From hotspots to hidden gems It's your guide to all things local The L A unscripted way and tonight we want to be your Valentine Roses are red violets are blue Will you be my Valentine Because I heart you Welcome to scripted everyone I'm Devin and tonight I'm playing cupid to match you up with some of our favorite V day ideas Now there's only one place to start that kind of show and it's right here at the birthplace of the box bouquet J Hi my name is ELISA Hi my name is Eliza and this is our flower boutique Jor Lalo Jado Le Flore is in French It means I adore flowers The French culture was one of the driving inspirations in the beginning when we opened our first flower boutique here in Studio City So the dream started with my mother in law She's been a florist for many years before JLF had opened she had a small mom and pop shop in Glendale She would always push us to get into the industry with her However Eliza my sister in law and I were in school during that time I was in fashion school Eliza was in law school when it came time for us to open a business as a family We wanted to modernize the way of giving and receiving flowers We wanted luxury packaging branded then the flower arrangements So our signature is our packaging whether it's a birthday or an anniversary We like to guide our clients into making the perfect choice We have JLF anniversary boxes You can personalize how many years you have been together What's new this season is our new Vaasa Fleur We invented the first vase made out of cardboard material There's a glass vase inside and we were inspired by the modern ceramic vase Ok So what is this arrangement that we're doing This is a signature 100 rose box It's very popular Oh my God These flowers last so long You guys but how do you even make them last longer It's important The environment definitely matters and watering as well You would have to water every other day You just open up from the middle and add a little bit of water You know it never ceases to amaze me how happy people get when they receive or even send out our arrangements The power that flowers have when it comes to the five senses is undescrivable Teach me how to finish this all I don't know how many roses we have so far but we're probably not at 100 yet So you're gonna try to put roses in between each rose a little bit one a little bit more taller than the other layer So you give the illusion of the round Don't I actually think I can finish this I know you're really busy with other orders Do you want to lead And I'll just finish this one I'm going to trust this on you Trust me because I will I will do this just right for you No no I'm finished Come

look look I put ad it's beautiful but it was for Samantha It was supposed to be an so but it's delightful It's divine It's it's for Samantha And what is all this mess What mess all this mess here we gotta clean this up OK In addition to beautiful flowers beautiful packaging as a company and a local small business it gives back a lot to the community as well Make March matters is an annual campaign by Children's Hospital Los Angeles Every we would come up with smaller collection of flowers from which we donate profits to Chl A The design was done by little drawings by kids who lost their homes in 2020 war in Armenia The modern world has so much negativity and sadness that there are very few things that make people genuinely happy Flowers are something that you can have one flower and your space and area can become brighter and happier Immediately stunning right And it smells amazing in here by the way OK You have the flowers but where to dine That's romantic and has great cocktails I got you covered in this L A reveal So I'm sure you drove by this plenty of times on forest lawn and hadn't known that we were in here and you combine the space and the service and the great food and uh you know it's not something that you would expect to find in this part of town Hi I'm Sean Anderson of Santori and I am revealing the secret sanctuary tucked away in Toluca Lake Now Santori literally translates into sanctuary in the Catalan dialect of northern Spain So the owners purposely designed this to be kind of a uh homage for their favorite places on holiday in the Mediterranean So you can see the room here is uh more like Mallorca south of Spain uh back in the green room Uh more of like Moroccan uh Moorish kind of Turkish vibe to it out on our uh terraces It's like a Santorini Greek Isle Club med kind of a feel to it The uh building was built originally as a social club for all the movie stars and studio execs of all the studios around here in in Burbank and the restaurant uh in the space here itself is kind of a perk for all of the movie stars were members of the club And then over the years the building went public in 2019 we did a two year remodel and this is what you see as Santuario was born uh this is actually a whole fish uh fish uh a do Rod Jeff does cashew Romesco sauce Our menu definitely changes seasonally We do everything from uh caviar service to you know whole fish A lot of Mediterranean L A uh magazine called this one of the most transporting uh restaurants in Los Angeles And so when people come in it's it's like you're at a seaside resort you know very approachable elegance is what we like to call it Ok I hope you're taking notes because dinner always comes with dessert here at unscripted and this next place is better than sex Hey that's the actual name of it I that's not me saying

