though Like it's a complete contrast between how you and I ended up
working together compared to the entire cast of the day A first choice I guess
which is I get that from him And I love I love what he said yesterday about
Like he knew like at a very young age that this is something that he wanted
to put together He was just waiting to be in a grown up to make it work Yeah
everyone's playing such dynamic and and just hero They're in harrowing
situations It's a it's a big testament to everyone being such a good actor It's

doing our daily check in check in Let's get through it You're supposed to go on a on a snowbird trip Got notification You wanna tell the story I can't All right Kyle has been bombed since what time What time did you let me know You text me I got a call Ok There's four of us there's five of us going The one worry war is the one who contacted everyone in the morning Hey there's an atmospheric storm I was like Dennis Leave us alone What time did you get that message Like 8 20 in the morning Is that appropriate time to or should he gone a little earlier Oh let's let's segue let's get into it We were also talking about what are the appropriate times to contact people for business business or friends friends friends friends You could start at like 6 30 in the morning I want I want the tea immediately You want the tea Ok so if I find out you waited until nine I'm gonna be a little upset Tell me I want to wake up to it You want to wake up to the tea I want to open my eyes and be like holy cat No way She did not Did you say holy cat Holy cow I thought I was gonna say something else I was like holy cat I'm doing my best to say PG 13 here You don't you know we're we're on Amazon So you can you know go a little to the right and a little to the left but you just got to Yeah Yeah Bring it in Bring it in OK All right So OK so we think six o'clock is OK 6 30 So we put this on like our our Instagram handles our Facebook page I put it in my contract contact me unless business But ok so what about you have to be on set at a certain time Like that's why you get a call sheet Yeah but like sometimes things entertainment completely different I know So going on to set completely different like you know yeah everyday life we're dealing with a post production pre-production 9 a.m. So mom and dad I'm getting my dad calls me like 4 a.m. forgetting That's not my time I'll get a call I got a call like three every single hour because he I wake up at five o'clock his time and then call me and it's only two o'clock my time So I haven't even gone to bed yet Back to back to the story Uh it is I get my feelings Let's start there I love snowboarding That's number two I bought a new snowboard four trip It is my birthday also That's four things Ok And uh and apparently the weather waited till the day we were supposed to leave three hours four hours before we were supposed to leave We got the news that there was a landslide and we cannot get up there and the cabin canceled on us They were like yeah you can't come And so it was like there's no question we can't that we can or cannot go that we cannot can you tell can I tell you every day you talked about this trip I felt more and more nervous about it So you're happy I'm relieved honestly because I felt like something bad was going to happen I kid you not what I did watch watch the past episodes Ask Andy ask Natasha I

was freaking out for you Not because they don't trust you I'm not going to dive into a volcano It's a normal it's a commercialized mountain people Children on this mountain this three year old is doing this and you were like it's OK You got Cash Hoy I was like I love anything pop Cash My guest host when I'm when I'm out cash comes in and handles it pretty well Yeah you Cash I love But it's the Michelle and Kyle Show Michelle Cash has a good ring to it too Doesn't feel good Oh there you go How does it feel Oh ok Ok Ok All right So Dennis calls he's a little worried about it and then he was like we can't go anymore Ca Cabin canceled There's a landslide Here's a picture of it Have a nice weekend I'm sorry I got I bought a \$600 board for this weekend It's fine Listen you can use that And then I had to ask you this today I was like I was thinking about it more and I said is it safe to uh on a fresh snowboard Like safe like brand new one Right She got pre pre waxed How many hours did you spend yesterday Getting ready for this trip Cumulative over the week Yeah How long I don't want to talk about it All right Let's not talk about it anymore But we should talk about some other things Kyle You sent some stuff over to Good Day Live What do you want to talk about My friends What do we make of this What the no red car this weekend Actually that's a good thing I'll get to see the Oscars Oh there you go All right Um they're not doing a red carpet anymore They're doing a gold carpet I don't know why why no red carpet this weekend doing a gold carpet Why Well because it was for the 100th episode and the gold uh I do miss the red carpet I'm not gonna lie There's something about a car Yeah But red is like the very glamorous old Hollywood I think gold is more appropriate What color is The Oscar It's not red No it's not red but it's all right I don't know I just missed the red carpet It's it's got a good to it It does And I you know I think about this while I was driving to to Seth today I was like why do we like the red carpet Is it just because of like programming and you see it over and over and over and over again It's like oh you get to walk the red carpet because if it was gold before as always I think the last time they did this was 1961 I'm gonna say something that's going to sound very shallow All right here we go What do you got an episode without a statement from Kyle Here we go All right I don't think anyone really likes the red carpet They like when they hear red carpet they hear paparazzi it's like oh paparazzi will be there if I told somebody there's a red carpet with no photographers would they go I mean you just assume it's a whole package Exactly With the gold carpet It's an even bigger package I believe What what are you selling packages Kyle will be your red carpet I'm the one actually I have an LLC

selling the gold carpets out You're gonna be rolling them out I'm actually rolling them out too I'm doing the full service myself I like it though I love it You know I don't like it because of the dresses I'm all about fashion so I do you I don't like change I change my plans for my birthday but I I don't like change I'm not the only person that doesn't I like change but only on my terms Yeah me too All right There you go Ok Let's everyone narcissistic Moving on I'm not narcissistic I'm just telling you how I feel Yeah Yeah Go down here we go What do we got next What do we got next I don't know This is what you sent me Um this is just what did what did you say Everyone's seen the devil horse right With Mel Streep Yeah Yeah Yeah Yeah The one Ok Does anyone else feel this way about Crocs Wait Uh they're so ugly Kai we can do better as a human race We can do better than Crocs I believe they're so ugly Oh my gosh Yes Well I ok and is too right like are very comfortable and they're very cute at times I can't get on the same page with a mug I love male Uggs A mug You got a I got 100% you know a pair of 10% I have had the same u since like 2010 You're one of those Well because I don't wear them out I just wear them Like now they're like they they lean after like a year like maybe a year and you know you have them No everyone every girl in college like I went to college 5 to 9 when s were like a thing Every girl just wore UGS and within six months every girl's UGS were just like kind of if I you're hilarious Um Yeah No they're super super comfortable but I have to say my brother who is a dad of four I feel like you have to give a little leeway with this How can you ever wear Crocs Like they don't go with anything Just a statement I gave up I gave up and don't mention it Yeah see I feel like kids can get away with it more a trip I think I think kids look what are oh yeah they're super cute and the foot can come out too I don't know I don't know That's like a that's a slip into a corner waiting to happen for kids that have the holes in them They're like little holes but they look like sneakers You know those are super cute right Those are cute But so these are these are fun These are cartoon boots Remember those those were human rights are not Have you seen the red boots Like a cartoon boot Yeah Yeah Yeah they were hideous What is Kanye doing to us Those are not from Kanye I mean they have to be in my head I don't know why I love Kanye needs to blame for a lot of things Oh my gosh What else do you have Kai What is this what's going on here Well we did find a habitable earth close by I love my random facts Who doesn't Kyle's corner Everybody Well this this is just like a simple fact We found another habitable earth Wonderful Awesome We can't get there Um But the cool one is that we just found 12

