

LA Unscripted | June 20th, 2023

From hot spots to hidden gems This is your guide to all things local The L A unscripted way from the rooftop of our KTL A Hollywood headquarters So how skyline there is nothing quite like it Welcome to all in scripted I de and for the next 30 minutes we are soaking in all that our city has to offer first on a list What better way to enjoy the land and by sea And you are invited to come on a board unscripted mate People come to us for birthdays they come to us for anniversaries They come to us for baby gender reveals but they always leave like that was amazing That was the best day of my life There's something about being out in the ocean There's something when people are out on the water and they get that experience of being that close to nature and they love it Julia Ford I'm the owner of happiest hours and we look forward to having you all on board Ok So this is like a mansion on water That's a full kitchen back there And what is this We have our lounge area our beautiful bar as Well Oh my God this is so great And then what's down those stairs So we have five bedrooms and six bathrooms Here Happiest hours is a yacht rental business that is based in Newport Beach as well as Marina Del Rey first and foremost owning a yacht is very expensive from slip fees to maintenance to insurance all of those things So there's not a lot of people that say I want to take that on So I feel like what we do is bring the ocean and bring that experience to to everyone Renting a yacht does come in a lot of different price points I would say we are mid to high Oh my gosh Not only are they serving me a mimosa I get to start the boat started Ok ready I feel like for me as the owner the best part is making people really happy I I spend a lot of time working closely with our crew We hire coast guard certified captains Sea lions are right over here Hey how do I get back to L A Opening price point is 5 50 an hour minimum four hours And then we go up and then the excursion is whatever the client wants So here a lot of times we'll go to Emerald Bay we do Catalina We have inflatables that we blow up that people love to play on You know the other great thing about this boat you can control your own music and I know just the song Listen it's her thin job Happiest hours Watch cry Yes Yes we do Um One of our crew members reached out to you guys I really enjoyed the show I found you guys on Instagram and I thought maybe we can get you guys on our yachts check it out and show you guys a great time here and tell me why you like the show You guys show me all kinds of new things around the city that I grew up in that I never even knew about just having uh new hobbies and suggestions and

things to do has been really fun to discover through you guys Kind of makes you feel like Queen B and Jay Z on a budget Now our sponsors want to share something new with you at our library We don't ban books we celebrate them So today we're reading twas the night before pride because the night before pride a warm evening in June all the people got ready with the rise of the moon Hi CYA Hi Jasmin Hello I'm really excited to be in the library and I love seeing how festive it is for pride This is the norm Uh Well we're festive year round We love you know we love celebrating everyone But for June we are especially bringing out the colorfulness to celebrate pride and uplift our communities And we really encourage people to take all these books that are on display and read them My mom told us all We should go to bed early She's that kind of mom who's more boyish than girly I love the smell of a library book first of all So it's really cool to be in here and we're in the children's division It is one of my favorite apartments in the entire building It's so beautiful Uh the historical murals I love that Our little rainbow hearts just bring out all the color everywhere Um Really brightens everything up makes me happier Every time I'm here there are floats and loud music and rainbows and glitter Last year we ran into our babysitter I'm actually one of the co chairs for the LGBT Qi A services committee Our task is sort of like to bring books and collections to the public but also do training for staff on gender diversity and inclusion I identify as gay as well So I'm part of the community and I want to make sure that others feel as welcome A long time ago in 1969 there wasn't a pride march It was a less fair time queer people all over of each shape and size didn't have any rights recognized One of the tasks of the committee is to basically come up with book lists We have uh books for specifically you know if you identify as lesbian maybe for books about transgender characters uh maybe books written by authors that are of the uh LGBT Qi a community Stonewall was a place where it was safe to be proud but police would storm in to say this wasn't allowed So one hot night in June people stopped being quiet Sorry One of our core missions at the library is that we serve everybody They've had several drag queen story times We have different book authors coming in and reading for the community talking about their books at film screenings So we we really try to to pull in from all all corners of the community and provide that full programming that everybody can can see themselves in and enjoy and feel welcome in our spaces And so it began a march that spread world to show everyone It's good to have pride But all year long pride is a part of the theme here at the library not only just here in downtown LAL A but all of the

