

LA Unscripted | June 28th, 2022

It's a city where anything can happen So what could go wrong or Right as I hit up L A unscripted local finds and must dos Hi everyone I'm Dana Devin And this is what L A unscripted is all about Consider us your tour guide to the best things to do and see around town today We're in old town Pasadena at Bo Chaos on a beta concept and lifestyle salon because who does doesn't need a little primp and pampering right about now And because all of you are our VIP S when you book at Bo Chaos and tell them we sent you all unscripted will get 20% off the service of their choice Sweet See why you need to hang with us every night Oh and here's something else fab to try The bourbon room literally is a is a is a Joe's pub in New York City and the whiskey had a baby That's the bourbon room be room is located in the New Hollywood Vinyl District And our idea is really we want to be that next music venue here in L A The room is the name of the bar in rock of Ages the musical I'm one of the original producers of Rock of Ages on Broadway Rock of Ages 30th longest running Broadway musical of all time we opened ran on Broadway for six years And the idea was just how do we bring Rock of Ages back to L A So in December of 19 we opened the Bourbon Room We put together an incredible cast So Frankie Grande was in cast and Nick Cordero was in the cast successful Broadway actor an incredible Broadway actor But he moved to L A really because there was opportunity here the pandemic hit And unfortunately you know Nick was one of the early cases of COVID obviously got really sick and passed away But in our eyes you know we keep everything going We keep Nick's memory alive by keeping Nick's picture above the bar and the back bar What we try to do here is pay tribute to the sunset strip in the eighties right Of the marquee you walk in you're like where am I right You come in you come up these stairs you see the rock and roll pictures the gold records but you don't realize what you're walking into and it's really fun to watch people as they come in and see how beautiful the space is So you don't need a ticket to the show just to come up to the bourbon room OK I'm here with Chef Frankie OK What would you say is the most popular item on the menu I would probably say it's between our bourbon burger and our fried chicken sandwich Ok So the whole idea was we needed we wanted great food We didn't want just like normal bar food Frankie If I had nothing else you already won my heart You can have dinner here You can have drinks Stop it right now Anything flaming I'm a fan of can I have it now Oh you can definitely have it now It out first though Don't put

your nose on fire don't or do put your nose on fire whatever you want Oh ok I prefer to be dead I be I made a wish and then if you have a ticket to the show we take you through and into our venue where you can also eat and drink while watching your favorite performers Oh my God this is so cool Yeah so welcome to our show room We're watching a live rehearsal So Netflix is a joke Just had 13 shows here We have every major cover band in the world is playing our venue The plain white Ts are playing here shortly and then one Monday out of every month we do Broadway at the bourbon room I'm actually just starting my second drink and I happened to notice something very interesting Look what I just noticed What are these Those are our microphones man actually install the system so that the bartenders whether they're feeling fun Frisky that night They can actually take the mics pull people up on top of the bar get them to sing the bartenders We let people do it too Some are loving summer love It happens so fast We're two blocks from the pantages We literally have the Hollywood sign right outside our door for any of our shows Everyone's welcome We we it's fine to have kids here Anybody can come up here and feel comfortable have a drink have a great meal and then see an incredible show with some of your favorite artists No wonder Randy Newman wrote I Love L A and now yet another reason to sing its praise This is the world famous or infamous However you wanna look at it Uh Rock toast four inch thick brioche French toast It is a French toast experience Uh A lot of people call it like the Louis Vuitton of French toast The recipe is a secret recipe uh made by myself and of course my amazing chef chef Rocky Mm So I started making this for my family my husband my kids my friends and then I started working for Dwayne Johnson and he requested on one of his cheat meals for French toast but he wanted a thicker style And as soon as I served him the first one he kept requesting it every week And then we both worked together on this and that's how brick came about The rock toast Here we go Oh my God I just got a whiff of the smell We got the opportunity to open up here in West in Westfield Century City Mall and it was a perfect location for us Th C brioche French toast comes with three toppings That number one number one number two Ok Vanilla bean with cream three is the toasted coconut chips I started using brioche because it's super soft and it has a sweet flavor and a really nice texture And we make them every day to make the French toast It goes it gets dipped in a batter with cinnamon and then we make it with a lot of extra love Oh my God You know what It reminds me a little bit of like bread pudding We get that a lot It's just gooey in all the right places and crisp in all the right

