the most unusual and spectacular floral shop in L AJ Le Fleur flowers They
are my favorite with a lot of help but I did it Jennifer Lopez P Diddy Justin
Bieber Anastasia Beverly Hills Zendaya is a very good client of ours Hi I'm
Alisa Hi I'm Eliza And I are means I love flowers in French So a lot of our
inspiration came from the French culture Parisian Vibe We sister in law were
married to two brothers Ado La Flores started back in 2015 formally
However the history goes back to 2006 when our floral designer mother in
law Marguerite opened a small logo mom and Pop's flower shop in the heart

of Glendale We used to help her a lot when she had the flower shop But then time came where we want to invest in something that would help us grow in the future So our first location opened in city in 2015 We're so excited I get to learn how to do this These are the custom hat boxes right Each time the customer chooses the color of box that they want Ok And then they tell me that if they were just roses or mixed up arrangements realize that in order to present a gift the packaging is very important in the eyes of the receiver minimalistic packaging and beautiful floral arrangements which would go perfect together And then we start preparing the box We first have to put the foams in the box to make it higher make it higher We're going to put a wet foam water on this We told our graphic designer to engineer the garden rose print sort of all over the box creating this customized print for us Oh wow Ok Got it So now we've got that set up So now do you start poking flowers in it These are the flowers we're using I mean look at them Can you see the pink inside What do you think Cut a little bit more Our busiest days we go through about maybe 100 20 to 100 and 50 deliveries a day One of our most popular arrangements are these two I would say the signature red rose box and the anniversary box We have a 25 rose box We have the 50 rose box right here Um and it can go up all the way to 5 to 600 roses We've actually done 1000 rose arrangement as well We can cottage So we actually made the letter D for Dana This is a part of our initial collection It's really popular So beautiful Oh my God guys Thank you so much So they're jokingly saying it's the the arrangement but it's for drama queen So so clever Ok we'll be right back with a little help for all of our smiles Don't go anywhere Welcome back to L A unscripted and a little Mother's Day special from here at the Omni La Costa Resort and spa Would you believe that your best health actually starts in your mouth Doctor Sanda Moldovan does and she has some distressing and anti aging tips for mom Here's Anya SS style smart My name is Doctor Sanda Moldovan I'm a biological periodontist nutritionist and international lecturer I believe the mouth is the gateway to our health So really I'm finally able to combine oral health together with wellness to address really the full body So this is the faro smile It's cutting edge technology for whitening This is the future of whitening I'm very excited to have opened the health lounge I've always envisioned a place when people can learn about their health how to prevent cavities how to prevent disease Ok Doctor Sanda what is going on here This just looks like a cleaning Yeah So our hygienist is actually using a sweetener which you see the powder in here and ozone water And really she's really kind of brushing over the teeth to clean the plaque So it's no

longer you know the t scraping of the teeth So many great ideas for Mother's Day this year I mean uh so we really want our moms to feel feel special We want them to live all long life as well So we're offering unnatural products natural treatments for the mouth as well as the face and neck or the rest of the body such as the Bey bed And this is how you're going to hear the sound and the frequencies that are in here essentially will actually reset your whole body It's a great way to come in spend 30 minutes on the bed and it really resets the entire nerve system It puts us in a relaxed mode We can sleep better and it's almost like a computer reboot We're actually the only ones in Southern California to have this bud Then we have our airflow ozone a dental hygiene experience and we have this amazing whitening machine that actually is the first of its kind It's a robotic machine in which we whiten the teeth 360 degrees around the tooth to give you that vibrant white that we haven't been able to achieve Previously We're offering a lympho lift Our aesthetician actually uses a microcurrent device to relax the head and neck the face and neck especially to drain the toxins But as a result in 30 minutes you can visibly see a lift of the face We have over 600 different species of bacteria in the mouth So here in our office we actually do something called a biofilm therapy We do all kinds of salivary testing We just take a drop of saliva and we can tell a lot of genetics like how you sleep how you behave how you can optimize your health We wanted to create a different experience here a place where you can feel rejuvenated not just in pain when you leave you know your mouth feels amazing and your whole body feels relaxed For all the L A unscripted viewers We're offering 20% off any of our services with a code style smart Just keep smiling everyone and we'll be right back How to get up close and personal with your favorite TV shows Welcome back to L A unscripted from the Omni La Costa Resort and spa Now if you really want to go somewhere special with mom Jasmine Simpkins is back with a beautiful sister business in Windsor Hills featuring some of the most stunning handmade African inspired fashion you've ever seen If there's one place to get authentic one of a kind high fashion African goods and garments in L A It's Cotto Cotulla is a fashion brand primarily specializing in African fashions from all over the continent We make ready to wear and custom garments for the entire family The business was opened in 1971 by my mother Francesca and my father Tony and they immigrated here from Africa They came for education and they started business and my father started the business and he just saw the you know need for menswear And then my mother came and she saw that he needed a little bit of help and she knew

