Not \$37 an ounce Thank God Wait let's see it But the the the waiter was like excellent choice and I was like excellent choice I was like it was the cheapest choice He was like he must know it's the cheapest choice and it's not he's like I'm about to get tipped on this bill 100% had to tip that man \$80 Uh I meant to spend \$8 Forget it Needless to say Kyle will be eating rice I might I may look a little malnourished for the next week or two Don't be alarmed I didn't know how they charge a ball There you go That's too good Abby What what's today It's too good today Tuesday the 28th Actually Um speaking of your mom she sent me some photos You guys went to the Hollywood Museum Hollywood Hollywood Tuesday You went to the Academy Museum I have she sent them to me because I said you know stay in touch and she goes uh I wish you could have came with us I gotta airdrop these Um but yeah you uh you yeah you yeah you guys are so cute so cute We did a lot Oh now it's not letting me airdrop I wanna share the share the what's that Do the close up cam I'll put it in there OK This is Kyle standing outside of the Academy Museum uh sitting next to the Oscar I'm a goofball I did ask you to see if we could do a live stream from there because I emailed them recently Um What what else did your mom send this Uh Well I I'm in conversations with them because I really would like to do that Um This is you and your mom you want to put that up there This is you and your mom um at a backdrop I thought it was so sweet that she like sent me these She's like you missed out look Doesn't it really look like Mount Rushmore It looks like Mount Rushmore But this is an exhibit uh that shows you what how backdrops work Uh So it was uh it was a backdrop Sorry it's it's blown out a little bit because of the um the brightness Oh ok Sorry What happened I lost it I lost it I lost it anyway Um I'm 85 and I I just figured out how to work on iphones Anyhow it was an exhibition on the backdrop So cool though They had like I didn't know Batman in 92 with shoe Moers Batman returns the director shoe You know this is this is what you were talking about right Oh my God My mom said that too She said I said send me photos because I went to lunch with them afterwards which which was not after the museum but before the museum the museum Yeah Yeah Can you guys see that That is ok So that's not Batman's house That is the Penguins house the cobble pots the penguins house No that's that's the cobble pots house It says if you zoom in you can actually see if you zoom in I don't know if you guys can see that It says cobble pot on the front of the house right there So that's the last name of what the Penguins original family was Anyhoo this house I don't know if you guys can tell that house is only stands about it's a doll house It stands

about 2 ft tall and the actual one is in the exhibition and then they're just playing batman behind it So you can see how they really used it in the movie It's so cool You have si have a lot of poses Oh so this is um Black Panther Uh Ruth Carter the costume designer She won the Oscar for I've worked with her Uh She's made me homeless on a movie just to tell I told this joke about maybe like a couple of months ago but just to show you how good Carter is at her job Mind you I'm not gonna say whether I'm not going to say OK what I am going to say is that it was only a short film and she had already won an Oscar for the first Black Panther and she she was scheduled to make me homeless I was I looked so homeless that the guy didn't put a mic on me because he thought I was an actual homeless person invading invading the space So I show up the set and I go for a bagel because I got my scene like you can touch the Yeah usually you do bagel Oh you usually have an accent when you say bagel And so he said you couldn't touch a bagel because you thought you were a mom I said fine I won't touch the bagels But then I won't touch the bagel And then you said this to me from you which I thought was really sweet Kyle True Like this I was so original drawing of Ursula from the Little Mermaid from 1980 89 Look how cool that is He sent me this sketch Look how cool that is I can't wait to go I cannot wait to go It's a really cool place I'm glad you got to go with your mom Yeah Yeah The entire very impressive uh museum Very impressive What was your favorite part about this museum You know actually I didn't know about a lot of black filmmaking until I went to this museum It was very educational and also very entertaining It wasn't you know when you get to the history of the black culture in this country people tend to there's a tendency to get a little droll and they kept it very inspiring and I really appreciated that it was very inspiring You're very inspiring I do appreciate you Dr Droll That's how I spell it Kyle and his mom have very extensive I'm I'm gonna start popping out a lot of words My mom she gets it from her mom Uh the vocabulary on the on that side of vocabulary on you guys is intense I went to you guys I went with you guys to Maria's and I was like uh can you can you repeat the word and spell it for me please Because it Right Droll Yeah I didn't think the word was the words were gonna be So uh so up there provokes dry amusement Does it you know it provokes dry amusement Uh my brother's response to what I did for my uh nephew's birthday yesterday Ridiculous My brother said before you uh you know post a photo on your show of of our Children Can you please like run it by us And I said wait what it's on it's on Facebook You know they are the Children What's that How did I sent them a

clip to say well II I also called and said we want to wish him a happy birthday and um and then I you know plan the song that we're doing against you or something No I don't think so I don't think you know there are some people that love me and some people that uh don't have the same energy It could be a lot for people because I want to see the sunny side to every situation that could be a lot for people I mean it works for some it doesn't work for us You know it's tricky because wanting to see the sunny side you kind of you got to make sure that you don't discount people's emotions emotions and feelings and you don't I I try not to because a lot of people I think that's what a lot of people are afraid of You come across So sunny They're like oh this person might not respect my you know when I'm upset Maybe I don't know I never you know I never say like if somebody's talking I'm not like I never told this story the way he came out of the back but like the whole science project and my car but it's Tuesday let us know where you came from We got the chat we want to connect with you and see how your Tuesday is going Um And we're excited to potentially uh shoot at the Academy Museum which I wanna go to Um tickets aren't that expensive You said they're like 25 a piece right Yeah And then wait tell me about this You can actually stand with an Academy award and you can simulate and your acceptance speech and you'll have it forever I wasn't doing it I know it I was like I'll do it and they were like 15 extra dollars I was like on the 75 I've already sir 75 I spent 45 Well wait how much 25 No no it was it was 45 And then if me and my mom went in it would be an extra 30 Sorry it was 45 plus another 30 It would have been 70 because it was \$15 a person just to see the Oscars simulation of the Oscars Got it Got it See because now you've turned me into a numbers girl There you go Yeah you I notice you don't have your coconut water anymore It's because you're a numbers girl It was good It was fun I'm gonna go you know I have a side to side hustle that these days to uh to support the uh just for your support The \$5 a week Are you kidding That's an entire coconut plantation Oh my God A coconut plantation Kyle True But you're hilarious you know dollars a week on coconut water I don't have it every day I don't have it every day That's good I don't have it every day Um but I thought this was really cute I wanna pull this up Um this is so cute This young boy's reaction to seeing his mother in the crowd is so wholesome You ready for this style If you ever want Children Look at this look at this I've seen this Look at this He's upset At first he can't find his mom Wait wait a little guy in the white little guy in the white Yeah I never saw that part What did you see that 00 how sweet And then they turn into tear right Isn't that