places and warm and and salty but sweet in all the right I mean it's just delicious pack comes in a couple of times and Haley and also Chris stopped in with her daughter Luna which was amazing Super sweet I swear I think if you had like an anniversary or a birthday or something and you wanted to do like breakfast in bed This would be the most amazing breakfast in bed Surprise for someone This whole thing is 1000 calories But I gotta tell you if you've ever had French toast this is gonna rock your world Get it Rock rock your world get it Enjoy your French toast Enjoy your cheat meals Mhm OK Any ideas where we should go off script send us suggestions because you never know where we could pop up Next L A unscripted from Bo Chaos Salon in Pasadena will be right back How do you like my hair They just did it for the show Nice Right You know that feeling you get when you know it's going to be a good hair day That's us Welcome back to L A unscripted I'm Devin and our LAU team works hard around the clock to check out all of the local hot spots and find hidden Gems Top job here in Pasadena Bo Salon has been helping So how be beautiful for years is part of KT a glam squad for our red carpet shows and now another unscripted favorite Nice and controlled Here we go Very good Watch that ball Keep it in front Excellent Pickle ball is a sport that's about the middle child in between ping pong and tennis It is a racket ball sport It is a game to 11 win by two The court just is about a third of the size of a tennis court is the fastest growing sport in America right now Over 5 million people play pickleball That's 50% more than just three years ago It's great for hand eye coordination's a really social sport Everyone is getting together They're having a good time going You're doing great good get back That's ok That's ok That happens Pickleball is actually growing so fast that the city of Los Angeles has a shortage of pickleball courts That's what makes Calabasas tennis and swim unique is they have two dedicated pickleball courts Calabasas tennis and swim was built in 1969 It originally was a private club in 1994 the city of Calabasas bought it and turned it into a public facility which it still is today As for the club itself there are 16 tennis courts all run by the top seed academy The number one tennis academy in all of southern California there's a full aquatic center with a junior Olympic size pool and a full fitness center I set you up with a match His name is Gabe I think you're going to do great He's good too He's number five in the world Good job Number five in the world Are you serious I'm Dana Gabe Are you really number five in the world Yes I am Let's go winner an undefeated champion of all time A L A unscripted champion I'd like to thank my team my mom and dad my coach I'd like to

thank Calabasas tennis and swim the top seed tennis academy And I'd like to thank L A and scripted and all of my fans It's because of you and all your support I love you I'm a big deal on the Pickleball court Yum and we're not done yet But before we come back our sponsors want you to know about this Hey Angelinos are you looking for a job Well our sponsor L A Care has hundreds of them So here at L A Care our mission is to provide access to quality and affordable health care That's plain and simple Um We understand the importance of um having attainable healthcare coverage And so that is why we offer uh different plans that meets everyone's um healthcare needs L A care is based in L A county So this is definitely the community we serve You know we have a lot of initiatives here in LAL A care has been servicing L A county for nearly 25 years and we have over 2 million members L A care is not only a good health plan to have but also a great place to work So we start off with our sales team our care management team our customer solutions that are here 24 7 answering any questions that you know the community or our beneficiaries have and in resolving their issues and they're always available in Spanish and in English and in other languages so they can assist them to troubleshoot any issue they may have We are looking for Angelenos to come and work here at this great organization Um We have hundreds of jobs available and for some of these jobs you know we offer competitive salaries But for some of these jobs we do offer a sign in bonus up to \$10,000 We also offer 7500 tuition reimbursement annually We offer great retirement plans um you know and other great benefits here at LAL A care not only helps you in your career but also we make a difference in the community So we help our community learn more about their services and how we can you know help them understand the importance of having health healthcare insurance I enjoy working here at L A care because I've seen throughout the years right that we truly make an impact in the community I've enjoyed doing that for many many years working here at L A care and truly seeing you know a smile in in their face right They can log in to L A care dot org for more information um on finding plans information about L A care and also the phone number so that we can go ahead and help them out We're looking for people uh who are passionate about health care and we have a hundreds of jobs available So come join the team There is so much to do in Los Angeles and we want to do it all with you Do you trust me Of course you do So go check this out if you've never been to moonlight Roller Way What are you waiting for We've been here since 1956 Where have you been We want you to walk in those doors and feel like you're nine years old

