

GDL Tiffany Hakimianpour on Good Day Live

A good day My family is May the 2nd 2023 Can you the import right Yeah Happy to be here Happy to have you What we love about this place is that you never know who's gonna walk through those doors Um So you and you've known Andy for a minute Um What brings you in today Um You know I went to this new place on Sunset called Hudson House for dinner with my friend And right as I sat down I saw Andy from across the room and I didn't even sit and I got up and said hi and he told me about this place and I had to come visit I love that so much And and you're an entrepreneur I've been an entrepreneur since I was 22 I hated my first corporate job and then you know left started a company you know got really big and Met Andy somewhere in the mix And then from there I've just been in that you know kind of like the tech space and entrepreneurial just like an entrepreneurial person I love that What makes someone an entrepreneurial person Like if somebody's watching this and its like I relate to her What what can you say Like what what of somebody um I think it's a dreamer doer So something that you know you you know dream up and then you you know make come to life and you figure it out on your own I think Um a lot of people I think a lot of people dream and a lot of people talk but not a lot of people do And um I do those all that because I can't help myself Do you do you have like a necessity and then you dream for something that usually what was the first one Um handstand Um it was a company that was similar to like Uber for personal trainers but you could um book on demand or schedule in advance and then it got really big It was funded by uh Reebok We partner with um we partnered with the W hotel chain Yeah I grew and I was um no the exit wasn't um how I'd hoped but then I did start another company and that exited the second one exited I think we have uh Yeah keep doing it I think we have a little bit uh like a clip Let's take a look Oh my God That's crazy Yeah we come up with clips really faster Scroll through Yeah that was so fast Oh you look so cute I was such a baby Look at that And whose house is that Andy's and we have we have we have yet to go to Andy's house Look at that I have Awesome Oh my God That's great Was it more women focused No this was just um no it wasn't actually um a lot of our clients were a lot of our customers were uh it was just busy people at home that wanted the work out to come to them You know they wanted a trainer No I did this for like three years myself but I just did it myself I didn't hire anyone else to do it I would just go to their houses and oh yeah So how it started was I went to um the

gym and I wanted to hire a trainer I found out how much it was but more so I found out the cut that the trainer made was I mean like \$20 of the \$150 an hour And I was like that's not fair that you're an entrepreneur man too So I was like let me gather all the best trainers you know put them on the app and then people could just order a man and they can fill in the gaps in their schedule or make it their full time thing which many did And we grew across the US It was my first I think um you know to entrepreneurs and it was it was crazy Um Yeah now I mean obviously then you you know learn from your first start up and so your second one is better and you know so on and so forth Um and so yeah it's uh I'm sure that help the whole process and procedure helped a lot actually because I was at home and I was just building I figure well the trainers going to people's places wasn't a thing That right Oh right Yeah Yeah it ended before the pandemic This is you this is you and your app It was like oh my God Yeah it's a great idea You didn't have the exit that you wanted to What was the second company Um I think I was a little young and maybe I used you know trial and error So yeah the second company was a clothing company and that and that's it Exit built it during the pandemic and then um sold it and I really learned about e-commerce that way because this is more like a marketplace Um it was a women's fashion similar to like this So yes I I did not know that women shop the way that they do online But how did they shop excessively It's great No I don't think of it Like so do I think we all do I even have a account Wow Yeah And the truth has come out I know I've asked a couple of times I was like are you ordering Amazon You're like I have an account but I've like never shopped for clothes on it or uh actually I I never never closed Men have different shopping habits I think than women Yeah Yeah And also it's like a generation thing right Men would come in ask me about clothes I'd say go home ask your wife come back when you bring your wife because women the women hold the power and and especially in the fashion industry it's like you're gonna you're gonna put that on Remember we had we had another guest on there Something wrong with my shoes I think both of you guys are dressed beautifully I I was gonna be on the show I probably wouldn't have worn this just like a normal flip it Yeah like I that's cute I want to talk to you about Met Gala looks You got to love me gas We were talking about gas for 43 minutes and uh none of it was shown to our viewers that were watching which I feel horrible about because you weren't able to see any of it I want green something We would have been crushing this right Like mines and then there's me and you get to the Met Gala who are some of your favorite

