

## GDL Chloe Lawrence

Welcome Welcome back to Good Day Live I'm Michelle Mira I am Kyle And we have Chloe Lawrence Director of Dogs Without Borders And also we have three furry friends who are our furry friends today We have Emory Mama Emery here Mama Emery who just had puppies Right Did they all found home So she's ready to go now It's her turn Yeah Yeah I think she had five puppies She did it all by herself How old is how old is she Am I allowed to ask Three years old Yeah you can ask So sweet It's different with dogs you know Yeah Yeah Yeah Yeah Different with dogs So we got Mama Emery and then and then we have Piglet here Piglet She's around two years old She's a little more shy She just came from the shelter but she's a great dog Oh And then we have another one running around some flowers right here She's just doing what she'd like and Emory's bossing her around Oh well she's great We love dogs We are very dog friendly here Um and and like I said earlier uh my life changed the second I adopted Charlotte from you guys at dogs without borders And it was so serendipitous for me because I was in a job that I was very grateful for but I was miserable I was so miserable and I was sitting on the floor Um because I was a nanny at the time I'm sitting on the floor and I was scrolling through Instagram This is like almost like 22 years ago now Um And I was just like this cannot be my life I need something I need to change something up I got do something and then um I just because I follow you guys on Instagram Um I saw this dog and I got denied by the dog which is ok because muffin needed a backyard and I was like listen I need a backyard too So I got denied by muffin which is ok Um But then it was crazy to me was whoever denied me said we have a bunch of other dogs that have just been released to Instagram You wanna check them out And there was another muffin and that ended up being Charlotte and it was a puppy and she was literally like the size of my mom She was so so so so small and then um I mean she had like I mean over 2000 likes this dog like I mean there were like five of them but still I mean puppies they go crazy for they go crazy for puppies They go crazy for puppies And I I couldn't believe when I put in my application and I had the interview that it was actually gonna be a go and I'm forever grateful to changed my life So thank you Thank you for the work Yeah thank you for running a rescue For sure How do you guys obtain the dogs at first Like where do you guys get the rescue dogs from from the shelter from the shelter Just stock the website and right and then you create you know relationships with people that work

at the shelter and they'll send you dogs that need out and stuff like that But we also get dogs from Korea So in Taiwan So yeah we're on an email chain and we're just constantly filtering through what we can take We are a small dog rescue So we try to stay under £50 like £40 for max Really We make exceptions you'll see on our website But you know we mostly do small dogs and we kind of just go off of you know sometimes we take medical sometimes we take behavioral Um we do kind of everything any like gnarly stories on when you have like rescue a dog My dog has a gnarly story So I just wonder if no gnarly stories like that I mean you hear the stories but it's not me that actually goes out there I just go to the shelter once they've already been rescued from the bad situation Um but we did just rescue a little dog named Sissy Unfortunately she didn't make it I don't know if you saw her on Instagram but she was to die for and that was it was like a £4 No but you know what sorry to use that But that's a part of rescue You know she at least got out of the shelter We had her at the hospital trying to get her better Um She was like 15 years old and her owners just dumped her and she had so much against her So she didn't it was the best thing to kind of let her go but we did try But that got to me because some of them you know they just are special and they just get to you they really do they get to you They are so special and uh we have a clip of or just behind me of how special they are and what they do to like do to people This is literally a still of the Charlotte chronicles It literally it truly changed my I cannot tell you because I was in such a bad place emotionally I wasn't doing creatively what I wanted to do And Charlotte literally Chloe the story is unreal Like I introduced Charlotte to my family over Zoom because it was 2020 my sister in law got really upset and her face went white and she goes I'm pregnant and I wanna name my baby Charlotte and I was like oh great What So like that's what stimulated this whole thing because it wasn't just this one Like dogs changed your life Like you meet new people you meet crazy people you meet you meet like good looking people that you might want to date Like um you know what I mean So like all these stories started flooding into me because I I'm a writer and a performer and a producer And so um she like later I look at her she changed my life and um and and this is really why I'm here today because of because of you indirectly because it will directly because of you and the adopting of Charlotte changed my life Like I'm doing what I love to do because of her Let's see Where is your rescue located So the house that we rent like we have an office is an en en Yeah Ok cool cool cool That's great And then we do adoption events in Santa Monica and then as as tail

