

LA Unscripted | August 31st, 2023

It's a city where anything can happen So what could go wrong or Right As I hit up L A unscripted there is no place better to live work and enjoy life in Southern California Hi everyone I'm Devin And this is your guide to all things good Today we went off script here at the iconic fine arts theater in Beverly Hills and we are ready to roll Now revealing a local must We're gonna get some sprinkles in there and we're gonna get a little bit more ice cream There's nothing like a classic where flo this is so good You guys Oh it's so yummy just about a mile from KTL A right here in the heart of Hollywood We got word that there's a special cafe here with some very serious L A unscripted fans So we're going to check it out Come on in float of course because Zubi floats we have a wide selection of heat beef flo We do sandwiches and we do salads We also do breakfast like um pancake and omelets and then um we do shari boards lo cafe is your getaway in the city whether it's like breakfast lunch like a sweet treat Or even you wanna come and hang out and do some work upstairs It's your like small Haven in Hollywood It was our dream to have a coffee shop with myself and my husband And it all started in Pasadena We always talked about it especially having a second location just right before COVID we wanted to open It never happened and everything got postponed until today But two years later we just opened our shop Do you watch L A unscripted I watched L A unscripted I would always watch it together with my husband I know this I would watch your show with my husband and ask him how do we even get on shows like this And I guess our time has come and we are grateful I can't wait to tell you more about slot I have never seen so much food in my entire life and this is a cafe and this is like amazing food These are cinnamon thingy So this is basically cake with quinoa with Halloumi I'm a super freak about avocado toast and it's so beautiful And then look at the salmon that you put on here This is fantastic Mm So I actually looked at my car I am one mile KT A is one mile from here So this is basically my new headquarters because this place really floats my boat get it floats my boat I mean I love the food here It's perfect Ok So I am having like the moment of my life I get to make our very own unscripted float that's going to go on the menu And Joyce is so amazing She knew I was coming So she went out and got my favorite things which are lucky charms and all these things to go on it Then we are gonna do Cookie Monster Ice cream The thing I love about Cookie Monster ice cream is it's the prettiest color of blue ever known to Man You

have a choice I'll tell you different soda Oh these are all cream soda Oh my God Is that the most beautiful thing you've ever seen Now we're gonna do a little bit of this Then we are not finished We are gonna stick this in here We are Yes Yes Yes Yes Yes Yes That should be in the Louver That's how beautiful this is Look at the beautifulness of this L A unscripted float Have you ever seen anything more beautiful Ellian Scripted float \$5.55 or 56 cents If you round up channel five What robot Oh And now more to keep you in the note you it's time to have a ball inside Wilson's first California brick and mortar Wilson sporting goods has been around for 100 and nine years It actually started in the Stockyards of Chicago and so Wilson company owned the stock yards and we were looking to do something with the excess of the cows And so we actually made balls from the bladder We like to say that we're the ball of everything at Wilson So every single point every single touchdown that has ever been played in NFL history has been played with a Wilson football We also are the official ball of the NBA after a 37 year hiatus We are back for so long We've been this legacy company of wholesale and sporting goods and we realize what are we missing Our very first store opened in our hometown of Chicago in July of 2021 And since then we've expanded with different retail stores and even pop up retail concepts This store in Santa Monica on third street Promenade is our very first West Coast store This is a hotbed for our key sports of tennis pickleball baseball and volleyball So being a couple blocks from the beach is just a no brainer The room we're in right now is our clubhouse that we have golf equipment here and some of the clothing you would wear to play with it Um We have our tennis rackets tennis balls bags and even footwear I've got no game but I look good That's the whole point of this Let's go When you go into the next room we actually have a park where you can play with a basketball who hitting wall for 10 test out the tennis rackets or the pickle ball paddles we think of it as a gift to the community but also a way to experience our product in real life The clothing that we make for Wilson sporting goods is really designed for men and women who love to be athletic Our number one selling item is the midtown tennis skirt for women This is a no muffin top skirts has been built in shorts underneath with a little pocket for your cell phone People love the polos There's every about them being classic We make classic crew necks and sweatshirts and jackets that just have this modern vintage vibe that feels very much like you're hanging around the tennis court Every piece has an intention behind it and it really is to Harken back to where we've been but also make it feel modern Ok L A unscripted is just getting started coming up

