

## LA Unscripted Oscar Show | March 27th, 2022

Olympus Villa We've got all the secrets to how the stars get ready for Hollywood's biggest night Hello everyone I'm Devin and welcome to our pregame party for that golden guy Oscar before the flash bulb snap those ball gowns and winners take their bows Oscar's biggest presenters are sipping cocktails just steps away from the red carpet at the one and only Lows hotel Sam Rubin checks in It's very exciting during this time period at the Lows Hollywood Hotel because we are just steps away from the red carpet We have a lot of celebrity VIP guests who come and stay with us during the Academy Awards and they get ready at the hotel before they hit the red carpet and they come back after the show and kick off their shoes Maybe even with their reward on Hollywood's biggest night There's no better home base than the hot couture of Lowe's Hollywood's Hotel When you walk in the lobby you can really feel the energy of the Oscars from the moment you walk in and you don't have to be a nominee to be treated like a winner at our hotel and to keep the Oscar buzz going Why not Cheers while you cheer on your favorite best picture nominees at the H Squared Lobby Bar We really pride ourselves in our mixology and uh specialty cocktail program We have four different cocktails that we're featuring uh in honor of the Academy Awards Best Picture with Belfast which we're incorporating two different Irish liqueurs kind of our take on an Espresso Martini The don't look up cocktail our spin on a classic cosmopolitan So we've got a bit of pineapple and it's topped with a grapefruit soda but you don't have to look up or very far to find some of signature stands We are in close proximity to some of the most celebrated attractions in Hollywood walk the Hollywood Walk of Fame We are within walking distance to the historic Chinese theater We are close to a lot of museums and galleries in the city at Lowe's Hollywood Hotel Our core ethos is really welcoming you like family And so we really go out of our way to pay attention to the details and make sure every one of our guests is welcome like a VIP guest All right don't worry because we've got our own cocktails coming up But first I'm feeling a little overdressed for this house party So let's get a little help from her own style smart guru Anya star here she comes Dana Hi beautiful I'm sorry I know your invite said cocktail attire but I have a better idea Ok This is how the stars get ready Ok Are you ready Ready Oh my God That much better Oh I love these Ok But what about the rest of my party guests Olivia de Bertoli and Jasmine Simpkins Dana Do you know me Have I ever come empty handed Never Do not worry I have PJ

Harlow's for everyone Oh my God So I love PJ Harlow Not only because it's woman owned and made in the USA but these are the softest buttery pajamas I have ever felt and they come in sizes extra small to extra large So there's something that fits most one They come in 12 luxurious colors like this mint Olivia I'm just staring at you all night because I want the mint and I just asked you do you own pajamas like this I know I mean I don't well you do now and you're going to get more because get this It's an Oscar special So our discount use code style smart at PJ Harlow dot com for 25% off the entire website Each girl in your slumber party ready Bad It has a bandana Stop it It's a satin Each girl has a motivational quote Tell me your quote A strong woman looks a challenge dead in the eye and gives it a wink Gina Cary kind of perfect for you also super soft and buttery This is called Urban Vu and it's another one of their brands I mean all day every day I wear this wrong bra Ok So true story I always used to just like cotton And then about two years ago I encountered PJ Harlow and met the owner and she said Anya just try the satin set once just try it one night never gone back every single night And now I'm so thrilled to give it to you guys and pass it along Dana What when you take a break from that gloss do you wanna know the biggest secret of how the stars get their face red carpet ready You mean not applying £10 of makeup on their face Well that too but it starts long before you even lift the mascara wand Awesome I had to come see for myself the must have beauty treatment that everyone is buzzing about I always want to know the latest and greatest trends for getting red carpet ready right And I think I know everything until I discovered you and Soft Wave right Is this super exciting you know it really is the best thing I've ever purchased from my office in the past 26 years So it really has transformed how we can treat patients noninvasively 95% of my patients are wow I mean just amazed this device is called soft wave The idea again is ultrasound technology It's giving ultrasound heat into that dermal tissue seven parallel beams deep into that dermal tissue to stimulate collagen and Elastin Kathy I love that I'm able to watch you do this No pain You don't feel anything there's no pain I just feel it's a little warm and that's about it I actually bought it for my 55th birthday and I was just feeling a little tired and I wanted something new and I'm always trying out the new devices So I tried it on myself in the office and I did one side of my face and I literally went OK where do I sign It was that dramatic for me nowadays with zoom people want to look their best They're tired of seeing themselves on the on the screen So it is FDA proof for lifting of that mid face the brow the subman area I mean all I'm hearing about it is

that I can get that youthful look again again transformative I have patients in their seventies who are doing this and look like they got a facelift and they did not no surgery scars nothing no needles relatively again little downtime to no downtime and these patients look amazing and it's color blind It's good for everybody You'll see Cathy's before and afters she's just being a nice patient and coming in to show you what it's like because she had such amazing results So again she's about six months out You can do a second session How long doctor do you have to wait after your first treatment to do another one They're seeing results as early as one week I like to see my patients back about three months That way I know that they're kind of where they'll be they still may get some tightening after that But at three months is when I I look and I see you know again she looks gorgeous Doesn't need anything but people may come back and say you know I yes I love it But could I just do a little bit more And if I feel like there's some there that I can improve then we will do a second session Ok I've seen it for myself and you know how we get style smart So be sure to mention style smart when you call to book your treatment for 10% off What are you waiting for Let's go Those are some truly amazing before and afters Wow Ok Coming up a tour of our Oscar party house because if there's one thing we know this is how Hollywood lives Welcome back to L A unscripted Oscar house party for the Nightfall Groups Olympus Villa And we wouldn't have a party without this Wow of a house So let's check it out shall we So the NFA group is a luxury bespoke not only concierge rental agency but we like to specialize in providing our guest with like a 360 degree lifestyle experience Anything that the client may dream of we would like to deliver So it could be anything from a yacht a jet um a personal chef a personal shopper meditation healing uh you name it and we'll we'll we'll provide it for you because it's award show season We get so many clients coming in for all of these events They're coming into Los Angeles to experience like a five star luxury service while they're here to go to the award ceremonies or if they actually want to have a viewing party we provide the villa and we can also do the prep for the party the event planning anything that you want to bring for the event we do it all So the great thing about the Nightfall Group is that we have hand picked every single property on our profile and every property is different So there's really something for everyone If you want a property with extravagant art we have it If you want a property that has amazing killer views like this we have it So we really provide something for everyone We never slow down because there's always a market for what we do uh for that clientele that is used to