waggers I think that's in Hollywood That's so great So ok so you you saw this post on on Craigslist How many 14 years ago What did it say I could probably find it somewhere Like my first email That was a common thing back then because we had a named Betsy and she found us too or she found dogs without borders on Craig's List Oh wow They were posting for volunteers to come to the adoption events and help you know and sign a waiver and help get the dogs adopted and interact with them And so I was just like hey hanging out with dogs Yeah What what like what better thing can I do on my Saturday or Sunday And then I just created a uh like a relationship with the rescuer and then who owned the rescue and I kind of just volunteered and I couldn't get enough of it Yeah that's it was such an amazing story one dog in my life And I like still remember the pain It was like to like let it go How do you deal with the like because you so probably the utmost care for these dogs and have the courage to let them go in the beginning It was hard But now I put up a barrier you know you have to put up a barrier you can't fall in love with them like it's your own because then you have to give them away But I get it A lot of people struggle with it When I took over in the beginning of the year we created it a little bit different where fosters can meet the adopters now and keep in touch with them and make sure they're comfortable with it before We weren't like that We were doing it you know we approve them they transfer the dog over but I want the fosters to feel comfortable and be able to be with the dog and through through their story I should say you know and get to know their new family So I think that helps too when you get to keep in touch and you know the dog is happy and they're getting everything and more than you could give I mean when I like I mean I'm obsessed with my dog but when I met her it was like and the foster was like you guys are perfect It was the perfect match So it's like the vetting process is is so needed too Like all the questions that you guys ask and the interview process like you can tell there's so much care that goes into it which I really appreciate it I'm so again I can say it over and over how grateful I am Um We got more Charlotte I'm obsessed I'm obsessed with her so much She's so cute and she the only thing is she won't let me put a harness on her She I don't know what it is She just literally goes like comatose comatose or she just like she literally goes like I know I have so many people like like she won she won move And then I've had so many people come up to me and say you can't walk your dog like that I was like listen I've tried I'm trying everything any advice for that Well no I mean you can get maybe one of these I think it's like a buddy belt It's a little thinner

and they don't notice it's as thick on them It's not so suffocating you could do something like that Otherwise you just have to spend a lot of time with traits and training and just every time you put that on her lots of positive reinforcement take it off and put it on just a bunch of making it a good thing you know Ok Ok Oh my there Um so how many dogs at a time does dogs without borders have right now We have like 95 I think Yeah we went down to 40 when I took over because I was like let me get my get out but we just shot up right away We were at 1 40 at 1.1 50 was our max Uh but yeah about you know 90 to 100 right now but we do also have a lot of puppies in our system So that kind of you know adds to the numbers when they have like nine babies at a time at that point I mean Mom Emory your puppies must been so cute She's the cutest she gave birth on my son's he's a little like chair that says his name And I remember hearing her scream and I ran in there and she's like giving birth on his chair all the fun stuff I was like oh there goes that chair chair but you know she got it done and everyone is saved and my son got to experience this What was that like for him Well you know he's like can I have my ipad He went over it after a few because there were five babies and I was like look there's a baby because they come out in a you know and just the mom licks the sack It's you know not so pretty but there's lots of blood and you know amniotic fluid all that stuff But long story short they come out they get dry after like a couple of hours they start nursing and they're like little rats or little like mice They're so cute Oh my goodness It's so funny How old is your son 3.5 0 so he was just like I just want my eye bag Like I don't know what this is yet Mom I love it I love it so much Oh my goodness I mean like Kyle I don't think I would be able to foster I have a dog on my lap right now You guys I have a second daughter now Oh my gosh You know how they say you look like your your dogs look like you I see it I see something here on brown brown skin Hi honey I think she feels a likeness She's like oh I see this is this is like she doesn't like you I sat still this whole time Oh my gosh Kyle this is hilarious She's choosing her future dad You know he has said on repeat that he believes he's going to be a father to five daughters This might be one of them Oh my gosh It's so cute That scab right here You've been playing rough I got you I got you I have nothing else to say for the show I'll be I'll be with the dog for the rest of the show You guys How do you think Solara would feel She's going to be jealous She's going to smell her Like I have a husky a blonde husky who actually has a crazy rescue story Um but I just I'm so thankful for rescues I really it's like Superman work to me the emotional process you guys have to go through to