more moons on Jupiter Wow And what does that mean to you There's a that's over 100 moons for Jupiter Why are you so excited by this I just get excited by cosmic activity I don't know why because it's so fragile Like when we when you really think about it there's 100 things spinning around a planet right now out there spinning just spinning And that brings you joy It fascinates me It fascinates me at the complexity of it It's like I don't how did they not hit each other How are 100 moons rotating around one planet and not nailing each other Do you think about this while you're driving Not while I'm driving because I would crash Ok I'm glad that you don't think about this while you're driving What else What else you got What is what's going on here I love my man Save the country 100% now He's building a town for his workers I don't know how I thought you were gonna say girlfriends I'm just kidding I'm just kidding I actually actually not your well you too Um I actually interviewed as a nanny for the Musk family about 10 years ago and they were and the woman at the time was like you do not want this job She's like I don't want it Like I don't want it I want it And I was like oh and I didn't know who they were what I didn't know who they were I like the only person I knew who I interviewed with was Bruce Willis's family But anyway don't sue me Well anyway yeah he's he's gotten it's in snail Brook Texas Texas would they're actually thinking about seceding They're doing there's a vote in the next two weeks whether Texas will secede from the country or not You think you don't think they won't they'll try do you see what happened January 6th OK All right Well all right The March on the Capitol Yeah OK Those weren't just Texans No I didn't think they were I'm just saying like I think anything is possible after seeing that cousin is living in Texas I'm I do get scared for him sometimes Do you Cause what goes on down there I don't know I've never actually never been never been to Texas Me neither I don't want to go All my exes live in Texas Anyone from Texas No one no no no good Everyone ever been to Texas here live studio audience He said it was like an Brandon beer in the house today in Texas I I want to go do you I don't know Everything's bigger in Texas I go I don't know how to take that guy Um On my on my end today is National Peel Day Give a shout out to one of our special friends who just got a peel Um but today is National Peel Day I Yes thank you I peel I love you guys Um I love things that are uh you know that make you feel pretty and good in your skin and that are not aggressive Yes Maria Khalil We love you so much So um today is every day is peel day on their end but today is actually National Piel Day You know I was thinking about this who comes up with these days apparently Um an emergency Is it a

flash flood right now You love that I love all of our phones This is when you can have your ringer on Oh here we go If you couldn't tell this is a live episode Yeah Um We do have a flash flood Glad you didn't go I would have been like so nervous all weekend long I would have so nervous all weekend I guess everyone in the studio gets a flash flood warning It's not time to travel Oh no Oh no I hope they're ok Yeah that's that's a little that's a little dark Huh Well let's can we say who can say who the person is And maybe maybe they'll maybe whoever's watching will know Can you say who it is actually Um let's put this to use Huh Yeah Yeah Yeah Endangered missing OK Uh Let's get some details going here I'm on 1% So this may not go like what is up I don't get it OK You do this all the time It promotes you to Twitter Which is interesting Oh ok So what do you got Oh OK Here you go missing We have uh Anna Anna Dov Davy 93 years old 5 ft £100 here in California We're looking for a gray Lexus She's got red hair Um This is what she looks like Can we um come in on my camera So if you are if you are in the California area Oh it's not Oh anyway she's 5 5 ft 3 92 She look she looks great Now she is driving a car which I don't think she should be doing which is why we're getting this No I think if you're I mean uh just stinks up seven F as in Frank zero Y as in Y 090 All right Keep an eye out for her and um thoughts and prayers are with her and her family and hopefully she'll get back to her family very soon Wait what is that What's going on Oh my gosh You are on our breaking news segment here at Good Day Live What No Oh no Oh no I feel like this is an episode from the Bay Does that sound like an episode from the Bay Like throw a cop shirt on and get out there Maybe a batman a batman tea anyway Uh Yeah Well hopefully they can find her soon Um but I love it you know I love technology for that case You can do that to me at six o'clock in the morning or 5 5200% But you know if you're trying to send me a multiple emails to uh figure something out like you know let it go um back to you babe Um I want to pull this up I thought this was interesting Um Did we like I feel like I feel like I feel like this week has been Murphy's law like all the things that could go wrong went wrong Um But it's been a great week Uh We did we sure did Um I love I love this about um Kara Devi Um She like she talked about this is interesting You never know what's going on with someone because we're all like so complicated and complex Um But she said that she saw pictures of herself and um on the red carpet out and about and it's so funny to me when I was the airport airport photo woke her up to be like I gotta start getting healthy when I see these models these supermodels and you know as an actor and a host and whatever producer or

whatever it's like you see people but you don't really know what's going on and like they look really pretty or like in the moment there's so much that could be going on So just seeing this made me go like it's awesome that she had this awakening call and she's coming and saying like hey actually this is a really bad part of my life and I'm turning things around You just never know you just never know So be kind be kind to everyone you meet Bourdain is my 100% go to every time we talk about this kind of stuff because I mean the man flew around the world eating delicious food with amazing people and still we had this result You just don't know the best job That's one of the best jobs But again it's like we just it teaches us his scenario definitely keeps reminding us that like you can't apply like a one dimensional even a two dimensional outlook or perspective on someone's life Like it's probably 16 dimensions and two of them are probably horrible and you just will never see it unless you really talk to them It's just so much more complicated But you said this to me the other day I was like having a really rough day and you're like Michelle you just hosted your own talk show and you went to this really nice restaurant I was like it's deeper than that It's so much deeper than that It's not just about what you're doing I am Yeah that was all right OK Um this is I'm gonna take it to this because I thought this was funny Um Cole Sprout was smoking um indoors on a podcast and a lot of people thought it was cringe I mean why do you think this is he's going for a look that's not like who he is I think of Disney and this isn't even motion picture I can tell he's faking it really two dimensional picture and I can tell it's not who he is I just think of like Big Daddy and think of like you know all this this reminds you of Big Daddy Well because he's like was so sweet you know I don't know Anyway but this is this this is feedback Um this is on this is called Call Her Daddy Is that that's the podcast right Call Her Daddy Um and then people are like him smoking indoors It's like so French And then um it's funny it's giving rich white kid tend to be a tortured artist I thought that was funny I thought it was like about the whole race thing but the tortured artist part I thought that was funny I thought that was a and then this is gross to me Natasha Can you pull this up I can't get behind this trend at all What am I looking at Hidden Valley has released ranch flavored ice cream What Oh are you serious Who buys that should be arrested now but now that I'm thinking about it French fries and that might be good No if you think of it but like if I were to eat you eat French fries I don't Why are you lying to the french fries when you order French fries But what I said the other day I said I can't eat the way you I only eat French fries

