

LA Unscripted | December 2nd, 2021

It's a city where anything can happen So what could go wrong or right as I head up L A unscripted from the famous Madame Tussaud's Wax Museum in Hollywood A most popular landmarks are back in business including the iconic Madame to Sos Wax Museum in Hollywood Hi everyone I'm David and I'm just hanging out with some of my very famous best is here And did you know this is the only spot where you can see all your famous celebs in one place Isn't that right Brad is ready to see it now that the wax museum is open and ready to welcome in tourists and Angelenos to safely hang out with the stars What do you think Brad You wanna you wanna have a little cocktail No OK Goes to it again Hi my name is Ed Bell and I'm the general manager here at Madame Tussauds Hollywood and we're the world's greatest wax museum So uh it's been going for nearly 250 years um with attractions in many different locations So in in L A here on Hollywood Boulevard we're right next to the Chinese theater We tell this the history of the movies in particular So not only are our a list room and and the story of the modern stars but also we go right back and tell um the Golden Age stories Um the glamour stories from Hollywood you can meet some stars from the past as well Yeah some of my favorites including Gone With The Wind and uh Dorothy and her Red Slippers from The Wizard of Oz So yeah it goes all the way back through the history of Hollywood to to modern day glamour So we're always doing more We're always adding new figures We're bringing new celebrities into the fold We're doing new um kind of creative things with the set So some of our stuff in the last year or two has been focused on some more kind of pop icon instagrammable uh fun sets But nevertheless our core here is amazing wax figures celebrities that come in get involved with us and we create their in a way that no others do We've got five figures lined up and in every case we've got the celebrity kind of involved in the process So they typically come along to our studio or one of our locations where our studio artists meet them they take over 200 measurements It's a very involved and detailed process A lot of the time they'll be donating outfits that the wax figure will wear and you know they helping with that creative process selecting the look and the feel so that it's a real collaboration between the celebrity and ourselves It not only makes for a better experience for the guest because the figure looks more lifelike You can tell it's got their character built into it But also you know when people look at us they know that we're the real deal and we're the ones that you have got

that great relationship with a lot of these fantastic stars This is our wonderful uh Jimmy Kimmel wax figure Yeah So just prior to our lockdown uh closure we had Jimmy Kimmel launch here we obviously got Jimmy involved in the process He sat for us met with our studio artists Um He also dedicated a lot of his time to not only you know selecting his outfit and getting the look right that he wanted and he actually crescendoed with him taking the wax figure onto his show and uh created a fantastic hilarious little segment where he was scaring his cousin but also creating some special content that goes into the Jimmy Kimmel experience here which is a little interactive that's normally open where people can kind of sit and pretend that they're on the show with Jimmy Kimmel and then they can take that home as a as a fun social media clip Uh So we do allow people to get up and close with the wax figures Cos at the moment we're just saying keep a little bit of distance celebrities need their space as well but we are still fully accessible There's no red ropes here We want you to come up and feel like you're you know meeting your favorite star and getting in their sets I mean even her to look amazing And by the way did you know that Beyonce's mom made Destiny's child's costumes in the beginning of base career will now in this trend with benefits this lady is the coolest me She had over 2 million downloads for her ma tutorial and now she wants to get you to all the same Hi guys My name is Mimi Gee I am the founder of Mimi G style dot com Se it Academy which is an online sewing and design school and co-owner of melo native fabrics and I loved the pattern so much that I thought I'd do it So along for you let's get started mini style dot com is a blog I share a lot of diy tutorials and just our sort of diy looks that I create here in my home studio when the whole pandemic started happening You know this large audience that I've grown on social media was messaging me like Mimi Please do a mask I recorded the youtube video I made a quick mask I posted the mask 2 million views later overnight They were calling me the woman who masked America which was ridiculous It became very popular I started Sewing academy which is an online fashion sewing uh design school Everything is done online It's the only place where you can go and learn to sew literally from like the beginning And then you learn sort of progressively with every course you don't have to know anything about sewing You don't even have to have seen a sewing machine I walk you literally through everything and every course builds on the neck I've had a lot of aha moments I initially started sewing again as therapist I come from a difficult background and sewing for me was always a place where I could go and feel better about everything that was

