

## Paulie Connell on What Bothers Him Most About Filming RHONJ | BravoCon 2023 | Bravo

Um what is your favorite part of filming together And what is the most stressful part of filming together Paul I'm gonna let you take that over since you're new at this Uh The favorite part is obviously being with Dolores and see how real she is in real life and on TV because that's exactly what it is Um The least favorite part is probably when she gives out to me and tells me I'm doing it wrong or gives out mean yelling and Irish But I love working with her It is a hard part though because like the last part of my season was so stressful and I usually am tough about things but it got a little bit the best of me and and it kind of like spilled on our relationship a little bit like I wasn't really there and he kind of bothered him So Right I mean what what bothered me was just the way things were going for you because she she takes everything on board herself and is always trying to make right with everybody and make everything work So she was coming back from filming and she was kind of you know she was kind of like upset and I didn't really like that but understandably So Dolores What about you What's kind of you know the part that's really the most stressful And what's your favorite part My favorite part is the camaraderie I didn't go to college So that's my sorority And I always say that and and my hardest part is keeping that together and and trying to diffuse what's going on and sometimes it and it's gotten a little bit out of hand So that's the worst part is to see somebody hurt or disappointed in a friendship or cry And I try to let them know that there's a lot bigger things going on in this world than the things that we're upset about Are you going to be this upset a year from now about what just happened No So watch how you talk to each other Don't cut so deep Oh that's good because sometimes I can be petty I gotta I gotta work on that We all can you know it depends on the day what the sun is shining on the right side of the house Like we all go through other things in life Right Right If it's a good day I'll let you get away with yelling at me If it's a bad day you're in trouble Watch out you're in trouble Hi Ellen Amanda What about you I think there's look there's I I love having like a kind of uh a partner in all of this Like I I can't imagine in in some instances just waking up and not having like something steady and stable in my life Um but but yeah when you're in a relationship on a show and you're both you know on the cast it it really puts your it's like the relationship becomes like the third cast member and it's kind

of up there out there and you know sometimes it's it's easy when there's nothing to talk about it's easy to talk about some of the relationships or some of the challenges in those relationships And so that's it's kind of like the the pinata of reality television Yeah And filming has forced us to have some like maybe conversations that we wouldn't or have conversations sooner than we would normally uh for better or for worse So the hardest part is reliving those conversations when they don't go the right way Nothing's worse than having the same fight again when it airs airs you eight months ago when it re airs I say you see that you did wrong and he said no And then we we just squash it and we move on and I say ok that's cute I mean it's got to be great to have the evidence though Like exhibit a I mean I have a little bit of a spicy question Do you all have hall passes This is a judge free zone I'm curious Well I didn't really know how hall Oh sorry go go Oh no no Kyle Kyle's confused I was so I got asked this question a couple of years ago It was me Paige Sierra and Amanda and I went first and I said Bradley Cooper Kyle what did you think a hall pass was I don't know but I still stand by that answer So that's a smart answer actually I mean look at those blue eyes Come on What about a hypothetical hall pass or just we don't even have imagination Natalie Portman Classy Nice Amanda What about you I I don't know if I have one I really I am not sure Polly I'm actually trying to get married here So I'm not gonna say I know That's right I know That's right Round of applause for the right answer Dolores Absolutely All passes It's Dolores I I wouldn't I wouldn't want to get on your bad side with the hall pass I wouldn't I wouldn't wanna do that How do you all decompress after a long day of filming How do you shut it off It's getting a little harder these days you know But um you just have to you just have to leave it I always say leave it at the scene leave it there but then the phone calls come afterwards and then they want to know there's like which is like I'm sure you guys get this too Like would you say what they say And I don't I don't like to carry tales My grandmother told me a long time ago Don't carry tales So I have to diffuse it and hope that it doesn't make the cut and not and not tell them certain things that were sad You know I get in trouble for that all the time I go home and I mindlessly scroll tiktok for hours That's how I decompress I'm I'm either working or working out like that I I can't when when we stop filming I basically have to go back to work for lover boy So that's that's my way of coping I haven't figured that part out yet OK And when it comes to really building a relationship because I imagine even though I'm single I imagine once you've built been in a relationship are there still bucket list

