

LA Unscripted | June 28th, 2023

From hot spots and hidden gems to lots of local flavor It's your guide to L A the unscripted way And tonight we're getting wet and wild from wild rivers Hello everyone and welcome to L A unscripted I'm and this is one of the most fun places in So how to spend the day Wild Rivers water park If you haven't been here before you're going to want to suit up immediately There are over 15 different attractions here that hit every level of thrill you're looking for You can shoot through the amazing aqua condo or fall That one's pink There's the Bombay blaster that shoot you out into a pool You can float around and cast away river or take things to new heights with the pelican plunge There's cooks co for the kiddos with over 77 activities so much to do We're going to show you all around this awesome park today because the whole family is going to want to get in on this Now we also have a few other unscripted adventures to tell you about Olivia De Bartoli Just met the influencer keeping it real when it comes to getting pregnant later In life There we go Perfection I'm gonna do a couple of shots You look amazing Congratulations on your baby How are you feeling really big really tired really hormonal Like I'm probably gonna start sweating in about 30 seconds But this is the life of someone who is 34 weeks pregnant The challenge is now I have a two year old and a four year old and they have a lot of energy So tell me about the journey you know being pregnant with your third Over 40 Yes You know a lot of people that I've been creating content and the first way I announced it I said I'm 41 and pregnant and some of the comments Oh my goodness How could you do that Our people were saying I'm 42 Thank you for inspiring me I just put it out there I'm going to live my life I'm sharing it Everyone is struggling and the journey to become a parent is not easy So if I can help someone I did my job Yeah If you can look over your shoulder pregnancy as hard as it is it's this time capsule and you want to create moments that even if you feel not great about yourself you're going to look back at these and go wow I was glowing I didn't think it but I was glowing Look at that gorgeous but I am going to create these memories and hopefully inspire other people To document this exceptional time in your life And then have these memories that you have for I started this about eight years ago Um I was just doing photography for my friends and family And then um I I really loved what I was doing Love it I love creating memories creating family heirlooms because a friend of mine I was having a baby and she wasn't going to take any maternity photos Like girl we gotta do it How

do you think people should prepare for a maternity shoot Well um just be healthy and definitely feel good You just have to relax when you get to the studio You don't really have to worry about anything because we are a full service studio We do hair making Exactly We're here to have fun Let's be honest about this beautiful journey It is beautiful but it is hard and the experience is raw and it's going to test you like nothing else but you could be stronger than ever Now obviously these water slides are the ultimate summer adventure But if you can't get here you can do this in your own backyard Hey guys I'm Joanna Hi I'm Janice And together we're Tang sisters from Santa Clarita So the stock tanks are actually intended for livestock So if you were to go to your local maybe farm or you know somewhere like Midwest is you would see these watering holes they're actually made for the animals to drink from But us city folks like to be um chic about me then you know want our backyards to look good We were working for a travel industry and we got laid off because of COVID On the same day At that time we kind of already knew we were already looking at the tanks and that's when we knew that it was meant to be We had just moved into our house and our backyard was completely empty and I wanted something smaller than what we had in our previous house We had a huge pool It was way too big We didn't want all that upkeep We just wanted something so we could just do exactly what we're doing now just sitting here and relaxing We did a little consultation with her After that we brought our contractor out our electrician out and everybody that needed to set up the whole tank I feel like this is an incredible deal for \$7000 This just seemed like such a great thing to have That's easy I mean it hasn't taken them very long at all They are so nice to work with They're great people and we've actually had a blast doing this whole thing and putting it together because of COVID Um people's travel budgets are now being used for their homes You want now go outside and make your backyard What was your favorite vacation destination You know it's your own little oasis It's just nothing that you see every day in somebody's backyard it's all new and I think that's what I like about it It just adds character to the house Less maintenance Definitely a lot less maintenance Um less chlorine less chemicals But you can install a um tankless water heater and and attaches to propane and then it um shoots in hot water So you will get a a tan Cozzi you'll get a hot tank in about two hours I think a tan Cozzi is definitely the way to go in southern California for me I'm not leaving drinks Please Drinks over here You're Wild Rivers with the L A river in all the kids I love this place Welcome back to all I'm coming to you today

