From hot spots to hidden gems and lots of local flavor Eat your guide to L A the unscripted way and we're about to get our game on Hello everyone and welcome to L A unscripted from the beautiful La Meta Mansion in Beverly Hills Tonight we're exploring all the games people play in L A and you're going to want to pin this first place to your must see list Highland Park Bowl is the oldest bowling alley in Los Angeles And this was like one of the true first speakeasies During prohibition you go upstairs or at doctor's offices and you get your prescription you come downstairs go to the pharmacy and you know you fulfill your prescription you get your booze It had that kind of like sixties seventies drop ceiling vibe We peel all the layers back We decided to expose all the pin setters The original pin setters were no longer functional but we repurpose them We took them and we made a lot of chandeliers out of them We made the back bar from it So we wanted to create this kind of a steampunk affair You can see the mechanisms of the pins had dropped and you know and all that stuff is usually hidden between the box But here we kind of exposed it And then we also opened up the back wall and we found that beautiful mural back there So it was actually painted by these two brothers the Anderson brothers in the early twenties upstairs of the doctor's office they were as if they were untouched for 40 years We literally walked in and we saw a calendar that said 1972 on it We found old candy in the machines from the fifties up there It was a total time warp I found bowling shoes from the sixties We actually found somebody placed a huge liquor order in the early seventies and it was never used We found cases of old booze upstairs So the place was an incredible time War People don't build stuff like this anymore We try to modernize it to a point where it's practical today's life but there is nothing like the aesthetics of something from the past And so that we feel really strongly about that There's been so many film productions shot here We've had love shameless Lucifer There was a huge installation that they did activation with Hunters where they basically closed off the whole block for a week and turned it to New York City in the seventies Do you kind of line your thumb up I have a weird thing I'm very smooth I like literally roll it on the ground I'm gonna try and roll it more than throw it So we have an incredible cocktail program We have this amazing uh Neapolitan pizza program We make our own dough We have some of the best gluten free dough in Los Angeles and it's very authentic and very very proud of our pizza I think it's delicious We have live music that

plays here We have burlesque dancers on Fridays nights So this is a great place to spend you know the night at the bar or have special event birthday parties There's a lot to do here for me as an owner It's I love to come to a place and see people having a good time It makes me happy that it feels like we did something right No I got to throw a few balls around for my gaming story But we said Olivia out to get thrown around by a bull Sorry girl you know they made me do a lot of crazy things for a unscripted But this time I decided I will take some one in mechanical bull rental dot com is gonna be my company We are a bull rental company We specialize in entertainment So pretty much anywhere that you have a party or anything that you want We have uh mechanical bulls for rent You can basically much this is for you to try to conquer it What better way to celebrate with a bull in your backyard with your family We need to have a conversation You need to tell me what the trick to stay on is Um pretty much the the trick is just your grip You know you gotta hold on to it as much as you can even put your legs to work as well You can grip your legs to the blue as well and you can just stay on it as long as you can and then grip on the side or where where should I grip my leg Honestly it's wherever you feel comfortable So some people are taller and shorter than others So it's wherever you can grip the most Once you feel comfortable grip that's where you gotta hold it I'm gonna try it I feel better I feel better I feel worse I feel worse I'm supposed to hold on with one hand I know we only made it to level two but make me look good and take us to level four It's just fun You know it's something for teenagers adults you know a lot of kids these days you know they're not 10 years old anymore They don't want a jumper anymore So this is the next big idea right here Oh would I write a real book Uh yes Yes I would definitely write a real book that's gonna be a once in a lifetime chance and I'm not wasting it you know she actually makes falling look kind of fun Ok We'll be right back with Nerf Wars ax throwing and a new casino to place your bets get your games on next Welcome back to L A unscripted Look at games people play and wow have we found the ultimate spot for video and pinball gamers We are throwing it back to the eighties as we check out Highland Park's Barcade We are old school games So the name Barcade is trademark So noone else can actually call themselves Barcade One of the co-founders used to have parties in his loft in Brooklyn back in the day and loved craft beer loved video games had like four or five machines in his apartment and they all had day jobs and they were like hey why don't we just open a bar with beer craft beer and video games and that's what they did We're up to nine locations um

across the country L A This is the only location on the west coast They have almost every pinball machine under the sun monster bash demolition man Twilight zone Willy Wonka and the Chocolate Factory And that's not even counting all the video games They have like Frogger Mortal Combat Miss Pac Man So many tokens So little time I'm in the swamp The swamp is that bad And one of the big features here is this is the only location that we have Hydraulic Daytona So while you're driving the seats move we catered to baby boomers because they used to take their kids to arcades in the eighties we catered to Gen X's who grew up playing all these games originally But then the millennials the the Zoomers they love it as well because they get to come here and tell a story to their friends about the game they play and they already know how to play the games Cos they've already played them all online We have 24 beers on draught no bottles no cans no packaging and a full kitchen at this location as well Oh that's delicious It's a great cider One of the reasons why we chose Highland Park is we look at areas that are developing and that we want to be part of So you'll see tributes to the past in most of our spaces of what the building used to be My favorite game is Adam's family Pinball I grew up playing that when I was a teenager There you go You win Nice work Ok So it turns out I'm not exactly a pinball wizard but it's ok because I have other skills like this nerf wars I am taking on our own anya star and I even teamed up with my son Ok Dana Devin I know we're friends but today it is on because so and I challenge you and Cole to a nerve battle Dana we dare you This is my game You're on my nerve All right warriors So the rules no head shots no neck shots keep your distances when you get hit All you do is go back touch the money bag and you respond back in the game We're going to keep track of score and just remember guys the most important thing have fun out there but win get to your sides players Let's go Battle party L A is a mobile nerf party company So essentially anywhere that you want us to go a park your house anywhere we can bring a full paintball size battlefield we bring everything you don't need darts You don't need the blasters All you need is yourself and a good time Get you outside and get a little bit of exercise and it's socially distanced anyway So it's the perfect thing right now This dare was challenging Yes it was tested you mentally it tested you physically but most of all it tested your courage and your heart The second run on the score stand the blue team that's 17 confirmed hits the red team That's 30 confirmed hits good game good game good game That was so much fun Oh my God I loved it And coming back we're getting excellent and having lots of luck at a stunning