items that you are Like I really want to do this What does that look like There's always a bucket list There's always something that you wanna do But now you want a new bucket list that you're in a relationship you wanna share that what you wanted to do with this person So yeah I think the bucket list changes Like my bucket list had like travel solo and now a man is like uh no no you still can travel solo That's totally fine Like no no Go Amanda A do you boo What about you Paul You're good What's your bucket list Paul I never asked did I I never asked him You actually haven't No but we we have built a little bucket list together We're getting there I think one of those things are get a Ferrari Is that on the list Absolutely Keep on working Dolores You guys ready to play a game Let's vote Who do we want to spin the wheel guys Come on let's go We're gonna come back here let's do it Oh Goodness Dolores Look look at the white All right Yes OK You ready This is so fun OK You're gonna kill it all Oh a strong one OK We're gonna be here a while OK We're closer we're closer we're closer I think we are almost here Call my bluff Dolores we should call your bluff Now what this means is we dare you to show off your best dance Vegas moves No Can I spin again It's too late MS 00 Yes Yes Up to Lauren That was incredible All right y'all we're gonna spice things up even more I wanna play a game Can we play a game Ok So we're gonna take a feather We're gonna pass it down and we are going to learn about who did it first So I'm going to ask a series of questions I want you to take your feather and if you did it first point to yourself if your partner did it first point to them easy enough the first question Who initiated the first kiss How was it Kyle Tell us all about it Well to her credit she approached me So she she took the initiative Um But then yeah uh I moved in for the for the kiss It was over Margaritas I don't remember it Dolores Polly How was it I'm still here It was very good It was really good Oh my goodness Ok Who apologizes first after an argument No no not me Never apologizes I don't Yeah Kyle is like I'm still right Sorry but I'm still right I'll just apologize to get it over with I I'm sorry I did it I have nothing to prove Yeah I did it We move past it Yeah Now do you guys agree that once you say I'm sorry if you felt that's not a real apology Is that a real apology I'll take it take it you'll take it Amanda What about you No I don't think so I'm sorry that you felt that way I'm sorry that I made you feel that way No I don't do that Someone we know very well Does that a lot has to be said these days It's so like structure like me growing up If you say you're sorry you better be happy with whatever it comes out like this is new I'm sorry you felt that is it new Is that something new Like I'm sorry you're so sensitive Well I don't

want to hear that Right Who is the funnier one in the relationship Paul Ok You all agree Amanda has a sense of humor She comes out at very weird times Yes you will said each other That is so cute anymore That's so cute guys Kyle steals my jokes I say them quietly under my breath because that's what's funny And then Kyle screams it out loud and gets credit for it Kyle are you plagiarizing Amanda's jokes Look it it's all about delivery so it's giving it's giving not original Now Amanda does that bother you or It's fine It's a team sport It's like a joke now with some of like our friends that will be like Amanda you just said that I'm like I know it's fine It is what it is I mean he he's not funny without me So listen it takes two out of both of you all who is the most patient Uh um No you are You Paul is so patient Wait a minute Amanda has dropped the feathers Neither one of us are patient You're both impatient I mean I guess I had a different interpretation Dolores what do you say I think Paul is patient You know how guys get aggravated with things like in traffic and stuff He never does like things don't get on his nerves and I'm patient because he takes longer to get ready than I do a lot longer Real How longer is a lot longer 2030 minutes Polly What are you doing on Tiktok Go and take the A's hair Oh hair It has to be perfect Who spends the most money Oh wait no wait no Polly What are you spending on What's your what's your kind of splurge Dolores He buys my clothes That's the right idea But no ah Paul what You buy cars I think it makes yeah he'll buy like a if you can like balance it out Like spend some on you spend some on him Yeah he does He's fair Amanda Kyle It's me I constantly packages every single day You're running a mini Amazon Fulfillment center out of our apartment in New York City I'm gonna have to make the house a home and dress you I mean what is a recent Amazon purchase that you got that Like you just have to share Oh my gosh Our costumes for Halloween I did I'm just kidding
