

LA Unscripted | May 10th, 2022

From hot spots and hidden gems to lots of local flavor It's your guide to L A the unscripted Way from Viceroy Hotel in Santa Monica Hello everyone and welcome to L A unscripted I'm Jada Devin and this is violet or violence as I like to call her because well sometimes she wakes up and chooses chaos today However she's choosing brunch and we found the paw thick spot where doggies get to D every day is R and D Every day is like going to Disneyland for chefs every day I'm surrounded by entertaining people who are always happy They make this place great We do coastal cuisine We don't want to just confine it to just food We do it in the beverage program and we expand it to the puppy brunch because Santa Monica is probably the dog friendliest city in California If not the country Oh my God Meet violet violet This is Jason I've never met any I've never seen anything like this Oh my goodness sake So this is coconut water with mint and cucumber Is this the take my breath away Yes it is puppy kisses after the same room for the food These are all dishes that I've fed my dog These are all dog tails that my dog drinks smoothies that we take before a hike The dog food we have is actually very human friendly Look at her The hotel is a very dog friendly hotel We try to incorporate a lot of love into our food into our service into our drinks Everything is about hospitality We want to kind of encourage people to not leave their dogs at home just like they wouldn't leave their kids at home When they travel we spent \$21 million building an outdoor space for dogs and humans too I've never seen her like this This is insane She's so happy Well a lot of our food a lot of our dishes have brown rice in them They have the protein which is beef salmon salmon is rich in omega three fatty acids And I also incorporate a lot of salmon skin into the cooking a lot of coconut water coconut milk and peanut butter banana and peanut butter smoothie with almond milk It's got a hint of CBD oil We say hi to the dogs first They're just as important to us as they are to you When you dress your dog take care of your dog A lot of times when I um bring my dog anywhere when I look for apartments when I move it's always with my dog in mind So that's what we do when the minute they walk through the front door we want to welcome not just the human but the dog There you go My God Look at her She's like arching her back trying to dive into this bow Wow Oh she loves it This looks like humans could eat this too That Sugar Palm Uh when we do our brunch we we keep in mind that when guests come in that is their weekend So normally you would see brunch on Saturdays and Sundays at

most restaurants or most places most hotels But we want to have that weakened spirit We can feel every single day at Viceroy This might be the best brunch menu I've ever seen in my entire life Tiramisu beignets smoked watermelon sashimi We have our sweet and savory side We have things like our Dutch baby So our Dutch baby is um also called a German pancake It's light and airy and fluffy oysters of the day Duck confit chilaquiles We have an extensive avocado toast Uh One quarter of our menu is plant based The avocado toast starts with some great sourdough bread A vegan butter which is which gives it an extra punch too Actually my absolute favorite dish on my menu being that I'm a carnivore is our vegan hash here at the Vice for Hotel We love animals we love dogs Um We love people we love hospitality We love that welcoming spirit that we have It's it's natural for us she's loving this I've never seen her so happy If anyone needs a cocktail at brunch it's this girl OK From good food to good style If you're looking for a new groomer for your best friend we found the woman the stars go to for blowouts and facials but it's for their dogs I started creating these videos of dogs blowing in the wind in slow mo and it just went viral I'm Jess Rona and I'm the owner and founder of Jess Rona grooming There was the one video it's actually Andy Garcia's dog Stella I would blow wind on her and one ear popped open and the other ear popped open and I timed it exactly to a Beyonce song And that was the one we usually say to have your dog groomed once a month every single dog should get groomed Um whether it's a short haired dog or a long haired dog I started this whole business and brand in my garage if you can believe it So I found this house in the hills and it had a washer and dryer hook up in the garage and I was like ok well that could be a dog bathtub What if I started my own little thing One thing I would get riled up about is people who neglect their dog's teeth or neglect their dog's nails or put really tight boots on them that is not cozy So my shop is vastly different than any other grooming shop in the world So what I wanted to do is take the coziness and the gentle environment and create a commercially zoned space that is curated for dogs We have beds we have water bowls there's no cages We limit the amount of dogs we groom during the day And I've trained my staff with my energy technique that I've created over the years where we're able to communicate with dogs through gentle touch We condition every dog every dog gets a blueberry facial an argon oil face mask Every dog that comes in here gets deep conditioned Every dog gets hand dried It's impeccable the way we style everybody I'm really proud of my team and I'm really proud of what I've created because I think it's special So some of my clients are well

