolio and it's doing great murder mystery with Jennifer Aniston She can't come out see it together first It comes out March 31st Amazing Too far Amazing First 31st is like two days the tempo of the movie moves the structure the production value uh the story everything real tight love it What are we looking at here Um I'm trying to pull up So uh you know our girl Gwyneth this all over you know I got to say Chris Rock is probably upset with the Oscars because they made him say that bad joke and then he got slapped um by uh unruly patron for sure Um so this is that wasn't Chris Rock's joke It wasn't No he's reading off a teleprompter Oh well this goes um uh to to change the the topic about our our buddy Gwyneth Um she was uh on um uh she was on the slopes right And um this is her on the slopes Always looking fabulous Apparently she's had some weird things come out She's been saying some weird stuff on the stand I don't she missed Ok Here here's one of the here's one of the epic What the costs are you ready for this Well I lost a half a day of skiing That

was the first one you can appreciate that I'm telling Sanderson he skied into her I guess like give yourself a shot Like my gosh You say these like she says these things It's like do you not hear yourself I wouldn't even say that I wouldn't even say that No one even knows me I know you and Natasha knows you It's like the privilege is just flying through her mouth But you know it's fine Well so on telling Anderson he skied into her bleeping back I apologize for my bad language That is not my custom And then on her friendship with Taylor Swift I would not say we're good friends We are friendly I've taken my kids to one of her concerts before but we don't talk very often I mean these are just some quotes from the you know from the uh um from the trial on her height Wait what why is she in trial Oh boy Really Please welcome to your good day talk show where we talk about all things in the country Yes If you don't know Gwyneth Paltrow is um under trial for a skiing incident that has happened Um she is claiming damages for a dollar I believe Um and uh the gentleman that is suing her is for I don't even know how much it a couple times million right Something like that to run for a couple 100 milk for a skiing accident No it's not that much How much is it 0 100 30 ok Chump change You can you can buy all that at goop Um And so then they ask her about her height She goes I'm just under 5 ft 10 inches I think I'm shrinking though On a pro on the prosecutor's heels They're very nice on thinking the crash crash was a sexual assault Ok Here we go I was skiing and two skis came between my skis forcing my legs apart and then there was a body pressing against me It was a quick thought that went through my head There was a strange grunting noise And a body behind me So I was trying to make sense of what was going on My mind was going very quickly She's funnier than she knows No I think she I think she knows she's funny You think so Yes it's Gwyneth Paltrow She's very funny and very quirky Um yeah she has these moments where uh I mean listen I'm not friends with her yet Um I would love to be friends I'm always trying to be friends Uh as on the street says like I want to make more friends I always want to make friends It's the thing I've always wanted to make friends every time you do something I'm always like can you take me with you I sent I sent the Day Live if you guys are looking up at the stars tonight Oh yeah Where is it What did you said You said that it was just hilarious I don't even know if we can show that is two dogs One dog is laying on the other dog You can't show that you can't show what are you sending that to me for Oh this is me Oh it is my page Ok hold on Um we'll switch out of this page into um Good Day Lives Page You would think that like it was like a Monday or something

here Let me see Um what did you send up up up up this Well ok this is really interesting What is this What do you got Kai We just discovered that the ocean is technically connected to the earth's inner core They just found this deep part of the ocean It's rather small but it's extremely deep and it goes through the crust and scientists have been it proves a lot of scientists right Because they've been saying that the earth had this What is it Let me read it the earth's oceans be confirmed long standing theory revealing that the earth's water cycle includes its interior right So they were saying like there's a there has to be some way the ocean is actually getting to the interior of the earth because the minerals aren't just like switching around the surface Do you have your glasses with you Huh No I I feel like when you do these I feel like when you do these segments you need to put on your um your uh black frame to look smart Can you do that I can do that tomorrow I'll do that I'll do that tomorrow I just found it really interesting Like you know the ocean actually goes into the earth really cool stuff It is really cool stuff Back to entertainment news which I love this Keanu Reeves says his last moment of bliss was in bed with his honey Alexandra Grant What what are you looking at you No that's his honey Come on What That's his mom What does it say when Keanu Reeves tries to date Diane Keaton movie Have you seen that movie Jack Nicholson Diane Keaton Keanu nineties movie me and my nineties movie That movie it's a nineties movie No it's it's in the it's in the two thousands 2000 2000 to the planets You right Ok Ok No there it is All right Take it away Kyle Now if you guys are looking up at the moon tonight this is a a nice navigational system to help you understand that you're actually looking at planets tonight You are not looking at far distance stars and this will show you what you're looking at I was serious when I said 55 planets were aligning and you're gonna be able to see it later in March Didn't I say that I said that and now now look at it Now we got we got Uranus Jupiter Mercury and Mars all up for show up for show tonight Make sure you get your who named that one plan that one plane Yeah I feel like somebody like you did No no they they were like listen who is he the other guy naming the planet Scott Listen all these names are super boring We gotta make fun of one of them OK I love that I love that so much Um other stuff in entertainment news Back to entertainment news Um You know the Tom Sandoval story saga continues it's continuing but you know what I love about this She doesn't give an F is what she said She goes I don't care I'm not following it and this is my decision to no longer follow anymore I don't care I'm with her Right I'm with her She doesn't want to know And he's been

