

LA Unscripted | July 4th, 2022

From hot spots to hidden gems with lots of local flavor in between This is your guide to soocal the unscripted way from Grand Master Recorders in Hollywood red white and rock and roll We are celebrating America's birthday from the rooftop of the historic and hip hop spot Grand Master Recorders Happy fourth of July My friends I'm David Devin and this is L A unscripted and as parades barbecues and fireworks are popping off We are getting our groove on where the world's greatest artists have laid down life changing tracks OK To help you live your best life think big but support small businesses Now your ticket aboard a local photo bus must it is an event within an event and it's a vibe But until you really see it in action do you really understand what that means This is insane This is so cute Wow So you bring this everywhere Yeah This entire setup goes everywhere We do any event where a photo booth is wanted and it fits Obviously we put it in backyards we put it in small little halls We've done graduation parties we could do bachelorette parties weddings anniversaries It just so happens to be that weddings are the biggest clientele designed by love Photo Buss was founded in the beginning of 2020 I've wanted a VW bus my entire life my wife the designer of it all decided to decorate it get everything set up We advertised and set up a photo booth inside of it The macrame the greenery Just recently we started to put a little bit more desert kind of plants in it because we do so much in the desert now So we often ask our brides you know what's the color theme or just what theme in general And if we can you know change things around even go get specific pillows or plants or flowers that will match their theme You can go ahead and have a seat inside I cannot get over how cute this is Oh my God I want to live in here Our bus is actually a photo booth You actually sit inside it prints out two by six photo strips Ok So Ready Violet Ok let's do it Ok Ready look right here The very first event that we did I was actually shocked at how people just flock to the bus and not just to take pictures They want to take pictures in the front they want to take pictures in the back They wanna take pictures while they're you know take pictures of us while we're taking pictures inside I'm driving the long photo bus Let's go get in So a lot of and grooms like to stand in front of the bus They like to actually sit in the front seat We have safari windows which is unique to this bus We love unscripted We had actually seen you guys do an event on some other kind of vehicle So we reached out you guys called us back Oh my God These are so cute and you have scripted on this is

so cute Look at these So we also have the option of customized prop Ok so we have this for you Mark no one invited you in this bus Ok That's hilarious Ok Mark's known for something called the smile which is when he smiles with his eyes but he also does this with his lips So I'm gonna try and do it Ok ready It's pretty good Ok there's some junk in this trunk so I have all my photos now Ok so what are we going to do with that We're gonna set a spot for you right there We're going to put a sticker on it for you Ok And then you're gonna sign away and then we got we get it and we present it to the bride and groom at the end of the night and then they have their keepsake the gift that keeps on giving We could travel 100 mile radius anywhere from the center of L A So our opening packages start at \$1000 and then travel fees are calculated after because we love L A unscripted We want to share this discount of 10% with all of our fans out there with the code unscripted You could reach out to us on our email or by Instagram They were so nice and they say a picture is worth 1000 words and designed by love reached out to us for its close up So make sure to DML a unscripted about the small biz that makes your community better And now from saying cheese to cheese dogs this independence day we are getting cheesy and I am OK with it Are you gonna make a cheese dog Yes I am I was working at a Mexican restaurant as a GM and this pandemic hit the restaurant closed down and I was at home thinking of what to do And we came up with this concept just adding cheese to a corn dog and voila These are all the cheese options we have here How many cheese options We have four options We got the cheddar the pepper Jack the mozzarella and the Monterey Jack Oh I love pepper Jack It's called Peat Man's cheese dog Drop it in there flat and then roll it back and forth back and forth I was watching youtube and I saw this Korean place their street food They were very popular The concept was very easy Pretty much We just added cheese to it And we came up with this just put it in the clip just put it down there Ok So the batter was main challenge because the hot dog is a hot dog The crust is crust The cheese is cheese Main ingredient here is the batter and it took me quite a while to get it to the right place Oh look at it I want to introduce my family They are part of my business our business the first time my oldest Nicole she's 21 and then my boy Michael he's 18 and our youngest here Madeline She is six years old Sometimes she comes daddy Can I help you And everybody's part of it You actually became one of the contestants in a cheese pulling contest and one tell me about that Well I think my cheese very seriously So and I have really long arms I was able to pull the cheese really far and I'm very competitive So when people come to