of history The tournament here in in L A and it has such a deep history almost 100 years of tournament golf here in L A And it's really proud for us to be able to help usher that tradition into the next era Golf is all angles So you know this is a slope at a certain percentage It's going to break a certain amount from this distance I'm hearing competition person who can make it in from here wins a million dollars Don't count on me right now All right Go first All right I'll go first So I'm going to aim for there Yeah here we go And now when you pick your line you got to try to imagine the speed So it's kind of a fast it's fast So don't hit it hard Ok Ready Here we go All right 55 aside from the golf action inside the ropes which again is is unparalleled Um there's so much to do outside of the ropes whether it's with our uh fan activation areas We have so many public lounges where fans can eat and drink and take in the the golf Um we also have upgraded hospitality that's shared available in the back lot and bluff available right now It's a lot of fun You know you're out here for five hours with your friends you can listen to music you can do whatever it is you want to do So you know it's it's truly just a blast and it's a lot of fun The SD exemption is just it's a exemption that all minorities shoot to get You know growing up this is something that you can only dream of and have an opportunity to play in his honor is just truly a blessing And uh to think that I met him when I was nine years old Honestly didn't really you know just being a kid I didn't have any idea who I was talking to at the time but you got to see it come full circle 15 16 years later and being able to play in his honor is truly a blessing The greats in our game have have won this Um I grew up as a kid watching this event This event was always so iconic growing up Um And it's it's amazing how you know players like myself um come full circle and now we're out here um on a yearly basis and playing and and and kind of able to be a part of it So again it's for me it's just an awesome experience and we're going to keep you in the swing of all things Valentine's Day in just a minute A scripted from J or the floor will be right back I love this place Welcome back to L A unscripted from the gorgeous JF flower shop in the heart of Studio City I'm de and we are helping to get you in the Valentine's Day mood and the flowers are your thing How about some whiskey here is a day to dare I was thirsty for tasting whiskey is different than drinking whiskey and and we all drink socially but there's a mindful component to tasting This is Bobby from Blind Barrels We're massive fans of KTL A's unscripted Dana We dare you to go on a whiskey journey with us and a blind whiskey tasting experience with blind barrels You guys know I like a good cocktail every once in a while And my

favorite part about this show is going to some of the coolest bars and restaurants in L A But this time we brought the bar to L A and scripted These aren't things that you can get at total wine or Bevmo or any local liquor store These are all small American craft whiskey distillers There's 3000 in the country These are small town farmers that are mashing millions distilling everything that they make with love This is our Blind Barrels quarterly shipment and this is what comes to your house So if someone goes to Blind Barrels dot com and they sign up for a quarterly or annual on the 15th of March June September and December you're gonna get a box of four samples um that are from different distilleries Every lineup is different We don't repeat different brands and different distillers But what we've got is four samples that we'll be tasting through here with a a scripted it ABC and D we're going to smell it So then yeah we're going to smell it I love that they have this kind of guide to where it's got all these different cues and so like as you look you can kind of see like OK does it does it have like a woody scent to it Does it have like a tobacco scent to it which I do kind of feel like it does That's unlike anything I've ever tasted before Do you like one of these samples And you want to get a full bottle you can get it for the same price as if you're at the distillery So what we have here is the Cole Keegan American single malt whiskey OK This comes out of Santa Fe New Mexico Santa Fe spirits And the thing I love about this is because it's a small distillery unless people in L A or in California tried this They wouldn't know about this distillery What we've got is a bourbon from Black Button Distillery out of Rochester New York So this is from M GP Bourbon or M GP Distillery in in Lawrenceburg Indiana So we purchased this cask from Mammoth Distillery They are out of Michigan This might be one of my favorites This is the perfect gift for a whiskey lover I don't think you need to be an expert You could be a novice I see here your QR code So when you are tasting the whiskey and then when you're ready to reveal you scan this QR code and then I'll take you to our website and there's envelopes that will give you all the information about the whiskey and you can also buy the bottles If you're a subscriber we actually set up a special code unscripted and this is the first time we've actually offered this If you sign up for a quarterly or an annual we will send you a free box um which in and of itself is a tremendous value We've never offered that Cheers you guys cheers to Blind Barrels and it's at Blind Barrels dot com and make sure you use unscripted as your code You know you can't go wrong with the tasting kit And if you're looking for something that's out of the box the flower box well you and your date will