when you get them I mean like you shouldn't be eating French fries in the first You shouldn't be eating french fries You fine at that Well I shouldn't be going with you and Andy out to lunch after the show where we celebrate your birthday and you order french fries I this is like the this this ice cream is just like the as Americans as Americans We can do better We can do better What does everyone think This is just nasty to me Why don't we come up with like a new butterscotch or something What do we have ranch even just seeing even just seeing like the bottle next to the ice cream is just like throwing me off Right It just doctors got to be loving this I mean people are going to be rushing in with high blood pressure diabetes and all that stuff in the next couple of years Doing No but ranch enthusiasts have a whole new way to enjoy the creamy salad dressing It's a limited edition Thank God it's limited Like it's so disgusting If you're in the store don't go get it Um what else What else What else What else Some sexy music I think we have some people coming in Oh ok But I had to pull this up Can we pull this up real quick Natasha before we go to Miss Celeste Um if you wanna know what Kyle True but will look like in a couple of years we have different shaped heads Do we Not Idris Elba smile I think he was like in the middle of a conversation But he said I think Megan was the one that was really letting it go She just had a lot of fun It was her wedding So she had the greatest time Well he was invited to her wedding Oh and they're like why was Idris invited to your wedding I don't think that was why but this was just like one of the posts on people and the reason why I picked it up was because I was like Kyle always gets stopped and everyone's like do I know you And then Kyle's first go to is you probably think I'm Idris Elba I'm like Idris is like 20 years older than you Easily Howie Mandel walked up to tell the story and he was like and mind you it's how man he doesn't he doesn't even touch people I'm serious I was in I was in a meeting for a movie but still OK he walks up to me He's like I love your work and his whole team is behind him And I'm like I'm not who you think I am and I knew it and he looked at me he like kind of like he probably thought you were somebody Oh my God I'm so sorry No he apologized He thought I was at the were very loud They were offering me a role It looked nothing like him says you I mean right now you look like a governor Listen I've never said it People every day say it you can then you say it like when Maria menu man I was I was nervous It's Maria Mannus Like do I know you You're like a lot of people a lot of hang around Idris and then get around me and it's like I know you from somewhere Even yesterday I was like I know you from somewhere I'm like you don't I said everyone

thinks he looks like I Elba So then I'll grab his hand while we're out in public and I'll be like hello And you're like stop don't do that too I think I know you from somewhere you have that look It's just weird when you know they don't know you and they're like I know you and it's like you don't you know actually that happened to me the other day and then we'll get to our our new friends Um But like I was in a um a zoom meeting um to do some voiceover stuff and they were like I met you and I was like no you didn't And he goes no seriously like we met and I was like I remember everyone I meet and then they stopped they didn't want to move forward Yeah And and I was really I was really like a little hurt because it kind of came off that I like it was a little like maybe a little pretentious Maybe I came on pretentious too to manos Well you said that you look like Idris Elba No I didn't say I look like I Elba I said a lot of people think I'm made Selva which is true I have a video of you Shout out to Maria Hi Maria I don't think we've ever met before I would remember that Oh because she was can I say this It's Maria man crush of yours when you were little little younger Yeah she was an entourage the whole bit Now the music is coming back on Speaking of crushes if you are obsessed with the bay like us we'll be right back with Miss Celeste Fiona Well thank you She plays Tam around Garrett So here is our Jackie I box that you wanna get it charged up You use this fantastic charger over here This is the output over there and it has an extra cable like this with the ability to charge it in your car So that is really cool So we have it all charged up It has here you can press on the display You can see now that it is not drawing any power it is not bringing in any power and it is 99% charged which is cool So as you want to use all your separate things you can turn on the little lights and it will show you as you can see there that now you can draw power out of them or you can turn them off just like you would at home if you do if you wanna leave something plugged in but not having a draw power there you can turn it off So let's have some fun and see what our Jay can fire up So in the past we have used the Jari to light up our lives with go We have charged our cell phones and we have done a few other things But oh we've even lit up the Arrow Garden How amazing is that that we were able to light up the Arrow Garden But today we're gonna push the Jari to the limit and uh we are gonna take a look at the this works what's this This works Vaca vacuum Awesome Very cool And we could even take a look at it Tabi used it and uh how amazing is this Oh my goodness You can just keep on going and going and going You can get into every little look and cranny in your car with all of this How awesome So this is what we're gonna do We're gonna stick it into

our query Let's do it this way So you guys can see what I'm doing Turn it on It's a little light and the display have gone on because we are about to fire this up Thank you Mr Jackie There we go That is cool So let's see what else we can fire up today I mean that you can I mean that is just so cool You see powerful vacuum Jay fired it up Let's have a look at some of the other things that we can um fire up today That's c you don't have to dance We just we just like we're so you dancing on a get on the hit show the Bay Thank you Tamara Garrett I'm sorry Thank you Thank you Thank you Why don't say Avery She her sister on the show But I've been very impressed by by the memory and getting all the names down and sitting over there watching Oh well we're impressed by you Um one because you're so talented and you're an Emmy Award winning um producer and actress on this show Um We have to you also this is the first appearance for uh a little guide for you right Is six months pregnant seven months seven months you wear it so well And if I were to ever be pregnant I would want to look like that Thank you Yeah he's uh he's gonna be here in June Oh that's so exciting Oh how sweet is that I know he wants babies so badly Like he has the first episode Our very first episode was like Michelle I'm sitting across from you but I want I like I have baby fever and I was like ok I like sitting like further away from like no I know but still like keep it on your end I'm not sure what that is just ready for a team ready for the squad This is a 123 Yeah Yeah Yeah But anyway so are you happy about it Yeah Yeah Yeah You were saying that you were uh extremely happy because it's fitting in the middle of your shooting season So you didn't really have to work Yeah Yeah I mean if if we were filming I'd be like great I was gonna write in a pregnant character or something like that But uh but yeah I think I'm just going to miss it So it's it's good because I can like really focus on being pregnant and right now so it can get stressful sometimes But other other than that it's so fun Awesome And then you have your real life brother Chris and who was on yesterday um on the show too that like yeah we we love working together Um Gregory is like my brother too So it's like we really have we've been a team for gosh like 14 or 15 years now And yeah it just kind of keeps keeps going like the snowball gets bigger and it's it's just it's great It's picking up traction and speed and what's it like to have like to see your whole family succeeding like you've been with them for 14 to 15 years and everyone's staying together and succeeding together It's just so unheard of in L A Yeah it is It's a lot of perseverance I mean there is it's funny because sometimes like there's a support team and a support system like one of us or like someone will want to throw in the towel and it's

