

## Joe on the Mayweather/Gotti Brawl

The Joe Rogan experience Did you see the Mayweather Gotti thing yesterday No I didn't So John Gotti the mobster his grandson So what happened was this is the end of the fight But if you could see if you could find what caused it because there's a there's a video that shows the end of the fight and in the end of the fight what happened was if you just Google uh just Tweet like put Mayweather Pacquiao in Twitter put it you'll find it Uh excuse me Mayweather Gotti he was holding so he wouldn't stop Floyd was boxing him up Yeah so Floyd is just piecing him up So Floyd you know I mean even at 46 he's the greatest of all time And this kid is really an M MA fighter He's a tough guy He caught Floyd a couple of times with some little shots but most of the time mostly he's just getting boxed up right boxed up by literally the greatest boxer of all time but he was holding on quite a bit and wouldn't let go and was trying to like hold and clinch and hit which is something like right here which is something you can do in M MA So he's protecting himself from Floyd but he's not letting go And so Kenny Bayless gets tired of him not listening and not letting go and he pushes him off and he says that's it I'm stopping this fight That's it You won't listen to me I am calling this fight So he goes crazy and gets away from Kenny Bayless and just starts wailing punches at Floyd Look at Floyd catches him on the counter right there Bang knocked him way over there He Yeah well the other guy got the way too but you know I mean it became a melee and so then there's fights in the ring and then there's fights outside the ring and there's all this cell phone footage of footage of people brawling and sucker punching each other I saw some of that That was crazy There's sometimes this be um here's the brawls outside just just people just screaming and yelling at each other But at the end of the day just you know he was just getting frustrated Floyd was just boxing him up which is what he does That's what you you came into his sport got into his arena you crawled into the snake hole and then got mad at the snake for biting you Yeah you can't bite me like that like you in my hole Yeah I don't know why he didn't listen why he didn't let go I don't know if they were talking shit to each other I don't know what was going on But Kenny So that's it That's a wrap and then everybody went crazy That's crazy Including him Freddy didn't expect that Probably thought Had they taken any Well there's no points Right because it's an exhibition So that's what's what's interesting is Floyd's making more money than anybody and he's boxing people who have no chance of beating him and he's doing it as an exhibition

It doesn't even hurt his record because of the drug of boxing Like the money just like the but I don't even think he needs he don't need any money He spends so much money Yeah Yeah But he don't need any Floyd Good I bet he's if he's playing for the future you gotta keep it coming in if you're gonna keep spending the way he spends Yeah But I think he has a lot of other business interests that that he can get money from and not just boxing but it's the it's the drug of getting Floyd still trains when he even when he doesn't have a fight he posted this a week ago of all of the Air Force ones he buys he only wears them once and then gives them away to someone One fresh pair a day Come on man He needs that money That money has to keep coming in if you're going to live like this It's not that expensive though but there's only 46 But he does this with he's got a million dollar watches I don't think he buys every every pair You give them to him Yeah because then you get a video like that That's smart And then you get Floyd's Air Force ones giving away for charity That's a tax write off and all sorts of things that you got a good point But those million dollar watches they're not giving you those they they still you know worth whatever they were Like you got eight of them You look at all those diamonds That's ridiculous That's millions of dollars worth of diamonds I mean that is that's bonkers That's yeah just watch Yeah he's like that A professional ball like that That was right there is not like I wouldn't wear it because it's not my thing even if you know I had I wouldn't wear it It's just not attractive to me No I'm not into blinged out watches either I like mechanical watches Like a metal Yeah that's what I like But you know I get it