library So we strive to have programming and have these resources available year round As I close my eyes I thought of pride's past Pride means to me being yourself is a blast So tomorrow I will march with my family and cheer happy pride to all It's great My family is here Did you know a recent study found the average Angelino spends 119 hours a year in traffic I mean but still the west coast is the best coast especially during pride And if you're looking for a we have hot spot to celebrate all the rainbow and your heart to heart Heart Weho is the heart of Weho Literally uh that's why we picked the name It's you know at the center of the city at this iconic crosswalk with the rainbow crosswalks And this building itself was one of the first LGBT Q plus clubs and was key in actually defining and fighting for West Hollywood to become its own city to create a more safe space for queer people That's kind of literally where we are at the corner with our other venue Roccas is directly across the Rainbow crosswalk So follow the uh the Rainbow crosswalk Road you'll end up in somewhere fun Lance bass is one of our partners here and very actively involved Lance is one of the single most down to earth hands on honest kind people I've ever met He has a genuine appreciation for everybody that sets foot in this building and really creates a sense of community It's it's kind of I always tell people when you talk about the whole celebrity owner moment lands is the ultimate best case scenario He really checks every box It's crazy how things change too Even just the name it went from being Rage which was very representative to a certain extent of what the queer community was going through then to heart which is kind of where we're finding ourselves in more modern times It's iconic you know this was actually the first gay club I came to in L A when I first came here So I remember standing in a corner here looking down at this busy dance floor saying wow look at all these people having fun and so content together And one day I'll be a part of something like this So it's really kind of gives me shivers when I think about my history here All the pride that we have uh programming all that week Saturday night is going to be our big epic pride blowout over the top Confetti streamers rainbows glitter everything And then Sunday Day we're going to have our pride viewing party We're also hosting the mayor's pride kickoff party here on Wednesday night So we have a busy week We had Cardi B here last year for pride There was a uh an event where Lizzo we did a tribute uh drag night The last drag queen was actually Lizzo and she's doing the drag number and all of a sudden she rips it off and people see the eyes They're like oh my God it is Lizzo And for us we like to do it different You know it's not it's it's to us it's

and I think celebrities want to do it different It's not just about showing face anymore It's about really engaging with the community in an honest way that we are You and we love all of you out there too So don't go anywhere because L A in sharing all things local you are sure to love will be right back We are taking the time to go off script and enjoy our city Welcome back to your guide to all things Good I'm de and we want to know how where and why you love L A Let us know and we may even meet you There didn't let the show begin No I couldn't stand a chance She nailed it she nailed it I think people really like to romanticize just that life on the sea They're sailing for all hours of the day and what they need they'll find it And if it belongs to somebody else it doesn't anymore Fire Center adventure is a stunt dinner theater spectacular Um So we have uh stunt guys from all over California who do all the popular stunt shows in the area including Water World at Universal Avengers Campus at Disney A lot of those guys are here Um And we serve you dinner and dessert and a full bar and uh you get to watch a show It's one thing to be out with your friends and in public and seeing a film But when you're here not only are you going to see these characters do their thing You actually get to talk with them and interact with them before you see they do your thing So imagine if you went to go see uh Jaws and you got to talk to Sheriff brody right before the movie and go hey what are you gonna do about that shark I'll figure it out Maybe you can help me with it but go watch me do this and right before that you're talking to him before he does his thing you know All right you guys that fight scene we just saw was the most intense thing I think I've ever seen Tell me about like how you put that thing together and how long it takes to you know rehearse personally I just learned this fight So I've been doing it for about a month and a half with the trainer outside of work just to pick up more skills and have fun What's the best thing about being a pirate getting to play every single day you know and even a fight like today even though you know she'd worked on it she learned it I've been doing it for about a year and we still pick these things apart We're always trying to just tweak them and make them a little bit better and a little bit more intense So you can always come multiple times It's gonna just be better and better every time So Olivia you looked apart You look great but we're here on the ship I think it's time to make you an official pirate I think we're gonna have to do a little sword fighting Awesome Thank you Treasure I'm ready All right Do this Boom The show is good for all ages We have kids who can barely talk who come and have the time of their lives Um and we have uh adults who can barely talk uh who have the time of their