spotted out This is the last I'll say about this He's been spotted out Lightning bolt has been spotted out with the new girl Love it And uh listen how you how you found him So interesting like nine months ago yet I didn't even know I didn't know he was interesting to the rest of the world That's so interesting I mean apparently he was everyone loves this guy Still is not interested I I told you I could never date anyone like that because he didn't trust him on first I met him You were like what about like lightning bolt And I was like I could never date lightning bolt because you can never trust him I just I need I need like a level of like security in the relationship I'm not talking about financial security It helps emotional security to know that I am the one and only for that time was the lightning bolt that threw you off What was it It was his energy that threw me off It also threw me on I was like I was like I was like oh wow what's that Because he's so he's a lot like you very free in his energy But you're also very loyal Like you've shown that you're very loyal This guy did further research Listen people in L A are flaky Natasha told me that the other day you know like you don't realize how people can be so flaky in L A um until you experience it Yeah they say everyone comes to this town to be alone together Wait what when I first moved here I heard the saying you know everyone comes to L A to be alone together to be alone together Yeah it's so true for me Like everyone comes to this town There's like 17 million people in this in this county yet There's a ton of lonely people like your neighbors lonely So are you But you're you're next to each other It's kind of sad kind of sweet and kind of understandable you know like you know uh it's a hard thing to make friends and loyal friends real friends in this town And well you know it's interesting even the friends you would think just the girlfriends even the friends I've been super lucky with friends Um and then I get annoyed by the friends only because I because I am like I'm very grateful for my friends Um but you know what friend I don't get annoyed by I love you so much because she never wants to see another friend You see the least No But you know what's funny though Like it was super low Because she's never around No no no no no What's so great about her is that we don't expect to see each other every weekend We got we don't have to see each other which we haven't seen each other since June which is fine You haven't seen some friends since June Which ones I don't know Gabe You live in the state Well she she's also an entrepreneur and she's she's in the process of creating big things and I too am in the process of creating big things and you can't it you know these are the these are this is the time to do it Like we can hang out all the time when we get our when

like when we get a little more Yes Exactly Uh Me and my hilarious me and lightning bolt Uh I'm pretty sure my boyfriend at the time was not a fan of the lightning bolt interview Uh Well because you can tell you like them and you posted them on your page with a voice We were on I felt so bad for the first He was a good guy Just not like a good guy No I mean the the you know what I'm saying I thought you talking about I don't know lightning bolt What do you mean No no no no no he seemed lovely but like the nail polish or the nail polish Can we zoom in on that Can look at nail polish Oh boy that is some that is some nail polish No not at all but apparently it did in the moment I was like whoa ok I hit was hit by a lightning bolt Apparently Raquel whatever the girl's name is was too Um and that is There you go I didn't know who any of these people were and he was like he was like do you know who that is I was like no he's like that's Tom Sandoval He's like a big deal on um you know Vander Rules rules Yeah Have you ever been to sir It's a really nice place That's the that's the bar that they that's the Vander Pump rule location That's the headquarters of their own bars What did we like brains for a second I understand Maybe that sounds like my answer and I sound like I don't know where is like right next to oh what about uh pump rule or the pump place I've seen that place That's not part of it is just Pump that's not part of Vander Pump rules however very close to very close sir which is what actually houses Vander Pump rules You're cooler than me today Ok No I've just been to sir I didn't even know what Vander Pump Rules was until I went to sir I was going to serve for the drinks and they were like oh Vander Pump Rules is in here I'm like you're like what I was like is that some type of air Is it ok in here Does it smell What is a Vander pump rule What is the Vander pump rule They're like it's a show It took me at least eight minutes to figure out what they were talking about Hilarious Found out Googled it and er go er go uh Vader pumps air lighting bolt Um here we go Uh Katy Perry um has come out and said that she has been sober for five weeks and her and her partner have made a pact and she wants to break the pact Hold on let me go straight She's only been sober for five weeks and she came out saying that her and her partner made a pact to be sober and now she wants to break it break it she wants a drink she wants a drink Ok Katie Ok It's only been five weeks We didn't we didn't need to know it wasn't long enough to know to tell us that you were sober yet I didnt even know that was a thing for her and then don't tell us that you can only hold on for five weeks Well I mean listen I I appreciate that she's being open and honest with her struggles I think this is a time to be open and honest with