what happens Yeah About 12 13 No Look look look I can't find my mom I can't find my mom I can't find my mom There she is There she is Oh yes How cute Oh my Oh ok Ok I'm done I don't have baby one More time One more thing look look look look look Not anymore I love it It's this for me that really does it Is that how you were when your mom would show up to things you'd be like Is that where you you were like yesterday You're like yes I love that This might be racist but I can't like not spot my mom We were in a lot of white crowds It's very easy to find my mom a lot of the crowds that she had me in a private school but she had me in like a public school in a very nice part of town Very easy to spot that woman She wears her natural hair It's up It's like yeah Yeah she's my eyes Let the entire parent teacher conference Everybody walk into one auditorium I open them in two seconds There's my mom Sometimes I feel so uncomfortable with the things that come out of your mouth I'm not gonna lie I know you are you are click bait Uh uh ziggy of click bait Let's pull this up Andy Uh because I've misplaced the switcher Um this is our dear friend um Kelly Ripa just on the cover Um not on the cover but she's in variety magazine She always she always looks like has like a little well you know as well Yeah she's always you know probably always getting stuff done and like trying to look awesome as she always does Um so shout out to our good friends Um Miss uh Kelly Ripa Yeah OK And then I thought of you when I pulled this up Kyle there's never been something that one of the mothers of my Children has asked for that they didn't receive No Yeah I could imagine The man has a lot of ownership over a lot of shows He's probably making a lot of money You say that But I don't know if he is but he must because Children you must why are you skeptical I'm not skeptical It's just like you know I just told you he's got enough money So you you said you don't know I I doesn't mean I'm skeptical definition for being skeptical is not knowing All right Ok Fair fair fair fair fair fair I just told you what his finances are Well I don't know I haven't seen them that's being skeptical You know what's being skeptical today is International Play Day So National Play Day for those that are in play A shout out to our dear friends and our good friend of the show Miss Adam Miss Mr Adam He's starring in Merrily We roll along in Sherman Oaks Um It's available until the 30th Kyle We're going on matinee together Get ready Uh Yeah maybe if Andy doesn't want to go and you don't wanna go Ok with I my eyes are like I don't believe that's my job I thought of you I thought I thought of you when I saw this Keep your husband poor and he can't afford a second wife What's the secret to But you know what In this this photo this video it looks like she's the one

it looks like she's the one that has the money To be honest Why does it look like that I don't know That's the vibe I got I feel like you just like have these vibes and premonitions based off of what you want Like Nick Kim's wearing a turban I don't know He's got money This woman in the what about her It looks like she has more money It just she looks more put together He he is not wearing makeup I mean he's not worried you know anyway moving right along we roll along I think the person who's driving the car looks like they have the money Oh yeah Yeah Yeah Um and then this is interesting Dolly Parton and Miley Cyrus is Rainbow Land was banned from first grade spring concert in Wisconsin Why was it being shown to first graders I mean it wasn't like it was anything inappropriate but I why are only first graders allowed Well no I just it was banned from their spring concert from first grade Do they mean first graders Like first graders or like six year olds I think they're six right I mean listen you never know what Miley's gonna wear So they're like do you hear the title Rainbow Land Rainbow Land What is wrong with Rainbow Land Rainbow I'm gonna say something Oh boy what are you gonna say I don't know like this whole we have like a movement of like talking about sexuality at a very young age I think we got to give the kid like a minute to like acclimate himself Why do you have to connect it to sexuality Rainbow Land Why was why was it banned Right Let me pull it up Why was Rainbow Land banned Um uh After school district officials in Wisconsin deemed the track controversial while the track celebrates acceptance A parent told the L A times that the school district of has really cracked down on anything LGBT Q and that this song being an issue was not in any way come as a surprise the teacher whose class is performing the spring concert started it off on Twitter saying when will it end I just don't think first graders need to be It's a bad experience discussing the what about the Children that have parents that are of the same sex That's great What about Children with interracial parents I mean listen you guys just like like when I go it's not something we need to bring up in class yet I don't think they're old enough and developed enough to be talking about sexuality on a public in a public platform I don't think it's about sexuality LGBT Q is specifically about sexuality Well I mean to think about first of all when you have Children that are six years old and I respect the LGBT Q community I love the LGBT QQ community They're so we say that I I'm really not saying that to ponder or pander I'm just saying that just I do respect them but I just don't think I wouldn't talk if a kid was not even heterosexual I wouldn't talk to him about it Let him develop a little bit more Even 2nd 3rd maybe fourth

grade I start talking to him about it But hey I don't have kids So what do I know It's all about acceptance I will say that as a as a former that Children at very young ages especially now are very aware of what's going on And especially when there are a lot of um same sex parents a lot of trans transgender parents And so the song literally is all about acceptance I don't believe they're singing about like she hooked up but she he hooked up with he is not that it's about accepting and being um open and and you know Children are so so young and it's so good to start them young in terms of like being open and and knowing about the world I don't think you should talk about sexuality with a six year old But if a six year old asks you dad where do Children come from Are you not gonna tell him that the woman has a uterus and then a womb and that she has a baby Yeah Ok Great So then they're old enough to know that's not sexuality though That's anatomy It's anatomy That's different Yeah Yeah I think look I think uh I think I think it's great Listen it was banned from this this first grade class Uh but it's not banned from us talking about it again first grade Like but it's about acceptance It's about how do you even know not to accept the child is a single digit Like he doesn't even he has nothing to accept he has nothing to accept into something He's a he's a five year old Listen I think it's important for Children to know certain things and to be accepting of other people's backgrounds Of course my belief Ok you're saying it like that was a cookie cutter statement in my opinion because it's like I get it but that's like cookie cutter Like how does the kid we're telling the kid to accept certain things that he doesn't even know what acceptance he needs the concept of acceptance before he knows what to accept And he's only five So it's like why don't we talk about that first before Like you need to accept this It's like well but even he's not even old enough to understand the concept of exception Well I think they are when they're like oh you can't sit next to me or um there are a lot of Children you know what I encourage you to hang out with six year olds They're much more in tune than you think You have six year old cousins I've had six year old cousins Yeah Oh maybe like second cousins Third cousins No What do you mean Oh you had Kyle six year olds right now are very advanced They are what do you mean They're just advance they know stuff like they're very aware they know stuff I was aware of sex at six years old Of course you are Well television I mean like we were born what We were born in late eighties like we had at least 50 channels at that point And it was very easy to just when your mom wasn't looking to click over and see some sexual show It has this song got nothing to do about sex It the only thing it