looks Rita Rita or Ok let me see if I can pull up Rita or um I think she was one of the show you want to see Is this No I'm sorry That's definitely not Diddy That's ok This is Diddy Um so they can so our viewers right now are seeing um did he did he looks epic Uh that's you know what I can see you wearing this I can see you wear this I love this Is that an overcoat market I like that I like that It's a little much but it's very art Yes Bring it into like art and fashion Yeah Fashion like yeah that's like you would go I mean you wear something like that and maybe New York in a that's not that's the floral effect off but just the chic overcoat over the I like it I like I would I would love for you to actually you know this is where I I've been talking a lot about recently with fashion Like people have been like oh you wear you were doing this and you do that I'm like I'm trying to like not trying I'm just being me and having fun with it if that's you do it do it do it And I I love people that are like stepping into their full authenticity in 2023 because that's what it's all about 2020 was just like getting by 2021 It's like uh and 2022 is ok and in 2023 you need to be where would you wear that to like a party And then you would have take it Oh good question I'm thinking like you know as I as I age I think that the uh the caliber of uh venue I'm going to is also increasing So I feel like like a like a I I support friends at like book signings or like book openings or like company something like that like something actually supporting someone someone else I would wear this and be like this is a special event for you evening book signing 1000% This doesn't come out let's get back into it There's some other looks Um You want to see Rita or Oh my God Where is she I think she was one of the first people that came in I I'm scrolling down Um It's it's it's down there in the meantime We can go we can go we wanna go to like look by look Um So uh this is she's on SNL She looks so cute She's hilarious She's really funny but I didn't know about like the like was it too heavy for her I was confused by this A lot of people were in this like pink and black mesh kind of like goth vibe I don't know why it was it was it was kind of goth I don't know if he was goth but maybe because they were like remembering him That's why Um and here she is here she is again here's Chloe daughter she's on SNL but she looks like Johnny Depp She's funny She looks like what's her name I really love the color of that Yeah I think you're right though about the funeral thing Maybe I think so Ok 00 Rita or is pretty pretty Do you What do we think about the woman of the hour She looks great Yeah Less is more sometimes Ok Very simple and clean And I love it Yeah Ok Ok And then and then I actually thought this was Beyonce Hot for a hot second There's a better there's a better oh my God I

love this dress So I it's perfect It's what makes it perfect It's incredible I think it's covered in all the right places It's exposed her hair This is my favorite It's in it's perfect It's simple enough It's you didn't overload it with like jewels and it's you know it it's just enough And then also I mean Anne halfway looks great too but this is my number one Let's pull up you know she blew it out of the water Especially coming back to the funeral Look Right Yeah The black Yeah I think I heard black white and pink They were just in remembrance of Carl Lagerfeld That's what it was Um there you go There Like a 90 supermodel She's beautiful She's actually like coming more into her own Now I feel like every year Anne hat just gets better and better You know people I think used to hate her for a long time and then something happened I think maybe she got you know that divorce and then she uh remarried and then she broke her Perfect and then and then like a title of a book That's good Perfect Yeah I think that's what and people love her I love her I always I've always loved her Yeah she's great And she was talking about on the talk show inadvertently that people didn't like her She was like I was at a party I told you about the cupcake thing Didn't I send that video to you or She's like how I eat a cupcake I don't know who to get a light first since it was crushing it like that She did She she plays a troubled teen It's her first movie She's incredible in it There was so much talk about Kim I have not seen that but maybe I'll add that to my list But um Kim Kardashian there was a lot of um talk about this being it was really not functional outside of when she took the photos like in her own like space And there was a lot from the side that you can see and it was just kind of messy and then the jewels and then the necklace like there was this is what I'm talking about Rita or didn't do this It was clean it was simple it was fresh and nice This is like there's so much going on like you don't know where to look even though I think she looks stunning like you said about functionality You can see it was just it was not too nice You spent all night picking up She did say that her daughter was picking up pearls and putting it in her bag This is this is one of my favorite people Uh Lily Collins Um you know I'm a big fan We're big fans of Emily in Paris is a big fan of Emily and Paris that show of the like love to hate So I told Kyle to watch this show And um yeah and I I don't I don't love her dress I think it's I like it I like the curl on the back Like she's the only one that had Carl on her back Oh that is nice That Carl But oh I thought she was the only 10 interesting Ok Um I love this look I love the sleeves or lack there of I kind of like the whole it looks like she's wearing like a tuxedo thing Ok I like the corset I don't like the sleeves and I don't like

