you just never know what happens Oh Look at that Look at I love the first dress The green That's my favorite color Oh Yeah Yeah That's a that's a fan favorite Yeah Yeah Yeah And I was like I literally that's how it all began The first episode uh was so the green dress was my very first day of meeting Andy Waldman And he literally I walked in and he said uh go up there and talk for 90 minutes I was like say what And I did and then I had a story for everything Every product you don't say I had a story for every single product And then I was like exhausted like when I was done But it was really funny because I so I would like keep coming back and like keep asking Andy When can I come back When can I come back I want to do more I want to do more And then the one comment I kept getting was you're so great You need a co-host not from Andy but from from other people that would watch me and they would be like you're so did you see the empty chair I did see the empty chair just like it was just waiting for you Um It was just waiting for you So uh why don't we see how you made your appearance on on that orange stage Oh how it all began Really Oh uh what 40 the six place They're so cute What are you thinking You know we hadn't really met like in person We just hopped in front of the camera and the whole crew behind the scene There's a lot of chemistry there So many and in this and I thought I thought it was such a cute face chemistry Yeah But we we had a bunch of fun I like the like the glances back and forth are awesome Like you glanced and then I looked away and I glanced if you were like looking off the side this to me was such a fun fun thing to never forget a cute face And it was really great star I think Shirley you're trying to go with you I told you I like once I adopted Charlotte uh all these things started happening and then um and I was like hi and then um how it going Great And thanks thanks so much Thanks so much and thanks for being uh you guys No I mean like listen I think it was serendipitous that you were uh you were the guy to be like hey you know I I have a career in hosting now like this I was just like she was like I was gonna say is there a board show here Could we do like a couple orange juices and we're in the process Ok good looking at at home is Dream on shell show to you now fast forward to you for being my amazing co host There was no one I could have like imagine to be better than you And I'm grateful for that Make my day great And I'm so grateful for that I have never come into a job consistently Every day five days a week every day showing up and it's fun That's my hair My hair more uh uh yellow blonde I think it's the orange tint behind I think it's the orange tint behind Yeah Yeah Yeah You would think that was like 500 years ago It was like it was literally like

months ago I think I think we have a special guest in the building Charlotte Charlotte speaking of Charlotte chronicles um Charlotte Charlotte Get up here You're the reason why So yeah Uh It it began on Dream on and uh Michelle was asking me great questions and you asked me uh a question how how did we get into Oh you said do you think you need to be an actor in order to get this connectivity that you like key into in entertainment And I was like oh I don't know if I need to be an actor I'm having fun doing this hosting thing right now to be honest with you and you guys keyed in on that I don't even remember remember saying it until I watched the playback And uh I got a call a couple days later from Michelle Mirra and she was like you said you wanted to be a host Come on let's test it out Let's go I was like yeah yeah let's do it And it was uh serendipitous I'm gonna pull up a show please I'm gonna tell you how it went down I'm gonna tell you how it went down because I've watched this episode like 1000 times because I always send you clips from it And I and I asked you I said uh why acting And you kept saying you uh really love the process and connect connecting like basically what you just said And then I said so it doesn't have to be acting And you were like no I love the I love you know whether I'm behind the camera or directing or like part of the process I love to create And it's all about connection for me You kept saying connection And I said oh so so it doesn't have to be acting It's all about connection and you're like and and uh and that yeah but like I kept I kept prodding You did You really Yes I kept I kept prodding you It was like so it's not acting and you're like well you know it's not just acting it's like being behind the camera It's being with people I know Charlotte we see you Um And then I said well so then what's it about And you're like connection And then all of a sudden you were like think I'm supposed to be a host literally out of nowhere It was the weirdest thing not weird but like it just felt right when you said it And then I I literally said after you said that I was like I think that you'd be really great morning show host And I and and in the beginning Andy was thinking you know maybe it should be three hosts like three women one guy or like two women one guy And I was like yeah but like they'd all be like oh fawning over Kyle Is that a thing Yeah You said it You said the look chose you you didn't choose the look the look Oh wow I forgot about that one You know I I was called out to say that sometimes I mismatch stories and like I don't have it always correct A lot of stories up there there are a lot of stories in my brain and luckily this was uh one of them and I kept prodding you I was like it's not just acting So tell me what it is What is it for you now I know it's acting and connection Yeah I mean I