lives My favorite part of the show is that there's so many different elements of it Right Right Absolutely Tell me about the new ones So we're actually implementing a brand new dragon It's gonna be in any day Now we're super excited about it It's kind of there's some there's something behind us Why don't we move over here They say if you look good you feel good and we have more local benefits with a scripted from the top of KT A comes right back today We're encouraging you to simply go outside and discover something new big or small And now our Bertoli takes a special ride with the Compton cowboys There's a group of people bringing community awareness to the Compton Streets on horseback common cowboys I would say we're a mentoring group really we like community leaders influential members in our in our little hood or little town And really now I I would say the world you know we came together riding horses since little kids together and a program that my aunt started here at this ranch called the Compton Junior Posse That for those horses in that program really put us on the path to be who we are Today I mean it saved us I mean our motto is streets raised this horse and saved us You know I started young I started at eight years old roaming the streets And then one day my friend had a horse and I ended up back here and then I went to jail His mom called me Do you wanna work again I'm like yeah I can work you know came to work every since then I've been here now for 10 years So the streets literally raised you and these horses saved you Yes Keep me out of trouble Oh That's all these important skills that you learned just from being around the horses It's our duty to pay it forward I always wanted to make a difference I always wanted to be somebody that people look up to and uh for positive reasons and I always wanted to do that with my friends My life's work is to be able to do this kind of work on a global scale So using ranching and farming and courses to like do community development as a start And I build around that I'd love to be uh do do that in like a global capacity So you know at the end of my life and say man we put like you know we put ranches all over the world We got 50 ranches in the in some of the most underserved communities around the world and we're building community around them Um at company cowboys dot com you can get merch and our our merch proceeds go back to the ranch to help you know keep horses fed and do this community work that we're doing There are so many incredible people living in So let us know who's making a difference in your neighborhood We also live in the epicenter of pop culture and just blocks from our KT A unscripted offices tourists and locals are having big fun at B if you know you know we are 40,000 square

feet of absolute pure experiential retail We sell what most people recognize as these little plastic bobblehead toys from Disney to Star Wars to marvel to your favorite serial characters and your favorite sports figures Some people like to call it a museum Some people like to call it a retail store or like a free amusement park without the rides be with you We have a marvel section for everybody who absolutely loves their superhero We've got Harry Potter for our Harry Potter heads Really good friends Right now I'm standing in front of our DC area with Batman and Superman We've got an area for Disney are villains You're going to see a normal tyrannosaurus racks that you can take a picture in front of from Jurassic Park are pops are collectibles and they are often resold or traded We have the truest fans to any product in the in the world I would say the best part of our story right now is our pop yourself area and you can literally on a touchscreen create your own pop So you're going to pick your skin tone and your body style OK I'm basically white as the day is long Oh my God Look they have a titties rabbit She has better hair than I do The wine glass is the necessity and there you are you have your assembled If you know what F is you're definitely going to be a fan So if you never heard about fo when you leave you are going to be a funk of collector because you will not be able to leave without something in your pocket and want to add more Oh my God Today was the best shoot ever And now I'm a part of your work if you love f But you're wondering where to store all of that stuff Our sponsors have a solution See how easy it is to transform your space with our sponsor California Closet in case anybody wants this gorgeous closet we'll call it the Olivia Closet and then they can just call you say I want the Olivia Closet It's already done for you California closets We got started over 45 years ago in 1978 We are pioneers in the uh organization industry So we help people to have better systems in their homes where they can put their belongings away Nowadays we we do more than just closets We've always been in the forefront of this industry that we created and what makes a nice home is when you don't see all that clutter it started from the closet But then we have been expanding from to other areas of the home We can do your home office or play room a wine bar pretty much everything except for kitchens and bathrooms First We really and get to know you and your lifestyle the size of your home So it it really starts from getting to know you our client and then we would set up um design consultation in your home take proper measurements um understand your inventory and we keep asking these questions and also your budget we can work with any space So Alice and I designed a closet for me and I'm so excited to share it with you

guys It's really cool because you can make it on the computer and then you see it on the big screen It's like a movie This is a big closet huge Thank you very much And uh what we have here what we have created So we have this island peninsula in the middle And then um if we go into this side you can see that we have all your hanging in here and there's some long hanging space here and then your display for all your beautiful handbags Yes I need that I see that everything here is white but if you wanted to could you customize the coloring Oh absolutely So let me show you Was there a cult finish that you liked I like unicorn pink We could do uh morning light morning light misty orchard is also misty orchard Actually Maybe that'll be a little lighter for my taste Ok That is perfect We invest so much into the way we work with our clients We have very extensive training So we're always looking ways to be better and stay current Oh it's everything It's really when you walk into your space it makes you feel more calm you can feel more focused You just know where everything is So to me it's everything That's it for us Thank you so much for going off script with us Where will we be next Somewhere local Of course we'll see you next time