more local hotspots and hidden gems Plus dare me to do it I think you know I'll say yes L A unscripted from the fine arts theater in Beverly Hills will be right back Welcome back Everyone to L A unscripted the show where the city is the star I'm doing Devin And today's ticket takes you inside the iconic fine arts theater Beverly Hills You know it's really important to us to take you all over Southern California to discover mom and pops Plus places you may never have known about before Like this the store draws so many different walks of life to it Um Because we try and offer something for everyone here My name is Theodora Coleman I'm the owner of Gold Bug and I'm revealing a contemporary cabinet of curiosities We have a lot of people coming in looking for unique conversation starters for their home small pieces that you might display on your table or hang on your wall Some of the pieces that you'll find here truly belong in museums I have a human sized carved skull that's made out of fossilized dinosaur bone This is a tapestry that's made by a company in France that's been around since the 14th century Gold bug is a family business and we've been here in Pasadena for 15 years My mother my father and I started this store to create a space where artists could show work that is unique and unusual When you visit the shop you're gonna find one of a kind art pieces made by independent artists We really value uh the natural world So when you visit the shop you're gonna find maybe relics from nature pieces that have been taken straight out of the forest or pieces of art that are inspired by the forms that you'll find there These are insects that are farmed by entomologists around the world The store being called gold bug we attract a lot of people who are looking for just that they're looking for bugs We do something very unique in that we sell preserved insects One of the things that I love about this shop is it gives me the opportunity to share my love of anthropology and Entomology with people I have stones that are 250 million years old And I love being able to share the wonders of this planet with people that was so cool And so was this to be living lively means to be living a life full of passion purpose and confidence I'm Michelle Cordero Grant founder and CEO of Lively I'm the daughter of two Indian immigrant parents I grew up in rural Pennsylvania and I lived the 1st 25 years of my life just trying to fit in and live towards perceived expectation And the 10 year of my career was actually at Victoria's Secret one of the most powerful brands in the world having serious human impact on both your physical and mental state of being I wanted it to look like the models I wanted to fit the slogans And around the age of 28 29 I started to realize I have this superpower which is human uniqueness and we

all do All humans are snowflakes but we don't celebrate that And so what lively really aspires to do is celebrate human uniqueness and create products and communities that really embrace just that we said it's not about tape measures and all of these crazy calculations it's what feels best And so our product is really what you know I made up a word called leisure It was products that were contouring to your body shape And so what we created was a product that takes a leisure swimwear and functionality of lingerie to create leisure And we're not done being your BFF just yet Coming up all things L A plus Wait until you see this All right Going off script is far more fun than sticking to it Right So come back I'll be right here at the Fine Arts Theater in Beverly Hills waiting for you Summer is done and it's time to start getting fall ready That's why I'm here at my style smart secret new med spot and see now Doctor Abraham I'm so happy to see you again It's been a whole summer since I've seen you and I've got to be honest I think I've done some damage this summer So I came to you my one stop shop at New Med Spa What can you do to help me So there are a few different options Lasers are you know a good thing to look at right now Uh Especially with the sun damage that you've mentioned accumulating over the skin Uh whether it's IPL to help with uh sun spots or a spot whether it's uh resurfacing to help with uh skin rejuvenation RF micro needling uh any of these treatments can be you know a great thing to look at right now And the nice thing about it is many of these treatments can also be combined with things like PRP or injections to kind of really give you that you know full beautiful effect What is PRP and why is it such a buzzword right now PRP is the platelet rich plasma and it's a great treatment I love PRP We've been doing it for a long time It started to gain more attention I think one of the reasons people love PRP is because it's really a effective and it has very minimal downtime and side effects So it can be used for skin rejuvenation like in the areas like the under eyes Uh the neck is a common place where we use PRP Uh it can be used to help with hair uh uh with hair rejuvenation So people who are having thinning hair So during fall we see an uptick in our laser procedures and that's because all the damage that we did during the summer we want to start to erase it during fall So let's talk about downtime because that is a big thing for people And honestly as you know we've had this conversation off camera down time is what's prevented me from doing some of these treatments because you kind of have to hide for Yeah absolutely So sculpture is one of my favorite procedures Um I think it's great to rejuvenate the skin and bring natural volume However there is some downtime with some swelling and

