

LA Unscripted | May 3rd, 2022

From hot spots and hidden gems to lots of local flavor It's your guide to L A The unscripted way for the magnificent Omni La Costa Resort and spa in Carlsbad California Hello everyone and welcome to L A unscripted I'm Dana Devin We have checked into the Omni La Costa Resort and Spa in Carlsbad California And in honor of Mother's Day we have packed this show with the perfect things for mom what to get her and where to take her up First over 600 rooms suites and villas 17 tennis courts a full service luxury spa two championship golf courses seven restaurants and eight swimming pools Olivia de Bertoli has your key to the when this property was built It was actually just one giant field The celebrities from Hollywood would come here and there was actually a term called living at La Costa What happened is because of that people wanted to live in this area And as you can see by the development behind us all this was developed over in pieces gradually creating this giant resort that we have today I'm Randy Sapanski managing director of the Omni La Costa Resort and Spa this is such an easy escape We have multiple pools We have a family pool called Splash with two giant water slides and a kids' play area We have edge pool which is an adult pool Really a bit of something for everyone In addition to that two golf courses the PGA was here at one time We also have a tennis facility where again the professional tennis players had tournaments here at one time too So really almost something for everyone and we're only a few minutes away from the beach One of our golf courses will be closing October undergoing a \$14 million renovation and we actually have the NC A final scheduled for 2024 after that renovation So that's part of it We also plan to redevelop in the sense with building a clubhouse for golf We've got major upgrades to our facilities planned over the next couple of years but even then you don't have to wait for that come Now we've got a spa that has 42 treatment rooms has its own pool has its own restaurant full experience on its own Hi I'm Jennifer Reich and I'm the director of Spa and Fitness La Costa is one of the largest spas in Southern California We've always been known for our beautiful outside courtyard area and amazing treatment selections We also have a full service salon for hair and nails as well Our treatments that we offer here at La Costa there's a multiple variety from body treatments to facials to 50 minute 80 minute massages A lot of really nice body scrubs to have your skin nice and glowing for the summer We're known for our hummingbirds out here You'll see them everywhere throughout the property We're really a social sua So

people come out here to do birthdays bachelorettes just all types of celebrations We have two private patios where we sell group events outdoor pool outdoor jacuzzi and two Roman waterfall showers where you sit on a bench and then the water warm water comes down massaging your body So it's a very experienced team And if you're thinking about coming this way I'd highly recommend our concert series jazz concert series which starts in May We have two dates in May and two dates in June And actually it's going to be held right where I'm standing So you're going to be able to watch this concert while looking at this tremendous view behind us I think what brings me to work every day is it's just such a beautiful environment and I love the fact that I get to walk around the resort experience all that our guests get to experience and being able to do it every day And you know just down the road from here Olivia de Bertoli is exploring the world famous flower fields get ready for 50 acres of flowering plants and it is peak bloom season Dana I'm standing in 600 species of verus Now that's Verus Welcome to the Carlsbad flower fields We're at peak bloom right now 70 million flowers out there But we're also much more than that You know it's an experience where can you go in Southern California and literally immerse yourself in so much color We are one of the top photographic spots there is in southern Cal Hi I'm Fred Clark and I'm the general manager of the world's famous Carl's bad flower fields So these are called Rus and the common name is the Persian Buttercup They live on the northern edge of the Mediterranean in nature The climate that we enjoy in southern California is the Mediterranean climate It's cool and wet in the winter and it's hot and dry in the summer And that's exactly what rus like every year we select plants and we collect our seed and then we replant these fields with seed every season It takes about 10 months to grow the crop from putting the seed in the ground to what you see Behind me there's 13 different colors and there's several mixes of colors that we make Like there's an Easter mix and a mother's day mix But yeah it's pretty cool Our roots of our business is a cut flower operation We sell cut flowers all across the United States We'll sell 78 million stems this year If you get rus in the store somewhere and across the country most likely they came from these fields right behind me but we have all kinds of other things We've got food we've got excellent pizza There's the best strawberry shakes you ever had We've got wagon rides There's a brand new butterfly art garden made by a world famous topiary artist The flowers and the sculpture butterflies are beautiful There's so much stuff to do You can spend several hours here and not see it all It's the perfect getaway from L A because it's not