from Wild Rivers Water Park One of the most fun filled thrill seeking ways to spend a day or two or 10 in So this is where I hang out This is the Mustang bar and it's just one of three places to grab a bite or a cocktail Yes a full bar with any kind of drink You can imagine This is the cool new spot for adults to chill out and have one of these with some awesome snacks There's also Pacific Grill for some mouthwatering quick eats like hot dogs hamburgers or island sweets for Well sweet treats stuff So if you want to make your thrill seeking in the food department they have got you all covered I cannot wait to try this burger All of them Oh and we're not done lighting you up with cool things to see Ever Wonder where we got our cool L A unscripted neon sign Well wonder no more It's just a very pure light in some ways We're like mosquitoes to the light because it's just so attractive and so like blinding I'm Danny B and I'm revealing the art of making custom neon sign My grandparents they ran a neon shop in Vegas So I kind of always grew up around the craft They ran like a really cool repair shop in Vegas So they got to work on a lot of the big marquee signs and all these big neon lights in Vegas L A has like the most beautiful neon signs Neon is made from glass It's all hand bent and blown in the fires Everything is done by hand there's no machines in the process But when you look at the quality of the material there's nothing that compares to neon I was very lucky to meet Dlin earlier this year Dlin has been running this business for two years He has a very strong foundation in working with glass He's just like a glass mag magician It is a very labor intensive and kind of like technical process You have to be good with electricity you have to be good with glass The trend with neon science has left kind of the front of the building and now it is inside the building It's kind of evolved into um a new sort of like medium where it's used just to blow up people's homes Businesses use it as catchy slogans that people can take you know very viral pictures with It's definitely evolved off of of being just purely like storefront signage which has been great for us photo stu studio called The Urban Jungle We did all those We did them for the new honey uh headquarters down in the arts district We did all of their neon signs We did one for the Beetle Juice Mu musical It's featured in the play and we happened to make that Now we're in the heart of L A by us C So if you guys want a custom neon sign please come by we'll be glad to help you out If you can dream it we'll make it for you Custom neon signs and services is happy to light up L A OK This might be my favorite part Check this out This is Shaka Bay a 25,000 square foot wave pool one of so C's largest in fact and talk about wave riding action You can really spread

out and play in the waves I'm gonna go try that and I'll see you right back here because we're heading to Bora Bora Boomerang scripted from Wild Rivers will be right back People come to us for birthdays they come to us for anniversaries they come to us for baby gender reveals but they always leave like that was amazing That was the best day of my life There's something about being out in the ocean There's something when people are out on the water and they get that experience of being that close to nature and they love it Julia Ford I'm the owner of Happiest hours and we look forward to having you all on board Ok so this is like a mansion on water That's a full kitchen back there And what is this We have our lounge area our beautiful bar as well Oh my God this is so great And then what's down those stairs So we have five bedrooms and six bathrooms here Happiest hours is a yacht rental business that is based in Newport Beach as well as Marina Del Rey first and foremost owning a yacht is very expensive from slip fees to maintenance to insurance all of those things So there's not a lot of people that say I want to take that on So I feel like what we do is bring the ocean and bring that experience to to everyone Renting a yacht does come in a lot of different price points I would say we are mid to high Oh my gosh Not only are they serving me a mimosa I get to start the boat started Ok ready I feel like for me as the owner the best part is making people really happy I I spend a lot of time working closely with our crew We hire Coast Guard certified captains Sea lions are right over here Hey how do I get back to L A Very important to me that the customers leave our vessels Feeling like that was amazing And I want to come back maybe to that boat but for sure with your crew Welcome back to L A unscripted I'm Devin and this is Bora Bora Boomerang Go Now this is where you grab a few friends get on board a raft and hang tight because this one is a winding open air flume that accelerate you up and then you boomerang down and then up and back down over and over again It actually feels like you and your writers are weightless I have never seen so many great expressions on people's faces as they're flying around It's so fun and it's 3 to 6 writers So lots of room for friends and family to scream and laugh their heads off together You know what you need after a day of fun in the sun a night out and you know what you need for the perfect night out A great there's a really great artisanal perfume culture here on the west coast that doesn't really exist anywhere else in the States I'm Christopher Gordon from the perfumer studio in Hollywood Dana I dare you to make a signature sound We create the fragrances and that fragrance can be used in anything from candles to body scents to room sprays Our goal was to make perfumery