going on and sort of zen out So I just started to share what I love to do I started to sort of take runway looks that I could not afford and showing people how to make them using commercial sewing patterns when you come from that background And then you sort of sit and you realize that you've built you know a multimillion dollar empire from a hobby You cannot help but to want to share that because I want people to understand that if I can do this coming from my background um anybody really can Ok So get so all of you L A in scriptures and send us a pick of your creations and tag a unscripted We can't wait to see your f designs And speaking of fabulous coming up do all day Plus the new workout that let's just say is all the trust me you don't want to miss this L A is reopening again And that means there are absolutely no more excuses to not work on your fitness Hi everyone I'm Dana Devin And we are hanging out here at Madame Tussaud's Wax Museum and today I'm getting some inspiration from J Lo here and this workout that promises better balance and a better But although I think she's doing just fine but look at this So P is really rooted in the idea that in order to look and feel your best that you need to work with your body not against it with our movement in particular it's going to be very three dimensional and multi planar which means we're going to move forward back side to side rotationally just like you would in real life And with these different gravitational forces especially our resistance equipment it's going to really strengthen and tap into your joint support and overall strength in your muscles or about the long game And no matter if you're in your twenties or in your fifties this method is accessible to anyone and everyone If you like look at Tik Tok and Instagram it's all about like the butt right And I saw a lot of like really focused toning in the butt area Is that is that something that you guys work on Absolutely We always got your glutes covered here Let's go big or go home Yes Just put up like a pair of pants There's so many jokes and I'm being such a good girl So I'm going to take you through some of my favorite moves using our P ball for the glutes Ok So our home base you're gonna have your feet tight under your hips and then right away you should be feeling the ball between oh I feel the ball between my legs and then come all the way back up and squeeze the ball between your inner thighs Yes I feel like way my inner thighs got it So we're gonna step your foot out a little bit wider into the strap of the ball Pull the band across your chest from your mid back I feel so strong OK So this is the old bowling chain You're gonna take it and you're gonna attach it to your right ankle OK We're gonna drive back to our step back catch OK And then you're gonna reach your arm squeeze and

then pull back feeling your bicep and your shoulder Yes perfect So I'm gonna take you down to the mat Now we're gonna try that hydrant here So you're gonna lift your leg up hold and catch and then squeeze your ball in as hard as you can OK So tap your foot out laterally to the side OK Squeeze through your inner thighs Oh Yeah Other side tap God your inner thighs are gonna be like so strong So there's just a few of my favorite glue exercises Dude I feel like they're like like wood like they're so strong This is great This is so good This is one of the most unique workouts I've done in a long time I love it I love it It's so effective Thank you Well you did amazing So thank you so much for joining us today Thank you I'll take it from you Thank you That was intense So intense I think I'm actually going to do this Jason Derulo move No no I'm not No I'm not But I do want to show you Carrie Underwood over here Look how cute she is and how realistic and look at her legs nice legs Carrie and speaking of blonde bombshell country stars Olivia de Bartoli shows us this mural in Costa Mesa where you can get your dolly fixed all day long You're so cute Strut is a brand new Queer Bar that was opened uh late September 2019 We were opened six months before the pandemic kicked in It's a beautiful club The interior's gorgeous It's lots of fun It's an adult playground We get as many girls as we get gays So it's a it's a good time Let's get into Dolly Parton She is such an icon Why did you wanna put a mural of her on the side of your building We pride ourselves on our interior Like it's very social media friendly and like you can be photographed against any surface but while we're closed what do you do Right So I'm like how do I put that kind of experience on the outside of the building Yeah we driving along So I knew I would have to have some kind of mural but like not just a bunch of colors and whatever Like it had to be a strategic point of reference and of the moment and Dolly Parton is definitely off the moment right now People love her from the far right all the way to the far left and everything in between And that's a rare find She's female She has a very broad spectrum She's a humanitarian but she's also an artist Like her songs are ingrained in our culture Can't find a better subject I think people just kind of feel like they know me I feel more like a family relative than a than a celebrity I think they just kind of think oh dollies come home tell me about the kind of the inspiration behind the piece that you did and how how you painted it I looked at images of her throughout time Her face is around the time when she was 30 Her body was from one of the last performances she did She's going like this So it is this goddess like there's a halo around her head there's light rays shooting out from those glorious