the skirt I just like I just like the corset I feel like if she wore that with like a pair of pants it would be nice And I do like the carl and that's nice All together Not a fan Not my favorite dress but it's change holding change You're so funny Uh what about this Look What do you think about this too for me too For you Not it's it's not the worst But do you see this whole like mesh be like this It's just it's like lot of pearls you can't sit down No How do you eat I hope you can take that off I hope you can take that part off Right Who am I looking at that Uh No that's uh I don't even know who this is She has one post and 6.5 million followers I don't know her but she looks great Look Look at this Wow that's epic Every day is different than you know but look at that Look at that like she is loving her Look I I don't hate it She loves it That's for me Reminds me of that woman who sat at the Oscars where no one could see behind That's funny with the white clown Um Good question Who is this Oh Ya Ya Shahidi Uh I did look at her dress earlier and I do I'm a I'm a fan of this This is cool Yeah it's a little mermaid vibe I'm getting mermaid vibes I like Roman Emperor vibes Yeah I like that I like that I like about that Is that Ashley Graham looks great But again this pink and black which is so crazy because I don't like pink and black together Usually I had like a thing about a black thing the other day and your friend was like I don't like it I like dress with like black home I think with black and like color like black and white beige others but like pink and black is just if you wear black with a dark with another dark color I have an issue like a flat with a dark blue or a dark purple So what are you doing What are you trying to not be seeing but black with a with a popping color Like a two tone like black black and yellow black and pink black and white Love it No II I kind of talk about our our uh did you hear under fire right now But with a rocky right They look the same and I love how can you not She looks absolutely I mean eyelashes on her sunglasses I love her and she always she always dresses Did you see how you enter enter like the audience's entrance that go over the gate Oh yeah that's like literally uses some woman's face as a ladder to get over the gate There's a picture of it Oh I'm good My man is under fire Your man is under fire Yeah Yeah I mean I thought all the looks are really fun I love the Met Gala or Gala If we want to be fancy It's I know I don't know we don't know what it is other than the fact that we were not invited this year Hopefully next year That will be a thing I would like to be invited I do you look great I would like to be invited please You need me there Actually you don't We love to play games here at uh Good Day Live Would you like to play a game with us I would love to play a game We pull an or card before

we get the game started getting over there Are you guys gonna read for me I don't know this is new What do you got All right I'm excited Let's see Let's see I wanna get you a good good spread going on here Oh yeah I'll give the red flags over here OK We do you know how they say red flags Oh I know all about red flags OK So this is the best spread I could do I'm not a poker player I'm just a regular person How many do I choose one Oh wow Alrighty Let's one Do I give it to you Yeah Transmute Interesting number I think the first guest who's drawn a card number 44 Funny She's like transmute OK OK OK To transmute is to convert one energy into another The snake is a powerful symbol of transmutation You're being invited to accept its gift of shedding to help you process something important use its ability to make magic by transmuting its energy into something new and beneficial for your growth Meditate on the symbol when you need some assistance in changing the energy in your life Interesting That's great Are you shifting companies aren't getting I'm always moving and shifting but I do feel very connected to that because I do transmute Um like let's say bad emotions or sad emotions into some Interesting How do I do that Um I don't like to stay down either You know what I mean I don't like to stay down here because II I find this in some people I'm gonna get a little deep with you for a second If I may Yes certain people external when you look at them from your perspective they're like yeah you're upset in their head they're up here they don't feel down even though they look down So how do you really admit to yourself You're down because you're upset and identify those feelings as truly negative I don't think I think being down and being upset like angry are the same There's a lot of different ways that I get over those emotions Like if I'm sad I just need to be lifted up I listen to music go to the gym I'm over it moving on and then if I'm angry they say angry is a mask is sad Just be like a mass emotion That's what they do say Um But I mean I try to look inside at the source of like why I'm angry and then I try to fix it I try to like solve the problem I like to Yeah Yeah I think you got to talk about it and and I always like really like being in motion and trying new things with what works and throwing away what doesn't you know I can dig it too Can I can I pull a card You gonna put me back in Yeah Yeah Yeah Like I didn't know you like kept cards out Yeah we come with directions I think it does actually Or just being the typical man and not reading the direction That's not that's not true What the typical man does What I didn't know typical men did that We don't read directions We don't even ask for direction I don't read directions sometimes most of the time Was it like a nineties thing Your dad gets lost He doesn't ask for