your struggles and what you're going going through Um but you know I don't know if I would I don't never been in that position before Um so I just wish her nothing but the best in that situation because that's a that's a big deal Uh what's this what am I looking at That's hilarious Oh that's our buddy Oh how is she doing Oh she her daughter Scarlett played all Yeah Yeah How is she Did you talk to her Is she ok Is she doing Is she in Denmark Adorable She I remember like when she no I mean she's here in this country No she's not here No Um but her and her husband are are uh life partner Martin Um are very no Uh no Um from what I understand but that's not a very well he should marry her I mean she is a catch they should marry each other She is a catch Um and um without the kids they have three kids Yeah they have three kids together One of them But then I thought they were married with one child No they no they not married with three Yeah Teach their own You know it's so funny I remember I remember what I was gonna say 100% 100% with an engagement band around that 100% Yeah I mean listen to each their own Um this is cute You know we love Drew Barry Moore here in the studio but Drew Barry Moore um reunites with ever after stars after 25 years and she looks almost identical from from this I never saw ever after Look how cute how fun She's she's living the life Speaking of Drew Barry Yeah What about your family Owns a theater uh in Philadelphia which is the first place I ever did an acting job You should reach out to her full We should go we should go and be on the show with her on Walnut Street in Philly That's right Oh yeah We should do a like a little video and we'll send it to her Do you remember that song I was at 1 800 M att res Do you remember that inside joke Kind of Yeah that was from that theater I told you there was like a click of guys and they always used to sing that song Yes Yes Yes Yes That was from that theater No no idea No idea Moving along I just I do too I do too It's been a minute but I do Do I sing all the time Kyle always thinks like you're gonna break out into like a song and I'm like yeah I do It's like Hu or Disney I'm not sure Every day it's a quiet village Yes That's one of my that's on the list of things I did do a voice over over the summer which was incredible I loved it so much I loved it so much It brought me so so much joy News Um some other joy This 108 year old says the secret to a long life is and Kyle I think you have this down to a t working hard and partying What do we think I mean that's no secret I knew that What did you know 100% You got to work hard then you got party you got party to play and play and work to play work to play to play play to work play to work Is that a new like work hard play hard Is that a new slogan for like uh like slots or like

what's your mind Yeah Live to work or work to live work to live I don't live to work I love doing what I do Um I will say that I I live to enjoy life and all the fruits of that So whether that's uh acting writing creating because that's I literally told myself and I'm sticking to the guns and holding on for dear life that I'm going to only follow things that bring me joy That was my assignment at the beginning of the year Alignment is my only assignment and it is harder than you would think I need to play the lottery Like tomorrow Matter of fact yesterday all that work All right All right I'm not trying to prove anything Where's my 100 mil on No I think millennials think that we should just get 100 million just because for being existence Why That's not a thing because I deserve it For what Why Because you're born That's not that's not how that works I feel like I'm on the show that you were on with uh Brady Oh yeah Like what are you excited about being born I was excited to I'm happy to be here It's just you know a lot of life lessons Yeah Yeah Um let's go back to life lessons This is so gross I have to say that but this is getting a lot of media attention Um Courtney Kardashian posted a bathroom pic of her Did you see this I I saw I scrolled by it and it was like another title was like Courtney has gone too far What's happening Is that having a picnic in her bath How much food is that for one person I think it's her and her lover Champagne Strawberries I think I have to do this here here here Let me um where where did it go We can just do this We can just go off this page Oh those look like french fries Chicken wings I think those are potato potato wedges Is that right I don't know But that's a lot You know I'm not gonna lie in my bath before What's in the silver This must be room service This cannot be her real house Yeah You know what Anyone hating on that Get a life I don't know It's just not about not enjoying your life I think it's about like enjoying the fact that like it's in the bathroom So all that was finger food It was in the back if I see a burger or something that you can like bite into and something falls out the back into the water Now I'm upset to leave like a deposit We got Braden Hi how are you doing Um to leave a deposit fair I would I would say you ever see those bathrooms where the toilet is separate from the tub and the shower I can appreciate those bathrooms She might have one of those I think it was I don't think it was that I think she might have one of those I don't think it's her bathroom I think it was um it was room hold on hold on hold on They're doing all that in a hotel bath Yeah Yeah Yeah cool cool Somebody called the authorities I think I think that she's got all that food on the floor floor that was washed by two people six hours ago She's for real Yes Ok So this is what people are saying