accessible to anyone whether they wanted to become a perfumer themselves or whether they just wanted to create their own signature scent I accept your dare I am gonna learn to be a nose just like you Right I think everyone should have a scent that they like to wear that makes them happy confident feel dressed and ready for the day Mimosa I want to smell that one No just like yesterday Scent is one of the most powerful senses that we have and even between people a person can wear the same fragrance and have it smell different than their best friend because their skin is different because they may have dry skin It's a different diet even affect the smell You know how in a wine tasting they'll have like something to cleanse your palate Do you have things like that That will cleanse your palate Really the best thing to do is to smell your own skin where you don't have any fragrance on it Coffee beans don't really work They're just another volatile scent How do we get started So we get started by choosing one of these base fragrances Ok We've got a selection of feminine unisex and masculine fragrances I definitely think I like sweeter Ok Yeah So I would suggest Central Gourmand because I am one Do we write down the formula but we keep this on file Ok So do you fall in love with it You can always come back We're gonna do 30 drops of that So Central Gourmand is now when I count I'm gonna do a gray sensual 10 that's not a drop Oh it's not let's add some of the jasmine Let's do 12 So we offer a quick 2.5 hour Saturday class a couple of times a month where people just come in because they want to make a perfume They've thought about it They love perfume After that we have a foundation in perfumery which is geared towards people who want to go into the business They want to become perfumers So it's more in depth It's a few days long So we give that a little shake mix the oils in and now we're going to smell the final creation The moment of truth I'm so excited It was delicious It smells amazing I'm gonna wear this every day Wear it in good health Thank you Done Cheers Oh my God It was so cool This place is so fun You can hear the squeals of joy around the park here at Wild Rivers But on my drive out here I was listening to a little Dolly Parton Olivia de Bertoli has a great tribute to our country Queen Strut is a brand new queer bar that was opened uh late September 2019 We were opened six months before the pandemic kicked in It's a beautiful club The interior's gorgeous It's lots of fun It's an adult playground We get as many girls as we get gays So it's a it's a good time Let's get into Dolly Parton She is such an icon Why did you wanna put a mural of her on the side of your building We pride ourselves on our interior Like it's very social media friendly and liked you can be photographed against any surface

but while we're closed what do you do Right So I'm like how do I put that kind of experience on the outside of the building Yeah we driving around So I knew I would have to have some kind of mural but like not just a bunch of colors and whatever Like it had to be a strategic point of reference and of the moment And Dolly Parton is definitely of the moment right now People love her from the far right all the way over the far left and everything in between And that's a rare find She's female She she has a very broad spectrum She's a humanitarian but she's also an artist Like her songs are ingrained in our culture Can't find a better subject I think people just kind of feel like they know me I feel more like a family relative than a than a celebrity I think they just kind of think oh dollies come home tell me about the kind of the inspiration behind the piece that you did and and how how you painted it I looked at images of her throughout time Her face is around the time when she was 30 Her body was from one of the last performances she did She's going like this So it is this goddess like there's a halo around her head There's light rays shooting out from those glorious hands with those giant nails I wanted to to have a pinch of like a story book Kind of look just a pinch because there's doves on either side of her holding scrolls that say her name there's huge blooming flowers there's butterflies So the whole hope was really to be happy and joyous What do you hope people feel when they come to Strat and see this thing here It's hard to even describe it at this point You have to she's so big dolly Parton You can see her all day and then she's lit up at night You get to you know have a glimpse of some joy at any hour of the day and that is all the time we have for tonight Thank you so much for joining us right now I need to go find a wet suit and get in on all of this action 17 attractions You guys with all levels of thrills three restaurants and more outdoor fun than you can possibly imagine And it's so close to L A Wild Rivers water park is open every day through August 23rd and weekends through October 1st You can go to Wild Rivers dot com to find out more and buy tickets That's all the time we have for tonight Thank you so much for joining us
