Welcome back to Good Day Live I'm Michelle You're right along with Mr Um If you're tuning in for the very first time welcome welcome to our show We feature all things good um great people great products and incredible books uh or is here to promote his book The Accidental Gangster or how are you I'm great How are you doing I'm so good Pleasure to be back here again Yes we love having you got the new revised book Yes And uh new cover it looks great I love it so much Um For those that are just tuning in when Ari was here I literally had an out of body experience You said that uh you were I said that I spent my summers in Utica and you said you were from Rome And then you asked me like uh you know who what were their names And I said um and you were like any relation to judge Mra And I was like yeah that's my uncle It's wild And then you talked about and then I was like that's my cousin So uh my fa we're connected It's crazy how we're all connected right It's a great area upstate New York It is Speaking of connected obsessed I've been watching the Sopranos on on HBO and it's it's special right But here I feel like I have like a real story in my head This is better than Sopranos was bullshit You know take that part out Um So like uh I'm reading the book I love it and it's all true What are some of the main truths that you really overall truth that you really want to tell through this book Well you know the you know I live my life and it's my destiny I take full responsibility Obviously everything in my book in there is not everything about me is not in my book I was never an informant never would be an informant So there's a lot of things that I could not write about Like a lot of these guys that you see on youtube and they were informers they could talk about bodies I cannot discuss that because I mean there's something that took place It's your cousin's place in Florida OK And uh I I cannot mention what it was OK Uh But somebody said f that guy I'm the boss down here Oh man we gotta leave it at that He's no longer with us I'm sure he's not But I'll tell you what that's a good job of doing all of not incriminating it and telling still telling the truth This is a big book And it's a good read Thank you And it's gonna become a movie which we're so excited about Talk to us about the process of how that's been for you Well you know being in Hollywood uh it is a process It's a long process I have George Gall who did the Midnight he wrote Midnight Run uh Bad Boys 29 Street Middleman ton of movies He's directing it Nick Beano who did Green book won best pitcher of the year award He's a producer on it Uh The script is written by David Sto an

awesome writer Um And we're a team along with my son who is a producer on it in his company a product So uh we are in the process right now We'll be making money offers to actors We're currently looking at Sam Rockwell and a few others to play me And we're uh we made in my book the FBI agent is we made it a female Nice I like that I like that You you know the uh the name of the FBI agent in there who in 1997 the FBI says I will see the day you are chained shackled put on air and brought to Brooklyn 1997 in 2008 of June he made it a reality 11 years later Shane Shaq will put on and I was brought to Brooklyn on a Colombo prime family indictment And but we made the the FBI agent a female in this script Her name is Gala and we're looking at uh Zoey Zelda and Jessica Chason uh to play that part So we're we'll we'll have Morgan Freeman to be in there Um Probably revolt Uh you know uh there's three other main characters and Ray Winston more than likely will be playing my mate Joey Pao in London And I happen to know Ray personally So they're doing a great job so far Who's the casting director on this project They're doing a fantastic job Me my writer my son George G I know two other actors Uh me and this guy Well you know I'm only involved in that there Uh I'll do what I can to help both of you Oh we love that We appreciate that We appreciate that I think you know we're both just drawn to it only because of the power of the story right It's not only but it's it's it's a very good story very honest And uh and and and when we had you on uh the first time I think Kyle said this is something that you do so well is that you own complete responsibility of your of your life I take complete responsibility the good the bad and the ugly and there was ugly You can tell you're a great writer when you talk when you answer a question like that the good the bad the ugly You know what else that I love about you Ari is your authenticity not only with this book but like what you do on social media Like if you follow a spot on social media you show L A like what's happening in L A Why you moved to L A Why you love L A and like it's just so fun to see L A through your eyes You know I did it on and I did a thing of how much I love California because they always asking me how could you live earthquake You know what Well with earthquakes you don't know about it until they're over with All right you got a hurricane or a snowstorm you gotta prepare weeks in a bank All the 10 we don't go to that The earth is just like oh man thank God I swear to God I'm up to 100 and 50,000 views Oh I love that You got to teach us your ways because we're uh we're getting there on Tiktok We're not as many of you as you That's pretty awesome I think oh I didn't realize I would do that I mean I got I want to

thank all my Californians for supporting me I think I'm gonna have to do one because I'm from New York So yeah the two of you can do I love I love New York too So I was there for eight years Yeah Yeah I I like I like New York City A lot I love upstate New York because it's so beautiful and my family like it just bring it like when I think of Utica New York I think of the summers and I mean just spending so much time with my family Um so it's very peaceful to me Um and lots of greenery and you know just having a great time Um New York City On the other hand if I don't have like multimillion dollar pockets I can't live in New York City It's too too much You you you you're pointing out the good months of the northeast corridor Yes of course Yeah No I mean I when I think of no but when I think of Utica like for me it was so peaceful also because I was a child and I had a very um lucky childhood But uh it just brings me so much joy thinking about that Yeah Well I was born in Rome I was born in Rome New York But I consider myself a city boy You know I like I like the high rises I like the activity I like action I got to see things you know I mean I live in the middle of Beverly Hills Anything I want I know Is there someplace And when I lived in Manhattan I lived on 58th street and I knew you know I could stay in but I knew anything I wanted it was available and I was Yeah I just just me she don't put me in the woods I don't like that I know Listen I'm not trying to say that I would stay in the woods I mean like forever No no no I know But when I said the greenery it's nice It's nice for a while and then I want the city again I tried it for a while when I my so my family lives in Maryland Uh my dad and um and my brother and his kids live in Maryland And so I'll go and I'll visit and it's like what I said the other day it's like fish after three days It's just bad It's just like just bad Not not with them not with them Just like just being in Maryland Yeah Yeah Yeah Yeah Being in Maryland and like there's nothing to do here No I've never wanted to go back to Maryland Who what who Connor said that Maryland's better than Jersey Well well everybody likes something different Um Your relationship uh with the law was profound to me is that do you think that's like an east coast thing Like why I'm like keying into that like a city boy thing that I'm keying into or Well we always have respect for the law You know this is what people don't understand guys like me my friend we you know Sonny Frank Chase and Jamaica they got a job to do All right I mean I remember when the LAPD organized crime was after me and they tried going after my girlfriend at the time All right because she was a drunken alcoholic and they try to get information from her and I found out and I called them up I said Steven I