certainly flip out over this It never fails to amaze me We find the coolest stuff on the show This one so amazing circus school right here in Hollywood Turf School is a recreational circus facility located in the heart of Hollywood where if you've got a fantasy of running away with the circus you can come here and do it seven days a week all your money The thing about it is that in circus traditionally it was people with different skills and abilities And the beauty of the circus was that you found where you were great and where you excelled and then they amplified that we do that same kind of thing here Oh my God Circ school's founder Aloisia Gabre came from Cirque Du Soleil She started training in the circus when she was a little girl in San Francisco with the Pickle Family circus And when she came here she wanted to bring circus to the general public So her whole philosophy and what all of us coaches live by is that this is for anybody with anybody bend this knee and look it's called beauty on the bow because you look like a bow You look like a beauty on the bow of a ship Wait what's the word I'm king of the world are you are roast Let's go Circus When taught properly is all core based and about using your body to its most efficient capacity It's your own skill your own talent your own drive your own ambition So when you achieve something yeah sure you're working out the body But you're also I think empowering yourself because you did that You did that work in whatever level you did It was amazing and successful I need a candlestick for our 101 classes which are open to anybody in the public And then we get you on basic skills So for the aerial classes that will be on aerial silks or static trapeze we also do contortion We have kids classes The contortion class is taught by Cirque Du Soleil professional contortionist Our acrobatics classes are taught by professional dancers and acrobats That's my own creation That's called the Dana So we have a great discount code specifically for unscripted viewers If you go to the circ school website at CIRCS school dot com sign up for a class and use the coupon code unscripted you'll get 50% off your first class which is amazing because you could bring a date you could bring a best friend you could bring your mother who wants something more exciting in life I feel like I've come pretty far on this Do you guys have a Canon that you can shoot me out of Like no absolutely not Is there more we can do nowhere in L A Can you get this little guy right here The Dom Perignon Champagne Truffle We're known specifically for our Champagne Truffles Only Truffle in the world would made with Dom Perignon And the reason it's called a truffle is and I'm sure you'll you'll see it It's actually shaped almost like a mushroom That's where the term truffle came from But

a truffle is gonna be a chocolate with a ganache Inside Torcher is a 90 year old Swiss chocolate company with 15 stores in the world Um Torcher has been in Beverly Hills for 40 years now Uh My wife and I took it over four years ago It was really my wife's story My wife when she found out that toy after 36 years was closing was so sad She was despondent and she looked over at me and she said sweetie this is a terrible day I said I know it's awful And she said you love me don't you I said I do She said will you buy me a chocolate shop So I bought her a chocolate shop and then she married me So it's a love story We're actually a Swiss company Everything is made in Zurich flown over fresh every week using s you know ingredients Um You know the the milk comes from just Swiss dairy cows happy cows that spend their days eating grass and looking at waterfalls through rainbows I mean they're just happy and they produce beautiful milk When you step into here you're kind of transported maybe maybe to the middle of Switzerland They say that the same endorphins that are released when you eat chocolate are matched by what happens when you're in love And um I feel like that's the case with Toshi chocolate It's just it's just pure love OK That is all the time we have for tonight Thank you so much for joining us and thank you to our beautiful ladies here at Jail Flowers They're basically part of the L A family Now we'll see you guys next time Good night
