tailgate you don't want to visit It's tomorrow night at 7 p.m. We are inside Sofi Stadium with all the Gridiron greats Now that I'm retired this is what I like to do for fun So the Porsche Experience Center of Los Angeles is a place where guests could come and test drive a Porsche on our 53 acre high performance driving facility Ok Coming up more secret spots and hidden gems plus a few places you'll only find on our unscripted map So come right back I'm right here at Barney's waiting for you all by my lonesome just sitting by myself Welcome back everyone to L A unscripted So what is going off script mean to you to us That means trying new things Like one of the dozens of amazing chilies they have here at Barneys be so good But right now we're traveling off the beaten path to bring you this L A story The Night Bear Snow Place is a family entertainment recreation We are up here in the mountains at just about 7000 elevations We have eight snow guns What is a snow gun Well the snow gun allows us but it is cold enough that we can make snow What makes big snow play phenomenal is that there's no lessons required Oh wonderful for families um kids and adults of all ages um smiling laughing getting on their inner tube and just giggling and screaming and hollering coming on down One of the eight runs you decide to come down glow tubing is so much fun Same thing like uh snow tubing in the daytime except this is at night time that we do on Friday and Saturday nights And during the holidays from 5 to 9 o'clock you get these phenomenal different color lights that um you're coming down at night time Our newest edition that we added was the Big Bear ropes horse big bear ropes course is a two story ropes horse and we have 26 different obstacles on the rope course and also your own zip line that you get to go down We have something very special hop on that magic carpet That magic carpet is gonna whisk you all the way up to the top of that hill Ever gets old Seeing the smiles and the laughter of these families that come up here as you guys know it's my job to keep you on top of all the cool things in L A But you're really going to thank me for this one Valentine's Day is just around the corner and now my sweet style smart deal to make your Valentine ladies Thank you for being here at the Gallant time Peach skin lunch Cheer cheers cheers and cheers to Karen So we have Karen Levine the CEO and founder of Sheets joining us at our beautiful table via Zoom because that's how we do it So ladies you will notice in your little heart Decor B I did not serve you a cold soup today I served you watch and it's funny because right before we sat down for lunch um you guys were talking about your sheets and what you have And Cheney tell us what you're dealing with because I love this This is so interesting I

I've always I'm really into white sheets always But we recently got a huge black puppy He's in Newfoundland So he's 10 months but a £110 already And he sheds he gets on the bed and so I can't wait to check out all the different colors Karen what would you recommend for Chutney and her situation Oh my goodness Well not knowing what your other decor is in your bedroom but midnight black would obviously be a perfect match You can mix and match and like you know the eggplant the Deep Crimson's red We made sure that they are super pet friendly because we love we love pets So the fabric of course the finish is a peach skin finish That's why it's so soft It has a 1500 thread count level of softness but it's a very durable fabric And so with the pet hair pet hair doesn't weave itself into the fabric like a lot of times Ok guys we want some cookies Oh it's a Valentine's Fortune Cookie Yeah so everyone needs to read is on the horizon You have a problem I'm not wearing my glasses Don't be afraid to smile You never know who's falling in love with it You know Karen while we think about a red hot Valentine Gallentine we don't always like to be so hot under the sheet Exactly Exactly And that's why peach skin sheets are perfect because hot sleepers will sleep cool and cool Sleepers can sleep cozy Everybody's happy And Karen you know it's funny and I can say this because all my very close girlfriends know husband but he actually noticed that our energy bill was lower because because you it's true true story because you spend you wash it less right And you have to wash Very true And that's very true because you know that's one of the environmental factors of our product is that you do not use as much you know energy from your dryer because they dry so quickly Oh my gosh it's the duvet I get to do the cocoon now to put this on my bed tonight with a 1500 thread count level of softness You would think they're very expensive They're not they're affordable luxury the color So let's be real None of us want to break the bank on sheets And Karen talk about the pricing What is the starting point of peach skin sheet We designed these She needs to be priced under \$100 And so our sheet sets start at 75 and that is for a complete sheet set And Karen you have a very special top secret VIP style smart code for us Yes I do Everyone will get 20% off all of our regular priced items with code style smart and it was originally set for February 4th through the 14th But with National Singles Day on the 15th we're gonna go ahead and extend it through the 15th They make a perfect gift because for a couple of reasons first of all sheets aren't something that someone runs out to get you know like on a whim or it's at the top of their wish list also with our our sheets It's the gift that the recipient will thank you and think of you when they go to

sleep at night and then every morning that they wake up they're going to be thanking you So you know it's a great reminder Make it a PG Galentine's Barney is the best place to watch any game And of course you want to catch our amazing L A unscripted Super Bowl special the big game Tailgate tomorrow night at 7 p.m. on KT A You can't miss it I'm very different now than what I played So now I have a wine I also have a clothing line and then I have a candle line because this right we like snake skins and and kind of funky stuff This is dope I like this I love sneakers because I love being different I'm gonna make you something today that I actually made a few weekends ago It's kind of like a a taste of Hawaii It's macadamia nuts coconut pineapple all inside of a crispy waffle And then that butter rum syrup It's like you're on vacation A cup of our waffle mix Got a cup of milk A tablespoon of butter melted one egg Some vanilla extract I also happen to love just a little bit of cinnamon So let's mix that around and then to give it kind of that kiss of Hawaii some crushed pineapple drain and that's it Guys Our waffle mix is ready for the waffle maker So easy macadamia nuts toasted and coconut toasted And I'm gonna add that to our batter first though I'm gonna chop up our macadamia nuts So just a rough chop to these to our batter Gonna add our coconut I'll save a little of the garnish on top Same goes for the macadamia nuts We are ready for our waffle maker Nice and hot to that I mean I have some coconut oil Take our ladle here the sizzle to make our buttered rum maple syrup Start with some good maple syrup in the pan pot A good amount of butter I would do a couple of tablespoons and melt that with our maple syrup and then just a splash of rum and you don't want to do it over open flame or you could have a little explosion and that's it Look at those golden brown gorgeous I'll show you how I plate these our buttered rum sauce You're gonna want some extra of this I like to put it on the plate too The extra toasted coconut Well that on top some of that macadamia nut and then last but not least I just think it makes everything prettier and there you go Thank you so much to Barney be for having us And if you haven't been to one of their locations come on down you can't even imagine what you're missing It's so cool We will see you next time Thank you so much for joining us
