

LA Unscripted | October 18th, 2023

From hot spots to hidden gems This is your guide to all things local The L A unscripted way from our Sunset gower studio offices It's the place where dreams come true right in our own backyard Now we want to inspire you to get lost in your own neighborhood Discover a new one and fall in love with so all over again Hi everyone I'm de Let's get right to our first unscripted approved local faith I feel like fried chicken is a it's not only a trend it's been it's been around forever I wanted to do it elevated I wanted to really focus on the ingredients really focus on the techniques the process the execution This is so bad We're in East Hollywood where I heard they have the best fried chicken in all of California I'm a southern girl I love my fried chicken Let's go check it out So we were awarded the uh number one fried chicken in California and number two fried chicken in the United States by Yelp So it's a huge honor huge recognition It all started in Louisiana Born on the bayou Truly and home of Louisiana went to Le Cordon Bleu Culinary School in Austin Texas partnered and worked with some of the best chefs met my wife in Aspen Colorado and then we traveled to Southern California The name of the restaurant is Lake Coup Uh It translates to the cut in French We already had the menu planned out the location but we needed a name We were originally saying we are all cooped up from the pandemic and we thought that didn't sound right So like the cut of the fried chicken is what works because it's a French cut OK So this is for the fried chicken sandwich and we're gonna pound this Why do we pound this So we we pound the chicken so we can increase the surface area decrease the cooking time and increase the flavor Look how much flatter it is Oh This one there they are the ingredients that we use are a huge part of what we do My cousins from Bill Platt Louisiana own a seasoning company called Sla Yama hot sauce is what we marinate the chicken in uh this the original seasoning we use to uh flavor our chicharrones which are our chicken skins that we make And the steams is made from sugar cane And that's what we use actually is our whipped butter for our uh our cornbread Oh my God That is delicious OK Let's start small compressed watermelon This is a little test tube of the dressing So you just like take it and you squeeze it on Oh my home run Thank you Look at the sandwich I mean just for scale Like it's bigger than my head Like that's a big sandwich Huh Oh it's got the coleslaw on it like they do in the south And you got sweet pickles and you got oh my God You look the best chicken I've ever had in my wife and then the brioche bun that I made I was not prepared

for this level of flavor and goodness I was not prepared that little handy wi is not gonna do anything So my grandmother was my leading inspiration on everything You know Louisiana has this hospitality element about it that we try to keep within the concept Uh One of our taglines is La Yap which means a little bit extra and we try to give people that when they get the food the service the experience right We try to give them a little bit extra So when they leave they felt like they not only had a positive meal but a positive experience You know what this is like taking me back to my childhood in Texas and I swear I now know why this was voted the number one fried chicken in California They were not wrong Matter of fact if we give out awards I'm rewardingly win award Did you know Los Angeles has more cars than people That's why we give you all these tips to make sure that the traffic is worth it before you head out Remember how if you see me or our Olivia she is always out and about in L A scripted takes me on so many cool adventures But this one is extra special because A I have my fiance Dominic with me and B we are going on a one tank trip with the Chevy Silverado RST Chevy Silverado is the perfect truck to take you on your next adventure Stronger than ever Silverado available 5.8 liter V eight offers plenty of trailering capability and eight available cameras to help hook things up The truck bed features 12 standard tie downs to keep your cargo secure All right Do we have one tank Where should we go wherever you want All right we've been so many places in Southern California but you know the place we haven't been Temecula there's all the things we love There's horseback riding there's hot air balloon rides there's just everything we could want Wine tasting perhaps Should we do that with Chevy It's all about finding new roads and I'm about to find our new road in Temecula Let's go I am so excited to go to Temecula because of the horse country For those who don't know Dominic and I are avid horseback riders We each have a horse and Temecula has so much horseback riding and fun things to do There are amazing bed and breakfasts and vineyards to check out like the vine house or Domaine Chardonnay And obviously one of the coolest is old town Temecula which is a western inspired town with unique shops and gifts and restaurants and everything you could want from a western town Silverado s interior perfectly blends luxury and technology with touch screen functionality and standard Chevy safety assist provides peace of mind on the road One of the coolest things about the Chevy Silverado RST is for me the space it is so spacious in here and as a passenger princess you know that I need all the space in the world and also the screen is so huge It's a 13.4 inch

