

Alligator Attacks in Florida

The Joe Rogan experience That's Carol Baskin She's on it Joe Exotic Joe Exotic should be on if she's on it Where's your husband Where's your husband lady Yeah I gotta learn to like make some money online or something like that Imagine that Did she really If if let's just say if we're not alleging anything but if she really did feed her husband to a tiger you can get her wish you happy birthday That is fucking hilarious That's how I want to go to is food I think that's a great way to go out It is kind of weird that we kind of cheat on the food pyramid thing because we we embalm ourselves so we don't run so nothing can eat us It's a real it's a dirty trick Like the alligator pit would be kind of fun Don't you think when your body's done a little celebration throw you in a pit full because they have zero respect You know the way they roll it you know how they kill you know how they kill they roll Oh That would be just see myself twerking around like that Jamie Did I show you the video of the crocodile that's swimming with a body in its mouth a human body in its mouth Do I send that to you This one's rough Um I someone sent sent this to me on Instagram Um It's a uh crocodile and it's swimming up to this boat and it sounds like they're from Australia or South Africa It's hard to tell But uh they're because I don't I'm not good at accents but they're um they're trying to uh figure out what it is and then they realize it's a human Oh no Oh dude it's rough It's rough I'm gonna try to OK this is the kind of stuff is for the video It could be it could be it Yeah that's a crocodile right No that's not Look I think I think they're just showing croc videos They're not gonna show the video I don't think so Let's see Fighting them off with his video on Twitter I guarantee you I have it in here If you just give me one second I'll find it extremely graphic footage here This is this it no that's another 10 no that's another one I've seen that one too bro Seriously Yeah Yeah that's it That's the one that's so look at that bro That is fucking pants them too That is fucking rough That is rough and it looks like the crocodile wants everybody to see it That's what's most fucked up How much swimming over like it wants everyone to see that it killed a person Now I want how much is that crocodile cameo I just want you to look at that How crazy that is that we accept the fact that monsters live near us that we're we're cool with that Like why are we cool with that What the fuck is wrong with us I think it puts us like kind in our place a little bit You know what I'm saying Yeah Is that necessary I get it I don't know I don't think we should keep those things around Everybody thinks we should keep them around like

I I think shoot them in the fucking head and turn them into shoes You're out of your fucking mind Those things eat people like we're just so far removed from nature that we think that and I'm not advocating honestly I'm joking around I'm not advocating for the elimination of all crocodiles but the fact that people are like really comfortable being around them it just blows my mind just like the Florida is having more and more alligator attacks every year Like every is that true I might have made that up but I think there's been a number this year in Florida Well that's one of my favorite shows where the guys get to go out and cull the herd You know that's really cool the way they do that man I love it and uh they're doing it now with the pythons because that's another evasive species that show swamp people Right What is this alligator attacks do happen in Florida But not an alarming rate It's one is an alarming rate If 11 person gets killed by a werewolf if one a year gets killed by a werewolf that's fucking alarming That's about what that guy thought It was only an average of six a year I feel like But I think this year there was a few I think a few people died this year How many people died from alligator attacks in 2022 Just you just Google that real quick OK I'm gonna guess I think it's six I think six people have died from alligator TD That's nothing What about drunk driving What about oxycontin What about Yeah Yeah Yeah that too That too But fucking also alligators Four so far Four How many how many just fucking disappeared How many homeless folks just vanished One of my favorite stories was a guy stole a car and the cops were chasing him and he uh jumps out of the car on a bridge and jumps in the water and lands right on an alligator and gets killed right in front of the cops like he just landed boom right where the alligator was just snaps him up like right away