has to do with is acceptance of other people's choice and backgrounds That's where I just find a little bit of contradiction cause like are we on Fox News right now Thank God we're not I would be kicked off You would stay on you I would get kicked off I'm not uh against anyone's beliefs I just I think the conversation I'm trying to open up is like when is the appropriate age to begin these conversations And I in the building we could ask Marissa Gold or we could also ask Natasha She have Children Yes They both parents and they both know what it's like And you know I think inclusion is important to talk about and hear from them I mean obviously we're not going to put them on the air if they don't want to be on it But like I think it's important to talk to your she already filmed the show too It's like she's already yeah you don't get notifications I just woke up I woke up today Yeah this morning around nine Yeah Yeah Yeah Um but I I love that we can uh we can get on the topic of of all this stuff Um this just came out Becky G um oh you didn't know anything about who Becky G was Um but her fiance just came out recently um he cheated on her Um but she said she gave no implication of sadness or worry over all It seemed like she was proud and stress free You know what um kudos to her We talked about this for a hot second because I sent it to you and asked you if you knew who Becky G was Listen I'm if this is what stinks People make mistakes but they're engaged happy that it happened before they got married Now if she decides to go back with the guy people are gonna be like why did you go back with the guy and it's public So people it's like she's gotta have to deal with all of everyone's like stuff I'm so glad my stuff was not really it was public for a hot second You have you have a point It was only public because you keep talking about it But the point is I'm sure someone in her I'm sure her publicist has something to do with this Not the cheating part with you on this What part are you with me On on the whole thing It's really tough to go through a breakup and then like you know when you're in a break up and you're private you can go back to that person no one's going to fault you besides your mom and your dad right Parents your immediate family Like you told us he was a best friend or best friend or best friends Like I don't want to hear it anymore I actually my best friend happens a lot So what I would do this is terrible I was the best friend in my own In this whole scenario You were with Nick Oh I don't want to hear about it anymore Oh you like you are like 10 months of this is like if you're not going to make a decision I don't want to hear the same story again So when I told so when I was dating that guy that I thought was going to be at the party the party that this mic come in it just keeps popping up Um I thought for sure

my ex-boyfriend was gonna be at not you Yeah there was like an X from like a while ago that was gonna be at this party I thought swore I thought this guy was gonna be at the party I was so nervous and I thought like I had passed all the flying colors of being able to talk about this person and being like but then I was like oh my God he might be in the same space I must have called you and Andy like a million times I couldn't even decide what dress to wear And for me that's easy Hilarious because I just go with what I feel like you're not like totally totally over this guy I was just nervous to run into him to pick a dress You gotta pick a dress Well you have to you have to you have to look fire when you when you run into not somebody that you ended things with amicably but somebody who like really tortured your soul and even if you are running into an exit ended amicably I'm sure you still want to look on fire too Well I actually am so pompous that I'll dress down because I'm like oh let me take it easy on that There's a bad scenario like if we get so pompous but if there's somebody that we show them 100% not even like a thermal maybe you know watch But like but I'll tell you what if we ended things badly and I think I'm going to run a new full Suit Me You dating me now No you was in general Got it Got it I wasn't sure I wasn't sure wasn't sure if like my role had changed but coming back to Becky G back to Becky G all she has to do is go back to this guy more attention on her You have to understand it's a whole different dynamic for these people The more we're whether or not we're saying good bad Yes No Come and go It's all good Thank you It's a quid pro quo No it's all good If we're focused on her you know what's next What's next Well I didn't get to finish my story about like running into that What was the point He wasn't there which was great But the point of the story was I was on and off with this guy for three years and I would tell my best friend all the stuff all the stuff like I would complain to her and then I would go back to him No So it was Mike Then Sam Mike was the priest Dave Dave was the priest who was a really nice guy Of course saving souls He's 18 years old but he doesn't see what does he do Come with my child I hope he doesn't say that That's what he says is the stuff they say No Come my child repent in the name of Jesus Da da da blah blah blah yada yada yada Go to heaven No that's saving a soul What else is he doing What else is the priest's objective besides So I don't know Let's let's talk about saving another soul Prince I didn't want to move on yet Oh ok What what are we What are we Ok You want to move on from my ex boyfriend's story No no no The priest OK What about the priests Don't they say souls No What do they do They give communion They bless people They don't save souls What what's what's

the point of doing communion I don't I don't even know I don't even know I was born cat and I just so for your soul Is it for your soul What else is church for I feel like Jewish thing because of all the I went to take the concept of a soul out of the picture What are you in church for without talking about the soul What are you in church For for peace What what is this What is this American pageant What is this For Peace For World Peace I told you I told you I was asked to compete in Miss Maryland I know but I didn't want to do it because it made me so uncomfortable What are you most grateful for being born Can we do we have that clip Ridiculous You know what I love about that clip the most is that like to watch everyone's face be dumb struck When you said being bored he said were you born on Christmas You were like no And then like they pan to the crowd Everyone in the crowd is like it's great Well I will say that Wayne Brady actually when I reposted it um over Christmas he said you were one of my favorite contestants Of course you were a little hands Of course it's just a shot of you running across the and then coming down with your little hand spread out like this and you're not getting any of those in inside jokes Make sure you follow us on our socials at Good underscore Day Live on Instagram and Good underscore Day Live on um Tik Tok Tik Tok and Facebook and youtube were everywhere Everything all at once And that does not get old until uh you know at least you go next Oscars Um So you get hand waving you're talking about my flailing hand Um We got our buddy Prince Harry Uh You know I just feel like he's staying in the know Prince Harry Royal family says they without a doubt withheld information from him on phone I don't know what that is What about the wave that we're talking about here Because you said I have flailing hands He's waving Yeah he's he's got a good wave He does have a good well you know he's been practicing it since he was like 10 or five You know how's it going Is it like a loose wrist or a loose elbow I mean is it both I'm not is it both Do you keep your fingers together or apart Uh I don't know I haven't worked on angle I worked on my Princess Way Um and then this is what we talked about recently Um Vanessa La She is supporting Nick made his legal drama That doesn't mean she agrees with his behavior Uh He uh I guess I don't know if you verbally or physically attacked a paparazzo right That you know listen that's their job You're a public figure it's your job to have your photo It's like no I'm gonna say something OK here we go You wait wait wait you're gonna say something on a talk show What are you gonna say Tuesdays I really take my opportunity to say a lot of things All right What is OK Wait Did you show your socks today Oh I got opportunities All right