like no no no we've worked really hard to get here We keep going and and it's it's great because we kind of we lift each other up and it's yeah it's you know it's with anything It's not always easy But um there's there's a lot behind the scenes that I go on like get it going and keep it going and but it's it's great It's very rewarding support is like seems like innate in everybody Is that something that's like uh installed once you like join the team or is he is that something that's just innate in everyone by chance Um you know I think I think Gregory picks people well like he like he knows that they're gonna be really there in a lot of different ways and and you know we just kind of joke around and we're all in big family and we all have each other's backs and you know we stick together and you know years years go by and we just keep keep kind of doing what we're doing And um yeah I I think I think he's got a great uh ability to pick people who are really like tough and stick with it and yeah resilience I like that again I don't know how he finds you guys He's got some great way of searching But how did he find you I mean how did he find your brother We didn't even ask that question yesterday This story is funny Gregory this story But um so I used to host red carpet events I used to do Yeah So it was kind of one of the ways I started out and I was in you know my late teen years and uh I hosted a red carpet for one of Gregory's movie premieres back you know a while ago And uh and my brother was an X games champion skateboarder So we talked about that yesterday Right And and so he was doing his thing I was doing my thing and we both met Gregory independently and then we went to another another event and Gregory goes oh my God it's two of my favorite people in the room Christos You have to meet the I like actually Gregory I need you to meet my brother And what was his what was his reaction when he was like oh I played along We're like oh nice to meet you And then uh and then we're like actually we're we're brother and sister and he's like oh on what show or like where do you I'm like no we're really brother joke about that because I love how he already put it together in his brain that you guys play brother and sister on a TV show Like not in real life So Gregory I love that That's so Gregory T shirt because I mean what I gather from your the your associate the creator of the show Gregory J Martin Um He has a brilliant way of kind of blending life and fiction to get you really can't separate the two with that one He has a really interesting way of just kind of pulling from life constantly Yeah Yeah It's uh it's it's really cool to see his process and what he's writing He'll like he'll talk out the characters and he's a great voice for like like the characters say their lines And um yeah he uh he really he does draw on some real life

events which I love which is really cool you know and and modern day serious topics going on And so it's it's really nice to have that incorporated into the show And so yeah kind of keeps it relevant Right Exactly How quick is that turn around because I know he's he's writing it also He'll see something and then it's like in that season almost Right He's pretty quick Yeah I mean he'll he'll just get into these writing zones and and you know a month later we'll have a season so beneficial to know someone like Gregory J Martin like behind you behind you and supporting you I mean that's his talents are just insane and the fact that he found your talents and your brother's talents insane I just the serendipity of that is just insane to me So I I wanna uh segue and talk about your character Why do you think Ok so she's walk me through this She's an escort turn model or actress turned model turn escort What's what's her real like what started And he has quite a history and um uh Gregory says that we might touch on that a little bit more but my character kind of comes from Vegas and she did some escort in in the past that she's not proud of trying to that as deep as she can and no one to find it Uh But yeah so that's her dark history She didn't have a great relationship with her father at all and you know bad home life turmoil and uh she really she's she's just like she comes from the streets and that's what she knows So she just that's her default way of operating and it's not always helpful and conducive in her actual life So she feel like she really struggles to get out of that but she stays you know she stays in some uh good yeah good things as well Why do you think she's always like going for the bad guys What do you think Like what is it You know actually before you answer this Wendy brought this up Wendy Rich yesterday said what Like there's something about women that want to go for the bad guys So I'm curious is what do you think Why your character goes for the bad guys and why you think women as maybe not on a whole but why we would tend to go for guys that aren't so great That's that's a loaded question I had a theory It's so funny you say that OK here we go I asked the woman who who I was talking to about this I was like would you like if the guy was head over heels and was kind of losing himself in the love She thought about it and she was like oh I don't think I would like that Wait who is this What's what woman And I and she's like I don't think I would like that the fact that there is that he's just like so in love and so encompassed in this love I kind of want him to have a foothold on reality and his life and his objectives and also love me So I think that kind of is most exploited and most shown in the mysterious uh mean guy types where you can really tell oh that guy is not budging like he likes me but he's

not falling head over heels which means he has like an autonomy over his life And I think that kind of has like an attraction of the guy still having control of himself in a way Um But that's what she said That's what she said What do we think I I agree I think that makes sense Yeah Also um I mean one of my theories would be that like if they if the the girl also comes from a disruptive past and that's what she might might know and be aware of feel comfortable with and she probably isn't always right But um but I I see with my character you know she went for some really bad ones And and then you know with with her dating Evan and so he's he's the best thing that she's ever had Probably actually I could probably say doing the role for so long Um so she is trying to climb out of that bad kind of cycle that she got caught in with such like a tumultuous past and like a like a gritty character Does it inspire you in any way for your real life Um Yeah You know I've it yeah I mean I enjoy playing the character I really do That's awesome It seems like you do It seems like you really enjoy getting into that kind of gritty But your brother does also because he's playing two characters It's like a grittier version of yourselves That's interesting because neither of you come all gritty in person Just super lovely and wonderful wonderful wonderful people Should we should we look at not such a squeaky clean clip Can we look at such a squeaky clean You love the big clip the bay clips the bay clips Let's take a peek Corruption I just wish you could find some self worth Whoa whoa whoa Hey hey hey where are you taking her Tara Yeah Way as we Yeah Everywhere that I I says I make my the oh like oh my gosh Where are they playing this music by the way My gosh again Great music for the scene Awesome music That's you with Evan Um Is that am I saying Um Brandon Beamer who's in the studio with us Um The sex scenes with all the characters to me are very poetic It's just like a dance and the way you guys move and like touch and do you work with uh a choreographer when you guys are doing those scenes or are you guys just doing them And then there's just you I know that you have right It's awesome That's beautiful Yeah I mean we kind of we do Yeah he does He does Is he like it must feel so good to work with such a visionary Who knows what he wants Well I'm just I'm baffled I still to this day like it's even the sex scenes are just so like you said very poetic and very like not like they're not uncomfortable to watch They're really like they're beautifully beautifully shot and beautifully done Even being comfortable Sometimes you can tell a sex scene is just for the sex appeal of it It doesn't without even saying anything you can tell There's like a story behind the eyes there's so much love there You can feel the love and