Katy Perry is the one that everybody knows because she's very open that she uh is my client And also she wrote a little I have a book called Groomed and she wrote a little quote from the front of the book Jane Lynch Haley Steinfeld I love her Tegan from Tegan and Sara who have a new album out Go pick it up Taylor Schilling We all love Taylor Schilling I once accidentally died A dog smurf blue The client wanted like a pastel and it took two years for this to grow out I've recovered But yeah that's that was tough I just want to mention when you see dogs getting dyed don't think of it as like bleaching a dog and burning their skin and it stinks It's like so mild It's made for dogs I recently funded produced and directed my own show and I'm going to start pitching it and I want to sell it And that's my dream gig It's not out yet Hulu If you're watching Netflix if you're watching um I'll be sending you a link to all the episodes You know my dogs have actually been to Jess and she truly is amazing All right Now you know how sometimes you eat something and you say wow that is so good It's stupid Good Well Jasmine Simpkins found the cutest young woman who started a whole bakery with that exact premise Hi I'm Macy Hey I'm Mica and we're super good I was just making vegan donuts because my friends really wanted baked vegan donuts And so that's what kind of inspired me to start a company I grew up in the South So you know I try to recreate all my grandma's recipes I went to culinary school And so I learned a lot of like my technique from that We're sugar addicts We are sugar addic Whenever my friends would say something funny or do something I'd be like oh that's so stupid It just kind of came to my head I was like oh I wanna look at something and say that's stupid Good We have a full menu right now that we've been doing at our pop ups recently So fun buns which is a play on cinnamon rolls Lim and blueberry They're delicious We have our sweet tacos stupid tacos strawberry nutella and then chocolate raspberry We have a cookie butter cookie and it's so good We have a cookie monster cookie It's kind of our play on like a cookies and cream cookie And then we have donuts baked doughnuts and we have lemon macha red velvet vanilla strawberry And then we also have macarons We have uh salted caramel and coffee They're vegan as well We're really inspired by our favorite childhood desserts I love pop tarts growing up we literally only have one oven We have a mini fridge and we try to distort everything in those two We pull like 15 18 hour bake days sometimes for these pop ups because we're making so much and we only have so much space We're like just hoping that sometime soon a commercial kitchen and a retail space That's obviously the goal All right

ladies thank you so much You're going to show me how to make your stupid good tacos So we're gonna make two different kinds of stupid tacos Beautiful And then next we're gonna add some strawberries to it Last we're gonna add the nutella drizzle voila You got a stupid taco Oh my gosh So we also have some merch with our brand as well We have sweats hoodies T shirts and hat and we just kind of wanted to make something that kind of represents our lifestyle and what we make and like how we live we talked about Stupid Good They are stupid Cute All right Coming up bungee Did we do it together Guess you have to stay tuned to find out That's next Welcome back to L A unscripted from the Viceroy Hotel And if you watch Tik Tok and really who doesn't these days it's totally addictive Then you've seen the work of this Doctor Olivia De Bortoli explores the lip flip craze I'm a facial plastic surgeon I concentrated my training mainly in reconstruction and then moved towards cosmetic surgery over time I was doing these lip lifts and I wanted to really figure out more about the teeth because nobody lets you go through your board uh testing or residency If you're doing eye surgery without learning about the eyeball that's like illegal Like you have to know about it with the lip There's no such thing you could operate on the lip know nothing about the teeth You could be a dentist work on the teeth know nothing about the lip and that makes no sense You have to know because they affect each other We're doing something that I think is really unique in the sense that we're bringing together dentistry and medicine which historically has been separated Traditional dentistry we base the length of the tooth on the lip and we say OK wherever the lip is you take that you add a few millimeters to it so that you show a little bit of teeth when you're talking or when you're smiling and we do this entire treatment plant all based on the lip And what we started doing in our collaboration was what if the lip isn't in the correct position And so by making subtle changes and incorporating both aspects all of a sudden the patients look effortless when we do a lip lift combined with sending them to Dr Stanley or Doctor Nejad to fix the teeth It's a game changer for them They look nicer They look more pleasant they look happier That's how everyone looks So it really changes their lives I had a patient who was in her nineties and we redid her smile with implants and prosthetics and she started dating again in her nineties because she finally had the confidence again to go out and you know uh meet these these eligible bachelors Thank you Olivia And coming up we reveal the tattoo to the rap world That's just ahead Welcome back to L A unscripted from Santa Monica's Viceroy Hotel And this icy cold beer is just what I needed And if