Let's see Can you actually lift your foot that high up I can you see that You are such a weird dude I am They match my jacket they match each other and uh you're welcome Now can I get back I think that the paparazzi thing I'm sorry what were you gonna say about the socks I asked your mom about the socks Oh she confirmed I said where did they come from I was just curious and she goes we encourage Kyle to mismatch his socks Ever since he was a little guy it's not a new thing not putting on It's what I do Now you can tell you have a psychologist mother When with that statement we encourage Kyle to wear different socks Business was a different lad Yes No I think you're very much the same lad Well a very very odd unique lad You are back to LA She back to back to LA She back to this guy I think that paparazzi should sign a waiver saying if you do get beat up by somebody that you're harassing that is your fault That's a point of the game because they're going over the top these paparazzi we're seeing what they're shooting We're not seeing how they had to get a shot And I think if any Kanye is probably up there too with lasa like LA and Kanye get a camera and film the paparazzi that's the thing Like if when I get big and the paparazzi are molesting me or harassing me not molesting It's a bad word There's a big difference there is a big difference there Anyway I'm going to flip my phone around and show what the paparazzi is doing before because LA she could have gotten out of this Had he shown how he was being treated But you just snap you can get over it We'll give you some time I need a minute What are you doing What are you doing in your spare time You need to hang out with me more So you need a little more like fairyland dust No none of that Ok Well I guess I like real All right Moving right along I guess Yeah I guess that's why it would never work Um this is cute You know you like realism but this looks very real I'm not sure Is it real to you Does this look real to you Does this all the time Oh honey how cute this is I mean I'm in love Are you in love I always wanted the golden retriever Really But the dogs I heard dogs should not sit in the actually he's not even strapped in is he Yeah that's that's super dangerous actually Yeah that dog's in danger right now Actually Charlotte does sit in the front seat with me You gotta be careful But she when soul sits in the front seat she has she has her own seat belt She of course she does So she can you know if I break she won't fly through the windshield which this woman cares nothing of She she sits in the back if I don't feel like hooking all the belts up so she's secure But if we got a long drive she'll sit in the front Elijah wood reveals he and his partner met Marie Welcome to daughter last year You know who also is expecting a baby Daniel Radcliffe Oh congratulations Oh

they kind of look alike That's what reminded me of Weird They're doppelganger of each of each other They are I do enjoy Elijah Wood's work more than Daniel Radcliffe Daniel played for the other team Wow I really did I really did No I really did because I guess he played a role where he was he was playing a guy that was into guys No Ok I'm moving Ok He's never done that No I thought he did didn't he He he was naked on broadway on some like weird thing It wasn't it wasn't a sexual thing though Oh ok Well you know um because he does he does have a more how should I say it's not feminine It's just he's not like a big burly dude I like medium We dude we know I got lumber lumber Jackson firemen in case there's like an emergency and I need to be picked up Michelle's gonna lock herself in the bathroom help You know the you know the story you can tell the story Ok so we're at Maria's yesterday tells about how my mom about how she's so attracted to firemen No I didn't say I was attracted to firemen She asked me if I was dating anyone and then you told her that you wish you were dating a partner like long story short Michelle used to live in a place that was like L A is a tricky place You can be paying \$8000 for something where the wood expands when you take a shower Who knows Right So that's what she was doing Not eight grand but still she's taking a shower Apparently When you close the door the wood expands from the from the moisture in the air and the wood you know expands but it locks her in the bathroom Mind you her phone is outside So she had to it was inside this time on 2% And you called 911 The firemen showed up six of them But here's what I was telling I called the apartment manager first Then my best friend and my cousin nobody answered and I said I got 1% left So I called 911 and I said hi Uh This is seven years ago Hi Um I'm locking my bathroom and I just took a shower every fireman in that state and hit the pole if you know what I'm saying And that was the that was the fun kind of tell us part Yeah Yeah So like it's all done said the guys are leaving She comes back in her apartment what's left there A huge ax was just left in the middle of her apartment by mistake right So being Michelle doesn't like allow the guy to come back and do his whole plan of Oh whoops Forgot my big trust The ax get your number Doesn't do any of that Michelle grabs the ax runs down the street You got your and then so you threw his plan off and his timing and then he's like oh thanks Sorry I forgot my a can I get your number Well he gave me his business card I did not give him my number Oh yeah He was like I'd love to take you out first That's a good like if I was a fireman I'd do that It's a good move He must have known that depending on how expensive those smoothies are But so but

the funniest part of the story was my apartment manager came back and he goes Michelle you know there are easier ways to meet men in Los Angeles He goes with you I feel like I'm in a sitcom every time I'm with you around you I feel like I'm on a TV show It was like oddly enough I feel that way too to women are like they like to be rescued sometimes are like motorcycle female motor motorcycle riders to men Really Interesting when you see it happen You're like oh that's rare huh That's cool Oh ok It's like a it's like an extracurricular activity that's like attractive you know Well that wasn't the first time it happened it happened twice um that I got locked in my apartment bathroom I was like you know let me try it again this time and this time my phone wasn't in the bathroom and the door shut from the crossed wind breeze they had a lot of windows and it just slammed and I was like oh no dangerous Right And so I I screamed out the um my bathroom window and I was like excuse me excuse me Hi Uh Miss I'm locked in my bathroom and I saw her putting her groceries um in like or she's like pulling the groceries out of her car and putting them into her place And she's like where do you live And I was like uh da da da da da Orange Street And she walks all the way around She's like what floor Second floor and she walks all the way up and she opens the door because the door was open This is where my mom was like hold on the door was in the front She was like you took a shower with your front door unlocked but your bathroom door closed Like I lived in a building that was like literally the front door not lock either Well yeah the front door didn't lock the building Yes which actually worked in my favor at the time So go ahead and scream out the window exactly where you live So an unlocked door so locked it was a woman and I thought you know if a door that doesn't lock well so and she came in and she was like I said my phone is on my charger Can you call my cousin She called my cousin He didn't answer She called my best friend She didn't answer I said call my apartment manager He of course didn't answer And then we called 911 yet again Is this apartment manager ever there Oddly enough he lives in like on the first floor Well I don't live in the building anymore Um But he uh when I told about Charlotte Chronicles he's like I'm so happy you're taking your creative energy and putting it into a TV show because that's that's what you're supposed to do And I said because there's always a story that follows you I said or a story that I want to create I don't want I don't want stories to follow me I'm not into that I like made a like a like a hard like line in the sand I'd rather create stories and stories follow me because people that have stories follow them are like are looking for drama Are they looking for that Like