bruising So it's something that you would wanna make sure that you plan for neck and décolleté especially now you have a specialty and it's and it's so amazing to me you can do this You've been specially trained to be able to look at someone's face and see what is not proportion right Yeah So I specialize in full facial balancing or facial optimization where I can essentially look at someone's features and like how the shadows and the light fall on the face and the proportions of the face use ratios to correct it You see the things I do for L A unscripted I'll do anything on camera I've heard my smile is crooked Go ahead and smile Yep So we have a little bit of this portion elongating so we can drop you by putting a little Botox So what's my diagnosis Ananda after this facial balancing con consult So I would say that you would benefit from dropping a little bit in this little area to drop down your lip and dropping down here a little bit We can use um Botox or we can use filler and this is where I would use Sculptra and sculpture also down here in the pre-ear space right in front of the ear OK It sounds like we have our work cut out for us to balance my face for fall Well there you have it new me and you know is your one stop shop with everything you need to get ready Now all you have to do is book your first appointment with my coach style smart for 25% off See you There is going off script mean to you Well to us it means trying new things traveling off the beaten path reaching out to others and pushing ourselves outside of our comfort zones way outside like this So I wanted to create a place where we could play be creative and have a connection with ourselves with our family and with these amazing artists who we can learn from and just feel something My name is Chris Dan Welcome to flutter experience I would describe flutter as it's a mental health retreat disguised as a playground It's intentionally set up that each of the spaces is making us feel something and connecting in a certain different way It's like nothing I've ever really experienced So when you come to flutter it's a 90 minute guided experience and you go into a series of rooms So the very first room we have our flutter light tunnel and you see the colors changing from pink to blue Those colors changing represent changing of our mood changing of our energy and we'll stand in front of these lights and we're gonna scream and get rid of all the bad stuff Just let go of it 321 my background I was a mathematician and I worked in finance for 12 years and from my next job I just wanted to do something that I could be proud of and that would make people feel good And I know that art is good for us It makes us feel so many different things But I think a lot of us we're not taught how to consume art This room is called Stay a while The simple act of

coloring is just really good for our brain Lots of research has shown that coloring is just really good for us makes us feel calm makes us feel safe and pushes out all the chatter in our brain We were sort of expecting our demographic to be women and people 18 to 35 maybe And I was pleasantly shocked that we have everyone from 2 to 92 years young and kids definitely love it but adults feel it We're going to aura by Caleb Craig This room is an artificial intelligence It's gonna take 53 different readings and project onto you what it sees as your creative spirit as your aura I think my aura was kind of blue but it really switched to yellow Someone with a yellow aura is creative and tends to look for new ideas and new ways of doing things So you usually create a sense of playfulness brightening other people's spirits which I think fits L A unscripted We're a permanent experience We're gonna change one or two of our rooms every three or four months So it will be a different experience each time And we know that the experience is the thing that's inside you and not these rooms that we create So we're gonna be here full time and we're excited to be part of the community in L A Can you guys tell I love my job Well I know you are going to love this So fancy Can I move in Ok I'm gonna stay Hi I'm Akra Mohammed the regional corporate manager for Green Line supplies Uh Green Line is a custom cabinet maker and countertop manufacturer for residential and commercial properties Green line's been around for about 10 years but it's associated with the company Regency We've been around for about 45 years A lot of our work is custom made and made to order for any kind of finishes We do bathroom finishes We do built in closets kitchens baths anything that you need cabinets for we can do I'm excited to be here This is a beautiful showroom Our showroom is about 5000 square feet We have vignettes and kitchen displays This is a grand island You can see the vein matching between the countertops This is actually three slabs worth of countertops I love that I love these cabinets So this was an intricate design This is a high gloss finish flat panel We have integrated hardware It's a great look So would you say kitchens are the specialty We do it all we do kitchens baths closets bedrooms anything that you need we can do I'm Evelyn Cohen and I am the senior designer for Green Line This is a pretty new showroom that we have and I love it because it's so easy You can come in and just say I really need help with the countertop and you and I could actually pull everything So I selected this um wall covering because it's a more organic look And then we um I selected a floor that's more you know simple but has a little bit of movement I like tone on I like pattern on pattern right And then you can pick

up some of this color with this Yeah you see I've been watching my HGTV This is a big thing with bathrooms and kitchens People wanna touch it feel it look at it so they can see on Pinterest or magazines but you can actually see it in real life and put a put an eye to it for your house We take pride in the manufacturing process So we've perfected our skills and to give our customers the greatest cabinets possible We do the white shaker that's in as well or the two tone look so gray islands white perimeters or uppers and lowers and a two tone finish We're in 100 out of the out of the realm right there So we're doing it way better than anybody We are out of time for today Thank you So much to the fine arts theater in Beverly Hills for letting us leave our marquee Where will we pop up next You never know See you next time