Uh food on the floor a bathroom floor gives me anxiety All that food in the bathroom like S mh S mh food in the bathroom is not the move of a hotel bathroom face Uh So so so someone literally put food all over a bathroom floor and climbed up to take this photo of this mess This is true Um food on the commode and bathroom floor No ma'am That is what it looks like That's a hotel bathroom 100% I do think that's a hotel that looks like it's like in Italy or Paris That is just very very wrong I mean that's a hotel You know how many feet have been on that floor in the last week Yes Yes Yes Oh my God Oh my God So we're not behind this behind it I'm ready to get the torches and pitchforks and go searching for Chloe Are you kidding me That's horrible Never again Get a table You got enough money get a table Get one of those tables that goes across the bath Yeah Right Uh here's another uh uh topic uh Jeremy Renner as you know had a pretty serious accident this past year and he gave his first interview and uh he said that um in this interview that he chose to survive it was a um it wasn't ski it was plow Jeez Mind you I'm still trying to figure out why he was near a snow plow Yeah I don't know I didn't watch the interview so I can't comment on that But um you know there is something about choosing to live like you want like you want to choose to live But when it's your time it's your time But and we had this conversation I was when my mom when my mom was uh you know sick and it was uh April of 2021 I was like you can't go anywhere You have to see me get married She's like you haven't even met the guy yet I was like come on mom don't But you know there is a choice there's a choice to live Um but you have to have a lot of it's a lot you know and what he went through seems like a lot too There's a there was a study done Yeah What was the study of the Golden Gate Bridge Not to get too morbid But that is a bridge that people like to uh jump off of That's crazy Anyway 19 people have survived that but hundreds of people jump off a year Oh my God Only 19 people in the history of the bridge have survived all 19 As soon as they left the bridge They wish they never of course which technically means that that is 100% everybody Yes So I think it's a natural like built in innate response of your of the human body to want to survive Yes So I just ii I I'm really I'm saddened by and inspired by runners comeback Although I don't think people choose to survive I think they need to survive It's not a choice like you didn't it wasn't like hm maybe uh today I'll go for death of 500 Alex Like it's not that it's like you have to it's there It's always there Right But I also think that there's a very strong choice to want to continue to live You have to fight I've never got a fight Yes there Yes I saw some of it It was very like the anti no no

no The anti gravity thing where he's like he's doing the rehabilitation and it looks hard I mean it looks like he's been working for a very long time and it's a struggle to get back but he's doing that He's doing he's back to back to almost 100% Look at how who these guys are They were just on our show the other day Um this is our good friend Hayden um and her dad um writing yes Bentley Junior writing public transportation and they're getting so much media attention for this and it was all Hayden's idea that she wanted to document what it was like to take public transportation in L A and here we go How cute Right Why is she brave She does it often apparently even really Um but you know it's it's really cool that her she's uh her dad has passed down the way he looks at uh viewing the world and um and she wants to take public transportation and she's doing it 100% Uh Ed Begley Junior came on he was adamant about quote unquote getting the public transportation back you know because it has such a violent uh connotation to it like you hear L A transportation or L A public transportation and you're like oh yeah when you getting robbed today So I think I'll take a car and he had a point I mean it it does have like a pretty uh big uh stigma on it Um Yeah let me know when it changes Yeah Um so that is uh that is for that he was giving us data I had the highest reported something or the other I want to know what that was Oh let's see what it says So this woman and her famous father who we know um Hayden and her dad um make a statement about the US car dependent culture Uh between March 5th and March 12th she only took public transportation and and um on the seventh day they went to the Oscars Oh Uber eats coming in hot You can bring that right over here Thank you Thank you Thank you How are you Thank you so much Have a great day You wanna um thank you so much Thank you so much How are you Um What's that How are you Should I not say how are you 00 yeah yeah Yeah Oh of course you say hi So I figured you were like crushing a little bit No I'm sitting across from you How you doing No no no I said it to everyone I always ask how everyone is doing I think that the fact is coming or if people don't want to say hi I don't I'm just like ok we're moving on moving right along Um what else do we have Uh we oh this is cool So I always thought that um I always thought that uh that you know these incredible actresses looked the way they look but these are the women behind the women looking incredible Um Hollywood Reporter just came out with the 25 most powerful stylist Um We have an uh Anne Hathaway's beautiful stylist Look how cute Whatever happened is stylist What was going on with that Um He yeah he retired I don't know what I don't know what he's doing now Um Look how