what kind of a story I mean what kind of a story would follow someone I don't know like people that like drama like I like drama I just rather on the page than in my life right Like I read about it about somebody else than myself Nothing worse than some imposed drama He didn't ask for your Yeah Yeah Yeah I'd rather like I like to keep for myself like to keep things peaceful Um but I do like to read about fun stories and like you know vicariously through other people Do you have some drama going on here What's going on No no no drama here Engaged Can you Dylan Spr and Barbara PVI are engaged Look how cute they are Um they they kiss in here you know engaged Engaged Look how cute It's like me and you but not really Can I ask a question What's the question Who are these people Good It's OK It's OK They're out of your generation Is that what's going on Am I too old for these people What was this like John and Kate plus eight Was this I figure it out like where are they Are they one of the kids What No Dylan Spr an actor Did you ever watch Sweet Life on Deck Ok Never mind It's good It's fine It's it's past your prime I just the last one No Seriously The last past my prime I'm in my prime That's so Raven was like the last Disney show I ever saw Raven was the last thing you saw Actually my prime happened rather early because I was a football player Yeah Yeah Yeah Um And then shout out to Taylor Swift who becomes the second act ever to chart seven albums in the Billboard 200 top 40 simultaneously Who was the first person Um great question Uh the first person No idea person Oh here we go Um 1963 I don't know who it was Um yeah that's crazy Right Congratulations That's awesome Amazing You know what I like got a lot of heat when I started writing at UCLA because and I'm going to call out Adam Fried for this He said Michelle you should not be writing about your own personal life And I said ah I said actually write what you know and I was like Aunt Taylor Swift is banking on the things that she's experienced It's a lot of experience But I think that I mean she's been in I've never heard a writer say oh don't write about your life I think every writer is drawing from some truth that they've experienced No And I think that's a good point Write what you know because if you don't know when you start writing like I've written about a secret service agent that's pretty hard because I've never been in the secret service It's pretty hard to write Was it It wasn't easy I'm not even sure if it makes sense to this day They were CIA agents They are CIA agents I don't you got to check out Kyle True Blood's movie Is it out for people to see No Ok I'm re cutting it I just bought a new computer Congratulations I just bought a new computer to edit Really Excited I'm actually going to make a

new movie where uh it was the end of April I start writing again and then we're going to have another short that we make this summer We have some excited investors Oh you do I know why I'm talking like Andy can I use the uh what what what are you talking like Who's Andy Kaufman The the best biggest most brilliant comedian of all time Ok So the whole reason I didn't even know about Andy Kaufman is because Jim Carey played Andy Kaufman in a movie called Man on the Moon And I saw this movie and I was like who is this guy And so I looked into Andy Kaufman and he literally I've never seen someone push boundaries of like like where our minds conceptualize comedy He like takes it to this like existential metaphysical level that like no one you wouldn't even know half the time But he was joking it was just it was really intense And anyway now Jim Carrey did such a good job on Man on the Moon There's a documentary about Jim Carrey playing Andy Kaufman Oh that's cool That's cool I don't I don't know if I trust you on that That's cool I didn't know how to segue into the next thing I think I think that's cool Was your segue That is cool You know I actually thought of you when I saw this What's happening here Oh best somebody's drunk Somebody's oh God Are they on like that is amazing I love it so much Awesome Yeah Yeah Yeah It made me think of you and my relationship with you these days Well yeah you don't get drunk I don't I don't think they are Are they drunk I hope so I hope they don't walk around like that on the norm You Kyle your butts on something So here we go Oh boy What do we got Kyle What is this What we huskies were big What is that That's a wolf next to a husky There's a full grown husky standing at hip height Wow And the wolf is I didn't know wolves were that big Now you can scroll through you can scroll through and see other comparisons Who look at this Oh look at that Look at that I thought Huskies were part wolf No they are Every dog is part wolf That's where dogs come from It's a genetic branch from the wolf You know what's interesting What So when humans were still nomadic across the globe wolves would follow the little nomadic Like if we left the settlement right the wolf would come and eat all the scraps right But then like one type of wolf figured out that if he was nicer to the humans than the wolf he could he would eat more So then there was correct So then there was a there was a breed of wolf Thanks I got that from Andy There was a breed of wolf that was then domesticated and would bark any time wolves would come and hunt humans and humans would feed it and er go dogs and er go dogs What is going on here She draws six pictures at 78 pictures at once using all limbs at the same time And they're brilliant Is that Marilyn Monroe

Look at that Look at that Is that that's insane That's doing it Get her on the show Who is this What's her name It's probably on their uh Instagram profile can draw like that with her foot The only thing I can do with my foot is pick up mascara I can give six pictures pictures I like leaned over I could reach something with my my foot So then I like went like this to see if I got it and I got it She should be on America's got talent She could win \$500,000 I like to manage that guys What's this Oh my God Can we get the sound Can we get the sound Is this Please get the sound Can we get the sound Restart it Restart it please I beg you Ok Yeah Go Hello Oh you you just waking up now at 2 p.m. and you're just waking up I'm sorry I'm sorry Mr President for waking that No the garbage the kitchen No clean the bathroom looking like a chair My friend You having me up to here not here here When I coming back I'm going to go to the car when I'm coming back in this house He not clean You're going to remember me Ok Uh Why is this funny You're sleeping in until two I am crying Wait you sleep in until two It's just the accent for me That's all I really care about Anyone else Tell you you said 2 p.m. I think I was just more like a shock that the person slept in until two Yeah of course people are sharing how much they get paid for this guy Tell me about this for you to actually go into the buzzfeed article and ok let's just get into other high paying jobs Ok People are sharing how much they get paid for their jobs and wow there's so much to unpack Ok So self employed hair stylists between 70 to 80,000 Makes sense Ok But the other one I manage the scoring for paper state standardized tests They make at least 65 grand a year That now stop Remember standardized tests for high schools It happens in one month That person is standard is correcting standardized tests for like a month maybe two and making 65 K a year off of two months Yeah But those are really a miserable two months for \$65,000 If I could earn \$30,000 a month in the position I'm at right now Hand me all the A T si thought you like to do things that aren't like monetarily based No What do you mean Like you chose anything with \$30,000 at the end of it has my name on it 30 grand 100% And it matters how much time it takes to make the 30 grand of course But you're averaging like seven grand a week Like I a like I chose entertainment not because of the amount of money it was going to bring me but because of the joy it gave me I know you see see holistic but everyone needs 100 Who said I didn't believe in that standardized test If someone told you if someone told you I pay \$65,000 for two months of work would you do it or not It depends on the no because I literally like got rid of a job for \$4500 for two months and it was part 3500 compared to \$65,000 Maybe