be protective and then give it away It's it's a tough you have a blonde husky Yeah she's a mix She's got blonde hair She's a pure blonde hair but blue eyes like you're gonna need a now you're gonna brunette So um I mean and everyone like mega celebrities follow you and on on Instagram and you know um like I I just it's so cool like it's so fun to see Iii I am excited I had actually from the South a shelter and she was like a sausage She didn't look as cute as she looks Now if you look on their Instagram now she's to die for her But then she was just like a cute sausage Um and yeah I fostered her so she had Mammy Masses She had a lot of medical and then she had stones in her bladder huge stones in her bladder So we put her through the bladder surgery and then Sofia saw her and was like bring her over I'm taking over So I brought her her house and it ended up being her husband's dog It seems like when you follow them it's like he's like his yeah baby And she's like tiny like four or £5 and she's lost weight She's healthy like you know she needed to lose weight She looks like seven years younger I mean she looks like they started her over It's amazing and they bring her everywhere I mean I love that story Oh what a great story Oh yeah Oh there we go We got Kyle in the background with his dog That's so so the whole point of casting him um was well he wasn't supposed to play the part actually But um so one of the things was you know that's a funny way to say that he wasn't he wasn't there was another guy that was supposed to play his part And so when I got Charlotte I kept running into this is based off of real life Um but you know I wrote it to be like a comedy series I kept running into like people that I didn't want to run into and I kept running into this one particular guy that I really wanted to run into Um yeah and um so he ended up playing that guy Um but I had to make sure that the actor that played him already had a dog And um so that was his dog And uh so and I my thing was I thought he was just too sweet because when he was holding Solara at the end because the guy that I met I kept running into he he since moved Unfortunately Um it's ok it's ok It's not gonna work out again It's not gonna work out with this guy ever Um He like he had an edge Um but Kyle was so sweet in his audition video like he picked up his his daughter as he says and he like kisses his dog at the end I was like yeah I don't know And then it ended up working out and now he's hosting a TV show because some dogs without borders you have for sure a big edge with the with the dogs I become a little mush Look at her I mean you must feel like you never you never feel like you look at this to a point I feel like I never go into a job No it it it I love it Yes So much like it's amazing to do Yes for her Yes But I mean we're conscious Oh I know There

is a love connection Whoa Kyle Maybe you can like I love her Maybe you can foster her But she does need to foster She she does I have two dogs in the house right now She she's fine She did fine with my 3.5 year old son Oh my gosh She's pretty easy going She loves it He's been saying can I say can I say what you said to me the other day about Charlotte He was like um I love that Charlotte just wants to sit on your lap and Charlotte just wants to cuddle with you And I was like yeah he's like I just wish I had a dog that would do that with me Yeah Soul doesn't she doesn't look at this Look at you You put it out in the world Your affirmations here What is it Oh this is a man set is literally Manifestation Station Yes Say whatever you want because it will come through It's unreal and I wish I could say one thing but I can't I'm so curious now what you have Is it dating Yeah Oh my God We have a game called Red Flags Did you wanna would you wanna play that game Where is Red Oh do you have well we only have like five minutes left Come here So my thing is like when we started um come back to your daddy come here come here My thing was is that like every time like you know Kyle would go out like on a date with someone I would be like that's a red flag or that's a red flag and I was like we should play that's the game every time But yeah no you should put out there what you want Totally Ok Ok All right Ok Well we can talk more about those don't we Well listen you can tell me and I'll put it out there for you Ok Um but yeah so on the bottom of our screen for those that are watching um they can uh go to your website of how they can adopt a rescue and then donate Right Yes Uh can't rescue or can't have a dog That's the best way is to donate donate because that's one thing we also love you know the best thing about us is that we make sure they're medically cleared we just adopt them right out You know we want to make sure we want to do something different than the shelter does because otherwise you could just go to the shelter you know So yeah Yeah I remember you speaking about the one dog that had the memory issues and you're like oh we just cleaned them out and like gave him and I was like wow that's a lot of money though Yeah we raised the money we have you know we do it they need it So if someone wants to donate uh how do they do that Is there a website on our website Dogs without borders dot org They can do paypal Venmo cash up They can send a check to our PO box No they can come by our adoption event This Saturday Where is my pet naturally On PICO grooming and pet store Ok Where they're from 10 to 20 no I'm gonna wanna adopt 11 to 2 I apologize 11 to 2 Um so you got we got your puppies puppies We'll have all of these little Chihuahuas We got your website uh below us Um for people to um and

