

## LA Unscripted | May 18th, 2023

From hotspots to hidden gems This is your guide to all things local The L A unscripted way it's been said whether they're good or bad All trends started California and we're here to keep you on top of all of them Hi everyone And for the next half an hour we want to inspire you to get out of your comfort zone experience All our city has to offer plus connect with each other We also want to hear from you So make sure to DM or email us your favorite way to live life unscripted and how exciting you Simpkins and Olivia Day were to are here for all things All right let's get this party started with some California Trivia Jasmine You first Olivia you on deck All right Are you ready This is music trivia You're going to name that too These are California oriented Ok Ok Ok Who said you could travel the world but nothing comes close to the golden coast at the beach boys No Ok I'm gonna give you ready Ok You can have all the world but nothing comes close to the Golden right Because I was so good It that's what sounded just I mean that people say that a lot All right Now California knows how to party to close close close close Ok Made up my mind to make a new start Going to California with an aching in my heart It's classic rock classic rock rock with a lead arrow I gave you the hint Kind of rhymes with reply Oh that's that last one I just found out her ghost left town The queen of California is stepping down He's kind of the mayor of the town John mayor Ok Jasmine sorry you did not do so Well you're out Olivia in here and we're doing Olivia Trivia Get it rhymes I thought of that trivia I'm going to try to do better than that OK That's not hard to do OK I just kidding I'm just kidding All right This is made in L A But where OK The Martini like are we talking neighborhoods No the drink where it was made like what what city Like what part of California I'm gonna say it even kind of sounds like Martini Martinez Martinez Yes Oh my God That was amazing Yes Yes OK This one I did not know And actually I'm obsessed with this Hidden Valley Ranch dressing Hidden Valley Ranch Dressing So we're gonna go with the valley theme and we're gonna say Sherman Oaks Santa Barbara But look I think that was a good guess OK Doritos Doritos Doritos let's say long Beach Anaheim Ok Close though Sure The cheeseburger the cheese the whole cheeseburger in general Yes I think that's pretty self explanatory Yes Ok The cheeseburger was invented in Pasadena I don't know how you got this really good God you're amazing And I actually now that I see this makes sense but I didn't know this the French dip sandwich and we're kind of famous for that are we

Yeah Ok Especially downtown All right So downtown Yes Oh my God I don't even know how you got some of those I mean I have no idea All right something else So so how the annual L A fair from Corn dogs to carnival rides The Pomona Party has been a local highlight since 1922 and you got to check it out I love you guys on some of those I know I sure did It was it was so fun And this year our sponsors theme is Spring into Fair Were fun The L A county fair is back and uh we're making we're making some new friends Alright The L A county fair is one of the biggest county fairs in the country We're celebrating our 101st anniversary this year and this is our second year in May We have moved to the spring time and we're really excited to to be here in this new season and to celebrate everything Spring Oh my gosh You guys look at how big this cotton candy is food is like the number one reason that people come to the fair I tell everybody put on your elastic pants because you are just going to have so many things so many things that you want to try So we have over 200 food vendors and they serve over 1200 different items So you can come to the fair and never have the same thing twice We sell turkey legs hot Cheeto fries curly fries One of our big items here are the turkey legs and anything that has hot Cheetos I've been working for them since I was 15 Alright Should we dig in Let's get a fry and do a cheers Yeah I'm gonna do this one Cheers to biggies One of the other popular things to do at the fair is to enjoy our carnival We have over 60 rides in 30 games We have three new rides this year including one behind me called the Slingshot So people are gonna have to try that one Throw the ball pop the balloon I got one I got it Bye It was nice for a second and then it got really really really crazy Overall A plus a plus And another thing that is very popular Of course the animals we have the farm and the big red barn we have over 200 animals in the barn the largest petting zoo in the country and it's just a great time for families and Children adults everybody to come and visit the farm This is the area where people can come in They can feed our animals and get to know them Help us socialize them a bit because they're they're just now learning to associate people with food So they they're they're loving it They're loving the attention I think it's just good for people to be around animals It brings out the serotonin in our bodies It makes us very happy It helps the animals be happy I just love animals I've loved them since I was a little kid Um It's just the sweetest thing to just be around them They they love you You love them There's something about the tradition of a county fair where you can enter your favorite recipe you can enter your quilt and you still win a blue a blue ribbon in this day and age And that's exciting It's good family fun and you