What do you think I think I don't know if you were just now excuse me  
Every day I think every day you get to sit down I think every day still minus  
60,000 \$60,000 I am minus \$60,000 but it will come into play I'd rather  
follow my bliss I don't I don't know I feel like I'd be so stressed For those  
two bliss on the street That can look how cute that is It's a very cute hat Um  
we don't like 2.0 in the building like 2.0 and you can you can wait Can I play  
that I thought it was gonna be really uh I thought it was going to be really  
good to play on the show But then Goggins goes off and it's not ok about  
being like you know you could they bleep out the curse words but it's like  
what do you eat a cookie Ok So do you do you know David Goggins is No  
he used to be a very obese person and he was fat shamed and then he went to  
the marines and basically yeah and basically turned his entire life around Ok  
And uh and a lot of people hold him in high regard for that because he gives  
a lot of motivational speeches on how to really keep their mindset at a  
premium level And so anyway Joe Rogan has Goggins on with a comedian  
who's obese still and sure whatever you want to say that boy So he puts them  
on together and the guy is joking around but Goggins is dead serious and it  
just it doesn't do that Well it doesn't yeah I saw it and you were like I don't  
know what side to be on Yeah Yeah Yeah I didn't know what side to be on  
either because I was confused I was just confused I'm not sure whose side I  
wanna be on Yeah like Goggins got very upset because the guy was like I  
wake up and I eat a couple of cookies and Goggins is like you're not like  
living for yourself You got like you got to wake up man Your mind is full of  
trash and the guy is like I don't want to work hard and it's like it was a pure  
case of like nature verse nurture Do you want to work for happiness or do  
you just want to be happy Is that because it's funny because Goggins is the  
one saying you got to live better but Goggins is so angry it's like no one  
wants to live like that I want to be like a fat guy I want to be angry I want to  
physically be like Goggins but mentally be like the fat guy Does that make  
sense It makes perfect sense Uh Moving right along Um And I wanna just  
give a shout This is our our new friend Alicia Lee Willis on set Look how  
cute she looks awesome We love her Um She's adorable She was a guest on  
our show Uh She was a guest on our show She's on the Bay Um And she's  
just adorable She's killing it with so many of her other friends are killing it  
too Um But what else No that's just like some other stuff That she's doing  
that Um and then this is too funny I gotta see if I can pull it up I think I have  
to go to V for this Um this is so funny Um but we do need we do need um  
audio on this This is uh Sonali talking about um her deal breakers Eddie Can

we put audio on this So dating Yeah let's hear him I wanna know if he exercises or not Number two I wanna know is he is there's a term called apparently open dating Number three Does this guy have anger issues The number four and five kind of go hand in hand lying and infidelity Moving on Um gun ownership Halitosis That's a fancy word for bad breath Two left feet I'm a dancer He has to know how to dance and then oh I don't like facial hair So pile your alibi There's a lot of men that can't dance A lot of men have tempers Most of them have beards A lot of men have at this point She has to go to like no what Bad breath No she said Helios I didn't bring that up Oh I know But you said she was ok Yeah But you said she was ok I'll stop Ok You said she was looking for a guy and then she she listed one of the list was a lot of the yeah but that's not what I was talking about Oh you said there was 10 of them and you brought up the one I wasn't talking about I mean you're trying to put in my in my plan and I'm not gonna let you I'm talking about what you talk about and then you talk about other things about other things So why are you focused on the halitosis Because I thought that was funny She goes it's it's another word for bad breath as if you know what halitosis is moving on the beard the dancing the temper and what else was it The dancing the beard the temper and uh oh how was she Gun ownership She's wiped away 99% of the men working out I don't have a I didn't say it was a man but I don't have a gun and I don't want somebody that has a gun You know I love that I love that Not that I hope the house gets broken into But if it does what do you plan on doing Kyle I just don't want a gun if I were to have Children If someone breaks into the house what do you plan on doing I'm just asking it's a simple question What are you going to do when someone breaks into your window that's made of glass and they plan on taking everything including your wife What are you going to do I'm just asking what's your plan You don't like guns Ok great Are we going to learn ninja I don't understand My thing is is like if I were to ever have Children like I would never want them to be around where there could potentially be a gun in the house like that Put it in a safe box put it in a safe So when like I think every single one of my friends has like multiple guns Oh my God And their Children don't even know that they have them Well that's good to know Yeah Do you know why Because they treat them correctly They don't like the gun toting people I think is the issue Put it in a safe lock it away and wait for a rainy day Oh God a rainy day I'm an American I believe that you got to defend your house There's a police officer walking by on the lovely streets of Brentwood You gotta be able to defend yourself I don't understand Now I'm

I'm 100% sensitive to uh the tragedies that we have a lot in this country have way too many tragedies I don't think it's as simple as just taking everyone's you know right to defend themselves No guns I think they found another way to do it You think a nine year old child or how old the child It wasn't a nine year old that did it as a 20 year old but there's also a recent occurrence where there was a child that kind of time Mind you everyone's forgetting there's a black market with way more firearms than legal Ok So if you take away everyone's legal firearms they're just going to go to the black market and get even more powerful ones today It's a it's a valid point No it is a valid point I'm just saying for me I just wouldn't want a gun in my home It would make me uncomfortable I did I did do guns All the robbers Where are these out Did you know eight people there there Eight home invasions a day in America Thank God I am in America that it I'm not taking those chances I think it's got to be more than that even if it was I just bruise My boy Look at your eyes your eyes get so heated and so big I was yesterday It's just a bunch of feelings I don't want a gun in the house Ok fine We'll get nunchucks chuck them together Did you get your p shooter Get your slingshot out We got we got an intruder Stop me You gonna call mccoys Colin to set up a booby trap in the house What are we gonna do What are we gonna do I didn't know there was like the end of the world happening and I needed guns What Teach his own I just would you know at pepper spray That could be a thing That's a great that's a great that's a great argument Why can't we pepper spray The guy You got to put like a gun in his face Like come on How do we know it's a guy It could be a woman and it was and it was I would prefer pepper spray than a gun in my home personally Like and maybe but maybe it's a pepper spray gun There you go That's pretty cool pepper spray gun You can also buy a pellet gun Shoot those beanbags will put you down But but also I bought but see the only thing is that taser you have to get close you can shoot tasers It shoots the taser Oh with a wire connected That's right That's right 2.0 in the building on a you got a taser gun Yeah she does She's proud Is it pink It's black Thank you It looks like it looks like a gun You hope you don't have to fire it Hoping he thinks it's a gun or a taser gun I like a taser gun Pepper spray You got to get close 3 ft Right Right Right You know what it is to each his own again Michelle's going to grapple Marissa's going to Tase I'm taking out knee caps and you had your home get broken into And what did you do when that happened Did you go and get the taser gun Then I would have wished I had a really you know do you know how to use a gun But if I had a gun and I had my mom said that and I would store it like and then I would