that information would be on there too right For the um the event So cool  
Hey excuse me how many dogs have you Have you personally fostered Oh  
hundreds Hundreds Maybe even we could be close to like 1000 you know  
over the year year Have you taken pictures with every single dog No I'm not  
that I see That's when you become attached to everything that you need your  
boundaries It's like doctor doesn't cry every time their patients pass go off to  
go hard I have to put that boundary up I'm not good with boundaries I need  
to work on them I'm not good at doing this I'm more like love But no I I feel  
that though because I mean hello what I clearly have no boundaries No you  
don't need one with her She's amazing What's her story She came from the  
Baldwin Park shelter She just got spayed I think recently And she doesn't  
really have a story She was a stray So that's the thing That's unfortunate  
when we get them from a shelter There's no real story behind Either  
someone says they found him as a stray and they lie or they were really a  
stray and we don't know but it isn't the best area for dogs There's a lot of  
strays in that area but she came out really friendly and a lot of dogs over  
there don't come out as friendly in some of those areas You know they just  
aren't used to the socialization and being held and all of that and being on a  
leash She did great out of the three here She was the best one walking over  
She loves you I'm in love and she's got such such soft belly skin I know It  
sounds funny but like not all dogs have so soft Like I don't know I noticed it  
last night What do you velvet It's like velvet Do you think you can do two  
dogs I already got two Well I mean like you think well that's not I mean so  
uh yeah she she might soul might hate the fact that I got a second I'm gonna  
I'm gonna I'm thinking about it Yeah I gotta tell you that I would rather that  
than you know return her the next day Yeah Yeah Yeah She looks so at home  
on your lap I kid you not And this would even it out kind of because I'm  
constantly just like forcing my husky into cuddle situations and she's like all  
right I'm good And I'm like no no no And she can have her space and you'll  
have your cuddle partner I'm a cuddle partner We're all good to go Oh my  
God And we're coming up to cuddle season you know it's going to start  
getting cold season I have a girlfriend so I might need another dog Yeah She  
could be your girlfriend for now She could be your girlfriend I have one  
daughter and one girlfriend Yeah There you go Perfect Well you've said on  
repeat that you believe that you're going to be a dad to five daughters Three  
real humans And yeah Oh wait that was what it was always Oh I didn't know  
that Now you're creeping me out Really You said I thought it was 55 human  
Yeah five kids I think that would be a woman's decision Ok I thought oh well

Yeah Yeah Yeah Yeah I don't I mean I don't know you know what I mean Like it's a little so this is my thing I like this I said the other day I was like I'm not a dog mother I'm a dog lover And he goes that sounds worse I'm a dog mother I was like I was like I didn't give birth to the dog and he was just like Michelle like I said I adopted the dog and he was like that is so wrong And I was like well I'm not a mom so like you're a mom but I'm I'm not I'm not What does a mom that cares Feeds Yes So I I feel like I'm her guardian So cold and not cold I'm just not a I'm not a mom yet She just takes mom life differently I have a I was a nanny Like when did I have a there was one girl on the Bachelor that had a nanny like oh wow Yeah Must be nice Nice Yes No I was I was a nanny for a really long time and so I know what that's like and um so much respect to moms Um and it's a lot of work It is a lot of work But you're halfway there I have already changed Can you Yes Look we're halfway Oh my gosh Look how cute She looks in your arms You are so right You do look alike You do They do right Just me Oh my gosh She's so she had a blue flower on and then you guys should have known cute Sunflower Kyle change She does not know her name Don't worry The Sony Sony That'd be perfect So so many people Um so one of the our write ups was like uh they've never seen anything like our show before because uh sometimes they're singing and like because of our connection we're not dating Um and I always say that because like you know we have we have a paddle Uh but people think that we are and like we have because of our connection and sometimes we are like somebody said we were like sunny and Cher and we're like oh yeah And I was like oh ok That would be great Like Sony get it That was the whole point of the story I gotta be sure Get some get some I got you I got you babe Oh my God I mean you should be codependent with your dog That is the most natural codependency ever She's so soft Right That thing does not No I was putting them all on the way here and she's the one that I she must be applying her oils daily or something Right Right Her skin care is next level The natural beauty I'm not sure You know we all we all we're not born that way No not like that This is perfection Oh my gosh Oh my goodness This really might be a thing No no I mean we might be doing some adventures together What do you say Yeah She's not like a sleepy dog either She could go hiking You need to do just you just literally said the one thing that he loves to do Oh I'm good at this aren't I you are the matchmaker of dogs She chose me I didn't really it's true She just sat on your lap up Does that That happens with most women here in the studio I'm kidding Keep it PJ Keeping it PJ here Totally kidding I'm totally kidding No I always like joke