cute I mean you can see the style is the same for both of them right It's cute I just love I love the Hollywood reporter Anne Hathaway is looking absolutely gorgeous Um and her stylist um Aaron Walsh uh look absolutely gorgeous I love this dress so cute I want everything in this closet Honestly the stylist is dressing better than Anne right now Think this dress is adorable It's cool No you're not into it as well I mean she is those stylist I think that um ok so then this is fun I thought this was cool Um This is our our buddy Jamie Lee Curtis Um She said that her biggest thing was uh like you know she was realizing when she turned 60 that death was not the thing that she was afraid of What she was afraid of was not pursuing every last passion in her in her heart and her soul So that meant um if if not now then when um I just got a brilliant idea What's that the next movie that Jamie Jamie Lee Curtis does where she has to dance we gotta get Kim Hale in there to to wouldn't that be the same They have the same body shape and and type Yeah that would be epic Um And you know what's so funny is she came out recently saying like only a few years ago Um they did not they did not put my drink Um only a few years ago she was uh selling Activia Isn't that crazy to think That's right She was selling the uh what was it It makes you far far Well who wants the far for gas What makes you poop You poop Sorry I don't know what was in the in that thing but probably not good for you right Bunch of beans Maybe so Oh not good I think oat milk does a does a job Turns the drink right on it turns the drink Um We got more hot topics Um But let us know where you're tuning in from We wanna connect with you and see how you're doing how your Wednesday is doing how your Hump day is doing as Kyle likes to say we're uh we're over the hill Um I'm really excited by this We got our girls well maybe not yours Um They are filming sex in the city Um And just like that season two or no I'm sorry season three which is really really exciting Um They look phenomenal What do you mean What do you mean Season three This is sex in the city reboot Um And just like that this is season three They've already done two seasons of the Yeah Yeah Yeah So this is behind the scenes I love behind the scenes stuff and I will say Sarah Jessica Parker was the actress that made me go I can act So is Samantha in this one or no Um No Samantha is not in the show actually you know what she might be in season three Not that I haven't heard any reports that she's not in it What happened to her again Let's get the gossip Here's the t so apparently Kim came out and said that S JP is not as sweet as she is um on camera I believe it Um But you know also let's take into account who is as sweet as they are on camera She's on camera Let's take into account she's producer she's the

star of the show She's doing a million jobs So like you know you never know why somebody is acting the way they are acting Like I always try to like allow grace and space for somebody because maybe they're going through something just like ride the coattail whatever else you got Well I mean she's got a lot Kim is has done a lot of work Yes she has She's done a lot of work Yes Yes Yes She's done a lot of work She's in a movie called Mannequin Um which I feel like you should know about because you're like 85 I think it might have been even been in the eighties But she's oh she was um just in how I met your father This Yeah Yeah Yeah That's a good that's a good casting for her Yeah because she plays the mom for um what's her face all day long Could get a lot of work outside of sex and could I just I feel like I haven't seen her in enough She also lives in London She does a lot of plays in London Yeah Yeah Yeah Yeah She's British Yeah Yeah Yeah Can control No I could be wrong But uh but I love I used to watch behind the scenes footage of sex and the city all the time I would go on youtube and I would type in sex and the city behind the scenes or I type in um desperate housewives behind the scenes So it was an out of body experience when we had the twins on from desperate housewives because I used to watch them as little guys Like like roaming around on the set Yeah I used to watch sex in the city to learn about women I remember you telling me that sex and the city would teach me about women Uh you you didn't learn it taught me I knew less than I thought I did to begin with Well that's good to know Yeah Didn't learn anything Just knew how much I didn't know Well I think that yeah I think I tried to watch Entourage and I got like uh what you like to say a because I was just like oh God I don't wanna be in that business you know but someone said about Entourage Oh it couldn't air in today's world and I rewatched it It's actually not misogynistic They support the LGBTQ community and then we're talking 2007 1 of the main characters is gay Lloyd and everyone loves Lloyd I mean no one even made a comment about it Actually one person did and was like like went against him Johnny Drama was like no he like got grossed out and everyone was like the main stars were like dude chill He's just he's a cool dude And so I thought that was really um I don't know progressive for such a quote unquote guy show you know and even with the women they didn't just treat women like trophies They really don't I mean you have to depict that Vince is a ladies man but he actually dates he gets dumped more than he gets actual women and it's there's a balance to it I thought I mean Doug Allen Ari Gold character even So Ari Gold spends what three seasons in the dog house because of how he is He