directions You just stay lost kind of a thing What's the story for me and Kale for the rest of the week We didn't do that We didn't do that Everyone goes to the middle New moon What does that mean I don't know Number 45 0 wow You drew 44 We're really insane One after another a new beginning a fresh start and an auspicious time to start new projects draw on this card and invite you to begin again meditate on this or at the new moon to bring new energy into your life Write a list of intentions dreams goals and wishes to support new direction and invite new inspiration I'm gonna do this I'm gonna make a list Make a list Stay true to them Yeah Yeah You're funny You're not OK How is um everyone's dating life is usually I'm always single and everyone around me is married or a couple of times I'm single I feel I feel better Are you We have we have a drink for me Yeah This is super fun Um yeah uh I think you have I think you have a pair next to you So if it's a red flag we we raise that and if it's green Yeah Ok Ok Ok I think do you have uh you don't have Red Andy Can you grab the deck please I have dealers The red flags are right there Same same kidding Just kidding Ok Would you like me to Yes please do The owners I think the reds are better than the whites Yeah let's go for it All right 000 back seat driver What does that mean So what does that mean in the car And they're like they're mansplaining you're driving He's in the passenger seat He's like oh when the when the arrow goes green you can make that left Do you see that car on your left side Just watch it over there You're like ok I understand what you're saying I me too Me too I need direction sometimes because like sometimes like you I'm cool with that That's like I like for me it's like you know when the person you're driving and the person does the one of these and it makes you like sometimes because I've been in an accident So sometimes I think or maybe it's like a control thing But I try not to because my sister hates when I do that Right I'm just like do you want to just drive Just drive I'll just sit in the passenger seat 100% 100% I'd rather the person drive than tell me how to drive You You don't like direction Like somebody telling you what to do I know I'm an aversion to it I get it You drive You know I my only pet peeve a lot of things grind my gears So I've learned to just like allow it to happen breathe and admit to myself it's my problem Not theirs I have the pet peeve You don't know they're being annoyed right in the beginning Like hey I have an issue with this stuff Don't get offended It's just who I am Every time someone be offended I don't know if it's my tone Oh my God Don't get offended about this They're like they're already offended It's fine Doesn't know the difference between you and your Oh yeah I am a I have lost unfortunately I

think a friendship or two over some spelling mistakes Yeah People are you know can't handle I think criticism maybe But I was just trying to help someone and I was like hey you have a spelling mistake on your website that I would want I would want to know I would want to know I want to know text between the two of you Exactly Exactly And I yeah I just through text sometimes I'll let it go It's fine But in my head I'll always be like your you're missing 60% of your clients because this woman can't spell Oh my God Let's double check my website before we that was a major red flag Here we go is the exact opposite of you politically Oh no I'm not That of a I don't know I yellow flag I mean how they verbalize it right They're always like talking about it That's that's correct Ok You know I saw something amazing I was watching um oh my gosh I think I told you to watch this Seth Meyers Oh he's funny in his stand up He talks about politics He's like yeah you guys can skip This allows you to skip on it Yeah Yeah Oh I should watch that Really funny I love stand up Yeah me too Uh what else That doesn't make any sense You want to read this teleports to the North Pole every time they say the word love means that means they get cold when you mention love Oh that's all right That means no it definitely means that they all of a sudden get cold like you mentioned I think that's the interpretation Thank God we have a OK Uh Wait wait wait wait wait refuses to wash hands Refuses I don't think there is such a person I was like oh my God No I can't wash my hand I sure I likeliness hygiene I think 2020 taught us hygiene that when you see commercials where they were like this is how you wash your hands I was like does nobody know how to wash their hands Are we going around the world They say that people don't wash their hands for long enough So like but stay while you're washing your hands I say that's a thing I don't know if I abide by it I know you guys have done this but I've been in a body I don't want to go the toilet and then walk out That's right next to each other Why are they looking at you and they wash their hands You know different scenario Sorry People come out of the men's bathroom in a public restroom and they don't wash their hands 1 billion% I see it It happens I'd say it happened more than not when you're in the men's bathroom Yeah Yeah Have you been in a woman's bathroom before I'm the guy kicking the sink with my hand Yeah Yeah Like try to get the door knob with my foot I'll be in there For 10 minutes to get my 100% And for those of you who touch a toilet with your hand Oh gross Oh yeah That's oh hilarious Now I get why you don't like watch your mouth Oh God No You know that game watch your mouth You put it in your mouth and you just have to talk and it's like oh it's one of