digital touchscreen display so cool All right we are back in L A and that was such a fun trip Temecula is definitely on my new favorites list especially with the Chevy Silverado RSD See it at your local Southern California Chevy dealers Another local tidbit Did you know most of our palm trees are transplants There are variety of species but the most prominent are Mexican fan palms that were imported here back in the 19 thirties That's cool And you know we are here to keep you in the No so don't go anywhere more local facts finds and fun when it is back in an L A minute Welcome back to L A unscripted I'm G Devin and L A is all about connections right now Our sponsor wants to connect with you Have you been feeling like your skin is a little bit under the weather lately What have we got your forecast of Fabulous with our sponsor for Po Mo is the world's first climate smart skincare We formulate by the different weather and climate local climates you are in because what you need in Palm Springs or in Rancho Cucamonga in the inland is very different than when you live on the coast in Santa Monica or Beverly Hills And that is climate smart So this is the world's first integrated skincare system where you can rotate your day creams and your serums and hydrating balancer And that's why we have 10 patents and that's why One time magazine invention of the Year it took 10 years to create this new kind of skin here that is not by skin type ethnicity age or skin type but it is by different climates And so that had to be done from scratch and it was done by one of the best laboratory in the world in France And with promo you get it always right There is no guessing involved We have our digital beauty finder here on top of every bottle on the cap you just scan it and in your phone it matches your precise location the weather forecast in that location and what day cream to use it's so cool right at the top it says LAKTL a special ok My skin needs it's a temperate day by the way 71 °F 59% humidity and my elevation is 13 49 Ok And then it tells me this is the day cream You use dress your skin like you dress yourself You start out with our quenching hydrating balance That is step one Ok It says one So the biology of the skin the surface of the skin it changes with the humidity the temperature and the light So all of these factors come into play and pmoi adapts most skincare lines They don't do this It goes so quickly into your skin Step Number two is the serum OK And it makes your smart skin even smarter climate smart So another way that promo succeeds it also has this continual anti aging effect on your complexion throughout the year Look at this on this hand I use climate smart skin care and on this hand a regular moisturizer to show on my own skin What can be a is unbelievable Yeah No

that's the true power of pore more You see real results We really deliver results This is the power of pore more You can honestly see the difference already in my skin Like see how like moisturized That looks approximately how much would this cost This costs 100 and \$65 But for KTL A viewers it's just 79 0 that's so great Oh my gosh to find pore more Just Google climate smart skincare or go to pore more skincare dot com Find our KTL a special offer instead of 100 and \$65 It's just \$79 for the entire system and it comes with 100% money back guarantee So if you not instantly love it send it back and of course free shipping you can also call us at 9092431456 We love to hear from you So make sure to follow us at at KT Scripted and let us know where to go and what to try next coming up more locally approved destinations When L A unscripted returns it's the city where anything happens And with over 105 exhibition halls and 225 theaters it's a good thing we're here to keep you in the know there's lots more to do at Hollywood Park than just football like loading up on food and seeing a good film at Syne Polis Let's go I'm Anna Li I'm the head of marketing for Syne Polis USA We're a privately owned company based in Mexico and we have uh theaters all over the world We've always wanted to have a theater in the Los Angeles area and Hollywood Park was the perfect fit for us This is the first movie theater in Inglewood in nearly 30 years It's really exciting to have Sinopoli be the first tenant to open up here at the retail district here at Hollywood Park We're just extremely excited to have them This is a luxury movie going experience that's still accessible to the community which I think is really important So you're getting high quality here for affordability So this is our IMAX theater It's one of the only dine in push button waiter service IMAX locations in the country Wow Wow We have nice big stadium seating You can see the screen is a great size One thing that's also unique about this location is even the front row is still a good seat We've trained our staff to really come in like ninjas so that they don't disturb the experience Snacks please We still have all of our concessions favorites like popcorn candy ice bottomless soda as well You can still get all the the wonderful movie treats that people love to enjoy at the movie theater I've got to get the fried pickles and that bang bang shrimp sounds good One of the things we're most proud of is our food So everything that you can get at a restaurant you can actually get here A lot of other chains bring in things like you know premade chicken None of that is happening here We batch over nearly 100 items every single day If you go go in the kitchen right now there's countless chefs working at all times So our supremist loaded tots are uh one of our most popular items

