frosty is made over here The balancer is good over here Oh I love you know when it's really cold up in the mountain it's just an amazing product Pomo is really high performing anti aging skin care you can make it exactly to your location what you are exposed to So you get the best extraordinary results possible So we have two different systems for Los Angeles You have the system for the coast and you have the system for the inland because the inland has semi deserty air semi aid and the coast has a temperate oceanic climate And then you get two day creams and then you rotate them every day accordingly to the weather Every product has the GPS cream finder on it And in the moment you scan it it tells you exactly your local weather and what day cream to use it was so important to me to make it accessible for everyone and also make sure my daughter can afford it because you know it's harder for younger people Today Our three step rotating system that lasts for the entire season is 100 and \$65 we are offering instead of 100 and \$65 It's just \$79 The first subscription with no shipping 100% money back guarantee And if you want to go forward and you enroll in our subscription service we're gonna give you a coupon code that you can log in \$99 for the entire year We grow more hair during winter and less in the summer we all adjust to it The tree it changes with the season If we adapt our skincare routine to this but it just changes everything We we poor is for me and you So order of lovers of the luxurious line insists the science is revolutionary and we look forward to sharing more results in skin care secrets from the team OK Mirror mirror on the wall Who's the the of the ball More ways to rave about your reflection from the spot Beverly W returns before you can book your treatment I'm going to have mine It's Glow Up season at the spa at the Beverly Wilshire Four seasons Cheers cucumber water So for local clients who would like to experience the Beverly Wilshire spa we actually offer a spa spa occasion If you book a 60 minute or longer treatment you have the ability to enjoy our facilities including the eucalyptus steam room We have a beautiful tranquility lounge with yummy treats We also have a beautiful Mediterranean style pool two level fitness center and complimentary valet parking Now over the hill into the valley where I tried a Tik Tok facial favorite But can you handle it The Hawk here at unscripted We love viewer suggestions and that's why we're here in Sherman Oaks and I want you guys to meet a viewer This is Amanda Hi Amanda Why do you like Ellie Unscripted I think you guys are hilarious She likes it She likes it Tell us why you brought us to Kosher Spot today This is one of my best kept secrets in the valley For facials and I think you're gonna love it Kosher means energetic

layers that surround your soul And that to me means that we work on a much deeper level than just physical but also on energy and mental health et cetera So we specialize in different types of massage The most unique is the buckle one where we go from inside of the mouth Also to guaca that's great for lymphatic drainage removing toxins has always kind of been something really important to you because it's our lymphatic system and we know that a stagnant lymph is what expedites aging So keeping it flowing is not only great for your health but your beauty as well I've worked in the beauty industry for over 20 years and because of my own chronic illness journey I became a health coach and now I like to implement health with beauty for all of my clients the holistic beauty coach And we talk about holistic health as well as holistic beauty and really infusing the two I created Limp Lounge because I wanted to the public on how to take care of your lymph yourself So with educational videos products and daily tips people can learn how they can take their health into their own hands So clearly Amanda knows exactly what she's talking about in terms of lymphatic drainage So that's why we're here at Kosher and I'm so excited to get started So this part of the face is called buckle fat And that's why the name Buckle Facial comes from This is amazing Actually honestly with this approach we're able to work on much more things than just the buckle fat but also the TMJ the different angles and double chin What are the results that people see when they start doing like lymphatic drainage massage either with a facial or at home One of the first thing they would notice is deep because we move the lymph very effectively and the stuck fluid that's in there they just move down the neck Also clear skin because acne or of disease sometimes caused by lymph stagnation Also it's like a Botox alternative So if you have muscles that are very tense for example here they become more relaxed and even the gua tool different massage tools it promotes again the better circulation So what did you think of your it was 10 out of 10 It was so amazing I mean you know her hands are in my mouth or whatever but she found like knots in my jaw and I know it's probably in my head but I feel like whatever lymph nodes I had I feel like they've been draped Thank you so much for sharing this with me We approve self care So make sure to take the time to take care of you Thank you so much to the spot The Beverly will for letting us go off script here Where will we be next You never know But I've had two treatments I'm about to get my third and I'm so relaxed I can hardly walk We'll see you next time
