

LA Unscripted | September 15th, 2022

It's a city where anything can happen So what could go wrong or Right
As I hit up L A unscripted we live in a city with endless things to do and
people to meet and we want to do it all with you Hi everyone I'm Devin And
we heard Bil Lake or small plates serve up big taste Now here's something
else you have to try ball and bounce is an indoor kids playground for kids
anywhere from 1 to 67 years old Anything to do for their sensory needs fine
motor skills just having a good time The first thing when they walk in they
see our ball pit and they run to the ball pit They go down the slide and boom
into the ball pit We're at ball and bounce A great new sponsor and I had to
bring the biggest kid I know Hey we have to take the the slide apart We have
our interactive sandbox It's like soft soft sand That's very good for kids I've
had more fun than the kids swing set We have we have rock climbing We
have soccer field We have a basketball and our number one game here is our
draw live You basically draw anything like a dinosaur or an animal You write
your name on it and you scan it and it appears on our 100 inch TV Here
comes my why does her have sparkles Hers have sparkles Who's Bobby
Bobby Get out Yours can't do really much what I'm doing a lot Like what
taking care of the nature of the you know at least it's not polluting the sky
like yours pollution Mine has no carbon footprint in the mornings Generally
we have some classes for the little ones under 24 months We do mommy and
me toddler and me classes and then generally we're just open to the public
Either you can come in as a member or come in as a one day pass A lot of
these kids come in They're scared to be here because you know they're two
years old three years old They've never been to a like this but once they start
opening up and warming up they're crying on their way out because they
don't want to leave And we're so excited about our Encino location right now
We actually launched our calendar for the birthdays 10 days ago and we've
gotten seven bookings already and they haven't seen the space because I love
kids I'm doing things my father wasn't able to do for me No from the valley
to the ocean the mountains the desert and everything in between There are so
many incredible enclaves to discover in southern California So now let's see
what our Jasmine Simpkins has discovered Oh my goodness Where's the
chef I wanna kiss him This is really good They call it No regret Spaghetti I'm
getting ready to fill this bag with lots of imposter My name is Harrison
Litwak founder of imposter restaurant Wow We came up with the name
imposter Actually it comes from a knock knock joke What do you call a fake

noodle An imposter So we thought that would be a good name for our restaurant because we do all vegetable based noodles like spaghetti squash zucchini noodle kelp noodles So it's kind of a play on words We started as a ghost kitchen which is all delivery just on the major delivery apps like Grubhub Uber Eats And then we transferred over to this restaurant kind of in the heat of the pandemic We built it to be 100% outdoor So it's COVID friendly And now here we are my soul is very happy eating There you go Yes I actually lost £60 doing keto dieting So discovered through the low carb dieting that you could eat all these various types of noodles made of vegetables And that's why we call it no regret spaghetti So it's low calorie low carb and gluten free I'm 30 yes it is very nice It's a lot of responsibility but it's very rewarding We love coming here every day and serving this food because there's really nowhere else to get this kind of food So people get really excited about it Beverly Hills is the best Um It obviously has all the prestige of Beverly Hills but it's really a small kind of almost like a neighborhood community We give 50% off to all the firefighters and policemen and they're always coming by I'm close with the mayor Lily Bossy who is a wonderful lady who always gives her support It's really like kind of like a close knit community of businesses and uh people that work and live here All right Jasmine Now it's time to feast I've been waiting to do this Yes this is our vegan bolognese with zucchini noodles So this is my favorite and kind of a staff favorite It's a Romesco sauce with a hearts of palm hearts of palm noodle And on top you're gonna have our uh vegan impossible sausage that we make in house My goodness over here we have a butternut squash that we hand ribbon into like a tagliatelle That's a white wine reduction with truffle mushroom sauce Also featuring our vegan Baratta that we make in house that's cashew based And this is our vegan lasagna made mostly of eggplants and layered vegetables And then over here it's kind of covered by our grilled vegetables but we do a vegan red pesto with kelp noodle What This is a Margarita pizza All the dough we make completely in house No compromise Health food You still feel like you're eating a hearty healthy delicious bowl of pasta You can eat this and still lose weight That's what I like We have beer and wine and pasta and we actually do wine Wednesdays where we offer bottomless house cabernet with any food purchase I love that I will definitely be back Cheers Cheers Thank you for letting us come and have lots of pasta Of course And if you guys have some ideas tell us where to go next because by now you guys know I am Dana down to do it all unscripted I'm taking a swing at one of las hottest and