don't think it should be just the name of a job a title It should just be what you love and fun And this has been really fun really really fun I had a like a ball life changing experience actually Yeah that's so sweet I had a different like outlook of who you were before this started Yeah most people do No I don't think that's true Oh yeah You think people have a different throughout my life People have been like uh oh yeah I hadn't thought of you but then you open your mouth and now it's like it's a different feel Well I think like what's really cool is that like I didn't know that you made smoothies I make with three pineapples in the back of that Listen I don't know Uh I think there's so many memorable moments um of how we you know started the show But the one thing that has stuck for so many of us um at least for me Andy and uh Natasha is the smoothie episode It's literally oh wait we have one that's I'm sorry it feels like episode one after 100 We're supposed to do We just sit here and let the like clips play and we just look at them So why don't we take a look at episode one Welcome Welcome Welcome to Good Day Live How's it going I am here at studio place with Kyle when you have a great host and a great producer You know the sky is the limit the limit Good team good team on Good Day Live It's a good day It always makes it a good day when you're on Good Day Live It always makes it a good day when you're on Good Day Live Yeah and especially in Los Angeles live dot com TV live dot com But we are on Amazon right now Yeah I play TV TV It's a place I think I got baby fever just from being around them I think I do a single man in LA I think I had baby fever Ok Again another thing that if you say you'll never be single for another day Yeah I was like this guy this guy is gonna be great As you can see It's been a party since day one a party Since day one We were very formal In the beginning We were you know I wore that white dress the other day Yeah but not like bear I had you know I don't think I've worn that out but since with the the jacket with the pants and you look great Yeah we we look we looked at we looked the part Yeah we look the part Um so that was you know bring that look back Should we look at some of our first show highlights Yeah I'm a dirty guy I oh yeah Oh yeah True Blood You're back and to see if you related to Kyle True Blood take 23 and me or ancestry dot com But who knows I know we just when I say this Right Right No I don't have it so much when I'm with you That's good I smile a lot when I'm with you Yeah The smiling you want to get somewhere in life You find yourself a good producer No Yeah Oh you got to know like like find like you just I mean I found and and yeah and you found me Do you does that sound familiar to you at all Yeah I I love talking in your wildest

antioxidants out more I don't know if I buy that you know like everyone's source it's Google and uh that was a prime That was like our first like miscommunicated thing where yeah Well I was telling Michelle what I buy to put in the smoothie and she goes oh well that that all goes in one I was like yeah it all does like take a you know I should have clarified a guess that uh you guess you guess now now you guess I just need somebody in America to tell me that you put a whole bag of anything into one smoothie That's why did you assume that I put a whole bag of apples Why did you you didn't say that you put the whole bag You just said this would all go into one So you didn't you didn't clarify Your question was kind of vague Also Little ob ob I am ob too You wanna be a cute the cut a cute enough too are very opposite Is very wide I am a cute I'm a cute host Oh nice I see what you did there Play on words with Charlotte Um right next to you We celebrate you know what's so cool Is it was on my birthday I uh I either had the option to take the day off or to work and I was like why would I take the day off when I love what I do You would have missed out on your \$35 smoothie It wasn't 35 It was like 17 50 whatever Same thing you you you should know you know prices I was reading the ingredients It was from a shout out to a you remember that Wow good memory Wow There was sea moss in it I know Oh man that's the starting of the sea moss That was the starting of sea moss Um So we celebrated with my birthday Let's take a look at my birthday Chef Oh are these business cards Oh wow Oh up I have It's amazing Yeah Oh yeah The cars that you get into like what is it Oh yeah Vision board I love it Stop it Thank God Are you happy Are you right now Just send flowers Was like what Oh my God Oh my gosh Honestly this is just remember that hilarious Shocked to have a memory I'm just shocked that you remember their name I know that you would like Yeah I mean they were they were super sweet It was such an epic day I think I like went home and just crashed and then I got the energy back up to like go out to dinner and keep celebrating There you go I mean it literally the day started with Chanel sunglasses delivered to my door Um and you know having a very special moment and then um and then like come oh no no And then I went to uh fashion go and then I came here Oh wait was it Yes it was Oh no no no no I came here then Fashion go Yes Well it's a busy day for her birthday But you were doing what you love doing what I am doing what I made a promise that I would do my very best to continue to do what I love on a daily basis I thought it was Michelle's birthday All right bye Your birthday is coming up in March Don't worry we'll get you We'll get here Who knows March 1st Oh whoops date Well

