at this the two of wands coming through OK Um You literally have some shifts coming up for you I want all of my clients to walk away feeling like validated feeling a lot more clear and you know they're like oh I had this I knew this I know what to do and I think that's the biggest gift that I can give somebody if they can walk away not with a wish and a hope and a dream that something in the future is gonna come down the line But knowing that they have a power they have a gift and they have they have a choice Right You know Tweedle Dee and Tweedle Dumb could learn a lot from that Wellness site Well you know who's psychic when it comes to good deals Our style smart partner Anya SAR Ok Listen up coffee lovers If you are like me and always searching for the best coffee I have found your one stop shop here with me now is the co-owner So honey and Rose's coffee is your one stop shop for all your coffee needs So it's an online coffee marketplace with uh 60 of the nation's best small batch coffee roasters as well as uh 20 amazing small batch bakers and chocolatier And we also have a line of homeware that we do So we're trying to bring the best of the coffee shop to your door I have to tell you about that I am pretty much obsessed with these gold pineapple spoons Can you tell me about stuff like this that you can get Yeah So our artist in homeware uh we designed and it's made in India and these are items that actually over the years of travel you know you go into a local marketplace and you always discover something new local to that place So for my co-founder and I we really wanted to bring these small little trinkets back to your home as well and we figured what better way to do that than the cutlery and some of the French press and reusable mugs trying to create also a sustainable way to you know make the coffee break at home This has been sitting here behind me and I'm trying my hardest not to open it especially today This is Cathy's biscotti cappuccino biscotti So we work with amazing small batch bakers and chocolatier and this sort of evolved during COVID And you know a lot of these people came out of COVID they were people who were accountants You hear stories of doctors who decided to start making granola you know they found their passion during this whole crazy time And so we wanted to give them a way to sell their products like for small batch cookies we have gluten free vegan paleo options too lots of really great craft chocolate and all of that as well So you mentioned gift boxes and of course we have we're in the holidays already Yeah So I sort of created gift boxes that I wanted that I didn't feel like was on the market If I'm being totally honest we obviously have gift boxes that include some cutlery some sweets coffee things like that We also do um prepaid gift subscriptions

and how much do these range Like what's the range for the gift boxes Yeah so some of them start at 6065 Um They range up to 150 depending on the items in the box Now for our audience here in Southern California you guys are doing something really exciting in Los Angeles Coming up on December 11th we've been working on this partnership for a while Dear friend of ours Ryan Hanson amazing actor comedian entrepreneur He came on board as a business partner and creative director for the company And so we really wanted to do something fun for not only the holidays but also as a way to introduce him to the company So we are doing a uh food truck or coffee truck and it is going to be December 11th in the L A area and we're gonna be giving out free coffee as well as selling some really great fresh baked treats and sweets and cookies Now I know you brought me something very exclusive and VIP just for our style smart viewers Yes So we are offering 10% off with the code style smart So if you go to our website honey and roses coffee dot com we will be offering a discount 10% off for the entire month of December So we're super excited about that Are we done with the Zoom So can I try this Not yet We can try It is the true queen of hearts and our trippy adventure from the coolest tea party in town continues right after this Alice pop up Sure to quench your curious appetite and thirst But while I enjoy a very merry un birthday with my magical cocktails Jasmine's mixing it up with our sponsors at Planet Oat Planet oat has their oat milk they have their creamer they have their non dairy frozen dessert Really easy to incorporate into a lot of things that we make at home Now It's the holiday time Right And everybody's cooking and everybody is um getting in the spirit of the holidays and food is a big part of that Talk about how people can incorporate planted oat into their you know holiday cooking And I think that if we're hosting brunch or breakfast we want to have some plant-based options for people And oat milk is a great way to incorporate that gradient into these plant-based tree One of the best recipes I think is their plant oat banana oat pancakes So good You just use their original oat milk and then you have some banana of course in there oats that you grind into a flour almond flour some cinnamon egg and then you blend it all up in a blender super easy and then you cook it on a skillet Wait till it's golden brown on each side top it with sliced bananas and then pour it with some pure maple syrup and you're good to go What are some of the other dishes I see some really cool things on the table What else do you have there for chocolate lovers Like myself their dark chocolate oat milk works great in this dark chocolate banana peanut butter smoothie bowl kind of a mouthful but it's so

easy to make because you're just gonna blend up that dark chocolate oat milk You can also use their vanilla if that's your style with yogurt banana peanut butter and dark cocoa And then go ahead and put it in a bowl and top it off with some creamy peanut butter drizzle some chocolate granola and then of course more banana and there's actually more than just one flavor There is their original oat milk which is actually what I use in the pumpkin spice oats There's the vanilla as well and then that dark chocolate But I think the all of them are a really great option And for quick and easy recipes the pumpkin spice oat is o overnight oats is something I really like to recommend Then there's also dinner recipes The original will work really well on some savory recipes We add a little bit of creaminess and give it like a full body We have some savory soups on the website You can really elevate that texture with some of the oat milk for sure So what I'm hearing is that planet oat is yummy You guys are supplying folks with recipes so that they can really be able to cook and incorporate it into their food dishes And also that it just really is healthy and flavorful and delicious So sold it's nutrient dense friendly for so many recipes and a really good staple ingredient for people to have at home Thank you so much for sharing all these cool tips and tricks and all this information about Planet O with our L A unscripted audience We so appreciate it I love oat milk in my lattes and I could use one now because I'm about to tour the brand new home of our sponsor Wild Rivers and meet the man who didn't give up on his dream of making a splash in Southern California right now Olivia over my shoulders you see 20 acres of land that we're going to transform into over 20 attractions restaurants bars everything you could want wild rivers when we're done is going to be the best water park in California First of all there were a lot of people relying on it Both people that I've worked with for a long time and they're coming back to help the community loves It was so fun for a living My name is Mike Riedell I'm the president here at Wild Rivers Water Park We're located on the old Lion Country safari grounds It's taken 10 years and about \$60 million but the water will be flowing again Now let's go check out the park Why would you not want to recreate that job Like this is the best job in the world You you walk out of your office and everybody's screaming and having fun I can't imagine doing anything better than this Mike This is so intricate What are we looking at right here This is the plan of the entire park So I don't you know this is actually one of the few I can understand Most of them just look like a bunch of lines to me but just walk you through the experience you're going to come through the park lot and you're going to go through the entry plaza

And so all the kids all the little kids stuff is out here for them So this will be our play structure to pool and the little kie slides for them and then the bigger kids they're gonna play Here's the way pool in the back We have a we have a mat racer right here for the adults We have a little bar we didn't have that last night We need a bar This is this is our kitchen it's gonna service to everybody And then this is kind of where all the all the big boy rides are the you know for the for the bigger kids I already know it's gonna be like two times like better and like the rides are gonna be so much bigger and you have such like such a better experience Wild rivers is set to open summer 2022 and I'm gonna be first in line Cheers to that into the strange world we live in Well unfortunately we are out of time Thank you so much to the Alice for letting us go off script in your wonderful wonderland Where will we be next down Another local rabbit hole you'll want to get lost into We'll see you next time