with Kyle Like every time somebody leaves like he's always getting like you know information on DMS or like Instagram But this one is like just take me home already She doesn't have an Instagram profile for her She does play hard to get it Does she have no game She knows the game She knows she knows the deal No we have a picture on our dogs without borders No we'll get her posted today She's new to us as well If she goes up she's gone I just I like to sleep on big decisions Like of course of course we're not come to our event She'll be there If you like wake up in the morning you're like I need this dog You'll be there at 11 a.m. to come get her We're in Santa Monica 00 my gosh That's that's not too far from Culvert Oh my gosh How old is young She's like a year Her teeth are beautiful They're like you know she like would be really fun with Charlotte Yeah they would look cute together Yeah Oh this is so exciting Emory's jealous Oh is like I just I had five puppies And what do I get like Oh you're stuck Oh Do you notice that the moms like that Just had puppies have trouble getting adopted out or are they Ok Not usually the ones that have trouble are the ones that bite But I don't want to What what was the dog crackers Sonny Sonny Listen to your dad So listen to your potential dad Yeah he's calling you listen to your dad and just got a little too protective about them Like she's like uh where's she going Um Crackers how's doing She's good A trainer with a trainer and then she's going to a different trainer and foster So it's I know it's a dog It's a dog Yeah I know what I mean You gotta send you gotta send up for son son son come come come there honey come here You don't want Sonny to get out of her scab do you We're gonna come here Look it all worked out Emory Sony wants to smoke She wants all the smoke right now though Emory's like what about me She's like I haven't had enough of you yet She's coming back down for more two young females you know going down easy Does it easy Does it where do they all sleep Ok Usually foster do remember that Got some water but distraction Good job Yeah Yeah Great Um so they sleep in crates but I don't have all 90 of them Of course that would be it a lot and your son would for sure Be like ipad Yeah ipad all day please Mom Oh my goodness So how does one how can one become a fox if they wanted to go on the website Put an application in and just get ready to pick up a dog once I interview you It's very simple You don't realize how fast it goes It goes that fast I mean the second What's that Oh yeah What what are the standard questions for an interview How long are you gone Like what do you do for work I do this Ok Oh yeah Yeah Yeah go ahead You answer you So how long are you gone per day at work Uh about two hours maybe three the rest of my work is from

home I do finance from home And where do you put the dogs when you're gone They just roam my room Great actually Well so actually loves a cage She didn't have one but then I got her one and then she loves it It's like a safe space So the door is open but she's probably in a cage right now Yeah I mean we provide crates for everyone I mean every dog because a lot of them need that especially if they're not potty trained and they need that So it's another thing So has found a stray uh all of her brothers starved to and then yeah um she was like on the verge and then she went to an abusive family and tied her to a pole and uh then the rescue took her back This is like 80 miles inland I was uh dating someone like five years ago So is four now So I got her Yeah about four years ago Um Redlands Have you ever heard of it The Redlands That's where we were And uh yeah the rescue was over there also And yeah I heard about it I saw her I saw the look in her eye and I just took her that day There was there was no sleeping on it for her I I saw her in about two hours I think I got her sleeping on it Huh No sleep I couldn't I saw her her state was just too vulnerable Like she wasn't that a good rescue Like like you operate it was like this makeshift like we we got the dog just keep him safe but they got to get out of here because it's not ok They were just trying to find them places to go as well Yeah she couldn't stay there for too long So I was like yeah come with me 00 no she didn't get outside Ok Oh no The doors closed the whole time we had the doors open dogs without borders Not doing well Never let that happen No it's so so exciting I'm I'm excited for you Potential I'm not pushing anything Maybe maybe see how you feel in the morning if you think about her that Oh yeah What what other you know getting I don't have an earpiece uh right now but so what other questions would you ask him a good fit Yeah he's so far a good fit We make sure you can come to adoption events that you have your own car because a lot of times people want to foster an Uber and then when an emergency happens they don't want to get to the vet or they complain about getting to the vet and they want reimbursement So it's you know you have to be you have to get your own transportation It's really important Um and then just you know I usually ask for a small video of the home and not that I need to do a home check for a foster but if they can shoot a quick video like if they have a patio or something like that just so I can address it's not like anyone's super declined unless something scary is going on But just so I can address like don't leave the dog out on the patio That's the thing Yeah Yeah The smaller ones especially in California because the hawks and the owls and stuff like that and they're scared Some of them I could imagine This one going on a patio