and the passion and just when you do a scene like that do you feel uncomfortable or like as the actress Like are are you prepping Like how do you how do you do a scene like that Yeah I think I think it was it's funny because I had some of these questions in a recent interview Really Yeah So uh it's just getting into the scene is probably the hardest part for me And then once I'm in it kind of block that there's other people in the room out and just kind of focus in and and also it helps um to know that it'll probably be like a montage scene or um really tastefully done um poetic like you said So I know it's not gonna be like grimy and you know slopped together And so yeah that trust you have to have trust It allows you to kind of go there sexually and just passionately you know you can forget about like will this look OK because there seems to be like a level of trust there It's like oh they'll cut this correctly Is that it Yeah Yeah Yeah it's great Do do you guys feel lucky to to to like I'm just I have to ask like do you guys understand Like this is so rare to have such a great team behind you and to continue it like sure we found a good I I shot this good project I haven't seen any of them in three years like you do for nine months then you're gone You don't see these people ever again but they stay family That's great Yeah So it is No it's really nice I said yesterday I think a lot of the magic for me is not just seeing like a really cool show be put together But to get to know everyone behind the scenes and not everyone but get to meet a large portion Well not a large you guys are huge guests but you know you get to meet some of the people that are bringing the magic to the screen and you guys have such great chemistry as friends and a team and I think that's lightning in a bottle It is it really it does it helps it helps everything kind of glue together and come together Having a great team It's it's where the core of it is I love that I love that so much so talented so good We're gonna continue to binge the bay We have Brandon Beamer coming up Don't go anywhere We'll be right back after this Thank you so much for being on our show So here is our Jari Unbox it you wanna get it charged up You use this fantastic charger over here This is the output over there and it has an extra cable like this with the ability to charge it in your car So that is really cool So we have it all charged up It has here you can press on the display you can see now that it is not drawing any power it is not bringing in any power and it is 99% charged which is cool So as you want to use all your separate things you can turn on the little lights and it will show you as you can see there that now you can draw power out of them or you can turn them off just like you would at home If you do if you wanna leave something plugged in but not having a draw power there

you can turn it off So let's have some fun and see what our Jay can fire up So in the past we have used the Jari to light up our lives with go We have charged our cell phones and we have done a few other things but oh we've even lit up the Arrow Garden How amazing is that that we were able to light up the Arrow Garden But today we're gonna push the Jari to the limit and uh we are gonna take a look at the this works What's this This works That car vacuum Awesome Very cool And we could even take a look at it Tabi used it and uh how amazing is this Oh my goodness You can just keep on going and going and going You can get into every little look and cranny in your car with all of this How awesome So this is what we're gonna do We're gonna stick it into our query Let's do it this way So you guys can see what I'm doing Turn it on the little light and the display have gone on because we are about to fire this up the bit now My Yes welcome Welcome back to Day Live Yes Thanks for dancing with us Why do you not dance to that song We had trouble not dancing Yeah yesterday we were we were like we're not gonna dance we're not gonna dance We try to stay still but now we got Brad and be on So Yes Yes we're dancing Welcome Welcome to the show Thank you for being here Especially in the rain It crazy No no no 405 Just cruised right on over I'm originally from Oregon Ok Yeah So you're used to the precipitation Yes I am I'm used to it But that's the reason why I left when I was 18 because I did not like the rain You left when you were 18 I went to New York first and then realized there was rain there too I was gonna say and I was like no no no this is not good you know And then um then I moved to Los Angeles and I realized that I was like like most depressed for the first like 18 19 years of my life because I dealt with rain nonstop and you just look outside and you go I don't want to go out there You think about going to the gym you're cold all the time You go to the gym you know you want to go put your feet in the bath and your hands in the bath before you walk out the door Here it's totally different Seasonal depression is a thing I think the rain Definitely I feel out today on top of getting the birthday party canceled the rain My birthday I just had my birthday February 27 Pisces Yeah March 1st Very close Love this love of the Pisces baby So what did you do for your birthday I was in Dubai So it was the weirdest time I would go to Dubai and it just starts snowing and raining here in Dubai By the way I have a bunch of friends there and they're just you know I used to go there all the time and then when COVID hit and then it just you know and then COVID hit and then work got weird the restrictions and everything and then you kind of got in the in the movement of just kind of just sticking to work and my buddies

are out there They're like hey dude you want to come out here come out to Dubai and I have and then two of my friends actually from here moved there same group of friends one moved from Las Vegas one moved from Orange County So they were both out there And so yeah so it's uh I was out there for like 11 days went and watched him polo my friend he owns a polo club and you know and uh end up laying by the pool I'm glad your trip didn't get canceled Yeah that's a nice extended You probably got some of my Pisces luck because I have none of it right now So uh what brought you into rain How did you get back to L A From New York What brought you to New York From L A Besides the season of depression Um from a from New York to L A Oh I was like I went out there I hate to say it but I went to New York originally from her modeling And I was like you know what I'm gonna go try this for a month dad And he was like aren't you gonna go to college And I said yeah but I wanted to know I just graduated high school I want to go out there for one month and I want to see the city The only thing that we ever got to do when we were kids was go camping And I was like wow that's all we got to do And I said I got an opportunity to go to New York for one month I'm paying for it You're not paying for it And he's like what about a call What about college And I said we'll talk about that in a month Never came home never came home hated the modeling thing Just loved the big city life loved the energy the the possibilities Um always running into something new and then um then I was just then the seasonal depression kicked in and I was like oh God this is terrible It October It was yeah I moved in October Yeah Yeah I know October I just to L A in October And um and uh but somebody told me they're like oh why don't you take an acting class Because I was just saying I'm like I don't know what I wanna do but I don't want to go back home because I gotta go back to school And so um I um I just was like somebody goes oh do you want to take an acting class I'm like I'm not an actor I was like do you mean like theater Like I have to go up and like get nervous and all that kind of stuff and they're like yeah conquer your fears And I was like OK so I signed up for a three month course and I I remember my first scene it was a it was like literally probably like a it was five seconds of the scene to where I forgot that where I was And all of a sudden you feel this energy and this and it was like and you go whoa where did that come from People Oh Hey guys Um Yeah I think it was a confrontational scene and I was like whoa I was about to I was about to bring this guy's neck Yeah glad I didn't And then but it just kind of was one of those weird fun things where you got to check out mentally and go into some safe imaginary world

and you get to take the things that the good things the bad things and a lot of the bad things in your life and that you that you want to forget about and you pull them to the forefront and you say oh I need to focus on that Wait did my therapist say they need to get rid of that Nobody got to focus on it Ok You remember that time when it's therapeutic for processes That's kind of like where you say you know you they say oh just let the past go and move on You're like not today I got I got I got to uncover So uh you roll in the bay Yeah Pretty big stickler you playing Right I mean it's it's I like it because he's a professional Um I like that He always he makes he always tries to do the right thing He makes the right choices You know his family is there his family part of his family they're corrupt They're like you know some bad people and there's some things there that's you know a little bit shady and and uh and Evan wants to stay the course and he's like no we gotta to do what's right Do what's right Do what's right Um and uh it's fun to do that and it was fun to like you know play courtroom stuff and um um because we were doing that like the like a season I can't remember what it there's too many seasons Um I don't know I think yeah I think that's what I double check my notes I think it was season 2233 I think Well it says two maybe three I think it's I guess three And um in the casino you're like oh you're just I was like sweet Sounds good Um and then uh like we rented out the uh the Malibu courthouse for a certain period of time and we had to do this whole all these courtroom scenes you know they cross examined da da da and and um I didn't really think about the fact that we're block shooting all of it and it was like wait so I got to shoot all my stuff from all these episodes all on the same time And Gregory was like mhm He's like you didn't know that I was like no I didn't know that I thought that like we would shoot some stuff and then we go turn the camera blah blah blah He was like we move faster than that He's like dude you're in soap operas you can do this And I'm like yeah but yeah but I was in general hospital for a month and like way back in the day and then days of our lives since 2006 But it's like we move fast but we only we just we shoot we seen one time you take and then we're done and then we're out But it's like you know and it's and it's you know it's it's like you know it's it's just a little bit different where it like on the Bay it's uh it's a it's a foreign place It's a new set You got to find different things you got to like sort of fill in the make believe stuff and uh it was a new character too So um so I showed up not knowing most of my dialogue but you have time Right Right Right But you had the feeling and I think I think that's then I ended up getting a uh a day time Emmy nomination though I think that was