cheese dogs and they want to and they want to have a good cheese pull What are the tips The tips are a little bit slower Get a very hefty bite Ok You good at that You just pull slow and kind of pull up Ok Ok Can I be Frank with you Frank with you Ok It's a dog eat dog world out here right So I think we need to go head to head or Weener to Wiener and do our own cheese pulling contest Let's pull I got to go change it to something more comfortable I'll be right back You take a bite Let's see Who has the longest cheese Ok Le ok So how many people do you think are wearing a hot dog costume today to celebrate the fourth Come on I can't be the only one and here's some food for thought It's believed hot dogs have been in the US of a since the 18 hundreds But what's another popular American staple being forked out for the fourth barbecue Now my Dana dare time to get sauce We decided if we're going to do barbecue we're going to do it authentically how it's done So from the wood to the equipment the styles and cuts of meats that we buy took a little bit of time to understand it but it sure comes out good Hi I'm Rob Cerita founder and head pit master here at Holy Cow barbecue And my dare today for you Dana is to create your own special signature barbecue sauce We do hit a lot of different taste buds here at Holy Cow We have people that come from the valley from Orange County We love to get to know new customers and we love to give them a taste of different things We do This barbecue might be the closest thing to Texas brisket that you can get outside of the great state of Texas Really So we're going to make our own barbecue sauce Well you've got to have some base ingredients If we're going to make a barbecue sauce for like ribs or chicken What style would you like it Sweet or smoky Great question A little bit of both I'm from Texas So I do like sweet I do like smoky I do like a little salt A little tang to it So I'm gonna pour that in there We're gonna get all that ketchup in there Now this is hot This is Cayenne I love Cayenne Let's add I've got some coffee here Coffee is gonna give it a nice deep rich flavor We do the liquid smoke Yeah No be careful with that That stuff is like TNT It's really good It's really good Right OK We have a new barbecue sauce folks at holy cow barbecue called Dana's Share barbecue sauce A scripted You don't even have to pay me for today This is on me We love what we do and it's very satisfying when someone comes in and just thank us and says hey that's some of the best barbecue I've had Oh my gosh That place was amazing And July 4th is mouthwatering fun And our summer soiree is just getting started coming up swimsuit styles for everybody Plus the season's knockout workout when L A unscripted from Grandmaster Recorders returns Welcome back to L A unscripted I'm Dana

Devin and the kids today would call Grandmaster recorders on Kanga Boulevard in Hollywood Straight Fire Legends from the red hot chili peppers The black crows Johnny Mathis and Bonnie Raitt have all recorded here and today we're making our July 4th 2022 playlist and now another drool worthy local Must try I'm Morgan This is I'm Kelly and we are the owners of Cuba's hot Dogs which our grandparents started in 1946 So if you came here 40 years ago you almost feel like you're going back in time I was like roller skating every day and you know I worked a lot of shifts in the store and I just thought oh man I wonder if I could wear my skates while I'm making hot dogs And so then we got the idea of like oh what if we could do car hop service And we had our first car hop Valentine's Day weekend we posted a video about it and it went viral Ok So I have my skates on I will tell you I don't really know how to roller skate I don't know how to stop I don't know how to spin I can basically just glide forward That's a good start That's a good place to start from But what do you want to learn how to do How about spin Pick a focal point So I'm gonna look at that tree if you want to look at that pole and you can even put your arms out right in front of you So you're gonna open them like a book But if you really want to know how to stop quickly so you have to be able to go backwards So I go backwards and dig in two I think key things to remember here So what we like to do is you grab the tray and you actually keep your thumb on this because otherwise this will slide around And we learned this the first time we did car hop You don't want to put drinks on the and then the third tip don't go too fast OK Who wants a hot dog and a coke And how are you celebrating America's 139th birthday Tag us in your community celebration and ours is not over coming up more July 4th fun when a unscripted from Grand Master recorders is back before you can sing the star spangled banner Oh say can you sing What is your go to tune for the Fourth of July Mine is Miley Cyrus's party in the USA and all fourth long We've been hitting a high note and celebrating America's rocking birthday from Grandmaster Recorders Oh I love this rooftop summer has officially started Woo Do you have your swimsuit yet We do The swimmin isa was developed out of the need for swimwear for us women who are always trying to find the perfect fit It evolved from a conversation that my friends and I had on a trip to Mexico initially it started like a lot of us women as we got older like our breasts were larger and we couldn't find things like that you know that fit Exactly Right We're all complaining how you know this strap needs to be a little tighter and this one needs to fit better So I started taking my bathing suits and Frankenstein and