how to sew The first garments were dashikis that she made And from them people kept ordering and ordering I joined in 2014 So I you know had a career in public affairs My sister also had a career in public affairs We took a trip to Africa and it changed our perspective when we were deciding to take over I wanted something that was going to embody the fact that we were leaping forward We were moving forward in the next generation Africa of imports was really of the Afrikaner movement And in our generation we found that a lot of young people didn't know what Afrikaner meant So we changed it to Cotulla to leap forward We specialize in contemporary fashions for our executives and working professionals Also when they're in church and going to brunch just anywhere they're living their fabulous life One of the most popular styles that we see is the mermaid style This is a very traditional African piece So you have the Cowie shell they call it hookah shells in Hawaii but the Africans call it the Cowie shell This is a modern look So you have the puff sleeve So if you're going to a party no one else is gonna have anything like this on Not at all you definitely will stand out with these pieces pride and details and making sure that we source the fabric the best fabrics from the continent that are bright and vibrant and they last a long time and when you touch them you can feel that they're real cotton 100% There's no there's no stretch and we have a zipper there a rainbow zipper because we are inclusive Now it's time to try on some pieces We make a good selection of things in Africa and Zambia But we also do make on site And now we're also selling fabric You know we want everyone to be able to experience the Cotulla fabric experience We have all the accessories that your heart can desire from head tie the gala to headbands to these also auto gala and earrings and necklaces of every kind We're gonna do a quick head wrap So you're gonna almost look head to toe I love it Let's do it I'm sure that you guys saw an uptick in sales Thanks to Black Panther We you know worked on the film starting in 2014 when we first took over that was one of the first projects that we worked on and it was so hard not to talk about it We were so excited So when the film came out not only we were blessed to work with the the cast we were working with the family the red carpets for the film premiere I just am so glad that we're able to provide the best of service to people here in L A and Olivia is back with another cool thing To do with mom hang out with over 90 of your favorite TV Stars from the Adams family to welcome back Cotter We've got your ticket to the all new Antenna TV conference This is the ultimate unscripted rewind stars of Dynasty Gordon and Spaceball They're all in that room I'm dressed for the occasion

So let's get this party started The Hollywood Show sponsored by antenna TV is an event that brings television and film stars from the fifties and beyond in one room and you can sign autographs you can have conversations What is your favorite part of doing events like these meeting the fans people who are responsible for us for being a success Mr Calloway looks so peaceful Well of course he looked peaceful Rose He was dead It's great to meet people and get to know how the show affected them and what they remember There's a reason why they call it nostalgia but I was given an opportunity to do this iconic character Flash Gordon and guess what Here we are 43 years later talking about it Isn't that amazing You TV is a classic television network that airs sitcoms from the fifties and beyond And a lot of people are cutting the cord and you can get intended TV over the air for free And I think people are really hungry for good classic sitcom comedy and that's what N TV is you know let's talk about Dynasty I mean it's been off the air for 30 years But people still talk about it and they still they said when I was growing up it was so important to me at the end of the day If we can make people smile and be happy This is a nostalgia show This is a nostalgia movie for us See if you can remember any eighties trivia who became a chart topper in 1988 for the song I think we're alone now I think we're Tiffany Oh my gosh eighties kids will remember the VHS tape But what does VHS stand for Oh video Yes Hi Solution Video hosting system CHS very hard sometimes Oh so what was the name of the eighties hairstyle That was short in the front and sides but long in the back Was it a mullet That's the mullet My barber So before we leave the theme song can you give us a little jingle So up on your p don't you worry now we'll just take it like it comes one day at a time My favorite show was I love Lucy obviously and that is all the time we have for tonight Thank you so much for joining us and thank you so much to the La Costa Resort and spa in Carl that California we have had a blast until next time Good night
