ago started by actually the parish They said well you know what we live here in the United States You know we want to remember our country We were displaced from from the country because of World War Two We came here we settled we made our roots here A lot of things that they can experience It comes from music It comes from the jewelry the vendors that sell crafts and items like that as well as the food When it comes to LT days you can expect a lot of foods from potatoes Everything is potatoes potato potatoes and zeppelins which is Lithuanian national dish So it has meat inside and a potato on the outside It's pretty much a potato roller with meat inside You add some bacon pieces sour cream and it makes a delicious delicious high calorie meal Ok Excellent Let's go They're going to show me how to do a dance which they're going to regret terribly later on All right you dressed me in this outfit Tell me a little bit about what what's going on Yeah that's very interesting because at Lithuania we are a very small country as you know but we have different regions and we have national costumes five types And this costume is actually in the United States or actually in America Not really popular It's new because this is Western Lithuania So what dance are you going to teach me today today We're going to dance Actually the dance bin is from that region No wrong Yeah Yeah Hi guys OK Thank you guys As you guys know it's my job to keep you on top of all the cool things in L A But you're really going to thank me for this one You cannot open Instagram tiktok or any food list without seeing this right on the top of the list This is Barak and we came early because once they open the line is down the block Hi how are you I'm Dana I've heard so much about Baraka I'm so excited Buras it's a Israeli pastry You can find this type of pastry all around the world The little twist the way we make it Usually um people made it with margarine or oil we make it with butter Only butter We start from like 60 70 a day and we sell out in like one hour hour and a half and it's just blow up You know it's it was amazing We've been surprised we still surprised So it's basically like this flaky buttery pastry It's stuff We have different fillings watering already OK And it comes with like these different condiments on the OK And these are the condiments condiments This one is like a spicy mix a spicy blend We recommend mixing both of them together Oh well that's a pro tip because it's crunchy It's flaky It's buttery Usually Burres served with hard boiled egg We like to serve it with a little bit jammy egg You know when it's a little bit soft This is my favorite way to eat egg Ok This is the secret menu item It's called k you choose any one of our Buras We have like a creamy egg salad inside fresh tomato slices of pickles and

that and it's basically like a sandwich They're just gonna like wrap it cut it in half and it comes with a yogurt Tahini on the side Oh my God you are This is a box of Burak Are you kidding me right now Look at what you get four different types of Burak You get the eggs you get the pickles and you get the two sauces This by the way is bomb I am so excited and by the way come with me Look how charming this is They've got these little tables with the little pill carts that you sit on I mean could this be any more charming It's me my wife and my father in law and one of my workers that worked with me for a long time One of my friends from Israel we have a new little Buras coming and it's cooking in my wife right now So you're gonna take a little bit of the mix it into the tomato pot and then you want to take a little piece that the spinach is my favorite And then we wanna I was too excited to eat Take a little piece of the egg with the jammy Oh my God It's so Flicky It's like sticking to my lip gloss It so like it because it's it's it's not breakfast it's not lunch it's not dinner It's in between It's fit for all the hours It's good for everyone Everyone like it It's not like full of meat It's not too much fatty It's touching a lot of people Oh my God It's so good That's so funny Guys This recipe is gonna be wrapped in rice paper I'm gonna cook up some salmon put some avocado some jalapeno and dip it in some sriracha mayo for my little salmon bites that I cut up into bite size pieces I Sprinkle them with salt and pepper easy in the pan I'm gonna use some coconut oil because I think coconut oil is gonna just give things a nice little extra boost of flavor So these will cook really quick Our salmon bites are cooked Now to the second step I have an avocado and a jalapeno I'm going to squeeze a little bit of lime on our avocado and then just slice it into thin slices I have some very warm water and take my rice paper You just put it in the warm water until it's soft and pliable onto a paper towel I'm also gonna score it in half because I don't need the whole thing First a piece of jalapeno we put a piece of avocado down our piece of salmon Fold it up like a little package and then I'm gonna fry them up in the coconut oil Now same skillet that I cooked my salmon in more coconut oil Go for it See how we do And I'm gonna make a quick sauce to dip them in using my favorite ingredient mayonnaise and sriracha and then a squeeze of lime Then take our salmon bites and we'll just go around the sauce like that I think your guests are gonna love it Thank you so much to Barney be for having us and if you haven't been to one of their locations come on down you can't even imagine what you're missing It's so cool We will see you next time Thank you so much for joining us