gets he gets ostracized from his business He gets divorced his wife start dating someone else all because of that You know P OS that he is the first like that P OS that he is I wanted to segue into I can't say po si don't know this man I think he's fine The franchise Mike Fleiss exit the franchise after two decades Can you imagine working on a show for two decades He's over it too I mean I just think after a time like everything has a space and a time and um good question Um It just says Mike Fleiss is saying goodbye to Bachelor Nation the day after the Bachelor aired at season 27 finale confirmed that place is no longer with the franchise Grab a rose and head to the link Oh always for more for more info Uh I did not grab a rose and I did not go to the link But I mean I think after after two decades it's you know pretty clear Yeah after two decades the show did really really well And then our one of our uh favorite people is from The Bachelor Oh yeah Yeah Yeah Bigger shout out Oh I'm sorry he's the Bachelor Yeah Yeah No he was on the Bachelorette But the Bachelorette is part of the Bachelor Yeah Yeah Yeah Yeah Yeah Um I'm surprised they didn't ask him to be a Bachelor you know No No Good Don't you have to win the Bachelorette Maybe No Sometimes what they do is they have the Bachelor from the Bachelorettes come and be the new Bachelor for the new season Yeah But you gotta win No no no you don't have to win the Bachelorette Sometimes the Bachelors from the Bachelorette are asked to be Bachelors on the Bachelor You don't have to you don't No no no In fact it's usually the people that don't win because they're still trying they're looking for they're looking they're still looking for luck Can you imagine I watched that show like once or twice and I was like I can't do this It's the the the structure for me is like uh mm thank you so much I don't know I don't know What what don't you know Oh this is but this is what do you got Kyle What's this Do you have on this Um yes Hold on Here we go Shonda for your loved ones and exile in the desert A gyps Oh there's no game are as dangerous as a lion's mouth Will bite your head off I will give you crowns in heaven and Laurels on earth But you can tear your heart out and leave you lonely You'll be a Shanda for your loved ones An exile in the desert A gypsy art There's no game are as dangerous as a lion's mouth that will bite your head off I will give you crowns in heaven and Laurels on earth But you can tear your heart out and leave you lonely You'll be a Shoda for your loved ones An exile in the desert A Gypsy All right What do you got there That was just me and my feels about art because you know my demographic I love my aspiring artists and my uh working artists and I think that um people do uh come to this town I've had a lot of friends come and

leave to this town because art is not it's not like a game I feel like it is like a way of life You got to really be passionate about it It's not just this highway to can't play this cursing Um It's just it's not a highway to the red carpet and a camera It's it's you know put yourself out there on a platform and let us see the darker side of yourself and trust us Yeah I think listen if you have a dream you should pursue it and give it all you can Um But also like you know don't hurt yourself in the process know that like life is a marathon not a sprint and you got this um and especially if you are a performer or you have a dream to be an attorney You keep not passing the bar You know if that's your dream keep going for your dreams and make it happen And there's a reason why you were given that dream and that's my spiel for the day I just had to go to this one I thought was beautiful This is beautiful I saw this I I said this to Good Day Live too Talk to me about this guy Well we all love Nathan Lane and we all love the movie Mouse Hunt because he was incredible You know I never saw a Mouse hunt Oh my God I love bird cage Bird cage was on bird cage was amazing Was he nominated for where they know each other from Thank you I was wondering what project they were like they were friends from Oh my gosh Bird Cage Recently not recently We have a screening of the Bird Cage here A good such a good movie Uh Robin was just the greatest person such a beautiful sensitive soul and so kind and generous to me The world hasn't been the same without him Uh Nathan LA is just a brilliant man and uh he he did I I guess he became big in a time where it wasn't like the popular thing to have a sexuality uh other than hetero Um And it was quite evident in his in his artwork that he wasn't batting for the home team It was you know he was kind of almost out there coming out in his characters You could any play the you know the bird cage Incredible incredible incredible work Um and I think I guess it takes someone like Robin Williams to really understand that back in the nineties and eighties Right Yeah I I don't think you know it it's uh it's interesting we had this conversation uh briefly about you know um being like straight or homosexual like in the entertainment industry And it's just like it even in 2023 it could be a lot 100% I can only imagine what it was like back then when these guys were acting we're talking like 30 40 years ago I mean and black more or less being gay was like a thing in the in the public eye I can't imagine how hard it was for you were you were telling me about you know the Academy Museum and there there's a whole there's a whole exhibit of black media the whole floor and it was so educational Yeah What did you learn You know I learned that it wasn't just black people that were interested