hands with those giant nails I wanted to to have a pinch of like a storybook Kind of look just a pinch because there's doves on either side of her holding scrolls that say her name There's huge blooming flowers there's butterflies So the whole hope was really to be happy and joyous What do you hope people feel when they come to Strat and see this thing here It's hard to even describe it at this point You have to she's so big Dolly Parton you can see her all day and then she's lit up at night You get to you know have a glimpse of some joy at any hour of the day You know Dolly has won so many awards for her music She's a humanitarian and entrepreneur and did you know she has an IQ of 145 who doesn't coming up I was dared to mask up and learn how to fence Don't miss my master moves Coming up next Welcome back Ok Hey um Did you not know that masks are required Well here you can have mine because for this next dare I got my own mask when I suited up for a date Dare to learn how to go fencing Look how good she looks on guard Hey I'm Carolyn at Silver Lake fencing and Dana I dare you to a duel We started teaching fencing in Silver Lake in 2014 So it offered kids in this neighborhood an opportunity to learn how to sword fight Uh as a part of their exercise and has a lot of benefits like agility coordinations and uh just a great after school activity The sport of fencing United States fencing association has definitely grown in popularity I started when I was around in the seventh grade and there was a Y MC a camp over the summer and I just watched the Parent trap with Lindsay Lohan F again and I was like hey I could do that too I just loved it and it was very empowering and I just couldn't get enough of it You can go straight Are you seeing more women and more girls taking fencing now than before Yes I think me being a woman coach and a woman's cell phone fencing business I definitely been able to empower a lot more girls to take fencing here Put both arms in like a straight jacket Benzine is a great workout because you're stretching out your body you're working on your form And then when you get into the actual bouting uh the average woman will burn like 450 calories an hour The joke I like to say during the pandemic is fencing is truly the best COVID sport because you wear a mask you wear a glove and you have to stay 6 ft apart or you're gonna get stabbed 3221 I think you're ready for a duel I think you're ready So I'm bringing in one of my finest students Are you ready My name is Hunter Morden I'm 11 years old and I'm learning how to fence at Silver Lake fencing Hunter is a special student of mine who just started fencing during the pandemic He had no prior experience before Yeah I'm very lucky that I found something to do during quarantine I like the footwork and stabbing people with my fake

sword Well it is kind of being your own superhero because you control how you wanna use your blade Oh you are I've worked out quite a bit in today's show I feel I can go a few rounds with Rocky Right by the way my abs look just like this now though I want to get away from it all so rich has the deeps on renting a boat No no no Spring break means a chance to get outside safely Of course everyone's in a good mood on the water You can't go wrong Ah what is it about The water That's just so relaxing I can stay here all day Do we have it for all day Which is why Landon Martin of Baywatch boat charters is gearing up You feel the breeze on your face and it's just very refreshing That's what everyone says they get to take their mask off if they like since it's just with their private group So what type of boat are we getting on today and tell me about the name California Baywatch boat charters one of our main boats it was an ex Baywatch boat actually from Los Angeles And so we bought that boat auction directly from L A county And so it was one of the Baywatch rescue boats a very iconic boat of Southern Californians Now is this the toughest part in getting out of here or what It used to be tough Not anymore though But yes Martin typically takes passengers on two hour relaxing trips around the bay since all of our trips are private and of course they're outdoors and we sanitize them between trips We've been very busy Some of his customers find him through a website called Get My Boat Come They can request certain times exactly what they like to do for how many hours and they can it's a great platform for us to reach customers and for customers to find boats because sometimes it's tough The most popular boats on our platform are definitely going to be your pontoons Modest power boats Landon recommends looking for captains that are us coast guard licensed along with five star reviews for an experience that will sail you away Guests Really do have a great time I'm Rich Demaro L A unscripted Speaking of wise guys are you wise enough to know what to do in case of a ride share fender bender before you hop into your next Uber or Lyft double tap This advice from our sponsor who reigns Supreme So first question Thank Queen Elizabeth Queen Elizabeth Queen Mary Scott and Catherine OK And then one more queen uh we're gonna say Queen Yasmin I'm Yasmin Jadan and I'm a personal injury attorney We've seen with COVID lockdowns being over that more people are enjoying ride share like Uber and Lyft So what happens if you are in a Lyft or Uber and you get into an accident you get into an accident in a ride share like Uber Lyft who do you call first A Uber Lyft B the police or C an attorney The police caught a PPO the police ok You've been called the police and then I did everything else

Lyft and Uber cases are different from your cookie cutter car accident case. They have different rules, they have different procedures, and it's really important to hire an experienced car accident ride share accident attorney for those cases. And I have had plenty of experience. Actually, most of my cases are Lyft or Uber cases that have had plenty of success and experience with rideshare. There are a lot of personal injury attorneys out there everywhere we look, there's plenty of them. But I think what's most important when focusing on picking an injury attorney is a proven track record of success ever covered over a billion dollars on behalf of my clients. I've been named a woman of influence by the business journal super lawyer twice. And also I truly care about the client. So a lot of people are intimidated when trying to hire an attorney because they think it's going to cost a fortune. And that's not how we work. We only work on a contingency fee basis, which means no fee, no win, no fee guarantee. I'm K Yasmin, I become friends with my clients. It's not a formal relationship. Of course, I'm going to have my clients back. Of course, I'm going to make sure my clients are compensated for his or her injuries. But once a client comes into my office, they become like our family. All right. Thank you so much for going off script with us and enjoying a Hollywood tour at Madame Tussauds. Where will we be next? You never know.
