

Why Coke Tastes Better at McDonald's

The Joe Rogan experience We all know it that formula at mcdonald's Why that's the best tasting Coke and Diet Coke on the planet They have it because what happens is when you when you're an establishment like a restaurant you get you know uh a formula like the the the gun has a blend and there's definitely a different formula at the mcdonald at mcdonald's Has there been anything written about this Interesting I didn't know that Oh How go if you drive by mcdonald's and you get a diet Coke you'll be like what the fuck Ok Typically restaurants get their soda syrups in plastic bags but Coca Cola does something different for mcdonald's The fast food chain gets their Coke syrup delivered in stainless steel tanks According to the New York Times the material keeps the soda fresher and your tongue can taste the difference 1000% It can right But is it a more potent blend or is it just because it's in the tank I don't know but it does taste so much better It says their filtration system is top tier It is so wild There's all these articles about it being so I would say both like regular Coke All of a sudden you're like oh man and mcdonald's has an article mcdonald's does It says there are many reasons the Coca Cola tastes so great at mcdonald's We simply follow the guidelines set by Coca Cola and take steps to ensure that we serve a high quality fountain beverage Well congratulations You do that The water and Coca Cola syrup are pre chilled before entering our fountain dispensers The ratio syrup set to allow for ice to melt Oh so that it doesn't get watered down with the ice So they are making it stronger But that's smart Isn't this Tell you something though that how everything is in the details You know what I mean Like this is something that probably a restaurant would be like Coca Cola would say you should do this and they go whatever you know like whatever we'll just we'll just put it in the gun and and and but I I believe that mcdonald's sticks to that because it is consistent and it is so much different tasting even what they said about their straws So their straws are typically wider than the typical straw So you have a different amount coming in Give it to me my face You fuckheads Fuck my mouth with Coke Big old fat tube of it Extra syrupy Because what if the ice melts the ice melts you know ice is better there They have they have they have filtered water They said there you go By the way we're not paid by mcdonald's for this I don't even eat that stuff But if I did it's filet of fishes I can eat five of those I love filets of fishes I don't even know what that is Mcdonald's has this thing too where there's a temperature swing where it goes from being the best thing you can eat at that

moment to this unedible dog food You like throw this down I was uh in California a few months ago and I had a quarter pounder It was actually quite a while ago 10 months ago and I had a quarter pounder for the first time in fucking forever But I was starving and I had to eat and I was headed to the airport and they were just pull in this driver real quick and get a quarter pounder It's so sweet Like I could taste the sugar in a quarter pounder bread even is I think it tastes like a pastry I was like this is interesting It was very good I enjoyed it I really do I'm a quarter pounder fan I don't know what they're doing but it's it's fucking delicious That's the thing I think you really notice about certain foods when you stay away from them is that when you rein them you go oh I didn't realize that I was this is this tastes way different way different I I thought it was gonna taste like an In N Out cheeseburger Like a cheeseburger Like In and Out is the gold standard for me For for fast food places That's the you can't fuck with In and Out But they have a standard and and five guys they have I mean in N Out has high standards but or not they they are for your palate You can't negate that They have high standards Some people hate their fries I know you hate their fries You see them chop the potatoes in I just wish they did it in beef Tallow because they're doing some bullshit seed oils That's what that's what they yeah I'm sure What is it What is uh in N Out Use oil for fries Everybody uses like canola oil which is basically industrial lubricant That stuff was invented The luba machines sunflower oil same shit You're not supposed to get that much sunflower oil in your body at one point in time It's not normal but they definitely I've seen it sounds healthy doesn't it It does Actually sunflower sounds good That shit's not healthy You watch them they're chopping the produce right there in front of you right in front of you The meat is fresh it's not frozen and then you taste it Nice biblical verse on the bottom of the cup That's so sweet You know what I love Flying Dutchman's That's what I get The secret menu is really fascinating They have it animal style and all that jazz Nothing's on Not printed though How do you find that out I don't know Yeah Somebody told me about it the first time and then I googled it and it's it's much more extensive than you It's not like two or three things It's a shit ton It's a lot of things things I've never even heard of before It's a lot but it's fucking delicious I'm a fan I'm a fan It is such a different taste though than a mcdonald's burger Mcdonald's burger is like it was sweet I'd like to know how much what how many how many grams of sugars in a quarter pounder It's gotta be and I'm telling you it's gotta be from that bread too It's gotta be from everything It seems like it's from the ketchup too It

seemed like the condiments had some sugar sugar content Yeah It just tasted like it had sugar in it Like I'm real sensitive to that So I eat I'm like it was good though I also love a chick fil a sandwich I love a chick fil A Yeah I love your wife's joke about them She's so funny man Oh she's so funny 10 g 10 g of sugar bread OK So it's two natural and eight added So it must be 8 g of sugar in the bread Yeah that's in a quarter pounder Yeah that's kind of a lot like a really sugary drink like yeah that's what I was saying too I felt like the ketchup was kind of sweet So it's probably the bun and the ketchup good though So good It's a good move to put that 8 g in there So it makes it more delicious If you're only looking for something delicious You ever heard of mcdonald's secret menu I have some weird shit on here like this the Land Sea and Air burger Fil a chicken and burger The difference is though I feel like if you stab you if you order that if Yeah if you order that first of all I think they'd be like what the fuck are you talking about Look at this mcrae the gang bang Shut the fuck I swear I don't know which place is going to really know about them But I've seen people ask like they follow through with the video and go ask for some of the stuff There's a weird viral thing going on right now with them because they have a grimace milkshake and people are making some crazy videos about like what happened to me after I drink like red band did with uh 100% red band did with Pepsi spice Did you never knew about that It's the greatest troll red band ever pulled off Red band bought Pepsi spice dot com and then he documented his enjoying delicious Pepsi spice And so as he's drinking Pepsi spice he's losing weight He's getting blood in his diarrhea He's he's dying at the end He's making videos This is like young red band Pepsi Spice project promo I don't know what this has to do with anything What does it have to do is he blowing himself the bathroom doing stuff but he's filming himself drinking Pepsi spice with himself So anyway so he made he bought Pepsi spice dot com and he had to give it to Pepsi after a while But I mean I think it still exists somewhere online but they they came to him and they were like hey motherfucker we'll kill you because he it went viral you know at the time like whatever viral is in the year 2001 Imagine like the the threat from a corporation like that was for the Pepsi Spice project Wow Oh yeah It's very funny Wait continues to add I like to stamp yesterday I'm afraid to have sex I keep thinking that my over caffeinated sperm would blow a hole through the back of a girl's head Like what the fuck It's just so stupid So stupid But that's the funniest thing to do is a stupid bit