The whole floor was taken up by multiple cultures that were interested in in the African American experience in Hollywood too I found that most endearing that it wasn't just other black people looking for the you know answers or criteria everyone was interested in the in the story of that And uh that was actually the biggest thing for me I you know I I'm with you on that I would I can't wait to go and check it out Um And for \$15 I will hold a Academy Award and I will do a simulation Um You said this can I play This is this is this is what is this what going on here They built a did you hear about this They built a top golf for baseball You hear about this Yeah Yeah it's in the Midwest It's a top golf You know what top golf is It's like a batting it's like I mean so so top golf is basically like a club with golfing inside of it Now they built a club with baseball inside of it So this comes complete with 12 um batting cages and is Midwest and they're gonna build one in Texas pretty soon There's 12 batting cages and then a whiffle ball stadium Um and you can just rent out whatever you want Uh along comes complete with like two fully furnished bars a restaurant blah blah blah yada ya yada But you can I mean you can see the simulation how fun this looks I can't wait until it becomes a big thing because I'll be there You will I don't know you like baseball so much I was a baseball player I was a pitcher Oh I thought you were just a football dude No no no I walk more people than the than the Are you kidding me This is crazy OK This is this is Kyle's corner You gotta get the glasses Ky bring him tomorrow OK OK A gold digger in Australia \$160,000 worth of gold On his first his first remember I wanted to be an archaeologist That's not an archaeologist but I mean I think it's a real gold digger Take some notes All those gold diggers in L A take some notes That's a real gold digger right there Um Kyle didn't you say you don't ever want to go to Australia I mean the cast \$160,000 worth of gold If you're not getting any of those inside jokes make sure you follow us at Good underscore Day live on Instagram Good underscore Day Live on tiktok We're on all the socials we're ever everywhere all at once And that joke goes on until the next Oscar is so hilarious You're welcome Actually Kyle I was on your Facebook last night Did anyone see the episode from yesterday with the Cassowary Was anyone else in the studio Terrified from that video of the Cassowary What's the Cassowary that bird that we had on yesterday was making that ridiculous noise like the camera Yeah Yeah Yeah That huge black body behind him Terrifying Wait where did you watch that That bird is that bird is about 6 ft tall That's that bird is 6 ft tall No Oh man I got to pull it up for the people that didn't see yesterday Oh my God Really Oh my God That bird is 6

ft tall That can't be That bird is 6 ft tall That bird is 6 ft tall No I think I sent you there It is Oh my God Look at this thing This is it's hunching over Wait right now it's hunching over Wait how does it Oh yeah that's what I'm saying That is a massive that is massive Can you ride it Kyle Can I ride it I'll pay you \$50,000 Should not go 20 ft near this thing right now I will sell two toes to never meet a cat Does it swim I really wanna know if it swims If it swims Look at that terrifying face It looks like a turkey What are you talking about A turkey that is much bigger than a turkey It looks like a turkey with the size of an ostrich I know But like and if you're not getting any of the inside jokes you gotta follow us Uh Good underscore Day live on Instagram Good underscore Day live on tiktok Um Kyle and I played a really fun game Ladies and gentlemen that's the most dangerous bird in the world Oh my God Terrifying terrifying I can see why you wouldn't want to go to um Australia after that that comes creeping around a bush I'm hit the next plane out What are you doing You have you seen kangaroo kangaroo Get the crap out of you Someone said the other day a kangaroo is just a bunny who went to jail because they're jack You know you're hilarious I wanted to pull this up for you because you know you want to get married and all that right Um So this is our good friend Michelle Obama saying marriage is never 50 50 Sometimes it's 70% sometimes it's 30% Sometimes you know it's 10% Sometimes it's 90% Um she said but over 30 years how she looks at it if people you know give up five years I can't take take it and then she goes how do you know you gotta know your person Do you like him You could be mad at him but you still look at him and go I'm not happy with you but I respect you and I don't agree with you but you're still kind smart person It really comes down to like the basics She says everything changes over time You're not always gonna be like oh my God I love you so much So the minute that goes people give up you know they give up on like the lovey Duffy stuff I got to say it's coming from just her perspective but she hit a nail on the head when she said but I respect you I think no man will leave a woman who he actually feels respect from like love can even vanish A lot of things can vanish A lot of facets and uh can vanish But if respect I think is the most crucial one for a man you have to And she was like but I still respect you and I think that's something Barack probably really keys in on Yeah And I'm sure it's the same for him with her is that he really respects her Well I think uh this is just my own theory I think that men need to respect women need love I think it's both both both I think I mean I'm just via Lago there I don't know What did you see Villa Lago Who's that It's a skin condition 000 yeah Yeah