most intense workouts will I prevail honestly I don't know but I'm going to find out Come with me reveal boxing is everything that is boxing and fitness combined into one So when you come in you can expect to have about 50% boxing 50% full body core work agility work cardio blaster Are you counting Yes I am It's the last one Hey grab a plate This workout literally the total full body workout package In boxing you have to have a really quick feet So we work a lot of stuff on an agility ladder You're pulling my chain the whole time you gotta do it You have to have strong upper body in order to endure some punches and to be able to throw the punches your lower body has to be intact and then just the mind body connection of just having a strong mental mindset Take a step forward with your left foot right foot out to the right about a half step or so bend your knees a little bit Put your hands up right here because you've got to protect your moneymaker Ok That's not my moneymaker What do you say to people that have never done a boxing workout And maybe you're a little intimidated by it So that's one thing that we kind of specialize in is trying to take away the intimidation factor of boxing We have a really good community and our coaches are such good people But the main thing is we want you to feel empowered when you walk out of here So you get a little bit of a taste of what it feels like to hit the bags and to train like a fighter But without actually getting hit in the face we've had as fighters come in here and train We've had jiu jitsu guys who want to level up their stand up game for their ma careers It's 100% available to whether you're a novice whether you're a beginner or whether you're an advanced boxer This is the home for you Ok There we go You like an official boxer Ok Here we go Hands are up 123 there you go Back hand up Ok 123 There we go How many calories would you burn in a class like this So from my experiences and from all the Instagram posts that I see most of our prevails posting anywhere between at the low end 400 calories in a class The high end I've seen 1300 calories burn in one class before But I would say broad spectrum probably you can expect at least 430 to about 600 per class Depending on how hard you're pushing yourself though too It's not easy This is not easy I'll tell you that here It's all about supporting one another and you'll see that with every single community member that walks through here everyone's here to champion each other And even when you're in the stations we do a lot of group work A lot of partner work We're there pumping each other up Once you walk out of here you feel you feel good I really liked him in the beginning but now not so much now I'm gonna hit his butt in the R OK Dana remember hands up try to score anywhere from the waist up touch

gloves left foot forward and we'll start moving OK You ready to go I can hear you anywhere Are you sure Let's go Ok So I premi and we are just getting started A unscripted from B Silver Lake will be right back Welcome back to L A unscripted from B Silver Lake I'm De and we want to know how you live life unscripted I mean what does that really mean to us It's going outside of our comfort zones discovering new places like this one and meeting new people that make so so special whose house football season has officially started And our sponsor Toyota is here to make your SOFI stadium experience even better Stadium is really an incredible building Some unique facts about it is it's actually 3.1 million square foot footprint which is now the largest stadium that there is currently Toyota You know really is a staple of Southern California We are very fortunate to partner with them as you see around here Not only this club that is incredible well done and activated That's also for not only Rams games Chargers games but all stadium events and tours and private events that we hold in here on a consistent basis but it goes beyond that It really goes into the charitable nature in which we work with the Chargers the Rams the stadium in Toyota And we really compile and work together Get a lot of great events out in the community We make great vehicles we make safe vehicles and we take pride in the vehicles that we do put on the road This is the Toyota patio Look at this So this is an amazing place to hang out on game day You name it It's a great place to sit down grab something to eat grab something to drink check out our vehicles but more importantly you can check out Rams legends They'll stop by from time to time The Mariachi band shows up here rampage The mascot shows up here The tota Patio You also have the cheer here as well Giveaways prizes You name it the place to be I'm telling you is the Toyota Patio that right there is Toyota Racing development Go over rocks boulders mud dirt sand You name it The TD Pro can handle it The nice thing with that TD Pro Tundra has unique badging Of course same thing A four run that aluminum skid plate which is great I love about 1.1 is higher up off the ground camouflage badging that you can kind of barely see I can't believe the football season is back already here back at so far last time we were here we just won the Super Bowl No big deal And it's a little bit of choreography that goes to any music that DJ Malsky is playing So we're going to teach you that right now Choreography Ok Ok 5678 and slide again slide ending post Here we go and hit it the rav four prime that we have here This is like it's the best of both worlds because it's a plug in hybrid So you have the ability to drive about 42 miles in strictly electric vehicle mode So if you plug it in it takes about four