the games Kyle hates it I'll show it to you after the show Here's an interesting one thinks they're smarter than you smarter than me Ah love it Like said I'm smarter than you smarter Both great statement both great statements No ego It's not ego They just literally act smart smart I'll tell you this I think people who are actually smarter don't act right because people who think they're smarter than you It might be my second favorite thing behind chocolate chip cookies to prove people that think they're smart wrong You just love calling people out I do What is that It's like you know that's not correct And then I guess it is like you should have been an attorney trying to work with their own ego you know especially people who aren't like there's no toughness there's no there's no brash physical you know whatever It's just all in their head They just think they're better and you're like that's not correct and you can still be better than me but you're not right at this and they just can't handle it It's very fun for me to watch better than a sit club Ok So I will date that person right That I'm gonna get a bunch of emails that has 19 kids in counting what recites all the lines from Titanic in their sleep again Not worth our time Ok I still really into my space What does that mean Like what do you mean to myspace It still exists anymore It cool So here's the thing myspace Out of all the social media we've ever had is the only one that didn't sell to data networks Like sell your data because it wasn't Instagram that was too new Maybe No no no He said no I will not sell the data which is why it's not big Go to Yeah in the home with his 45 mil showing I think that what it was he made 45 million from that I think so Yeah Really great And he didn't sell anyone's personal information It was like a moral thing It was a 45 million from it Then I forget the person you hated the most in high school and literally hasn't changed what I hated the most Why did I hate you I hate and love is like is synonymous Why would I ever talk to this person How could you even get me to the place of hate And then you haven't changed Why wouldn't you be anything but a red flag I'd say I I think everyone changes I hope from high school you did it change from high school red flag Red Bull change and grow I love that They obvious I believe 40 years older than they were in the profile picture Oh my gosh You got me there Oh my God About dating app It's a dozen kids from a dozen partners Hm Ok Here's a good one Literally only talks about themselves Red light I'm like I've dated in this town for 10 years That's all there is That's not true No there's people that are interested in ideas and things like that and that's the type of person I feel like I'm a fan of but there are people that I guess love being with people that talk about themselves I don't know Not for me I like to talk about ideas

and things and the future Yeah Possibilities Yeah Although you know someone who loves themselves kind of attractive I don't know why But after a while it does get it does get annoying The red flag Oh look at this Look at this I wouldn't even say this to someone really stupid It's just two words That's terrible Someone who's really stupid Green flag like what are we doing Lives off the grid also Red flags Crayons Yeah See for you guys That's cool That's like a lumberjack or something You guys already have it in your head I can see it Beard plaid Shirt Am I right or wrong thinking Someone who doesn't care about social media off the grid I'm thinking like in the living off of solar energy No no no Ok But there are a lot of Lumberjacks like lumberjack chic on tiktok is a big niche big niche really hot guys Lumberjack like cutting wood Yeah Yeah I'm for it I mean I'm for that but that's not what I consider off the grid That's just a lot of traveling around the world You don't really care about you know having a home base maybe in Paris She's the main character red flag red flag green flag for Emily in Paris OK OK Yes OK Um Not Gabriel Who's the other one What's his name Alfie OK How you like a a whole take Why did you like oh I love a I love Alfie Gabrielle I'm just like yeah I'm kind of the same you know I'm kind of the same with on that I said uh I for me I I like a I I go with Alfie I go with Alfie more but but he doesn't like he he thinks he thinks that uh Emily is toxic for girl I love watching She's because it's fun to watch This woman is the most toxic OK There is a thread on Twitter at the top OK About Emily in Paris and how people love to hate the show Can't get enough of it and it's just fun To just poke fun of all throughout So I understand that she is she has some red flag tendencies But I think she means well I don't think she's maybe just not self aware Does she mean Well for besides herself is she she is a selfish woman Thank you Thank you This is not unhealthy This is she puts herself first and I get you to say yes yes she does But she also looks out first She tries to bring Alfie in on the business For a is Emily in love with Gabrielle I'm in love with she has she has she has she has love for him Doesn't mean that she was trying to get back with number one stop out there when he left She didn't stop him when he said he did but she did stand on stage and sing for him to come back That was a very very however however Gabriel was taken at that time Gabrielle was not he was with his two They were both competing for like they were both her and Gabrielle had a sick love affair where they were like seeing who could get someone else attracted to them Yeah they had a lot of passion But like Alfie is a just I feel like maybe the right the right He could have just been a little bit stronger and broken up with