again and leave all that adulting crap Leave that behind Just come in and have a good time The decor the carpet the owner likes to keep it with that fifties Look which to everybody It feels like the look of the decade that they grew up in To me it has that seventies look because that was the decade I went roller skating to you It may have that eighties look because that's the decade you grew up in Hi how are you I'm good What size can I get for you Ok So eight we have been here since the building was back in the early 19 hundreds and it was used as a warehouse to make airplane parts for the Great War because Glendale was the main airport for the wars 1956 Uh it became Harry's roller rink at that time There was a Moonlight roller Way in Pasadena And then in the early seventies the Neske family took over and they named it Moonlight Roller Way too So we had Pasadena and Glendale and the late seventies Pasadena close and Moonlight Roller Way has been the one in Glendale ever since So probably the last time I went roller skating it was probably in the eighties I was probably in sixth grade with braces probably a really bad perm and like bangs that were like that And the big deal was like hoping you got to couple skate Do you remember the couple skate So moonlight rollaway is the roller rink of the stars It would be impossible for me to name them all throughout all of the years But most recently we did a special performance by Lizzo with the Can Cancel Pride Event We have done Euphoria We've done uh straight out of Compton TV shows gold modern Family We do private parties for people all the time whether it's a child's birthday party an adult birthday party We've done uh bachelorette parties We've done weddings here We do classes every Saturday for kids We also do the same thing for adults every Tuesday evening and we also do private lessons all the time We're gonna go over safety first So the first position I'm going to teach you Dana is when we put our skates together side by side you're gonna put your hands out in front strong This is safety position So if anything goes awkward out there we're gonna go safe and we're gonna go 123 roll Stay strong with the body There 23 roll We're gonna do a spin So what we're gonna do is we're gonna have strong arms they're going to travel across our box There we go Good job You go back Yes Yes I have to say you are such a great teacher I have learned so much in such a short amount of time that roller girl is ready to show you what she's learned Roller girl is ready for the podium Roller skating has been around forever and it's not gonna go anywhere It's great exercise You can burn up to 600 calories an hour It gets your endorphins going You feel the wind in your hair It's the camaraderie moonlight roller And now let's check in with another

unscripted fun fact Elon scripts as a little girl I took ballet So when I heard Equinox had partnered with American Ballet theater for a new class I had to check it out Let's see how I do The official name of the class is ballet by Equinox and A BT It's a powerful collaboration all over and super exciting just to see bodies dancing in the club This class is an experience accessible to absolutely everyone Those that have never taken ballet class in their life are at home in this class And this class is also beautiful because it creates a space for people who took ballet at one point in their life and touch Last time one and two and three then the together becomes a turn So what that would look like is a one I turned once I step and I we also drop onto the floor and we do some conditioning exercises things that our members are already familiar with step It's so wonderful seeing bodies that dance at some point in their life Feel comfortable to try again and I love giving people that opportunity Ok Well that's it for today Bo Chaos Salon Thank you so much for letting us go off script and remember book now for 20% off We are getting so many calls I'm actually working the phone for chaos Could you please hold Oh my God what will we have for you tomorrow You gotta come back and see Well chaos Could you please hold There are a lot of beautiful smiles out there But I would uh one person that has had such a big change over the years would be Tom Cruise I mean his smile has gone through a major transformation and he looks amazing Angelina Jolie Um She's got a beautiful natural smile Another one would be Julia Roberts Smiles are important in communication in connecting with someone that smile The first thing you look at look at Hollywood look at all magazines that are out there when they wanna enhance someone they put a beautiful smile for Dental Implant Center Uh We have four locations uh three in Southern California and one in Las Vegas Nevada and and growing Uh we're proud to be recognized as the leader in implant dentistry and also in a procedure called Teeth in the day we have changed thousands of lives uh through this transformation smile transformation Um And we're very proud of it We have the highest technology we have in-house laboratory So everything can be done in house Um We have experience uh we have so much to offer all under one roof I had a lot of missing teeth Um So I wanted to be able to feel confident and smiling I was actually Googling one day and um it was one of the top um ones that came out clicked on it and looked at different stories And so I decided on when it said you know free consultation It was kind of in my area I live in Long Beach from the day that I had a consultation up till the day that I came in and there was I I mean I had all these missing teeth

and I woke up and I had this beautiful smile smile a lot more Um I'm able to socialize without feeling ugly or putting myself especially me Um I think it was more like myself um putting myself down even when I didn't have teeth I knew I was beautiful but I I feel like ever ever since I got the teeth I'm able to like be a total different person I mean so many of us uh hold a lot of things within us because of our smile and once you can smile everything changes about you your personality your confidence your interaction