telepathically said you thank you She didn't do the double eye blink Oh no no no don't do it don't do it That's what you need to do next day Just do a double eye blink and then she'll know it's over I'll say like little smart alec things to Michelle and just give her a I'm just always look out for you man Sure thing could have made it without you Michelle could have made it without you Um We've definitely had some interesting guests Um And we had an incredible guest Miss Candice Nelson the founder of Sprinkles Let's take a look I mean I our show is all about finding the fun Like if there's so many shows where it's like there's the news and there's this and there's that our show is we focus on the good find the fun We're so alive That is also the impetus for for starting Sprinkles It was like finding a place of connection believe this when you love what you do it vibrates even after you've left or gone somewhere or like moved on into something else like that is so palpable and everything to me is biracial I feel And having you sit here is an out of body experience for me right now Truly so really beautiful And I just first of all I can't imagine you doing anything else because you were made to do this And I think it's so beautiful when you are in alignment right With your purpose It just is it has a multiplier effect Kelly Clarkson Oh No this is this is a margarita into the pizza You like wait you're gonna go to go to remember You don't remember that I'll send it to you And then and then you were like oh for what And I was like for the interview and then you were like OK and then after the interview you were like this is the best pizza ever I think you know what's funny is like in L A especially this is coming right out of someone from Jersey Mind you I'm from Jersey You held that pizza Like it was like it was your first born child Maybe it was She makes a perfect margarita I haven't been able to find one in nine years Ok And you know she's also from Jersey How hard is it to get a good slice out here And she comes walt in in with the pizza A perfect margarita pizza It was a perfect margarita pizza Do you know how much do you know how much uh pizza I had it made me it made me sick because I actually I'm lactose intolerant and you just kept eating it I kept eating I couldn't I couldn't leave the studio for like a good hour Like I I had a couple of like what are you up to And I was like I'm like I'm like no I like messaged you I was like I'm still in the shout out to pizza Look what you did They have they have other options They actually have like lactose free like gluten free And I was like no give me the works They're making the best pizzas really hungry Yeah I did too I was like I don't wanna go to pizza after this I don't know if I would go to pizza It's super close by They could go to pizza Um but yeah Oh I just got super super

hungry I mean we also got uh a little bit of a workout too Um I think we need to reevaluate this We we need to reevaluate I keep this leg straight keep this leg straight Push straight this leg straight straighten it out straighten it out straight There you go Give him give him a on he will never have anyone sit on his shoulder be shot here Oh yeah he's so cute because he was like you're gonna do it He did this in an airport I was like get off of me You see my face Yeah Yeah Yeah You're like that's enough Like we had some fun times We had so many fun times Um I mean there was even a magician a magician He was great He was good I don't think this one this one right now I was thinking queen of diamonds So can you see now what you're gonna do is you're gonna take this off because if I don't shuffle them up you think I'm cheating And and honestly when I shuffle them like a big deal because they're all gonna go Oh I was like oh are you gonna pick those This best actor award goes to you that I'm still trying to figure out how we did that magic trick Oh my shout out to him and we're very dog friendly here at Good Day Live Wouldn't you say we're dog friendly Let's check out this I see it I see something here Hi baby brown eyes brown skin Hi honey She feels like this She's like oh I see Like she doesn't like you sat still this whole time Oh my God She's choosing her future dad Oh my God She looks in your own You are so right You do like they do it I think she had a blue flower cut This thing this little baby Look at those eyes Don't tell me that's not a baby It's a a question when uh when a dog yeah come here mama just better buy her She'll like it Check it out Yeah baby Look at the tail Oh honey Look at the tail Oh honey Listen guys I'll be right back I I'm gonna say hello to this dog real quick if you right If you've been watching us you know that I have a serious affinity for dogs I mean between Chloe Lawrence and Burt Ward and she's not a dog No those are people that love dogs Yeah I know that Chloe's not a dog That's just the way you the way you said it You were like I have an affinity for dogs Chloe Lawrence they also have an A I know I didn't hear you ended up with this is how we get to a bag of apples and one smoothie right This is how we get there nonetheless Michelle and I even with the miscommunications and the misunderstanding we have just plowed right through and come to an understanding It's almost like yeah 100% Well she knows that she's a baby and she knows how I feel about it She's like you know I feel safer over here I know honey it's cool Oh honey I'm sorry guys I just I just adopted another dog who wouldn't take 30 seconds out of a day and and just and just let the baby know that she she knows that she's loved She comes with me everywhere I go for the most part Um just go to the you