hours or so 2.5 to 4 hours to charge it up And then a full charge you can drive 42 miles a single drop of gasoline But for those who want to go on a longer road trip or if you don't have time to plug in the vehicle for the day it's ok too because it has also a gas engine also So when people come here they can get a shirt made they sure can you spin that prize wheel and then check your watch because your life's about to change Oh my gosh I'm ready Ok So what do we do All right So grab a shirt then you grab this awesome Rams logo Vamos Ram Put it on the shirt It looks great Ok All right Now grab that handle and press her down All right let's see how you did it Gorgeous That is great And we have so much more for you going off Script is far more fun than sticking to it right So come on back with us There is just so much to discover here in So Cal like this place and now check this out I always knew I wanted to do something that was a little bit more familiar to me that I I grew up eating on the corner of the street You know the the \$1 taco \$3 tacos are the new dollar taco trying to tell myself that at least So go go is my mom Yeah she was like the go go surname is Gloriavale And I wanted to name it after her We recently lost my dad this year So I like that It was like go go And it also really ties into like my family She was always the one that was like taking care of everybody So what is a go go taco So the gogos taco is like a secret menu item taco So it's a griddle cheese taco You get any protein you like And then the sauce is a really fun like it's a secret sauce It's our Gogos sauce but it is like a creamy avocado cilantro tacos is not reinventing the wheel I just wanted to do a model very similar to what we know with hamburgers which is just like we got a cheeseburger and French fries But with tacos So for us we do five different proteins a burrito or yeah And then we make whatever you want and we just do a little bit of Sprinkle on top in 2020 Last year I lost somebody to suicide And it was very difficult especially because of the pandemic The grief was intense It was like what does it all mean You know it was tough and it was just kind of like a kick in the butt that like we have I have to do something and I have to do it as soon as I possibly could was born out of like that idea And so our trade is tacos but we support our social good which is the one Carlos Pan to foundation And there we help transitional age you with like mental health services educational services and professional services We are on the corner Beverly and Westmoreland which is across the street from people assisting the homeless So any time somebody comes that hungry we do feed them We're hoping to reduce homelessness or at least contribute to one person not going without food or not going without shelter or having to sacrifice education or

goals because of barriers that we can super help with But I mean it all starts with like a meal And so that's what we got is meal and that's not all here's some more to keep you in the know time to check in with Christian Wessel from she exac who always has some great products and even better deals for our L A you viewers What's on tap for today Christian actually water believe it or not clean filtered water which happens to be the foundation of a healthy the good for a company is here to provide you with peace of mind for you and your family with their water filtration systems whether you need a simple showerhead filter or an entire home system for cleaner dishes In the purest drinking water They are here to support all of your water needs and keeping with water time to add some coffee Your morning ritual just got smarter with planting nutrition They offer 100% pure plant powered coffee high in nutrients and vitamins with fair traded Colombian beans backed by Science plan T smart coffee boost your energy levels to help you lose weight and promote overall wellness Speaking of coffee the founder of Los Angeles based Angelino's Coffee Pedro is embarking on a one of a kind incredibly ambitious and buzz worthy passion project called Where Coffee Takes You This is a premium travel series where Kirk is attempting to travel around the world to the 48 most amazing coffee countries highlighting the people and places and sharing the inspiring stories behind your Cup of Coffee The youtube docu series will air monthly and you will not want to miss it from coffee The small girl cocktails a woman owned and founded Vodka lifestyle brand that packs a punch at over 11.5% alcohol This ready to drink vodka cocktail gives you the perfect buzz with just one can just pop and pour Then we have liquor What a great gift with a sweet fun twist to it Each liquor what box comes with six Belgian chocolates with decadent cream filling Each box includes three dark chocolates with rum truffle filling and three milk chocolates with champagne cream filling They are delicious Ok Time to let the games begin We have a surprisingly fun board game that actually doubles his art Xox share The love is a great way to connect with family and friends X so X is the winner of Best in Market and best product home design at this year's New York now trade show And while you are cozy up playing a game we have these beautiful throws and blank from pretty rugged by Tracy Lock on This is a woman run company from upstate New York The company features cozy and beautiful blankets outer wear and accessories that are all windproof waterproof and machine washable The products have won multiple awards for their innovative waterproof fabrics reversibility and luxurious four seasons for and just in case one of our furry friends has an

accident on your beautiful blanket or anywhere around the house really Sprinkle and sweep has reinvented the experience of cleaning pet accidents for tens of thousands of pet owners in the US It comes with a sweeper and eliminates all odors on contact So no more smelling feeling or even seeing a thing as you clean accident And if you have an allergy to a pet ragweed or any other environmental factors the New Guard medical grade Manuka honey provides natural and effective relief Their nasal sprays are made with medical grade Manuka honey and cleansed of any impurities that are not a naturally occurring part of the honey It's a great way to combat any type of allergy And how about we wrap it up with great wrap A company that helps eliminate everyday plastics founded by Jordy and Julia K from Australia This is a compostable clean wrap made from potato waste It comes with a refillable dispenser and great wrap completely breaks down when placed in a compost pile and less than 180 days leaving no toxins behind that is it for She execs must have items We have an exclusive deal for KT A and scripted viewers Just go to the websites of any of the products listed here today and enter KT A 20 for 20% off every product You can also find more information on all these products on our website She that stock Ok That is it for now Thank you b for allowing us to party on your patio This is our new favorite restaurant Where will we pop up next You never know Stay tuned We'll see you next time
