population that we serve is Hispanic Just a huge blessing to be able to help those families with Goya during this um this very special month uh of the year Goya cares um aligns a lot with what we do for helping championing uh for Children and families in the community And so we do that um by focusing on helping those who are less fortunate and in need Um we really align when it comes to the prevention of uh human sex trafficking Goya cares has done an incredible job um blessing our families with food into our family's homes So we've been really blessed to help with the offsetting the food insecurity in many of the families we served home We affect about 500 families per day throughout the entire month Um We work with them very closely when it comes to fostering adoption wraparound in mental health services and then preventative care as well too So today we're going to be making a three bean salad So we gotta prepare first the three beans We had the red kidney beans also the black beans and the chickpeas My wife is from Honduras And so it's really special um because she um celebrates Hispanic Heritage Month uh every year And so um she's the better chef out of the two of I'm actually a quality assurance coordinator and I work with the mental health department We provide mental health services to a at risk Children also to the community And we have an amazing team here that goes beyond what is expected to them to provide services for these kids We're also going to have some cucumbers and some bell peppers We're gonna cut them out You can add avocado if you like I prefer avocado and yes so we can also add that and some red onions Soya has 2500 products that are in stores So what else are we gonna be using We're gonna be using the award winning olive oil Also some of the lamb juice we're going to be using some of the salad veggies seasoning and we also some vinegar Alright now it's time for the best part tasting Yes let's do it Mhm Are you gonna taste that Jalapeno It tastes so good Ok I feel like we have to share with Nick and now the moment of truth that's so good to is always very nutritious and that's one of the things we love partnering with them is because they help so much with making sure that everything is um for our families is healthy and nutritious Not just something that would be um not healthy for our families but something that's going to benefit them long term This is dinner later too Yes Take this home with me Ok well actually I was going to take the whole thing with me guys Thank you so much Go bye What's cooking Go look Oh my God Have you guys ever seen a gord that looks like this They have every shape and size and we still have more to fill you up with a scripted rolls on back But right now I am going to take my throne as the pub queen Get it Welcome back to script

everyone I'm Devin and we're here at the Live Oak Canyon pumpkin farm I have to say I have been to so many different pumpkin patches in my lifetime This one is incredible It's the best one I've ever been to by far They have food right I mean p everything And now another one of my favorite things to do shop of course And since October is LGBT Q plus History Month carve out some time to show your support I'm not horses around It's time to go shop Whimsy is an artisan gift and card store and we focus mostly on local artists as much as possible and we kind of branch out there Have fun We look for the unique things that you're not going to find everywhere things that you're going to come in and go Oh my gosh I did not know I needed or wanted that I retired Um I was a a stylist and I worked with jewelry and getting people down red carpets and things like that And uh my husband the summer of 2019 we were driving across the country and he goes you don't sit still well So what are you gonna do And I was like I really don't know He goes look all you've done your whole career is shop You love shopping which is true And he goes what if we open a store We fill it with everything that we love and you just go have fun All right Scott This story is so cute We have to do a little walk through But first I see a lovely lady over here You have to me who is this My daughter and she is 16 and helps in the store when she's not acting We've got a local artist and she actually I love these She does photography She takes the picture and then she makes the car herself a champion and she is phenomenal And that's the vista theater This was picture was taken right at the beginning of the pandemic And but it's that card that you go to be continued like all of life is that right This is the joker like Hollywood and Highland Hollywood Boulevard One of the things that people love is the gift wrapping we wrap everything by hand every bow is made by hand So this is what we are going to do today That is gorgeous and looks extremely difficult Yeah Well it took me a couple of years to learn how to do but we're going to do it right now Ours are not great but that's ok The local artist for us it's giving back to that community um Studio City We're a city full of artists um of some nature and whether you are an actor or whether you're the guy that makes donuts or the candle maker we're all together supporting local people supporting the local community really being able to give back Um That was a big deal for us now More to keep you in the know All right let's go surprise Jasmine with some new devices from Verizon Come in surprise I have some new Verizon stuff for you Check it out Casey Christmas just came early Yes you so this is the Galaxy Z flip five and you're going to love this This always reminds me a little bit of you know the first

flip phone days And what's really cool is it's a five G phone So it is going to connect to Verizon's five G ultra wide network And what's even better news is right now we are actually seeing doubled capacity across the U si Feel like I've seen this everywhere and I love how compact it is but now you can just be like 00 I can't hear you Bye Samsung Galaxy Watch six This is really cool So this here is a smart watch And what this is going to do is this is going to track everything from your fitness your step your heart rate you name it it's going to track it But what's really great about this This connects to Verizon's network meaning if you want to leave your phone behind and you're on a walk or a run or you just want to run some errands You can still get all your phone calls text messages right on your wrist And can I just say it's really pretty and sleek like it doesn't necessarily even look like you have a device on Exactly And nobody's going to know it's a smart watch This is the Fitbit Inspire three Ok And this is gonna track your steps your heart rate you can even wear it when you sleep These are the urbanist Los Angeles solar powered headphones Oh my gosh So first of all just look how pretty they are like I love this like rose metallic color so so cool And as long as they're exposed to light they will charge and you're going to get 80 hours of battery reserve Wait hold on I didn't hear that Say that again I said as long as you were exposed to light they're going to charge So you don't have to worry about plugging them in you just you throw them on and you go So I know how Verizon is keeping me connected but how are they keeping me protected Verizon mobile protect is a really great way to protect your devices from a bunch of different things So not only is it going to protect you against loss theft any type of damage Really It's also going to protect you against like post warranty malfunctions that your device might have So for a low monthly cost of 17 bucks a Verizon mobile protect can get you an unlimited number of device replacements unlimited crack screen repair at no extra cost to you Normally when you purchase a new device you only have 30 days to add Verizon Mobile protect to your account But now through October 19th Verizon customers can actually sign up for Verizon Mobile Protect The only thing that we ask is that the phone does have to be in good working condition So no crack screens you know no defects on that side If you're signing up for just one phone it's that low price of \$17 a month But if you're like me and you have your entire family on your account we have Verizon Mobile Protect multi device It's going to work for any three registered phones So in the case that an accident happens the whole family is covered Ok Casey I think I want to take this and this I think I'm just going to take them all that Ok Yeah that's

totally fine All right Well that's all my little Jack O lanterns Remember Stay ahead of the car and come back tomorrow Where will be next You never know But I better go before my carriage turns into a pumpkin Oh too late Come back tomorrow We love you L A unscripted Thank you Pumpkin farm