and just jumping because she's scared You never know There's stories that are really scary So so yeah Um and then we just you know as long as you can take them take them to the vet them to the adoption events we provide all of the supplies if you seem like a normal human being who can take care of yourself take care of a foster dog you know Um but yeah so that's kind of it It's not the adoption process is a lot more in depth Oh yes I I know I was on the phone for an hour and a half at least And um I was asked what apartment were you in And I'm or I was like I'm in 6 23 and she's like so I'm looking at the building right now and it looks like 6 20 Does it have a balcony And I was like it does And she goes the only way that this is gonna work Michelle because otherwise you're perfect You have to get all the materials to protect her from even like peeking out And I was like so I literally got in the car after I got off the phone went to Home Depot I've never been to Home Depot in my life by myself Yes Go to home I don't have a home I like so I'm there and like I go and I get like all the stuff I need to the Home Depot we could get a light outing feeder you know I guess I'm not a nature girl It's ok That's what I'm not a Home Depot gal Um so I went to Home Depot and I got all the stuff that I needed to protect Charlotte from Well my brain it was already Charlotte even though her name is Muffin to protect her and like I had somebody like install like these like these uh just like this I don't know paneling So that was like on the same day Um I met the guy like at Home Depot It was really crazy but I was like I wanted Charlotte just seemed I mean like this it just seemed right And so I did everything I needed to do and um the rest is history and she's my love bug I love her so much She just it's so funny though like when sometimes they just need space and she just doesn't want space It's so funny Like I'll like go and I wanna go lay down and she'll just like come with me and she'll just like literally go right under the covers Yeah My Chihuahua does that burrowers you know that they love to cuddle under bed It's so cute Yeah it is my my friend Adam um before he adopted his dog uh I said can Charlotte stay with you And he's like sure And I didn't tell him about the burrow and he's like I love Charlotte What's the thing He's what's your thing about like digging and going bed I was like I don't know it's like a thing Are you cool with it He was like yeah I'm fine with it Do all the dogs hang out together or is it like do you find a lot of issues with like certain dogs together when I have them at my house you have in your house Yeah Not all together But I have groups So we'll use like the back house for certain dogs if they have kennel cough because a lot of dogs that come from the shelter get kennel cough So you have to kind of