know to just be able to enjoy that and not think about anything else Come here Have a great time with your friends and family It's just a wonderful place to be The fair is open till May 29th Memorial Day We are closed on Mondays Tuesdays and Wednesdays But our hours are 11 till 11 each day and we'd love everybody to come out and enjoy the fun No fair experience is complete without a ride on the ferris wheel and this one is so cool Because you get the coolest bird's eye view of the entire Fairplex the entire fair and just relax up in the sky There's nothing better than that Nothing says fun Like fried everything All right Dana thumbs up or down for these fair snacks Ready Arizona serves up Scorpion What You actually just in a gas station Saw a Scorpion lollipop I bought one I mean I would try deep fried jelly beans are go to Massachusetts munchies I try that Yeah same I would try people incon go wacky for fried butter You would have to massage your heart back into working order Yeah I don't think I could do No No All right And deep fried Snickers are Florida I've heard those are actually really good Oh my God I need to to to just thinking about all of that state fairs that are a sign summer is coming and that mean summer block bus break out the pop J five check I will check in with you in just a second All right Here's a question for you You've seen a lot of movies of The Little Mermaid or Spider Man across the Spider verse one Little Mermaid I thought Yeah And you love it Right I love it It's so good All right So let's talk about some of the big Blockbusters coming out this summer So we'll start with Fast Ok The great it's just my opinion But I saw the trailer for Fast and I laugh the entire time It looks horrific Family family I it's not for me that is not for me Jason is the bad guy I like not feeling the fast X 27 or whatever at 10 I think I think you're in good company Twitter all that They just totally just become so unrealistic that it's not about the cars not about racing anymore And it's just really about them almost being superheroes They act in the world through driving fast which I'm not sure that sure that's practical But ok unfortunately there's about two or three more of these that universe is going to do so All right So let's talk about Transformers Rise of the Beast Now here's the thing again not a movie up in my wheelhouse but I do think it's a traditional good summer blockbuster tent pole movie where you can get out of the heat and escape for two hours and have a good time kids love And since they brought this into the theaters I think they really seen like a great response from families who can come So they love to bring it out in the summer this time around Anthony Ramos who was in Hamilton He's in the film I think he's going to be really really good Yeah I'm excited about this one I have not seen

it Ok Ok Hi Barb Here's the next one Bar Here's the thing I am so excited about this movie but I'm actually nervous because I'm so excited about this movie But I'm nervous I'm gonna be disappointed and it's going to be a huge failure But the thing about Barbie as I think it's got no for all of the older older people And then yet the young girls like my daughter's age are really looking forward to it and planning their office to go see it So I'm just nervous It's going to be disappointment but I'm so excited about it I too I saw the trailer and I was really really excited but I still feel like I don't know what it's but that just means you got to go see it right 100% And where you think where your pink All right Do you know what film is considered the first Blockbuster ever released in 1975 Jobs And it still holds up The Spielberg summer flick was the first to break \$100 million at the box office and people were scared to swim and pool that summer I still am but don't be scared We're just getting started and it will be right back from food to fun How do you live life Unscripted Let us know Welcome back everyone I'm David And today we're all just chatting away about all things Local Jasmine and Lia I'm sure you guys heard the Governor Newsom in the California Air Resources Board banned the sale of new gas powered vehicles by 2035 It sounds far but that's only like 12 years from now Cars especially here are such a huge part of our lives and to keep you in the know I took a spin with our sponsor Toyota This is the Toyota Marai It is Toyota's first mass produced hydrogen fuel cell vehicle That means that it's a zero emission vehicle that uses hydrogen as fuel You don't plug it in and you don't put gasoline in it You go to a hydrogen refueling kiosk like this one here that we're standing in front of and you refuel it with compressed hydrogen Very similar to putting gasoline in your vehicle You just simply attach the nozzle and it takes five minutes and you're on your way Oh my God this takes five minutes And then I know people that it takes hours and hours and hours to charge their electric vehicles That's right It could take overnight It could take up to 20 hours to charge an electric vehicle but this only takes five minutes and you can drive over 350 miles with this type of technology One way that you can find a hydrogen station is looking at the California Fuel Cell Partnership website and they have an active station map and there's also an app that hydrogen seekers can also use on their phone and inside of their Toyota it is now Oh my God it's so quiet Toyota has been working on hydrogen fuel cell technology for over 20 years So the Toyota Prius actually means to go before because it was meant to get us ready for this type of technology And Toyota Marai means future in Japanese because Toyota believes that this is the