my mom said that she was like I don't have a gun but I'm gonna go I'm gonna get one and I'm gonna go learn how to use it because I don't want to feel like you don't have any kind of permit Anyone can walk in You Really That's pretty cool Yeah that's great That's pretty cool Listen I I'm just like praying and hoping that I'll be a ok My dad always said yes if you don't plan for the worst it's your fault I usually walk with you So I feel like for sure But no honestly if you don't plan for the worst that is your fault Not not the you know but this is this is how I also think we didn't have a gun in my house We had an alarm system Um and did anyone ever break in Nobody broke in That's that's probably why you have this outlook to 40 45 minutes He can dispose of the thing by then Are you kidding me I didn't want to say oh you take everything you can take everything I mean the amount of atrocity that can happen What happened Oh forget about it What about the guy with the they're armed If this intruder is armed in 45 minutes he can take out the whole you have to do is you have to call the you have to call 911 and you have to sound like hi I'm stuck in my bathroom and I took a shower and I can't get out They'll come in five minutes She says the white blonde woman All right Listen if I call the cops they're not coming You Ok First of all excuse me officer my house is getting broken into Hello You do not sound like a white blonde woman there but you sound like a man I don't know what your race is I'm told you to say no you can you can you can get here Not I'll be fine I'll text you when I'm done I mean if there were if there were like I would want to be near Kyle Say that Yeah I got an in in the house Listen I'm just gonna need you to bring a couple of uh body bags All right You know we still are I don't know how many there are you know a streaming platform that you know hit us hit us up in the interactive chat Let us know what you think Let us know what you're doing I think it's not How's your good day going We're back on Fox News about guns today Oh God said it a lot That's you I mean I'm like I'm kind of PC about it you know I have my opinion Yeah I have my opinion I'm not saying anyone else need to follow it and I'm not saying what I'm saying is right I'm just saying what I believe That's like these crazy guys when I say what I wanna do and you're like oh I'm just wondering what you're gonna do If anyone else breaks up keep the peace you're not gonna call the Ghostbusters You know what I mean Listen you know I've always seen these signs where it's like uh it says um we have a dog It's like and that does what you know what I mean Like it's like we got no I mean listen I had a chocolate lab His name was sport You had Yeah And my uncle came over to feed it or actually to check on the house and feed sport

and we were in Florida I believe and sport didn't know I mean no one left sport a memo that somebody other than us was walking through the door He attacked the uncle and it was very effective I gotta be honest It's good good delicious And it uncle and right all over my face It it is a very hot topic And listen iii I do believe you have to be careful and aware I'm just not for uh guns this is not my thing What do you mean by careful and aware You should be aware of your surroundings and you should be aware of like what's going on in the world and you should be aware of like who you live next to and all that Um and you should like you know check your surroundings look under the car like you know if you're a single woman and you walk into your car your eyes just got so big You're like my dad so much I was talking to my dad while I was walking Charlotte the other day and um it was pretty it was like pretty late at night It wasn't that late it was dark And in Koreatown you walk outside at night Um so hold the line it's dangerous I didn't say it always dangerous I just said in my area it can be not the safest at certain times And I will say I went to and this is why I got a grass patch for Charlotte is because I was walking outside This is also one o'clock in the morning because sometimes she likes to get up and go to the bathroom at that time Not the best time to be a single lady taking your dog out um in a big city and I took her out and out of nowhere This like crazy person is like running down the street and I was like oh we better get inside and then we got inside And the next thing you know the person takes a like a boulder like a rock and throws it through the door You know why Because he's probably trying to get through the door to get to you still Yeah Well luckily luckily I was saved You know what stops people like that Peppery firearms I'm not gonna take out a firearm in Koreatown Can you actually walk around Look maybe we should have this conversation off the show But like if you're a copy of a license to carry I think it's in California that you actually have to be in the last room of your house with no escape is the only place you can actually like open your firearm right Like you can't actually like in Florida someone could just like walk across your lawn you could open fire if you want Oh my God George Zimmerman Yeah the whole thing George Zimmerman the kid was just walking across his lawn with a hood on earphones He couldn't hear him and Zimmerman shot oh my God it was legal because he went across his yard He thought he was trying to break in because he had a hood and he was like stop right there and the kid didn't hear him because he had the earphones in but you can't see the earphones that he's got a hood on It was a very unfortunate happen for sure We see the world in very different ways No I just see the

world the way it is I see the but yes we see the world in very different ways I mean when you say plan for when your says your dad says plan for the worst right Uh I like to plan for the best with with the knowledge that the worst could famous Last words I gotta be honest I please famous last words plan for the best and then keep aware of that Like things can always happen That sounds like you sound like someone that something bad has never happened to before Like people have had have come into contact with like really horrible circumstances Have a very deep understanding that it wasn't controllable It's not like the world isn't made out of like wishes and hopes and dreams So like if you hope nothing bad happens that does not mean something bad is not going to happen I'm not saying that I'm just saying plan for the best No plan for the worst because if the worst happens unbeknownst to you without your planning you're at a deficit at a detriment Yes But I like to think my mind I like to keep my mind in the best case scenario always because I can go to the worst so easily No one asks you to go to the listen to me if the worst happens not your brain But I'm not saying don't I'm not saying you have like a bad muffin today and now it's the worst and just keep a good mindset I'm saying you're going about your day Yes Someone else's day intrudes on yours Yes I will say I'm very lucky and blessed that I the only um experiences that have been painful have been ones of loss to my family Um They have been indirectly through me not to me Um But I will say that it's important to be aware like if you have a like have a spare in your car for a flat tire that kind of stuff if you get a flat in a bad neighborhood I wouldn't even change it What would you do You just got to keep going How can you go keep going if it's flat you can drive on a flat for a couple of miles Oh ok Yeah And you should if you're in a bad neighborhood I can change a tire But I wouldn't suggest that if there's no firearm and you're in like you're on like you are you are not no joking about this again It's like you it happens like that It's either nothing bad was happening or something bad happened There's no like that in between where something bad is happening is a very quick and a very life changing experience and you want to be prepared for it and if you're not then all you get to do is talk about it afterwards and how you wish it didn't happen and how you hope for better and it doesn't change because now you're never mind but you get my point Did you see Tae Kwon do as a little guy I saw King Richard recently because like you were talking about Richard and I watched it and it was a beautiful movie and if anyone who's watching hasn't seen this movie who absolutely should Mara Have you seen this movie King Richard I have a beautiful beautiful movie Uh the stuff

