From hot spots to hidden gems We're discovering all things local The L A unscripted way you ready You know the County of Los Angeles includes over 400 neighborhoods So whether you frolic in Los feel or keep it cool or maybe been out to the eye it might feel almost impossible to explore it all which is what we're here for Hi everyone I'm David De from the bourbon room in Hollywood And if you give us half an hour we will give you the sunny So inside scoop we are at a restaurant in downtown L A specifically the arts district They say when you eat their food it makes you want to do a little cha cha cha which ironically is their name So a cha cha cha comes from a restaurant group back in Mexico City A lot of people like to call it la cha cha cha So whatever makes them happy Hi I'm Janelle and I'm the general manager of L A cha cha cha for traditional Mexican food coming from Mexico City However we've incorporated a lot of childhood memories from the chefs in our kitchen We really wanted to specifically in downtown create a community space for locals around here Once you walk up the stairs you know people don't expect to come into this beautiful restaurant space with all these lovely plants tropical plants and some cacti and just creating a different element I just want to cook good food You know this is a great place where we share opinions and you know at the end of the day we have great food because everyone's a little bit involved Not just you know myself or the sous chefs or or the managers here like everyone from the beginning of the day to the end of the day is somewhat involved in every little thing that we do What are we making today Uh we're gonna make our aguile which is one of our most popular dishes here at the restaurant What is the first step First We're gonna get here our shrimp Ok This is uh Mayer lemon juice salt cucumbers onions and a ton of Serrano So it's a little bit acid The flavor is so good and it's very citrusy And then with the shrimp is just very good very well done I'm not very well This is one of our brunch items Uh currently available on our brunch menu We use Scottish salmon and uh smoked salmon hot smoked salmon and then we mix it with jalapenos shallots cilantro and a little bit of lemon vinaigrette And then here we have uh this is a mascarpone and we're gonna finish here with a little bit of a little spice We're gonna add just a little bit of caviar It's like creamy but we still have a little bit of the saltiness Oh my God Really Well done You notice our bar kind of represents the agave plant being green and also want to be very inclusive with it being a really focusing on a community side where you get a whole picture of the bar and

at any moment anyone can be talking to each other from the art and really creating new relationships in downtown community Everybody that we work with from ownership all the way down are very good people and obviously the food and drinks are excellent and speak for themselves My personal favorite drink is the strawberry milk punch We strain all the milk out so that you get this pretty clear pink and the pinkness comes from the strawberry brandy that we use Here we go Oh my gosh This is a Mes Mescal Verde It's a it's a sine ah it's so colorful and perfect for someone Oh my gosh That is so good I mean the district is like a little little piece of heaven away from the craziness of downtown And then you get to look look over at it Sunsets here are beautiful really cool environment Do as the L A unscripted crew and try something new Our jasmine sins can't stop raving about her latest fun lau is turning to and what better place to celebrate than John Incredible pizza who just so happens to be turning 25 and I've gotten credit to be here with me Let's party Well first of all thank you all for coming We're excited to have you here and to be able to showcase what we do here at John's What's your favorite pizza Honestly my favorite pizza is a peanut butter and pepperoni pizza We opened our first establishment in uh 1997 in Victorville California A year later we put a unit in Bakersfield and then the year after that Fresno Modesto Stockton Roseville and so forth And so we've been doing this for 25 years now We have 10 locations open at this time nine of them in California one of them in Las Vegas we opened in literally a matter of months before the pandemic hit and we had to close down but it's a beautiful location It's close to downtown Los Angeles So John this is where all the magic happens I take it we have three different conveyor ized ovens so we can cook 50 pizzas at the same time Well number one we are an all you can eat buffet you pay at the door fixed price you come in and we offer a tremendous variety of pizzas Our pepperoni and peanut butter pizza is actually quite a popular pizza It doesn't sound like it would be but it is but for the adults we've got Canadian bacon and pineapple and um just all all kinds We've got the taco pizza almost any variety you can think of Uh we put out there and if we've got the ingredients in stock and someone asked for can you make a pizza with this this and this We'll we'll do that for them In addition to that we have a full line of pastas Uh we have fried chicken we have a huge salad bar lots of desserts And so we try and create something that'll that'll satisfy most everybody's palate We're not just for kids And that's the message that we try and get out there We've designed this for the whole family I want mom and dad to come in So this is the secret to the pizza This

really does help I mean it's called a spiral mixture That bulbs spins one way that the the dough hook spins another and it more gently kneads the dough Um but that is where it all starts Yes we make this several several batches a day every day and make several £100 a day here And so we have the five different themed dining rooms on this half of the building and the other half of the building we have I think this location has 10 independent party rooms One of our big highlights are our birthday parties It's all you can eat in every one of our party packages We offer So the guests get to choose anything they want from our buffet So here at our Carson location we have Crazy Eight which is our main attraction We also have Blow Golf here We have our kitty carousel and bumper cars Different locations have different rides depending on which store you go to We have new games A lot of the newest technology arcade games such as Halo We have a game called Asphalt Nine which is a car racing game It's really neat but there's over 100 different arcade games here So there's a lot to choose from Our mascot's name is Incredible Bear We use them for different events different promotional items He'll come out and do different dances picture events when we have special events going on like our upcoming 25th anniversary So it's pretty neat We definitely do a lot with the community We try to do a lot of different promotions especially with schools camps I was probably about 15 or 16 years old when the Montclair store opened up near my house and I did used to visit and then started working at 17 years old for the company It definitely does take me back to my childhood coming through and seeing all the kids happy And it's really the highlight of my day is when I see everyone having an incredible time I love coming in here and see young Children with big smiles on their face My parents are happy and everybody is having a good time It feels great to have made it to 25 years because I can take the satisfaction in knowing that that I've accomplished something that has brought a lot of happiness to a lot of people We've had thousands of birthday parties over the last 25 years People that come in here and just celebrate that special occasion And to be a small part of that is pretty gratifying to me I won all the games and there are even more hidden gems we're uncovering after the break So don't go anywhere If boy bands are your jam Say hi hi hi to the Bourbon room's boy band brunch Pop up grab your groupies to not on a 98 degree breakfast sausage burrito or say to ado toast if you like it that way Don't be the last kid on the block to get tickets at bucket list dot com See unscripted always with the right stuff Ok Pop quiz Name Three iconic L A landmarks Welcome back to L A unscripted everyone I'm Devin And if you're like me you ace that quiz