future of the automotive industry Ok This is really cool and you're not able to see this back there but they have what's called a heads up display where it gives you north south east or west it tells you which direction to go It's got all your N A plus it's got all your MPH and your ecosystem and probably how many miles left you have on your charge Like it's really really well equipped The only thing that comes out the back of the Toyota Marai is a little bit of water So when you press the h2o button all of the water that's stored in the vehicle will be expelled out the back of the vehicle It's party tricks There are so many benefits to owning or leasing a Toyota I first of all you receive complimentary hydrogen fuel You receive a fuel card with \$15,000 when you purchase or lease the vehicle That's good up to six years If you were to purchase there also is 0% APR for up to 72 months right now on the Toyota Marai and the Toyota Marai qualifies for the HOV lane sticker So you can drive with just one person in the HOV lane which is a huge benefit here in Los Angeles There are so many features in this car Can you show me some of them This is a wireless charging pad for your cell phone There's three different drive modes normal ego and sport There's 14 JB L speakers inside of the toy Of course our 12.3 inch touchscreen display is going to have all the information that you need That is our parking button that will help assist us in parallel parking Of course you can't miss this gorgeous panoramic moon roof Oh this is such a nice car It's so smooth Wow this is really really nice and it's fast too and to keep up with all things L A you make sure to follow us We even answer and we really do answer on Instagram It's at KTL A unscripted Ok So who are you guys following on Instagram Oh there's a couple I love this girl Bethany SIA Tola She wears all these like beautiful flowy dresses all the time right And then also you can't miss over her L A Oh that's a good one I love that I'm not sure if I believe everything they say but I think it really good I follow L A foodie I love I love learning about all these food including just like vendors on the street I love to follow anything shopping related So revolve Yes So one of my favorite sneaker stores called Flight Club Me and Fairfax Love to follow them See when the drop and local I love that All right we have to take a break but make sure LAU is at the top of your feed We are unscripted today and talking trending topics and now that summer is almost here What are you California Dreaming about One of the reasons I think the west coast is the best coast is because this is where the trend start and you can try all the latest and greatest first Especially with exercise Ok You do so many exercise stories I remember the polo The pole was so fun and it was a lot harder than

the mountain biking What else Oh rock climbing Oh my God You did the hula hoop Oh my little Pilates That was harder than you would think The hula hoop is waited You have to keep you're trying to remember had a hula hoop like you did when you were super sore Four days four days Seriously That one was fine And then I did a nineties hip hop fitness class too which was like sweating because you're like dancing and you're having so much fun And they have you dressed in like your favorite nineties movie So I came as hello Alicia Silver So oh my God that sounds So you know I did the search school and you actually do that regularly Now I love that I did It was it's such a cool place and then I did the tr I mean there have been so many good ones here We did the ninja workout together I mean tennis though keeps me saying I don't know what I would do without it And we did also we did a story here We done so much so Dana it's really important to take care of your needs So guys here are some healthy vibes Come on let's go in here And if you can have a seat normal stability feels like a normal knee pt hospitalization drains catheters Those are all traditions large bone cuts ligament removal We're trying to revolutionize the way it's done Doctor Farre So what is Nano for those who don't know Yes So Nano is a revolutionary technique That's an alternative to the traditional hip and knee replacement for osteoarthritis And we've developed the NANO technique specifically over the last 10 years here You can see in the arthritic knee the hyaline cartilage has worn the knee is unstable the bone is rubbing on the bone When your knee and hip are arthritic you need a new surface on them Nano knee combines three decades of our development of a propriety minimally invasive surgical technique That's like the partial knee for the entire knee It's a more delicate gentle surgery but there's more steps to guarantee precision My name is Jim English and I've been a nano patient for seven months My entire life was pain pain it was hard to even walk to go get the mail My right knee had a traditional uh knee replacement done about 10 years ago And then I heard about nano from a friend and so I came to see Doc Farrow He told me all how the procedure was just state of the art The pain went away immediately I would say without the walker or cane or any of that I was moving around the house pretty freely within less than two weeks I like to play golf I'm not that good but it's fun to get my quality of life back is exciting I see people who come in and say I don't want a traditional knee because I want to do everything I need to run I need to climb I need to play tennis or I just need to go back to a strenuous job Um That's our high demand patients Then I see patients who say I just don't want to have that

long recovery I don't want all that pain I don't want to stay in the hospital Our patients typically walk 30 to 45 minutes after surgery and walk out of the institute within two hours of surgery Often our hip patients tell me they have less pain walking on their hip than they did when they came in the morning for surgery Isn't it inevitable that at some point everyone will need their knees replaced Absolutely not So there's a lot of genetics involved here So a lot of people say what did I do wrong And the answer is nothing And I think some people have a genetic tendency for the surface of their bone to fail prematurely But luckily this is something that we can fix now and get you back to your full activity level So guys I seriously learned so much going to see doctor far One of the things that I think is so important is that we always hear like he or strenuous exercise causes your knees or hips to go out that you need a replacement But that's not true Hereditary He says so there is help for me Yes L A you ladies I love when we're all together and in case you guys missed it here are some of our favorite moments How are you Beautiful Did you just pooped for you You just pooped He just poked for you and me I'm gonna take all of these I Oh this is so good All right That is it Thank you guys so much for watching Where will we be next You never know but make sure to follow us OK We're going to do an air kiss Goodbye Ready You're gonna go ready 123 See you next time