see what I'm doing She kept like literally trying to get out of the uh of the house today And I was like no I almost because I was like and then she like got out and I was like I was like come on I mean yeah I wanted to bring her for the 100th episode but 000 yes Ok Ok I'm coming back I'm coming back She's like I'm not done I'll stop what she does I love her so much Come here honey Oh honey Yeah you just snuggle right in there Nice and warm She's not quite sure What do you do Put your leg down Be a lady Come on Um sorry we get distracted by dogs who doesn't uh over the past 100 shows We've had so many guests and um what's really cool They've said some really nice things about us apparently Uh let's take a look at something in your chair on dream on to ask him about how he got into acting And he was literally sitting in a chair and he was like I think I have a thing for hosting I never I've never hosted before You're so good though You're such a by the way you have a sparkle in your eye that I think most hosts need to resonate with the audience You have that sparkle and I'm not just saying that you really do have the sparkle You have it too but you also have the energy right So you and I love that great host of the period What they have is the ability that I have identified is the ability to engage their the person that they're interviewing OK So there's a way that you could do that You know you guys have mastered that there is a comfort that that exists between the two of you and there's a realness that you connect with the person So you open that person up You know I've done tons of interviews and sometimes that person interviewing you they haven't done their homework But when you put that person in a situation where you've done this so allow me to compliment you Everything the light touches is your you like is your kingdom Uh I mean gosh for those of you that are just tuning in Welcome to our 100th episode Oh hey hey we kicked off the episode with our own personal song By the way Good times Come on Now How do you get to 100 episodes Michelle how do you think you get there Um A lot of coconut water Uh Proud of a lot of uh dried mango slices by by the side of my chair Shout out the creation I spent about \$1000 there I probably have actually if you think about it 100 episodes I 100% I definitely spent \$1000 Don't tell me that Now You not see See Yeah Yeah Ok All right Um Anyway let's take a look at some more incredible moments I drove a coconut Um Am I an animal This is good Yes I'm an animal Yes Can you ride me Right You can ride this my God depending on how big it is Um OK you you can ride it depending on how big it is I mean like if you are huge I will we have to help me out here Um I don't I don't think you would necessarily ride you but but there's a chance that you

