Buckle up everyone get ready for our maiden voyage on our RV trip to Palm Springs What I'm doing Hello everyone and welcome to the L A unscripted road trip I'm Dana Devin and this baby is our new home on the road Thanks to our sponsor Dennis Dylan RV First of all we live in the absolute best state in the country for RV Take it from somebody who's traveled them all been all over in an RV There is no better place to RV than California Dennis still an RV It's been in business for almost 50 years now We're pretty proud of this location right here off the four and five and the 22 I mean we we we have it all we have as you as you can see Now we're in Westminster 10 minutes away from us are the most incredible campgrounds in the country right along Bolsa Chica Huntington Beach Newport Right You could book a hotel somewhere close by but you're not on the beach We have travel trailers we have fifth wheels and every type of motor home that you can imagine Right The sprinter van that have become so popular these days and that fit on all the the nice little beachy areas the class CS like what you're gonna be going out in right The class a both gas and diesel And then another really popular segment like what we're standing in here right now which is our Super Sea lines right These are more like they feel like almost like semi trucks with RVS built built on to them One of the reasons I think is so popular and whether it be by airplane by train by car you can take it all with you The vacation starts the second you get in here We really like to think that what we do here is create an environment where you can come in feel like you're part of the family because it's not just buying the RV If it was just buying the RV again you can get it anywhere What is the name of this RV Ok This here is a coachman It's a 2017 coachman leprechaun Ok And what can we do Can we give it a fun name Like let's name it like Pearl There you go Awesome So I'm a little bit intimidated because I've never driven an RV before So what should I know first Well it's like it's just like driving a regular vehicle you know van So it's nothing you know nothing different from a van So it's just just a little house on wheels No big deal I can drive a house on wheels Should we take a tour And of course let's go They're pretty basic Right So if someone knows how to drive a car of course they could drive this We'll see if that's true Top three tips get the RV that really suits you and your family make sure it fits your budget But the biggest thing is just come into it with the right attitude Right This is all about creating those memories those memories that last a lifetime So come into it with the right attitude and
