

LA Unscripted | May 2nd, 2022

From hot spots and hidden gems to lots of local flavor It's your guide to L A the unscripted way And tonight get ready for a real sugar rush Ouch My teeth are already hurting Hello everyone and welcome to L A unscripted I'm Dana Devin And if you're like me and you have a sweet tooth you're going to want to take notes up first A cookie company So unique and delicious There's a long waiting list and at 140 bucks a box you know that is one good cookie So in the words of crumbs cookies let's open the damn box Oh wow Look at all this and we want to build the rolex of cookie companies better than sex chocolate chip cookie And I'm sure it is I have a partner who came up with all the recipes and I tried them years ago when he had a smaller cookie company and I thought they were the best cookies that I had ever had And about two years ago I finally convinced him that we should create this luxury exclusive brand and there was nothing else like it on the market and we really wanted to just be this out there Luxury exclusive cookie company Let's go eat that We just wanted the whole experience from the ordering process to delivery to your first bite to be elevated So we created this experience and really just did everything that we could to make it the most exciting from our social media to our emails from the box and the packaging And yeah just really make it the best cookies that you've ever had The Madonna That's a peanut butter cookie When life gives you lemons that's like a lemon bar What the bleep velvet Donkey Kong which by the way many people say is their favorite cookie It's like a banana split in a cookie Being in L A is super important to the brand It's super important to Alana and Derek and me growing up here in L A as well And I think that the idea that we're building this like luxury suites brand here employing people in Los Angeles is like really kind of uh part of the DNA of last Crown cookies Cookie cookie cookie Oh it's ready Oh that is better than sex Part of the experience is that you're not just opening a bag generally like people are sharing them they do taste tests they bring them to parties they bring the huge box and people kind of lose their minds The end of April 2021 was the first drop of last crumb we have over 150,000 people on our waiting list right now because it's kind of hard to buy our cookies We only basically open the site for a minute or two every week They instantly sell out in seconds The website practically crashes and then we go to baking them and that's really important for us too is that we bake these cookies fresh and ship them the day they're baked or within 24 hours A box of last creme is \$140 We ship

nationwide We ship air so they get there within like three or four days Generally oftentimes even less Ok My favorite cookie is called the Floors Lava You microwave it for 15 seconds and it's like a hot lava cake I can't get over it I'm still not over it And you know my crew is still not over my cookie monster impression She for cookie Just kidding All right But wait there's more doughnuts vegan donuts Jasmine Simpkins gets the rock and roll roots behind Highland Parks donut friend One of the things we will love to tell you when you go plant based is that the desserts are terrible But I can officially beg to differ Thanks to Doughnut Friends I was quite happy we done that The customer favorite is definitely going to be the strawberry lab That is by far one of our most popular doughnuts We have a non dairy based with cream and fresh Strawberries in the middle My name is Crystal I work at Doughnut Friends Donut Front opened in 2013 All the Doughnuts are named after bands He has uh he has a Doughnut named after his band The Drive like Jay who we call it the Drive like Je with the Angry Samoa that's named after The Angry Samoans So just a lot of like different punk hardcore emo bands I'm a Twitter girl Can we start there It's got the cinnamon it's got the sugar Um Honestly you're gonna be back tomorrow for the fritter Oh my God It tastes exactly like a regular normal apple fritter but it's so soft and moist Gee gli some of the doughnuts that are sandwiches have different fillings and some of those fillings are like whipped cream cookie butter a vegan version of nutella um and jellies and stuff They're dairy free they're egg free Um Which kind of just like makes it like that much like a little bit more enticing Why vegan Why did you guys decide to do vegan doughnuts There's not that much of a difference between a regular doughnut regular or like a vegan doughnut It's a super simple switch and why not We're in Highland Park which is a pretty cool neighborhood We've been here for quite some time and we've definitely seen shops come and go So we're really happy for the community and for our customers to keep us going this long Getting to share these yummy doughnuts with all of the neighbors and people that live in community It's pretty awesome job Yeah I mean it really aligns with my values like I come into work and I don't have to worry about any like non vegan item and that's like the best part of working here Yeah that it aligns with what I stand for and what I believe in donut sandwiches Are you kidding me You know Jasmine actually likes to call herself a baby vegan but I think the donuts may have pushed her to full adult vegan status Now a family owned and operated bakery serving some of Inglewood's most decadent desserts You guys I'm already on a sugar high from this show