the year for not for not remembering your dialogue quickly Right But you probably have like the essence of the character which is what you showed up with It's kind of beneficial not knowing your lines You don't get locked into anything Yeah Sometimes I like to know my lines because then I don't have to worry about it and then I can do everything and it's just there and it's like you know it's like you can play with it as opposed to oh my God pauses or it's mine Sorry guys we take it back we pick up on this and then the other actor is looking at you going man I was feeling it and I'm like sorry I wasn't prepared I'm hearing like everyone's just such a great team player on the bay Um and I I guess everyone's just on their game I mean for the most part yeah everyone's on the game and um you know it it is once you get into the groove of it and you know how they work it gets a lot easier So that was I think right when I first started So I was kind of like oh so now I'm like OK so I'm in a hospital bed all season Yeah so all this stuff the whole entire season in that one day or two days He's like yeah I was like OK so you just start pulling all your stuff from all the episodes and OK so what is this one This is when you meet your daughter you see your daughter again OK Well this is I'm like OK so do do do do do do and how do you memorize it all What's your what's your what's your strategy Because you you have two different characters There's a lot of dialogue I don't know you just do it I guess you don't really have a choice You just like kind of fell into acting So how did you learn to memorize things so quickly I learned that um that you got to do it I mean the first when I was on days I started on days when I was 26 years old and I had I think I was shooting 15 episodes in the course of two weeks and I'd only done General Hospital for like a month because it was like six weeks and it was just a role They like hey you want to do this And I said yeah no contract no contract Cool Let's go So then I just keep getting these scripts delivered and I'm like oh God oh my God what did I sign up for And my next door neighbor she was really cool and she was an actress You know she was going to classes and she said she's like we're going to do this She's like I'm going to be want to make sure you learn these lines and I just started digesting it and digesting it And then I would get little tips from from people at work and stuff like that later on It was like my dad on the show he was telling me he's like you know don't think that you have to learn the whole episode immediately He goes you know when you're just sitting around you just watch TV he goes just pick it up He goes you're not shooting it until next week but pick it up and read it read it read it he goes and then put it down He's like you know when you're just when you're anywhere you're sitting

there in your car at a stoplight or you know you know you just just read the scene and don't think that you need to memorize it just familiarize yourself with it and then it starts to which I was just doing by the way because I have to work on Monday and Tuesday and for the rest of the week and I have two episodes on Monday and I was just like I've got a weekend and I was like but no new news I'm sitting there and watching the news and I'm like mute read the episode put it down but it's like not look at it as a way as a time that I need to memorize I need to memorize It's OK OK OK Got it So yeah And then I'm good to go I'm gonna segue from acting for a quick second Is that OK I have I have to ask this Do you believe dogs are Children Can't believe my dog is my child There we go Jimmy He's literally my son a little black dog named Jimmy and a year and a half old So I had to do a picture up of Jimmy Let's get a picture of Jimmy He's on my Instagram and they get a picture of Sara He's on your Instagram I'll have to he's on my Instagram He's like so I have a daughter four legged husky hat coyote Yeah she's a big love Her I've been called Crazy on the show numerous times for saying that she's my daughter don't have to say anything Oh yeah Yeah Now she doesn't want to call me out There you go Go to the other one Look at this guy There you go There we go Ok That's my little bug You and Jimmy Uh a friend of mine she rescued him when he was like five or six weeks old He was a little tiny little bean in the palm of your hand And she uh she she said to me she was he's so cute Oh my gosh And so she she rescued him and then she was she was I was oh my God He's so cute She's like you want to watch him I'm like yeah sure They peed and pooped to my place And I was like I'm about this whole pee and poop and thing and she was like he's getting better Will you watch him again And I was like sure And then she was always out of town doing stuff and then she'd say hey I'm back on Sunday but will you watch him again on Tuesday She's like I can pick him up tonight or when I come back on Sunday I go between Sunday and Tuesday I'm like we have a whole system We wake up we go at Starbucks together Wait a second You wanna you wanna ruin our system you know Monday and you know it's like you know I pick him up on Sunday and like a day and a half and I go I'll just keep him and she's like really You sure And I go yeah the fact that you care you don't care that means that he should be mine And then suddenly I guess uh all my friends they are like dude this dog's yours and I go it's hers It's called you know 80 20 I guess You know I'd like to take I think it was probably more 40 60 But um uh and so then she texted me and she's like I'm sad and she's like always out of town She's like I don't know what I think I

do Like I find another home for Jimmy and he's laying on my lap asleep and you're ecstatic that this is coming through friends that we were literally just talking about I go you guys that's amazing Jimmy is mine and they go I wanna clap right now Oh my God I just said I go um me and she goes I didn't I wasn't sure if you were you were ready yet because I never had a dog And I said this is my first dog I'm gonna cry and he's like my best buddy horse just like like your rider in my arm pit right No whistles And I need to give him an Instagram because if people if people go on Instagram to look at me on my stories It's always Jimmy Jimmy Jimmy Jimmy It's way more interesting because that's what makes me smile and I'm like you guys are going to smile too when you're walking Do people come up and talk to Jimmy and like not even acknowledge you don't know me They don't even know me I'm just a walk when I was when I was in Dubai my best friend Brienne she would walk him every day and they would go Is that Jimmy Like I'd see him with a guy walking him and I was like yo Jimmy and then they run up and he's just the happiest little dude I want to share Natasha Can we pull this up This is Kyle with Solara That's how they sleep She's like she has to be smile on her little tongue sticks out when she's really comfortable She's she just turned five Yeah Yeah I've had her for 4.5 years now She had the roughest upbringing I want to stay on the bed I want to stay on like it's hard to get away from So um born astray two girls are coming out of the bar and see her mom with food in her mouth carrying it back to an abandoned house and they were like there's got to be pups in there So they go into the house All the boys were passed because females are born with a little extra on them So they're able to survive the starvation a little bit more So I think it was just like and like three other girls all four boys were passed and then she went to an abusive family and the rest they were so abusive The rescue literally got bolt cutters and stole her back She was like covered in scars I just found a new scar on her like two weeks ago because her fur really covers it up Um and yeah she I mean I when I first got her I would pick up a broom she would go in a corner If I snapped a shirt she'd go in a corner If I sneezed she'd run out of the room So I had a big understanding She was she eat a lot Exactly Exactly Yeah So just and I love that she's like a female not to be like misogynistic but I really love that She was a female I could like coddle and take care of and say so Yeah that was my toxic masculine coming through But you know it was it's a really good situation and uh I can see you kind of have the same thing going on where it's like you feel like I was kind of withdrawal when I was like 1.5 1.5 Yeah that 1.5 And I got him in So he was

