From hotspots to hidden gems It's your guide to all things L A the unscripted way Fantastic food finds Trending must tries local things you want us to know about We circle the amazing city of L A to share the wealth and there is plenty of it Hi everyone I'm Devin and we've only got half an hour So hey let's not delay the dish I'm JW I'm Rose Chang and we're the authors of healing herbal soups I wrote this book together with my daughter during the pandemic I decided to write the book because we are having you know this is back in 2019 and at that time we don't have any vaccine Nobody knows what's going on and we are in a lockdown So I started writing the book and thought I have to teach um share my knowledge with everybody about what I know that may possibly help everybody to boost their immune system I was born in Hong Kong And so my family is from China naturally And so in those days you don't have all kinds of Western medicine and even if we do have it's not as advanced as it is today So we use a lot of natural food to heal ourselves I am a very good soup maker I am A B to B minus Cope Chinese cooking is very difficult There's a lot of you have to to make Chinese food which is mostly stir fry tastes good but soup is different That's one of the reasons I like soup Thank you ladies for showing me how to make one of your delicious herbal soups Welcome What are we making today We have the winter melon lotus seeds mung beans and lotus seeds soup Well this particular soup serves four people Um It has winter melon We're gonna be using £1.5 today We also have lily leaves This is the one lily leaf but um we've crushed it Um And then we have two teaspoons of mung beans 14 ounces of pork And you want to use 6 to 7 lotus seeds And if you're a vegetarian or you're vegan you can substitute the pork with figs and we're gonna be using I would say five This is a very easy soup to bake So you literally just put all the ingredients into a pot and add water Oh My gosh it's very good Oh so yummy Oh my gosh And it's got a lot of good flavor in it I love this We actually grow that in our backyard How fulfilling is it that you've done this cookbook with your mom She's taught me a lot Um And she's also the reason um that I got introduced to traditional Chinese medicine and began a healing lifestyle for myself I think my biggest um motivation for writing a book is to share with everybody I always want to um share my knowledge with especially non Chinese We did this because we thought this is easy for everybody to apply to And so when they go home they have a good refreshing in figuring and healing soup for them to enjoy at dinner time

All right So where else to go What to eat And who has the real word on the street Women's wear men's wear accessories bags backpacks you name it anything creative I love to have a hand in it My name is Isaac and I am the designer behind Solomon Lawrence dot com He's made his mark in fashion two letters at a time and a unscripted has your exclusive invite to his latest private a launch who wears Solomon Lawrence So we have Ray J which is one of the first to jump on the bandwagon and then there's princess which is his wife I think a lot of people that are in the fashion space the industry from photographers a lot of artists um wear the clothing brand Me trying to fight through that and pushing to show the world that we can be so much more than street wear So I guess that's kind of been one of my objectives leveling the playing field of fashion could be a lesson Isaac took from his dad's playbook NFL Raiders legend Henry Lawrence My dad has always been follow your own dreams and I think I've been fortunate enough to kind of have my own identity So my family has definitely been a huge support in helping me develop this business I would say the overall aesthetic is just vibrant and colorful Like I want to develop a brand that is that has a strong attention to detail Um Something that really makes the customer look and feel beautiful So for viewers who cannot attend tonight's event we're doing the SI Holiday Party December the 17th So be here or be square I bookmark that one for sure but keep your phones out because this one's cool too So this is our latest jacket from our 2022 collection and it's obviously like an animated horse jacket kind of a nod to you know old neon signs There have been lights in flows before but it hasn't necessarily been a brand that solely focuses on how do we make products that have light technology infused in it I'm Asia Hall and I'm revealing how neon cowboys is lighting up the fashion industry We have a pretty extensive celebrity clientele list We worked with Kesha and Dua Lipa Missy Elliott as well Miranda Lambert we did her music video Meg the Stallion we did one of her music videos as well as Selena Gomez as well one of the Casey hats as well So this one is actually our Casey Musgrave hat which we collaborated with her to do with her logo So Neon Cowboys was inspired when I was at stage coach back in 2013 stage coach is like the country music festival for California So at night the energy is really lost because it's just like pitch black and people are just kind of focusing on the headliner But I felt like the crowd wanted something that was like a little bit more lively and something that kind of kept the party going into the night You know mixing that with the idea of when you look at a neon sign you know if you were to look at like a beer sign or something it

usually would have a cowboy hat in it Um And so how do we kind of get people to be able to wear that hat is also part of where the inspiration came from So we're mostly known for our young cowboy hat which is this one right here The cowboy hats took me about five years to really get mass produced The 1st 3 to 4 years I was actually hand gluing them all and selling them at festivals wore them Like I think 13 of my friends we all went to stage coach the next year after making the handmade versions out of ice buckets and people went absolutely crazy Like it was like you know chasing us down asking them where do we get them trying to buy it off of our heads trying to steal them off of our heads And so it was then that I realized that people were resonating with it more than I thought So I grew up in fashion and I have a background in design as well Uh My father is actually Kevin Hall who is a couture designer and used to be the creative director for halted when I was growing up they're actually um inspired by you know Cinderella So that's why they call it out past midnight Booth There's been so many people that really love the product especially internationally because I think that they identify it with the American dream and can also feel like you know it's a new wave of this inclusivity and diverse um take on Americana culture Don't forget you can always check out our Instagram page or website for all the places we visit But we still have so much more to share tonight when L A unscripted returns Welcome back everyone to a unscripted I'm de and we are so glad you join us every night for these 30 minutes of fun because if you're like me you suffer from major fomo you know fear of missing out and you absolutely don't want to miss out on this It looks really good It looks beautiful when it's lit So we are here today at c premium outlets located in Camarillo in Ventura County just to the north of Los Angeles We have 100 and 60 stores featuring everything from luxury to our core contemporary brands We really have something for everyone here in camera So outlet shopping is really special because you can find really amazing deals on basically everything that you're looking to shop for We have luxury outlets here in Camarillo much closer to Los Angeles and we have brands such as Versace Jimmy Choo ST John Bali Lafayette 148 New York We have the first and only barefoot dreams here Johnny was and Purvi just opened as well Purvi bracelets we have everything here for everybody on your list from menswear to women's apparel accessories purses bags wallets great gift accessories like cosmetics and then everything kids So we do have a play area It's over in the promenade court Every time we go by there there's Children in there It's a really family friendly little area for the kids to play