that far You can come just an hour and a half south to the flower fields and get outside and be on a cut flower farm This year We're going to have 250,000 visitors or so over the 10 weeks That's a total Wow Thank you Olivia OK Just how much do you love flowers enough to ink some permanent ones All right let's head to the Santa Monica Open Air shopping Mecca Third Street promenade and its very first tattoo shop So we're gonna add my dog's name to the Daisy that I have on my arm because I'm willing to take a needle for L A on script Cleopatra Inc is a European based tattoo company We are actually the biggest tattoo company in the world We operate in 68 other locations in nine other countries This is the first location in the United States This is like the kid tattoos that you get Not a kid tattoo Santa Monica didn't ever have any tattoo places So I think we changed the game This one's not going to wash up We create our designs on ipad application called procreate You can actually visualize what we're designing for you on your body before having the tattoo So it's really easy for a client to visualize what they're going to end up having So it's a revolutionizing thing too I think Does that hurt a little bit But not really I mean I'm kind of used to it now already initiated nine academies back in Europe We train tattoo artists and we train designers If a student is super talented we give them internships for the students that uh finishes the courses with a high grade We also promise them to work in any Cleopatra branch in the world We're gonna initiate the Cleopatra Inc Academy here in later this winter and it's gonna last three months I think the tattoos should have a meaning It should tell something about you something about your life something that's related to you Ok If anybody's ever questioned my commitment to this show I'm going to show you how committed I am to L A unscripted and coming up cool jewels and healthy eats We'll be right back from the beautiful Omni La Costa Resort and spa Welcome back to the Omni La Costa Resort and Spa in Carlsbad California And you might want to check into the spa here and get your glow on for this next stop A little body sparkle on Star has the jewelry store that speaks to who you are Mother's Day right around the corner This is your one stop shop right here at Just Desi How do you repay mom But the answer is always diamonds My name is Desi Torm and I am the CEO and designer of just desi jewelry I feel like no one ever leaves here Not happy or empty handed We are prime manufacturers and diamond cutters for around 40 years now It was the expansion and development of a legacy that was my father's So just as he has been a dream of mine and my brother Justin's for a very long time but it's actually a baby of a much larger beast And these

initials come in rose yellow gold and white coal everything comes in rose white and yellow gold So it was really important for us to actually use an otherwise very exclusive neighborhood and create something that was extremely inclusive and welcoming You can come in and you're if you're looking for 100 and \$50 piece or if you're looking for 100 and \$50,000 piece we have everything That's what makes us really unique I've done custom pieces for Rob Kardashian I have dressed J Lo before Christina Aguilera Lucy Hale There are so many and and and it's very exciting every single time I'm extremely humbled to you know watch the fashion icons that even I turned to for inspiration wearing my jewelry and responding so well to the brand But the point was for everybody to feel like a celebrity Ok So we've got a ton of stackable bands to choose from We have a jewelry atelier here in house where you can actually watch your custom piece come to life We've got this cute little love letter necklace This is the perfect thing to engrave and write a little special note to mom Something that's going to be sentimental It's a modern day locket It's going to be filled with all of the little charms that make her feel loved and adored That's a good mom gift Some of my favorite pieces and some of my most wanted designs are actually in this tray right here I really try to make it easy as pie It's such a responsibility to make sure you're getting the right gift Oh I'll give you my husband's cell phone number You can just call him Ok Now here is my favorite thing in the whole world about coming here It's actually not the jewelry It's your box It's your packaging Yeah And if you're coming for an engagement ring and you show up with this box there's no way she's saying no Everything here is so gorgeous and you are offering 20% off using code smart in store and online through Mother's Day on all jewelry items What are you doing To your computer get in your car Let's go She's giving you 20% off for Mother's Day My job I'm very invested in my customers' lives I'm there for the journey you know for the wedding for the anniversary for the push present I get to really see it all transpire and be a part of those magic moments in their life And that's really the most rewarding aspect of my job That's why I wake up happy to do what I do There's so much more coming up here from Carlsbad California and the Omni La Costa Resort and Spa We'll be right back Welcome back everyone to L A and scripted from the stunning Omni La Costa Resort and Spa in Carlsbad California and a data here That's actually kind of genius So you don't like your lip color Well you can change it permanently I've done a lot of dares I am most excited about this one Usually I'm nervous This one I'm excited I am so excited and I'm so happy