her and went to Emily Why are you playing games Every meal she eats Is in Gabrielle's place I don't think every single friends No who's the who's the girlfriend What's her name Uh can come in the most She's a little lost Yeah Emily is ok So this is my baby and leave them though If a guy has a girlfriend leave them alone leave them alone Right And then when Gabriel is done with his relationship then he'll come to you You don't need to be a you know I personally yeah But I mean it's for the show it in real life too though It does happen in real life It does happen in real life is all I'm saying I don't want to get into that However though I think Emily in Paris gets into that whole like doting Chase after you I want you to be mine kind of a world It's like sure she wants to see how much these guys chase her and it's just a race to see who wants her More work is she's really good at her work on it I think she is She spent the whole season looking for it What are you talking about She was she was like fired she was hired she betrayed this job to do that job She left both at one time It was like she didn't know what she wanted So she was I kind of agree a little bit all over the place very all over the place She still figures what scared me about Paris was it looked so real like that It felt like that's what women feel like to men on the outside But now that I'm seeing from her perspective I'm like this is so messed up She's got she she seems innocent to her She's telling herself she's innocent but to me she looks guilty He's a villain in someone else's story And it just it just depends what perspective I'm sure people think I yeah I don't know if I'm a villain in anyone's story But probably I don't know I don't know what people are thinking Well let's let's rewind for a second Emily got with Gabriel at the end of season one because she believed that he was single and she was single at the time Do you not remember that Did you not watch season one So you can't really comment on it I was like I didn't you miss the most important thing because so Emily had a boyfriend in the beginning of yeah And he and he broke up with her No no he was like he was like I can't do this and she was just like it's the greatest city in the world It's Paris and he goes I just can't how are we gonna do this And so they break up and she's like you know she's chasing her dream let her go Ok So they break up and then meanwhile she gets to know Gabrielle you know Gabrielle she made a promise to her newly found friend Wait hold on We're not we're not in season two yet We're we're sorry sorry Wait wait wait no Listen there's a there's a there's a back that's just what it is People a little bit It's not the clean I mean but but you can't you can't escape that in life I think that's just it's a it's it's it's realistic That's what happens Life happened every time And this is this is this is what