said let you and I give you get straight here You're the good guy and the bad guy I says if I do something wrong you arrest me if you catch me But if you think you're gonna get something from my drunken girlfriend I should I'll spin you around in a courtroom by myself I should And you know we had a really great respect for each other After that day they got a job to do We don't spit at them we don't hit them They come right You could just call us up we'll go turn ourselves in Of course they know we do that but they don't do it because they like the big you know I look at these guys these politicians oh they came with 20 something Jesus Christ They had 28 guys around my freaking apartment building All right Come on and you know give me a break That's what they do All right let them do it Why complain All right worry about it after you get you know try to get yourself out of prison Ok That's the whole ultimate goal Once you go in it's a mindset Ok People ask me how how was it You just change the mindset and that was it I was in prison That was gonna be my life for the period of time I was there your mindset before even before prison and incarceration Uh was that something you think could be taught or is it something you felt you just like is natural to somebody you know mindset and attitude Ok I've been hustling since I was 12 years old What were you doing At 12 Oh no I was I was a newspaper boy I was cutting lawns in the summer shoveling walks in the winter I was making money All right And it's just something that I remember the first time I wrote Thinking Grow Rich It was after the first time I went broke I lost \$12 million from reading that book No not from reading that book I had to take a job and I was sent to school two weeks in Boston with W Clemens Stone a combined Group insurance company And the first book they gave us to read was they can grow rich And when I read that book I said man this old bastard who wrote this book uh he took everything I've been doing in my life and put it in a book So you know all those things work hear that buy think and grow rich But before you do that by this book that's the first thing you gotta do is get off your butt and go to work if you wanna be successful and that's what people don't do that That's why 87% of the people will never make it Is that the number Yeah I tried telling Kyle I tried telling Kyle Um so a lot of the things that I do don't immediately get a return on my investment It's not an immediate thing because I'm a creative And so what I do is I like like yourself like I'll put myself out there and try different things to see what will stick But uh but Kyle is so funny he's he's the business guy where he's like how much are you getting paid I was like not yet Nothing yet But I think I think I think I said how much are you gonna make from this I don't think

someone's gonna pay you But I think I think yeah I think what will eventually will happen I'll stop sponsor with someone Somebody will be the sponsor and like want to do you know on the street where it's like oh you're sweet Yeah for sure Yeah And and positive things to come and the money will come eventually Absolutely Well I've been lucky enough to um uh host the red carpet and um have opportunity there Um a special shout out to carry Anne Kimball um who's in the building uh which is really really great because I love interviewing people It's one of my most favorite things to do in the entire planet Um other than sit across from you and know about your book and I think this is so phenomenal and so wonderful So everyone that is watching oh I um should I make a call I don't know Should I call somebody from Utica New York Should we try Ok So here All right should we call your daughter We can call your daughter I don't have your daughter's number though 315 We should I call her from Oh she's 315 Do you wanna call her from your phone Should we You want me to call my uncle first And then you call your daughter Ok So my uncle this is my godfather This is um my uh uncle George Uh let's see if he answers This is we've never done this on the show with uh with my uncle My dad My dad was so funny He goes everyone loved the Ori Spado episode Everyone loved it He's like everyone loved it Uncle George Yeah My uncle George No Ok So this is my godfather Oh this is my Uncle George I don't know I don't think he does No he doesn't know my uncle He is an attorney and he's probably working but or on the golf course either or he's like you am I going to voicemail Voicemail on my television What's that Hello You've reached the voicemail All right Ok Or you turn right 315 Wait but she's not gonna you How about you Call her You Oh I call her Ok 315 777 Uh Gina Gina you gonna answer to me They're too busy Is she in there No What did she do She's the director of the Abraham House Amazing Oh yeah And Louis's wife used to be on the board of directors of it Oh I didn't know that Hi I can't come to the phone right now But if you please leave me a message or just leave a message I promise to get back to you as soon as I can have a great day at the tone Please record your message when you finished recording you may hang up or press one for more options Tina hi it's Michelle Murad Kyle Trueblood and hi Anna is dad and you're dad And we're calling from the set of Good Day Live talking about the accidental gangster And we were hoping to maybe have you on on the show and and talk to you a little bit talk to you about it I hope you have a great day and um we'll we'll send you the clip so you can watch it later All right we'll talk to you later Your dad says bye bye I love family That's so