They have a green goddess dressing We make our own pizza dough in house So we've got a couple of amazing pizzas Our chicken sandwich is wonderful We hand batter that ourselves One of my favorites is our Asian bowl We actually have a bunch of bowls You can mix and match proteins We have a full bar program a wonderful mixology team in Dallas creates all of our drink We do movie cocktails for all of our big films Mm We have deals every single day to make it approachable for the community We have happy hour all day on Tuesday Fantastic to be able to have them here as a partner to uh to really showcase you know the best movie going experience that there is is it's a great place to congregate which is what you know the city of Inglewood really needs is more safe places to be able to congregate but just connect with one another and then go watch a movie afterwards The movie's starting we gotta go a diverse culture and people make our city so interesting It's incredible to think Angelinos represent more than 140 countries and speak at least 224 different languages I didn't even know there were that many languages Now our sponsors want to share something new with you It's a place where everyone is welcome We have various nights of different themes It's constantly every day a party here I'm David Cooley the owner of the Abbey here in West Hollywood The Abbey has just grown out of just being the gay bar because everyone's welcome It's such a huge melting pot and it goes from people from 21 to 90 We're really most popular on Sunday Sundays You do the drag show and then you come over here and it's a packed packed house The drag queen brunch One of the best brunches in the city Yeah we do it on Saturday and Sunday And then we do a drag show on Monday nights I started off on a dream where I thought I'd like to have a coffee house and I was looking and I wanted to be in West Hollywood because I knew it was a safe haven We started it really 100 square feet one espresso machine and three cakes on the counter And now we're about 18,000 square feet with about 400 employees It's always the two dance floors two different DJ S We have different theme nights We have uh a a ladies night we have a transgender night We have a Latino night Pride is our business weekend We celebrate pride every day So you know we expect it We already went over the DJ list the dancers list So we're gonna have a float in the West Hollywood parade We're really known for our great homemade onion rings Chicken parmesan is really really nice We're also known for our nachos which is great to share with your friends either steak or chicken or just plain That's one of our fun foods Everybody never in my life did I expect 31 years ago to open up a coffee shop and have it become a landmark of our

city the Abbey to our LGBT Q community I think is a safe haven Also a place that you could come as you are Have a good time and we make sure you have a good time La la land the City of Angels 10 town So ever changing yet somehow stays the same But now what's old is new again the greatest show since 1969 Circus Vargas is back in Southern California Circus Vargas is this legendary wonderful performing arts institution that has been gracing the great state of California since 1969 So it is a real legendary stable of circus arts performing arts thrills chills You name it It's been around for quite some time and the great people of California always come out to support it and enjoy it It's a family owned family run even family presented entity It's about taking what you do taking the magic that you have and making it wonderful and peddling it as joy That's simply what we do Circus Vargas presents bonjour party We're just we're transporting our audience to the famed city of Paris the City of Lights City of Romance and you name it but we're turning it into the city of Circus They're going to see the Fabulous Leicester sisters They're going to see Stevie Jones the comical dynamic duo of Stevie and Jones They're going to see our wonderful Wheel of Destiny from the Marinelli Brothers They're going to see the Globe of Steel Everybody loves the globe of Steel They're going to see the famous Tini family They are a family of dynamic jugglers and acrobats Stevie This I'm so excited for this Your whole outfit is just the greatest thing Thank you Wow Whole spin spin Stevie Tell me a little bit about what you do for circus Vargas Yes I do everything I do a little bit of comedy a little bit I play instrument you know trumpet and only trumpet And then also it's my brother here to him He does everything as possible He does also soa phone trumpet drums It's crazy You go left and then you make him spin OK And when you are really comfortable with it you what did you say O ladies and gentlemen Olivia it's fantastic Five Olivia the circus audience is the most diverse audience in all of entertainment You will see everybody here because everybody loves awe and wonder and miracles And that's what circus gives especially circus Vargas Los Angeles was founded in 17 81 I wonder what the next 241 years will hold will go out and enjoy it now and let us know what you love about Living here because you never know where we end up next Good night everyone