separate and each shelter is different too Like there's some shelters that you don't get it from and then there's some shelters in downy area that their filtration system just must have it and all the dogs come out no matter what with kennel cough Um the shot for that It's a funny name What's what's the that's the one that's supposed to prevent it So I always tell people you can foster a dog with kennel cough The b is supposed to prevent it but it's not 100% I mean even once in a while my dogs won't get kennel cough but it's very rare because you know they're so immune They've been around everything But yeah we have different like room I have my one of my rooms is ac is my closet I made it into a closet and I keep like a few dogs in there like they slept in there last night So it's funny my dog I made my closet It's like a safe place for my dog Yeah Yeah it's just the place to go Yeah And then yeah we do groups into the yard and that's it And I don't keep very many I mean five at the most and that's a big day You know that is a big day That's like a not sleeping day and smaller So it's they're all smaller You're not like running no dog No nothing like that When they come from Korea they're a little bit bigger but I make sure to not have any others when I have to handle them So uh because uh you said something about potentially dating uh we're all single here This is called Red Flags We sure are I don't want to be single but you know I think there's uh there no I agree with that at times Uh it's better to be single than to be with the wrong person Right Um so uh we want to be single somewhere We're with the wrong person but then once we're single that person Yeah Yeah Yeah To be small So Chloe I thought I came up with this game Ok And you didn't I I didn't I I thought I came up with this I thought I came up with this game every time Kyle would like bring something up I would be like that's such a red flag And then I uh because I have a producer on the show I like Message Andy and I was like you know what we need we need giant red flags And every time like we like talk about a segment or like you know about somebody dating we just go red flag So then um he went on Amazon and found that that it was actually a game So uh it's just like an opinionated kind of game So we're gonna pick an example and whether it's a red flag or not you raise your flag and learn about each other and um you know I'll have fun there any personal red flags you want to throw out there that like you would like our judgment on No I'm too shy It's OK Thank you though So pull the card It has to be slightly G rated because so if I read it and it's not trust me you'll know you'll know you'll know right away right away Oh wait that's the red Ok Won't stop juggling red flag Yeah like not even a red flag Like what some of the cards are super

pretty Ok Uh what the Ok Oh no this is hilarious Speaks with a constantly changing horrible foreign accent Like that's like can't trust that person at all You know sometimes I'm gonna pull myself out on where are you from Where are you from But wait but sometimes you and I break out into weird accents I have actually showed up to a first date in a British accent Why why I I broke it No I'm kidding She actually thought it was hilarious I was like because we were you no because I mean she said when we were talking on the Dating App she was like oh but I really do like the British accent and I can do the British accent So when I showed up I was like oh how nice to meet you I'm Kyle And I did it for like 30 seconds That was good I changed a lot It does it does it does it does I'm like a very different person when I get the the British accent then don't look at me just 30 seconds and then I go back into my Jersey accent But yeah I went right back into it and she like at first was shocked and then she started laughing Listen we do I think we do terrible accents every day though The news would be red flags I have one just for my life Ok Says that she hasn't dated in 10 years She has been on dates hasn't had a boyfriend in 10 years Is that a red flag I don't know Maybe she really needed to work on herself Yeah That's right I mean it's at least at least 1/10 of your life Yeah I wait 10 and then like oh right I was to say how old is this woman you're dating 100 100 now that's what I was thinking 1/10 of her life Meaning like now no judgment You want to date 100 year old woman Go for it We are we are all for it Um Might be a red flag maybe but maybe she's a really great person and something really bad or traumatizing happened to her and she just doesn't trust So you give it a few dates and then you start to realize like yeah you know work out I think she'll start to show her true colors Can I see red flag Did you meet someone recently that did this happen This happened like last week when a couple of weeks ago Ok Has a permanent fedora permanent Yeah like like for Halloween How did you how did you do that by the way How did you do that Yeah that was like a I like that He's a fedora Yeah No permanent Can't do it Like like it's one of those guys that you don't know what he looks like without a hat that to me is like such a red flag right there Something missing or it's just like so bad that like covering it Listen but a giant looks good in a hat Great But like if I wanted to look equally as good without the hat Like you can't look better with the hat I feel like we're in a Seinfeld episode right now Like there's something about anyway um we could go on and on and play this game forever Forever Listen this is Manifestation Manifestation Station so you can say whatever you want It doesn't have to be about dating but these are your

cameras right here Plug away whatever you wanna say whether it's dogs without borders or life in general Yes Oh Jeez Instagram handles websites Yeah How people can get how people can get in touch with with dogs without borders dogs without borders You go to dogs without borders dot org You can go to our Instagram dogs without borders We have a Tik Tok We've been doing too I've been doing it Paige has been doing it We just started so you should see our cool new videos So that's dogs without borders too All right ready for that Everything's dogs without borders without borders There's no one else like us So I I cannot think dogs without borders enough It is changed my life and I know that if you are looking for a dog and you live in Los Angeles or they can be outside of L A too right Yeah they can Dogs without borders is the place to go They know how to match you with the right dog and um your free companions for a very very long time Um Thank you for being on our show so much Um wherever you are today I hope you find the good in your day and pass it on We'll see you all tomorrow And what's nice
