

The Only Way To Build A Community - DailyVee 605 | VeeCon Day 3

This is insane This is one of the most thoughtful people I know Let's clap it up for the legend Pharrell I'm a purebred entrepreneur for real for real for real Like what is Sunshine What's really exciting is we're teaching people the next opportunity You know a lot of things what really has always attracted me to you is you've always been more thoughtful outside yourself I think selflessness is a superpower And I think when people actually know how to balance their own selfish wants and needs because the humans are human with also having equal if not more interest and selflessness And I think that's a real strength of yours And I think the Blockchain by nature is built for a lot of opportunity for people to help people It makes me happy Scary Yeah When I say the word curiosity where does that take you Curiosity is the life force in all of us The minute that you stop being curious that's it Your life is over It's actually the active ingredient to growth and not necessarily maturity right Because I'm a big kid I I haven't figured out how to grow up yet and I have four Children and they're looking at me like come on dad like curiosity is everything It's the key I agree I said in my opening keynote I'm gonna push it again Please lean into the things that you might be curious about but don't know People are so focused on being comfortable So many people that lean introverted came up to me yesterday and said thank you for pushing on the Discord on Twitter And on your opening keynote I actually made two or three new friends for real Try to lean into places that are less comfortable or something a little bit different What you're doing right now is super amazing Creating this platform for people to hear great ideas great concepts and to feel welcome and to feel included for him to create this space for you guys is amazing Let's stand up for our guy There was only one there was only one made up character in the friend's world Only one the three Horned Harp The trait of the three horned harp is to be thoughtful This is one of the most thoughtful people I know Let's clap it up for the legend This one is the how are you Thank you You guys having fun I I know you came to see her but I was really happy to I didn't even see you How are you Are you bring me back Have you slept a little a little doing an amazing job Oh my God how are you awake How's it going It's good OK Can I take a quick report with you I just want to say that I got on Tik Tok because of you because my friend wanted to stop sending me your videos

just do it And then now I'm here with Instagram to capture content so full circle Yeah I'm so proud of you Thank you everybody That what happens when you actually do instead of talking yourself out of it in your own brain My hand is shaking Thank you so much I'm so happy you're here Truly This web three has only been around for a hot second We need to be open minded to new people coming in and be kind and be nice to them You guys are great Thank you Gary Look what you did take a moment to appreciate this Hope you're enjoying it I did Thank you Have a great This is the second one I like I like the hustle I appreciate it man Clippers man Hey you've inspired me to create bro and do my own I opened my own barbershop because of you I'm an educator now man Like I lost my wife a couple of years ago Your content everything for me man I appreciate you I apologize I got to run so much Love you guys Thank you guys They ask you how you are and you just have to say that you're fine and you're not really fine I don't know if econ is changing the landscape but I hope it's inspiring curiosity right Meaning I hope other projects that are not even created And obviously the great ones that are in the ecosystem are saying OK there's Von they did this well they did this not as well I have a take on this Let me take advantage of the smart contract I mean I think Von and be friends ambition from day one was to educate through execution I'm incredibly happy with the sentiment of the first two days really from people I respect I feel the sentiment is incredibly good There's you know obviously just a lot of excitement around the content but from the people in it getting the flowers matters to me I hope it inspires good executions by other projects My hope is that people are putting out 2023 versions for themselves that are better than the one I did this year I have that same challenge for my own self What or who inspired art behind the friends I I think the biggest you know it's fun because my mom's in the background in Dover New Jersey when we first came to America I don't know how we got them because I know we weren't buying stuff So somebody gave it to us or we found it Uh There was these books called Sweet Pickles that I used to look at a lot Um And so between that and then my whole life whole life snarks and wuz and transform I'm 46 years old for us In our mid 40 s we got bombarded with intellectual property like you know Darwin Duck and you know and all the the justice league and Batman and he man and all this stuff And so it's just been such a big part of me What do you feel is missing in terms of taking a solid step towards building So two very clear things The reason most people struggle with building community is almost everybody who says they're building a community is actually trying

to build customers They're not trying to build a community They want them to buy from This is my community by the way buy this home for me this is my community buy this coffee for me This is about people trying to create customers Building community only looks like one way you are giving more to them than you want from them And most people can't do that Most people aren't trying to build communities they're trying to use the word But if you switch if you erase behind the word it actually says I just got another superhero Thank you Thank you for that Can you do me one favor My friend got me this ticket because he shouted me out every day on your Yes You said he was like Dylan's awesome You got to send him He's your biggest fan Can you just say hey to him Really Juif I'm super upset Juif We miss you both very much a lot No I miss you more Is it I didn't record You're not going to believe this We just made the best fucking video of all time and your buddy here did not record It was fucking amazing I said that I loved you more than him and this and that it was fucking epic and yet it didn't record So we have this second try We miss you We can't wait to see you in 2023 I hope you're well Oh my gosh Gary honestly like this was the greatest experience of my life I broke all my fears and I got to connect with seriously There was like 45 people waiting to talk with me and it was like so meaningful They're trying to make it like that you were done Yes What's up bro How's Mekong going Good brother You enjoying it Good man Well thank you for coming Thanks for coming Jacob Glad you're here Thanks for coming Thank you for coming Hope you're enjoying Thanks for coming man You enjoying nice hoodie My man I had to do it I just kidding I'm kidding I'm kidding I'm kidding I'm kidding I'm kidding I'm kidding Thanks for having me I'm really glad you guys Thanks for having us Nothing is more interesting for me than to come to one of your guys' festivals It will happen sooner or later Fellas Love you Keep doing your thing How's the response been Thank you so much Congrats on all your guys success It real pleasure Come over here and get a banana You taking a picture with us Let's go Gary Let's go Come on I'm really proud of you guys Thank you Appreciate that Thank you so much for having so happy to have you here I am How's everybody been here just to hit hit scam that hit it hit it Look over here you got it You could win You got these guys You got your be friends stuff like that So I might win a series too Like yes Also this is so collaborative dude We go in sweep some people's floors put them in the machine hype up their project show everyone everyone's like our whole community like this is nuts Let's go Anyways that's the car machine We're gonna come hot and heavy to everybody you