you live in so cal you can get a brew brewed right here Now here's a hot tip Don't have a beer if you're about to do this bungee fitness Yep I tried it and you know what I really liked it I'll say the three cures Low impact on your body Maximum cardio maximum fat burning anti gravity cardio exercise Hi Dana This is Shawn from DNA flying Yoga I dare you try a bunch of fitness Are you ready when I'm on fly high 123 I'm so confused Like you're wearing pants We offer a yoga bungee fitness pole dance everything kind of area here So that's how it is So tell me what is a bungee yoga exercise So bungee fitness is you use a bungee cord attach to sing and use the harness to add your um gear and you exercise The fun part of the bungee fitness is is actually you can do things that are something you cannot do in real life Using the bungee cord like doing the inversion jumping up and down to a handstand is very stress relieving too Well where else you go go out and scream and having fun and jumping all over the place This is exactly what it is I feel like Spiderman So I was a ballerina a long time ago I sprained my ankle that was a childhood dream and I couldn't do anything So I changed my job to designer in fashion I still wanted to have a little feelings for dance and something dance related And aerial yoga is second closer to do what I was able to do back then But I think we need a lot of cardio exercises and I wanted to do something something an aerial version and that's how bungee came in Ok Bring it up Ok Step Ok Up here facing the front that's bat already It's like pulling my butt out Is there anything dangerous about it Nope That holds about £1000 I'm gonna give you a spin Ready No no Ready Are you ready Engage your core lean forward lean forward hold right Not to go back Can you open your arms Ok Now whip your arms up and oh so when you come to DNA flying yoga you can join single group classes or you can do private classes you can join our regular membership monthly classes as well It's very easy to follow So uh bunch of fitness is very open level First timers can come and do it experience can come do it We're gonna practice windmill and plan your right foot Step forward palms firm on the floor and lift your hips and pike your hips up So it looks like this Ok Step Got it Ok Ok On the floor you can do push up stairways press up 192 So oh and if flinging yourself around isn't your idea of a fun afternoon How about going to get a little ink from the same guy who tatted Beyonce He calls himself part designer part graffiti vandal and he's even got his own Netflix documentary OK If you ain't got tatted by cartoon you ain't got no ta I'm Mr Cartoon And you're watching L A review when I look back and I'm thinking you know what what impact did I make in L A What did I do here You know

I probably contributed something to making tattoo in high end Uh When I got in a lot of the tattoos they weren't making what they deserve man I had been a professional artist already so I knew what commercial projects paid and tattooing is way harder than those jobs And tattooing was one third of the money And I was like man if I do anything I'm gonna change that I'm gonna give the artist in LA a raise you know growing up in L A I've been inspired by so many different people so many different ethnicities and we all kind of borrow from each other I take this experience and the tattoos and all the street culture and that's the heaviest influence in my art Hey I might be doing something for say vans or Levi's or some major company But in my head I'm a you know 16 year old kid going down the 1 10 freeway reading graffiti on the wall So I still keep that with me when you do a documentary on your own life It's it's really weird man because it's almost like therapy where you gotta go over the same things or things from your childhood or you know cool moments embarrassing moments Uh everything gets brought up you know because you want to be honest and you wanna try to put as much out there as possible My partner Stefan AOL half of the documentary about him as a photographer in L A capturing this culture Every cartoon did Esteban was there capturing the whole culture low rider culture tattoo culture The people are gonna try to explain L A culture They're gonna do their best to explain it to the masses So why not us You know why not us be in that position And we'll say you know what We're gonna do it our way out of our lens out of our eyes and doing it more for other homies and other artists and other peers of mine I I'm kind of doing it for them You know this whole studio I'm in I I seen it before it manifested I sketched it 10 times here in Santa Monica It's where Hollywood meets the water We're in my private studio I'm partners in a barbershop called Master Deluxe We built this place to kind of be a one on one type of environment This is where we make people's lives a little bit better You know they walk in one way they leave better The tattoo and fresh fade being that I'm 51 years old I'm not gonna be tattooing forever You know what I mean You're only as good as your last project You gotta stay on top You gotta be cutting edge You your your works gotta be dope Bottom line You know what I'm saying Like this is so count culture We're all in a twin He's such a cool dude OK That is all the time we have for tonight Thank you so much for joining us and thank you so much to the Viceroy Hotel We loved being here and thank you so much for treating violet just as special as you treated me We'll see you next time Good night kisses