Yeah Um she she's a very famous uh model Um I think there was just someone found off the street with a bit of that Uh they made into a model like on the street It was pretty cool Um let's as I told you today is a day full of hot topics because we don't have a guest today Um but uh this is interesting Um Ali she was a Bachelorette um and she says sorry Jake Gyllenhaal but I'm gonna Taylor Swift You right now Apparently the two had a fling What does that mean I'm gonna Taylor Swift to you right now What does that mean Well she's married now but before that Taylor Swift we had this conversation yesterday So basically it means uh when you Taylor Swift someone you're gonna like be like you know given the des you're going to tell everyone you like in bed No Taylor Swift doesn't talk about sexual stuff I don't think she's more about like you know like like the relationship how the relationship went Oh So she's gonna say how terrible he was maybe head to the link in the bio for more Should we go What's the matter What's the matter Ally Not enough not enough coverage from the media you got bring Jake Gyllenhaal down This man's been doing film for 30 years Donny Darko speaking of which I was at the museum of motion pictures the other day Allie guess what's in the what's in the museum OK This man gave us Donny Darko Do not tear him down because you need more attention He once made her cry OK You know you made me cry once That's great You made me cry once Happiness Thank you Never made me cry I really made you cry What is she doing What she trying to tear down my man JG for Did I really make you cry Oh OK OK He's a big hero of sex What is she carrying out my man for There's not not enough not enough uh coverage in the media What are you doing Leave me alone Ok Ok This is what she's saying Ok this is interesting Um no what what's happening Like go to a counselor or file a police charge but leave the man alone and it's correct Ok This is what happened Um she said this is what she said Um she was interviewing him on the red carpet and I just lost it Where did it go Um I don't know It's here Oh wait 000 I know why Oh I think something came out about Jake Gyllenhaal and Taylor Swift I I don't see I know I know a lot but I don't know everything Let's see what's going on drum roll please Drum roll drum roll drum roll Ok Ok So he made her cry Oh here we go What what happens Um here we go Uh so she said she was working her first red carpet What is happening And like and it's like all these ads on Facebook or Instagram My first what is happening Wacky Wednesday Um my first red carpet for E news He walks up I'm shaking in my heels which I'm horrible in heels And I say to him hi Jake who did you drink tonight Like for a date Like

who's your date tonight He goes bye bye and walked away from me I don't know if that would make me cry Yeah Like what do you do What she said that she was if the man's alone and you just ask him who his date is that's on you right He said bye bye because you didn't ask him the right questions It's your job to ask him the right questions If he's walking alone don't ask him who his date is That's weird And honestly it's it's in the it all makes sense Now this woman is trying to drag him down comes up with a horrible story Go figure right Did you did you with Oh she's a live streamer here on Amazon Ali Is what's she doing these days You wanna play it Oh it's her on Amazon Is that her house Her pool Oh nice Yeah I mean I don't listen I she asked who he came there with and if he didn't have a date you never see her That's what she said She said she was afraid she was gonna lose her job If that's what makes you lose your job Then better questions just saying Kyle she's on the bachelorette Like let me give her a little space I don't think that was you know working the car Oh there she is Is that her husband Cute She was interviewing on the red carpet Yeah she was she goes who's your day Bye bye Say this I go to a break up Listen I I'm he was but I was um when I went to go see Michael Keaton um I was shaking in my heels So I will say sometimes you say stupid things when you're nervous I don't think he said anything stupid I mean I was like uh hi I'm Michelle Mira Bye bye No he didn't say bye bye because you asked the right questions But I think also because I was peeling and he probably didn't want to like have anything weird I don't know Michelle will be literally she's gonna peel and her face will start peeling and it's like it's like gold number Like she's got like flakes like coming off her face and she'll go up to anybody and start talking to him It's like Michelle I'd stay at my house And so there's whole point but the whole point of that is to show that like you can go out in public and have a peel and actually um our buddy Felicia Waldman here the other day and goes oh that's a good one because she saw like the skin like hanging from my face That's a good one That's amazing No but it is the more you peel the better it is for your skin I mean I don't know how great it is for your skin but like it was great It's great for mine right now I'm very glowy and and loving all of it but it's great No no good Ok Hilarious I said you're staying neutral you know who's not staying neutral here at Good Day Live Kyle True is available for hire as an actor Look at these photos Kyle you're getting so much attention on these photos Everyone is sending flaming emojis and somebody said Kyle is a first glance Kyle has that Idris Elba handsome look going for him Fire emoji Thanks Big house la I appreciate you guys I love you guys I appreciate