born in uh September I think the first week of September And then my friend she got him in October and then I ended up with him in April or May 2022 Yeah So he was potty trained and I tried the whole little crate thing and I no can't do it And then all of a sudden I saw I was like somebody said dude why you just put a little gate bro Why don't you just put a gate in your kitchen bro I've been to your place where you just put a gate there there's nothing in there And I go great idea and I put a gate there and then nothing happened That's great Then I would go to the grocery store I'd remove the gate and I'd come back He'd be asleep by the door just waiting for him Now that I have had no experience with I have left for 20 minutes and come back destroyed passport destroyed destroyed ours I mean he even eat if I'm gone So now he doesn't sleep by the door He knows he he knows I'm gonna come back So now he he he goes to the top of the stairs and I walk down and I go bye buddy He goes gets a little bit extra frown He gets the extra and then then he goes back and and I come back he just sleeps he sleeps in his bed It's adorable It's like the easiest thing It's great time It goes so fast I can't believe Solara is five already Hilarious He used to be in your position your parents I love it I do I do have a dog I have to share now because you know before we get into the B roll Ok This is how Kyle and I met uh I made a whole show around my dog No you and Jimmy wanna be on season two and Natasha can we pull this up This is this is Charlotte Uh Charlotte was adopted from dogs without borders Um She is a whopping £5 and she is uh she's literally the catalyst for a lot of crazy in my life And um I actually um when I got her she was so cute I wanted to name her Charlot and when I introduced her to my family over Zoom um because this is 2020 my sister in law got white in the face and she was just like I hate you so much and I said wait what And turns out she was pregnant and I wanna name her baby Charlotte Yeah Oh ok Yeah it was her baby I've seen the other side of that My best friend his wife was pregnant with a with a boy and and they were like we're gonna name him Austin and his best friend comes over I I kid you not the same day maybe an hour later And I was like yo check out my new dog I named him Austin and the look on his face I was like they could both in Austin He's not the first Austin in the world Like let it go But like people really react that way somehow I was like I'm being unique Yes I already thought Yeah Yeah Yeah Yeah I my my brother and my old buddy sorry my buddy was like I I got this new dog I named him Waylon and I was like www Waylon Jennings or something like that The singer And then all of a sudden I go wait a second My brother just got a puppy and he named him Waylon too He goes no I did

He's like no no no no I'm coming with the name B nobody your brother couldn't It must mean the spelling is different Yeah And then I call my brother and he goes yeah Yeah I named him Waylon at the same exact same exact person And I go I go look I go spelling and and I sent a text message and I show my and my goes I think he's just looking at me I thought I was the only one that had a there's nothing like finding out you're not original stings a little bit but is really great When somebody says like Jimmy they oh my gosh he is a Jimmy He's Jimmy He's happy happy puppy That's like you know take a quick look at your work on the bay and we'll get back to dogs in a minute That was fun I probably shouldn't tell you this Now you've just come out of surgery But I I think you should know Please please tell me that Please tell me that Tara's ok Please Tara tell me that she's fine I don't know anything about Tara What the money is it It's Damien Yeah I love you Yeah Dress way as we everywhere that I says I make my the oh like steamy stuff steamy steamy stuff Getting back to you now like filming these scenes I assume this is you were saying how you kind of came into acting and the Bay was kind of in the beginning of your whole entire experience So I assume have you done a lot of sex scenes I mean I've done more sex scenes than I can count I mean the Bay came around like it was I mean I've been out in Los Angeles since like 99 So he's been having sex scenes Is he trying to say So like soap operas and then you have the soap operas Do you're in hospital bed You know women cheating Right Right Right You know all that kind of stuff So it's uh you know it's it's it's also what it has to do with at least when I was listening to like what I was about to call it Tara Um but it's also it's like when you're doing it with somebody that you get that you that you sort of like you know that you trust also and you like you just sort of vibe with each other Well and you have your own friendship and it's like it's not just being thrown into bed with some stranger And you're like because I mean I've had to do that and I'm like I'm supposed to kiss you and so I'm not I'm not being a creep so I'm gonna put my arm around you I have to make it look like I love you Oh no it's ok I'm like are you gonna say that Are you saying that now and then when we leave you're gonna go back out was a creep I never thought about the job more difficult Right Yeah Yeah Yeah Yeah And so and I've done that before and it's like it's weird sometimes and you know and I've worked with girls and I'm like whoa that was that was a tongue down my throat This is this is daytime TV It's daytime TV Yeah Yeah It was to hockey No no no I'm gonna lose Right Right Right You know Well that's what I was gonna say You look like a national on there I was like this is

it Yeah Well it also helps when like I said when you you have a good scene partner So shout out to the scene Uh you you just kind of go into your own little vibe your own little world you know and also it's like the way that the way that it's edited it's like Gregory He'll be like you know he's like so yeah that's really great But so I want this shot where the the hair where you where she flicks her hair and you know I want the shot of this and then the hand going down the back and so sometimes it's just like OK and action good good You got it Do it again do it again OK Just put your hand a little higher OK All right And action Mm Yeah Yeah we got it We got it That's that's what it is that sometimes that's where it is It's great The only thing is like the long ones where it's like OK I want you to kiss left I want you to kiss right And then I want you to like lean up and then I want you to scratch his chest and then when you come down then I want you to roll over and then you get on top of her and then it was like OK Wow you lost me man That's like a visionary Visionary Have you had I can't imagine all of your sex scenes have had such a visionary Like no this twist more hands on Yeah Yeah Sometimes I got to the point where I was like is this for you or because I was like did we get the show already He was like no no we have to do like three more and I'm like three more Where is this Ok You can only imagine that it's a steamy show So it's got to have the it's got to have the feels it's gotta have the heart It's also got the steam your brain You Tara we'll do slash why do we get why do we get Celeste back on um After this Thank you so much Don't go anywhere We'll be right back with Celeste and Brandon for More Bay Let's play a game Yeah So here is our Jari Unbox It you wanna get it charged up You use this fantastic charger over here This is the output over there and it has an extra cable like this with the ability to charge it in your car So that is really cool So we have it all charged up It has here you can press on the display You can see now that it is not drawing any power it is not bringing in any power and it is 99% charged which is cool So as you want to use all your separate things you can turn on the little lights and it will show you as you can see there that now you can draw power out of them or you can turn them off just like you would at home if you do if you wanna leave something plugged in but not having a draw power there you can turn it off So let's have some fun and see what our Jay can fire up So in the past we have used the Jari to light up our lives with go We have charged our cell phones and we have done a few other things But oh we've even lit up the Arrow Garden How amazing is that that we were able to light up the Arrow Garden But today we're gonna push the query to the limit and uh we are gonna take a