drove me nuts Emily walks in Ok Alby is nowhere to be She was around Right Emily walks in and then Gabriel's like hey Emily and she's like oh Gabrielle hi And it's like where in my head I'm like where's Alfie Because you want to be twirling your hair and looking deep in Gabriel's eyes and as soon as Alfie shows up she's like oh oops oops And Gabriel and then Gabriel gets the side eyes like oh I wish she was mine and we do that 72 times a season I think I think it's a good lesson to learn of when it's in front of you and you love it That's when you you know you just you cut it off you you know you do what you need to do but he's stuck with This is also another thing he was with What's the girl's name again Gabrielle coming coming coming up They weren't in love Maybe maybe that's what it was there were problems in the relationship but they stuck it through Why isn't she a lesbian Now Was like testing the waters I think I don't know if she's a lesbian but I think she's like testing everyone's like I think everyone is testing the waters in their own world and their own Stay strong stay strong gets emotional And then he leaves I don't like that at all I too I like people who face their It's fine to leave But you don't have a conversation He doesn't talk he doesn't ask any questions He just goes oh that's what it is and leaves like no questions Yeah But like when you are so like heated and you ask a question I don't think you're actually like hearing it I don't think so I think so I mean I don't think so He needs some time to cool down and then respond He never like cools down and comes back and he's like so let's talk about it He's just like yeah like you need there needs to be some communication here Yeah Yeah Yeah I also think like the way everyone met each other was like not probably the best circumstance like the Gabrielle thing Like what about what about the other friend that is a princess in the one Yes What's her name Why am I forgetting She's fantastic So do you want to speak about the fashion on the show I love it She cannot afford anything But we figured that she was just gifted all those things going with because she's in you know marketing and they want to like give her stuff That's what we're thinking I'm surprised they have it's it's mind she must never use Mindy Mindy fled her parents and is a singer on the street and then someone super apparently Right Yeah Yeah Yeah Yeah Yeah Yeah Yeah I mean she's great She is super great She has a movie coming out that looks awesome with what they gave her I think she did as an actress She did very well I like I like her I think I think they have a really good friendship I I mean like I don't the fashion is what makes it for me because it's Darren Starr and Darren Star means sex in the city and I love the city and it's just like it's just honestly it's fantasy It's like

and you can't have total honesty in like these relationships because it's a drama It's like a comedy it's a comedy scene I would try more I know you're a big fan of Lily Collins and I like her also but I feel like she's a little bit young for the show I want to see a little bit older I feel like a little bit She doesn't feel like a woman to me I want to like you know not as old as Sarah Jessica Parker Not that she's old but a Margot Robbie how old is Lily Collins It doesn't matter She's a little bit older would be nice Otherwise the show is you know a fun watch watch She is a little young and Collins is 34 years old Her father for the for the show I found this is so serious Well her father I mean Phil Collins is the the clothes from the show come from Darren Starr Probably Yes She's a you know right now it's like a really hot topic Neo Babies in Hollywood What's wrong with being a nele As long as she's working you know like she's just like sitting is it taking away spots from people who are not neo babies is taking the spot away from you I I have I'm not gonna make any statements not very far from a ne baby Um the questions I have is don't do we think that they got there regardless of the talent being a baby And and in that regard don't we think that if you were to pile everyone that tried out for that role without taking the nepotism out of it there's probably someone else that's better No but maybe you know it could run in the jeans like Julia Roberts is um what's her name Yeah Emma I love her She's she's great She also created one of my favorite shows on Hulu Tell me lies I saw the cast a couple of weeks ago Um just on Abbot Kinney and there could be someone better than Emma Roberts I'm sure there is But on the other side of the coin Ne Baby only means your first project because you will you will get favor just like a Nele baby after your first project Oh that's the person that was in this Let's get him in that and it works just like nepotism So it really does like the Nele baby thing is just to break through if you keep your job and you get to another project I think you also people who are not interested for example Ireland Baldwin Baldwin you know I mean uh she didn't like acting or modeling and now she's a screenwriter and and it's I mean good for her So that doesn't babies Now some of those babies Ja Curtis is a Nebo baby Did you know that Wow I didn't know that she's a baby 60 years So you know it's not their fault No no My point is that babies are not good My point is is that there's someone that was better than them for that role I know I'm a big believer If I'm a big believer if the role is yours then it's already yours Is that like and that that goes back to you and when I interviewed you sometimes things happen out of the ordinary you have to just you have to believe in those things That's what happens in a negative

favor of yours You have to believe it happened because something else better is coming Yes I love that you came into this whole show this whole show happened because like you came into an interview for something else and how many episodes later See this was good good episodes later Wow And people love it and people enjoy coming on not gonna throw you off the spot Tiffany How can people connect with you That's your camera over there Camera number three let people know how can people find me I wanna connect with you and find you with you Emily in Paris Of course Um I have a very long Instagram handle but it is Tiffany Oh Hakim and um I'll be back so you'll see me catch me on this wherever you are I hope you have a good rest of your day We'll see you tomorrow tomorrow Wednesday Wednesday Wednesday