that that Richard went through was intense Um the stuff that uh oh here we go What's this You have that See now to me that's terrifying because if you have that and a guy actually has a gun Mara can hit the guy before him before he went to like hit you Like if the guy had a gun she takes it out Ok So like she takes a taser gun out he takes his rib she fires first She wins because this is not a game This is real life Exactly She wins Ok But she but that to me like because that could say like I've got a gun Yeah But if a guy has a gun with a bullet that could hit her before the taser hits him if they fire at the same time Oh my gosh this is terrifying But if she are you afraid to carry this around or no Oh ok Also she feels safer with it Not less safe in her home That makes if someone pulls out a firearm that makes more sense Yeah Would I carry it What do you have One Walks into my bedroom and they have a gun I'm not gonna have time to pull it out Yeah Yeah Yeah So um so how far does this thing shoot Wow 12 ft is like basically for me to her Yeah That's great Yeah Oh that's so good Listen I just hope that nothing bad ever happens to anyone in and you need deterrents from the terrified Like it's lovely to have hope we live in a world where basically like everyone at some point in their life has something happen to them Everyone I don't know anyone that has escaped it It doesn't matter what their background is what their ethnicity their religion their gender their everyone I know has had something happen to them Someone close to them So like better to be prepared I my most gay millionaire held a gun point Yeah Ok He wasn't in anything He had nothing expensive on He just happened to be walking down Miami streets and held a gunpoint robbed all the stuff gone Listen you can take everything of mine just don't just don't you know take me with it Now I will say you will probably find this about two months ago and this is during like the whole should there be gun Should there not be a r rifles are a whole different conversation However there was a guy a plumber who carried a handgun in his car he heard screaming in the woods pulls it out goes to the screaming He stops a kidnapping Oh ok That's good You're scaring I'm just saying again I doubt the woman was just like hoping for a kidnapping Like she was going about her day She didn't wake up thinking that was going to happen She didn't have the you know the proper deterrent tools He did Thank God he was there And uh you know everyone went home unscathed besides the perpetrator I'm very grateful that uh these things have not happened to me but it's good to be prepared It's a tough subject It's a very tough subject It it's one of those we're getting into it We get we get deep It's a tough subject No Well look again I don't really stand by one or the other I'm

just like what are you gonna do when you know when the bad guys come I go for the pink one I'll take the pink taser for 12 99 Please Unless you know hand to hand combat Unless you know hand in combat you can't use something You're gonna have to get next to him at that point He's like he's his arms His arm reach is probably longer than yours Number one First of all if I had that in my bag for sure I'd probably tase myself Let's be real let's be real Have you seen my bag She's like hi guys I'm like all right No need for caffeine that day That \$21 for 21 That's a cheap taser for 21 99 but double you know actually it's funny that we're having this conversation I um I went to Disney with Adam Fried in 2017 and I had the selfie stick because I wanted to film the whole experience They took it away from us because it was banned And can you click on the gray one Can you up the gray the gray one right there No I can't believe this is all on Amazon Look at this Wow that's a bad ass taser What was that 1000 bucks That makes sense What's the reach Can you see that I can't see it on our screen What's the reach on that thing That's got like a 30 ft taser You would need a bigger bag I'm gonna need a bigger bag I'm I'm just skipping I'm going right for the guns Oh gosh I ironically uh I'm better at a Rs than handguns It's so funny because my ex-boyfriend's dad had like uh he had like a a yeah cabinet and I was just like uh I like really I I'm so interested in that uh look at that thing That's a bee It's a you're a it's it's that's really cool ea a large safety switch What does it say The reach on this thing Can you see I can't see from here Gray 15 15 ft It's terrifying Yeah Go for it No he get the cheaper one It's all what you sacrifice a foot at that point It's a good look I'm not paying \$1000 I get one for \$21 and it's a foot shorter Oh really I thought your the one you had is not reusable You can't reload it Well I'm pretty sure you can almost every single taser it's like cartridges and you plug it into the front because what if there's more than one person Are you sure you're not a police officer in the in one life I was for sure I think so I didn't I tell you did that work for you where I said can you put your FBI or whatever from on your dating profile Did that work for you I never put it on Oh you didn't You absolutely should It was because I actually I played a cop back in 2017 on this Netflix thing and I posted that picture on my on my dating profile and every single woman after that I mean it was a hot topic but they were like are you a cop Are you a cop And then after I say no it would be like it was you know Oh here we go This is oh this is this is where you can use it if you're out having fun if you're out having fun and you're alone never expecting to run into bad stuff Sabre Saber Is it saber or So it not a Latino company Saber This makes me think of like

off the office like oh they got a punch one too That's what like if you punch the person that takes you on the punch Oh wow Look at that It's a GEO track exact location Oh that's cool If you actually Oh wow 25 bursts Oh look Saber Personal Safety Academy Now I will say I think every woman should either go to car mcgaw to one of these 100% I actually had a very controversial conversation like five years ago because they would the girl I was dating she was like why is it just women I was like it's not just women but just physically The man is expecting like like if I'm walking down the street and a woman is walking the other way I think he's going to go after the woman first because he he expecting her to not be as fight capable as I am But I think if we change that narrative and he's like no women these days like within 10 years I think you can change the narrative Just the overall outlook on women where it's like no no no most women can fight and probably better than like the average male Yes that's the thing I think women can easily do Women have endurance more than men do What do you mean Like men are I think overall faster but women have more endurance like cardiovascular wise I think so Not true but very good thought I think I do think women can run longer than men There's an actual statistic that 300 high school students break the female all the track records every single year I meant a grown male versus a grown woman Yeah I'm saying like not even grown males break grown women's records every year You have a little bit of something on your long eyelashes Just kind of happens a lot with the long eyelashes I can't say no That is my point of women being better fighters Is this a gun You know you don't have to you don't have to have an endurance to beat someone in a fight In fact you want to be to strike strike strike gun out of there Is that a gun gun Oh that a gun I've been shot with a baby This subject It wasn't fun Actually I was bullied I was bullied with a BB gun You were bullied with a BB gun Wait what do you mean you were bullied with a BB gun in college Uh Someone didn't like me when I was a freshman and shot it at me and they thought it was a joke and I didn't think it was a joke and I got really upset and I was like do it again See if I can tell the dean you didn't tell the dean immediately the first time No not if you fire it again I would have because I was like bro you could easily blind someone with a gun Like don't it's not a game Did you get hurt It hurt Oh my gosh Why did they do that Uh They didn't like me and so they used a BB gun on you We're talking about a 21 year old probably taking steroids because he's on AD one football team that had access to a BB gun It'll happen What am I looking at Is it a good one What does it say 4 to 5 stars Imagine there's a review on there works great

He says it works great Oh my God just became a good firearm live You know actually I would like to go to a fire range and and have like we film it we have to make it That's awesome We got we got to make a clear distinction between loving firearms and needing firearms Hope you had a good Tuesday I know I did I'm not I think Michelle is a little shell shocked today but I hope you all enjoyed it at home You want to close this out you can take over Well wherever you are I hope you have a good day and I hope you spread it to whoever you may let's sway I'd like to say let's sway I'd like to say let's sway I like that as an ending more See you guys tomorrow have a good Tuesday I like that more Wherever you are Whoever you may I hope you have a good day and wait whoever you are I hope you had a good day and spread it to whoever you may let's sway That's what I like Ok What do you say Yeah Yeah Yeah Ok I just got here See you tomorrow No we spent like 40 minutes on firearms I think it was interesting to talk about why you were uncomfortable That's like the whole conversation you know a check in love Yeah What scarce and in on a