could I don't know some countries they might I said you go by palace you could maybe ride me Not in the water in the water I have four and 18 You find one person two legs back then right Am I a gorilla How would you ride with You asked if you could eat you Right No I guess you did this you can ride this But what I don't know if that's actually true Your your answers are misleading misleading They're open to interpretation Oh that's better Oh look at that confused face How do I make it to 100 I don't know I don't know I feel like it's like our 100th like birthday or anniversary or something because it's like all these like wonderful moments celebrating us How lucky are we to be on such an awesome team Super super super serendipitous Um Yeah it was I was going through like a life change right before we met here Yeah they say when things are falling apart they're actually falling into place Can you say that with something in your mouth though What do you mean Let's take a look at what it's like to have something in your mouth Let's try the games and go watch your mouth 00 my gosh You come rabies rabies I know I Hercules Ray environment and ice That's that It is puking babies That's where we're going together Stay together stay together and you got 99 episodes That's a game called Watch And then they say yes and we're improving our listening at that point and I thought that was a really good exercise for us Oh my gosh we've had it's almost too much fun almost almost too much fun but not really You look like you're having a blast I am I'm always having a blast Look look at that Probably a grand old time Shout out to the 100th day Can't believe we can't believe we've made 100 days And again like we said in the beginning if you guys are just tuning in this is our 100th episode And Michelle asked you know Kai how do you get there And I was like I think it's commitment and consistency and I'm so happy to have the opportunity to uh practice commitment and consistency and prove uh that we can do it and we did and we're still going and it's been a really good journey And I think that to you guys at home if you guys wanna you know have anything in your life I think that that those kind of facets gotta be there and I think we put it into practice and really set a good example for people and I hope that they uh I hope you guys have a good day because uh it's not always a good day but again we give a lot of insight with our guests or with Michelle with our words of acclimation to uh to to help people understand how to have a good day We're not just having a good day We're we're proactively having a good day proactively having a good day to practice putting into practice Um I love that Um I mean being the talk show host we get invited to uh many red carpets don't we Well at least I do I see for this

one The first one Yeah Yeah Yeah Yeah How I Hollywood Boulevard
Michelle Look at Michelle Oh this is the event I remember that one The one
with the pink purse What was that Oh you so cute Yeah Wow I mean like a
lot more than that Look at look at I'm like boom boom boom Oh that's my
favorite That's my favorite Kyle Yeah that's my favorite You don't like that
Oh no OK We're having a lot of fun The the water I really hope we're giving
you guys a good day out there and we've done a good job over there
Charlotte like 100 100 episodes I hope you're tuning in I hope we've given
you something to cheer about Um I've also uh had some moments myself on
the red carpet when you're not walking the red carpet I get to interview
people and I've had a driver Actually the inside joke for this is that Kyle
picked me up because I was having like you know a really big bout of
anxiety which you know not a lot of people talk about but I did and Kyle was
a really good friend and co-host and picked me up for an event and I said
Kyle we're gonna be late if you stop for something on the way because he
was like I really need water He was like wait do you have water And I said I
I do But I had I said but I put let me see what I put in I put something in it
I'm not gonna say what I put in it but because they might be a sponsor So I'm
gonna keep that You yeah you wait 10 minutes you're waiting And and he
was being a good sport by saying you know women are always gonna be a
little like a few minutes behind No one complained on this side I would have
been on time Had I not to pick you up But that's besides the point That's the
point So so we stopped to get the Schwepps and I gave you a hard time
You're like you're like timing you're like timing I'll be 90 seconds You were
actually 90 you were like 91 2nd I timed you I actually did I was so mad but
you know it's so funny you know it's so funny It was perfect timing because
when I was on the red carpet you showed up and like we we got our picture
taken together Um but I too had that moment before this moment where I
needed water because I had been working all day Um and I think I had one
of my funniest moments on the red carpet Let's take a look Oh my gosh
Trying to pronounce your words dear That's not Do you know what that 1.5
to chicken said to me How are you How are you Michelle I am fabulous

The actually the sleeves are like oh you like this better Ok No not unless
somebody especially Did you read it I did It's ugly That's ok Everyone has
opinions like assholes Everyone has I mean if you're gonna say that to
anyone it's got to be Joanne Worley because she's ready for it right I don't
think she wasn't paying attention to you but the point is that she's that's her
language you know speaking in her language And that's also I mean you
know I was also I'm also like a big child and when somebody tells me
something that sticks I repeat it like uh you know I heard that from our
producer The wizard of you said it too So I was just repeating what my
Jersey Boys are My Jersey Boys But you know what I'm saying Like the
Jersey Boys someone from Jersey Very proud of you Yeah Yeah Yeah Very
proud of you Um I'm very proud of you Uh I'm sorry for your profanity So
um you know this show has inspired a lot for us Um not only playing games
but creating new segments and one of our newest segments is uh on the
streets Um It's one of the most popular ones um which I've gotten you in on
a couple Um on my very first episode we had one of the most memorable
memorable encounters ever Let's take a look Do you are you am I No you're