them together to try to get the perfect suit You don't just get into fashion overnight designing overnight What is your story My business partner's girlfriend had a pair of jeans on and thought she looked real cute And my partner was like no I can make you cuter jeans So that's how Rock Republic started She sold the company Ok I had a baby What year was that That was in 2011 So used to come out just a couple of years ago I also wanted to bring great colors I wanted to bring an eco element to it All of my materials are made out of recycled post consumer goods I'm just trying to put a lot of love and positivity into everything According to your website I am a medium you sent over Fuchsia and leopard I so appreciate it Thank you so much Tell me about the Fuchsia I love the color Oh isn't that color beautiful You can feel inside it has the power mesh line so it really supports you really good It has the adjustable straps like in the back that you can move around and then you have the leopard cheerful you know some leopards it's a fine line They can you know really cheesy you know so it's a good leopard You're so right Thank you for making the right leopard Thank you for doing this sustainability This is for women by women We appreciate you Good luck to you and your daughter Ok swimsuit check But remember don't get burned Now Rich on tech Has you covered the sun The surf the sand It's that time of the year when we're using more sunscreen I've lived in Southern California my whole life So sunscreen's definitely been important We lather it on then relax Had skin cancer scares in my family and it's just really important not just you know for sunburns but just skin health in general I mean everyone's good at that first application but read the back The fine print says reapply after 80 minutes we forget that's where a sticker called spot My UV could come in handy It's nothing like this in the world at all It doesn't react to heat it reacts to the UV rays affecting your skin and that is completely 100% unique The tiny stickers start out purple go on to your skin then apply sunscreen including over the sticker It will turn clear to let you know your sunscreen is working when the sticker turns purple again it's time to reapply The spot will wear much faster than when your skin is health aware when you are being affected by harmful UV rays So it's a clear indication of when you have to reapply your sunscreen way more than your skin will be the biopolymer tech inside the sticker created by university students It's won over 50 awards students at the University of Waterloo are nanotechnology engineers and they actually created the sticker because they had friends and family that were affected by skin cancer A colorful reminder for more fun in the sun It's super small super compact and the technology is so cool and it's

going to save me a lot of you know worry about remembering to do it when the sticker right there I can just look it's purple got to reapply it is water resistant and sweat resistant and effective for at least six sunscreen applications I burn really easily And so you know if I just forget after a couple of hours it's almost like I wasn't wearing sunscreen at all I'm Rich Demeo a unscripted OK So you have the suit and the sunscreen now More healthy vibes coming your way with a 12 punch I'm taking a swing at one of the hottest and most intense workouts will I prevail honestly I don't know but I'm going to find out come with me reveal boxing is everything that is boxing and fitness combined into one So when you come in you can expect to have about 50% boxing 50% full body core work agility work cardio blaster Are you counting Yes I am It's the last one Hey grab the plate This workout Literally the total full body workout package In boxing you have to have a really quick feet So we work a lot of stuff on an agility ladder You're pulling my chain the whole time you gotta do it You have to have a strong upper body in order to endure some punches and to be able to throw the punches your lower body has to be intact And then just the mind body connection of just having a strong mental mindset Take a step forward with your left foot right but out to the right about a half step or so bend your knees a little bit put your hands up right here because you've got to protect your moneymaker ok That's not my money maker Ok What do you say to people that have never done a boxing workout And maybe you're a little intimidated by it So that's one thing that we kind of specialize in is trying to take away the intimidation factor of boxing We have a really good community and our coaches are such good people But the main thing is we want you to feel empowered when you walk out of here So you get a little bit of a taste of what it feels like to hit the bags and to train like a fighter but without actually getting hit in the face we've had as fighters come in here and train we've had jiu jitsu guys who want to level up their stand up game for their MMA careers It's 100% available to whether you're a novice whether you're a beginner or whether you're an advanced boxer This is the home for you Ok There we go Like an official boxer Yeah Here we go Hands are up 123 There you go Back hand up OK 123 There we go How many calories would you burn in a class like this So from my experiences and from all the Instagram posts that I see most of our prevails posting anywhere between at the low end 400 calories in a class At the high end I've seen 1300 calories burn in one class before But I would say broad spectrum probably you can expect at least 430 to about 600 per class Depending on how hard you're pushing yourself

though too It's not easy This is not easy I'll tell you that here It's all about supporting one another and you'll see that with every single community member that walks through here everyone's here to champion each other And even when you're in the stations we do a lot of group work a lot of partner work We're there pumping each other up once you walk out of here You feel you feel good I really liked him in the beginning but now not so much Now I'm going to his butt in the R OK Remember hands up try to score anywhere from the waist up touch gloves left foot forward and we start moving Ok you're ready I can hear you anywhere Are you sure Let's go Ok Ok I in ok So apparently when you're a boxer you have to have a boxing nickname So my producer named me Dana Duke Devin What a great workout And what a great fourth of July Happy birthday USA And thank you so much to Grand Master Recorders What an incredible opportunity to film here We will see you next time Goodbye
