From hotspots to hidden gems This is your guide to all things local The L A unscripted way and life in plastic Sure is fantastic Here at World of Barbie Talk about blonde ambition from her dream house camper and main man can that friends and inspiring careers Ever since Barbara Millicent Roberts was born on March 9th 1959 It's been a Barbie World Hello everyone I did And for the next half an hour he was celebrating the cultural icon and Pin phenomenon Can you handle it Welcome to the Barbie Dream House It's 22,000 square feet of real life Barbie World There's never been anything built like this in the world I'm living my adult Barbie dreams There's so many things for you to get your hands to There's the real life Barbie Dream House as soon as you walk in I mean you can get into her refrigerator you can get into the closet I will take those pink skates I will definitely take this on the couch and see the Malibu You know beach front view there's a Barbie movie theater you have her pool you can actually jump on the slide into a pool of balls Ok I had this when I was little kidding We're going camping So we were so lucky to have Ryan from West Coast customs A local company Yes Yes Custom make the Barbie Camper van You can look in the refrigerator and there's Barbie food in there There's a Barbie Hammock The lights actually work in the front There's a Barbie license plate in the back We debuted the you know World of in Toronto But when we were coming to the States to be honest there was nowhere else that we could open in the States Barbie was in Malibu So you know just bringing the palm trees the sun energy all the bright colors It was the perfect place to welcome her and launch where the bar here in the State there's a Barbie TV studio for you You can do breaking news you can do Barbie weather There is a scientist room the Barbie laboratory there's a recording studio there's drums there's a guitar probably like the astronaut One of my favorite rooms is the Interstellar Airways which is the Barbie the Air Ways right this way So I was like at the store I saw the Barb and I really wanted it So Bar he was the first inspirational doll that you know had the message you can be whatever you want just em who you are loving yourself and also making memories together again and seeing how Barbie transcended and evolved over the decades that we too as humans can also transcend and evolve You know there's so many things that I think Barbie hits on the nostalgia I mean all the generations you know from my grandmother to my mother to me and now my four year old daughter I just like it a lot I had a whole bunch of Barbie

like houses when I was little but you never play with them I always play with them I thought it was amazing I thought it was really cool and it was awesome that I got to be World Bar for everyone all ages all generations all genders no matter if you're into fashion architecture design engineering Barbie or just want to see something really positive and fun Get out here Don't miss it since the dolls debut over 1 billion Barbies have been sold And now actress Margo Robbie is stepping into the highly respected high heels Are they were to find out why Hollywood can't stop babbling about Barbie Hey Barbie can I come to your house tonight Sure I don't have anything big planned Just a giant blowout party with all the Barbies and plant choreography and a bespoke song You should stop by So cool We offer you the Barbies as well as well and also my job to welcome you to Oh they're good I can see Barbie Barbie Barbie Barbie Hi Barbie You know she was invented 64 years ago and we haven't had a live action Barbie film yet Seems like a huge opportunity just when you look I don't want to sound like a cutthroat producer right now But the global recognition that the brand has is insane Like if you look at a map of the world it's it's like the whole she reaches every country every reach of the earth It's it's like that and and Coca Cola it is the best day ever So is yesterday and so is tomorrow and every day from now until forever So I was like this is a huge opportunity but more than that Barbie over the years has empowered women but also made women feel really bad about themselves Like it's just she's like a complicated icon and there's so many interesting conversations that we could have if we're brave enough to kind of dig into both sides of that and obviously do that in a very fun entertaining way This movie's very fun and silly but it's also very clever It's the Real World What's going on Why are these men looking at me Yeah they're also staring at me Los Angeles was just as big a character as the other characters was this kind of a love letter to L A Barbie Lynn felt extremely like a love letter to Yeah the soundstage musicals of the of the forties and fifties of like the Gene Kelly like the L A of like singing in the Rain or stuff like that Like it felt like that was the sort of thing I wanted to capture Ok ladies let's do this If you guys had to make a new Barbie that would hit the shelves tomorrow What Barbie would you make I would make a um busy mom Barbie love my sister in law Courtney I wish Courtney Barbie would exist like chameleon Barbie chameleon Barbie We put her against anything she turns that color or turns that shape Oh my gosh I really like collaboration with play Dough Ideas Flew Forever I'm practicing to be 10 Barbie in the sequel And you know the world is going bananas over Barbie Get this a

Barbie dream house is sold every two minutes I guess that means the ma tell ma can have her cake and eat it too And speaking of sweets if you're more of a candy queen do I have a dare to share gummy bacon sweet and sour pickle lollipops Look at these marshmallows Are you kidding Right now These are like as big as my head Well maybe not as big as my head because I have a big head But the way candy find works is when you walk in the store you have the option to choose your own adventure right So you can come in you can just shop the candy the incredible novelty candy and everything that you see in the store Do you remember these razz This is my life This is my eighties right here or they can create they can create anything from their own candy sushi to their own candy portrait to make glitter slime There are photo moments in every corner and there's just so much to see to smell to do its sensory overload and fun Fun fun Just handed me this because she thinks of a dumb Hi I'm the candy queen and I'm amazing Amy and welcome to candy Look this is an entire elephant out of candy There's even like metallic candy here We work with so many celebrities that love candy Everyone from Kim Kardashian to Oprah to Katy Perry And most recently we just did Joe he was birthday party or 20th birthday party and it was a magical array of candy OK This is called aftershocks popping candy It's like pop rocks but more she said So we're going to try this This is the strawberry flavor OK Bobbing I'm Jackie Sorkin and I'm known as the candy queen I started my my TV journey in around 2013 starting with a show called Candy Queen And ultimately now Can Fight is streaming on Hulu And that's our latest show when I started my business in 2008 and just creating out of the garage and making candy magic You know I had this idea to recreate celebrities So I started making candy portraits of people like Snoop Dogg Steve Jobs Of course Willy Wonka did a Cardi B the Housewives and people started reposting these So in our new Can Fight Flagship we have some brand new art that we've unveiled We've got our Harry styles our Taylor Swift portrait a Lizzo a new Wonka Frida Kahlo and some other really phenomenal artists and that we love and we've created their masterpieces with candy By the way 39,000 pieces of candy it took 76 hours and it's 26,000 g of sugar which is by the way my daily intake you know what's so exciting to us about candy is that when people think about candy they typically will think of Willy Wonka or candy land We think this is our big candy moment So I'm about to make a pizza but I just met Julian who's a long beach neighbor here Does that look just like a pizza crust And it's a sugar It smells really good So we're putting on the tomato sauce So after you spread your sauce Julian then we have your white icing and this is