Did you dare to do yours today with me Oh of course You're the expert I'm so happy Thank you What do we do now Let's go to my magic room So I know that we're going to do your lips today So I want you to kind of like tell me what you want me there Great question So all my whole life I've always had a lot of really blue in my lips So I've always wanted to kind of cancel out some of that blue and I'm no young spring chicken these days and I feel like my lips Thank you But I feel like my lips have faded over the years too and I don't have that natural anymore Ok So when we get older we're losing a lot of the color on the vermilion border So that's why a lot of people are coming and say oh you know what My lips getting thinner why it's happening And it's like uh oh now I more need filler and some people don't want to do that So uh they still have more lips It's just because they are faded They think it's it's so thin Are you seeing a greater interest in this now Because nobody can wear lipstick anymore because of the constant mask Absolutely I prefer to have uh my lips done permanently and I can be comfortable any time in the shower and under this mask it's amazing and it's not really like a lipstick I will always say it's a lip blush A lip blush That's the perfect way to say it Oh yeah Lips for days Let's go It is time for my Dana dare lip tattoo How do you feel That's not bad Wow I have an upper lip now it was a really big insecurity of mine because when I would smile I would lose that top lip and now I feel like I still have it when I smile So that's why it looked weird I think before Unbelievable another dana dare down more to go I absolutely loved this dare I am ready for more Send him in Come on you guys give me a Dana dare OK They were definitely sore for a few days but I love it and they still look really really good All right How about something We all crave healthy eats Check out this Wellness brand turning superfoods into super delicious snacks Nothing prepares you for entrepreneurship until you actually do it And I think Nicky and I were just so hungry More reason one to to really experience it and dive in head first Lavi is a modern wellness brand on a mission to deliver the most functional ingredients to help your body thrive daily So we have two products kind of pure product Collagen protein bars We have three flavors of these little guys There's 8 g of protein in each one about 100 to 520 calories the superfood nut butters and it's a cashew based spread enhanced with fiber colored superfood And ultimately our mission is to harness the power of superfoods and ingredients that actually help strengthen our bodies such as collagen boost vula you know plant-based protein Nicky and I met teaching fitness classes at Equinox and we were at the same time judging these very demanding corporate jobs So with this

lifestyle we struggled to find a convenient uh delicious way to feel our bodies The entrepreneurship has really pushed us out of our comfort zone and you know seeing other women entrepreneurs uh just kind of what they're doing has inspired us And I think you know that's kind of the kind of greater mission that a lobby stands for empowering you fueling you getting you to do greater bigger things So you can find us throughout L A We're in um all air one markets We're in um a number of the Earth bars the Equinox cafe partner Um We are also online through our website a Loy dot co You can also find us on Amazon and we have a special code If you go directly to our website Eloy dot co you can get 10% off your first order with code unscripted ok Now we can we can call ourselves form We can bring something that didn't exist Now exists that tastes really good that people love It's good for you I can imagine not having this food product in my life Now let's travel up north to the Golden City and a giveaway that could put you in San Fran lap of luxury The type of people that come to the the Claremont Club and Spa really cross the entire visitor population of people of California We we're sophisticated we've got great restaurants a tremendous wine list It's romantic The Kremlin Clubland Spa has been here since 1915 We call it the castle in the hills here at Berkeley and Oakland It's an iconic beautiful piece of architecture that is uh resonates history resonates culture entertainment everything that's special that happens here in the East Bay 100% of wood which gives it a lot of appeal The closer you get to it you sit on 22 acres of garden landscape It's called historically here in Berkeley Everything from eucalyptus trees to roses to I think 100 and 50 different types of palm trees the views here and the views of the bay and the suites are tremendous We've got a bunch of soaking tubs that are that are that are tremendous and we're also great for families We welcome dogs too I have at least one meal in the Limewood restaurant to just dinner sitting on the deck Um or on our sunset terrace around the fire pits overlooking the Golden Gate Bridge and Alcatraz There's always someone here every weekend whether it be sports political Hollywood scene many years ago uh Robin Williams was here The the the pool scene with Mrs Doubtfire was shot here some some time ago And then the movie with uh the baseball movie with um Brad Pitt Angelina Jolie They stayed here and rented the entire tower If you come into Claremont for a short getaway from from L A or Southern California bring your hiking shoes make sure you get out and see the East Bay parks They are phenomenal beyond description views and hiking of every type of level What a level up with a three night Get away Text the word Castle to 515151 for or chance to

win a special VIP package at the Claremont Club and spa Lucky winner will get a suite three night stay uh spa treatment for two have two spa treatments instead of the dinner or whatever Well we'll certainly work with anybody but it will be it will be a stay that will be well worth their while that they can go back and tell everybody how great it was Thank you so much to our host here at the Omni La Costa Resort and spa in Carlsbad California Now we did not go to Lego Land today but this is the perfect place to stay If you're heading there That's it for us Good night everyone