look at the this works What's this This works That car vacuum Awesome Very cool And we can even take a look at it Tabi used it and uh how amazing is this Oh my goodness You can just keep on going and going and going You can get into every little look and cranny in your car with all of this How awesome So this is what we're gonna do We're gonna stick it into our Jari Let's do it this way So you guys can see what I'm doing Turn it on It's a little light and the display have gone on because we are about to fire this up Thank you Mr Jackie There we go That is cool So let's see what else we can fire up today I mean that you can I mean that is just so cool You see powerful vacuum Jay fired it up Let's have a look at some of the other things that we can um fire up today Let's see Here we go So let's try the LaVoy Air Purifier I mean this is a high power drawing eye item I think I would imagine So it's not something that you would generally plug into this little power port here Amazing if this works You know how incredible this must be So not only is the Jay used when you are camping or exploring the world in your RV or your car the Jakey can also be your backup power source for a disaster Um You know disaster preparedness The Jay is definitely something that you'd want to have in your home And like God forbid there is something and the air is not pure and now you're stuck in your home you've got no power You can't put your air purifiers on If there's a huge amount of dust in the air or if there's a big um you know like we are in California there could be a huge earthquake will bring up a lot of dust but you obviously want to still keep your lungs protected Let's see if the Jay not only will give us power but will also save lives So plug it in over here we'll turn it on and you can see let's actually put this up a little bit because you'll be able to see the lights So let's put that try and see if you can see that there this all in the name of OK there we go So the little light is on and we have the uh did you see that OK Turn it on let's turn on the light so you guys can see There we go then Yes we have not fallen Vote for the devil yet And thank you Natasha for cutting the music short because we just keep we just keep dancing and make you guys super uncomfortable So we have less and Brandon with us now and on this round we're going to play a game we're playing Never have I ever basically we'll just ask a question um And see if they have ever the conversation started I got the red cards and the blue cards So let's see Let's see how we do You know what you can say is that if you have it maybe your character has oh I'll just say he's oh OK Gregory some ideas This was actually kind of interesting Have you ever had an absent night No absent I drank it in France but it didn't I poured it over you poured over a sugar cubes was blue or green I think it

was Yeah I was I like I thought you were supposed to get really drunk off it I had like three different things and I was like oh that's good Yeah I was in Milan I wait to see a fairy I didn't see any fairies or anything I was like where is the Yeah No no no All right Oh yeah For relations on the first date What kind of on the first date I agree You've never come here Give me something We're lovers Yes Double so absence I mean my friend my friend said that if you date a Pisces be ready because it's going to be intense It's going down in that what she said No abstinence when you drink your what your character what about your character She's probably had a couple of first names The character has for sure for sure Like any of the characters uh never have I ever liked any of the Godfather movies I'm gonna say something ridiculous I never seen them Where do you where's your address Under a rock Wow Never liked or disliked Never Have you liked any of The Godfather movies I mean you hate them like yeah it's like for people that are younger they will be like this is slow and I'm like no it's not it's not at all It's baseball with somebody who doesn't know how to watch baseball And I'm like are you kidding me Every single pick matters 100% You guys should be hang out What do you got They're just boring Kyle Why are you throwing them across the table I had to contact it All right That's kind of cool Yeah let's read it Tried to contact a deceased person like a like a medium like a psychic Yeah I mean I mean tell us the story Yeah I mean they're they're out there they're definitely around and did it work I mean I don't know I don't really know But yeah I think so Cool That's really cool My mother's passed away So you always wanna try and see how they're doing on the other side So it's always been very helpful for me That's awesome And I too lost my mom um a few years ago And uh I asked my dad to not get rid of the phone and he was like why do you think she's gonna call you I was like you never know you just never know You just never know why why did you do that But you just never know like because I believe everything is energy And um actually my good friend Adam this is crazy He lost his boyfriend um not even a year ago and he he's an actor and he was doing a play here in and it was his first night and he got a missed call from his boyfriend that passed So that crazy Yes And then this is this is even crazier This is next level Him and a group of friends were going to go on a trip and he was on the group text like before you know before he passed and in the message when they finally decided to make the plans where they were going he said safe travels Who has his phone keeps you happy That's all that matters So your mom's phone is still in service You get a phone call or a text message that I had a friend

that got engaged and her father who had passed away called her that night I do believe in this stuff I really like it Yeah my grand passed away I used to still send her emails even though it was locked I'd still send it and I was like and I'd say it was an email to have So yeah for sure These are these cards are wild The best ones I got Never have I ever been tased ta ta ta you have in real life your character or conversations you have teenage days That's like what is she like Do you remember It's not as I don't know you don't want to hold it there That's ok Yeah Where did you get it Oh like how where did they get you on the arm Shut your whole body down or Um God I was so long Um yeah I mean I was fine Yeah you just don't want to hold it Never have I ever been chased by the police I have you have super funny I was speeding I was this is this is not even like a thing I was speeding and I'm waiting I'm waiting for the guy to pull me over I'm just going straight and I guess he thought I got off at the next exit I'm watching him He's like two cars behind me but he's coming to get me because I'm speeding and he's waiting for these two cars to move the two cars exit two exits and I'm still going straight and I'm watching him go up the ramp and he turns his light on on me as he's like leaving me the spotlight shines on me just telling me to stop I was like not stopping I have got that now that you said that I was like yeah I had a cop pull up behind me on the 101 at like 2 30 in the morning And I I think I was 21 years old and I I had not been drinking I didn't even drink and I was just driving and I was so tired and I was just punching it and he goes he literally rolls up on me He's like slow down on I didn't have my seatbelt on and then he looks over and I was like oh yeah And I was like oh no no But they they chase obviously they chase to get up to me and I didn't know they were right next to me He's like turn around and I was like I will And then he pulls me over at the Hollywood bowl right down there on Highland and he get out and he's like and he was like yeah you've been drinking and I was like no but not gonna drink And he was like really I know I was like why are we speeding I was like I just wanna get home So I'm tired and he's like why are you on your seat And I was like I just forgot and he's like and then we started talking about like ex-girlfriends and he's like I think because my uh there was a picture in like my registration and I was like oh yeah we just broke up and he's like he's like just go and get some sleep voice that you do go home go to be just go sleep That's great Yeah Shout out to the LAPD They're actually pretty cool Not too bad Yeah they let me go knock on wood Now we're going to get tickets Actually I did do an illegal once and the cop pulls up next to me and you could tell his partner just wanted to get me so bad and
